References herein to the "**Custodian**" shall, as the context requires, be construed as references to the Custodian, the Sub-Custodian and/or any additional or successor custodians appointed from time to time.

- (ii) If the Charged Assets of the Issuer in respect of a Compartment include Compartment Assets, in respect of such Compartment the Custodian (on behalf of the Issuer) shall establish and maintain an account in the name of the Issuer (the "**Custody Account**") with a bank or other financial institution (which shall be the Custodian unless an alternative financial institution is specified in the applicable Final Terms). The Custody Account for the Compartment shall be entirely separate from any other accounts of the Issuer and the Custodian, including, without limitation, the accounts established in connection with any other Compartment(s). Such Compartment Assets shall only be removed from the Custody Account at such times and in such amounts as are contemplated in these Terms and Conditions and the Trust Deed or in order for the Issuer (or any appointee on its behalf) and the Trustee (or any receiver) to fulfil their respective obligations under the Warrants and the Related Warrants and pursuant to the Trust Deed.

Amounts standing to the credit of the Compartment Account shall only be removed from the Compartment Account at such times and in such amounts as are contemplated in these Terms and Conditions and the Trust Deed or in order for the Issuer (or any appointee on its behalf) and the Trustee (or any receiver) to fulfil their respective obligations under the Warrants and the Related Warrants and pursuant to the Trust Deed.

(ii) If it is stated in the applicable Final Terms that the security for the Warrants is "Charged Assets charged to Trustee; additional foreign law security", the Issuer has in the Trust Deed created the security specified in sub-paragraph (i) above and has, in addition and without prejudice to the security specified as aforesaid, executed in favour of the Trustee the pledge or security or other agreement or document specified in the applicable Final Terms (each an "**Additional Security Document**").

(f) *Compartment Assets substitution by Swap Counterparty*

Where this Condition 9(f) is specified as being applicable in the Final Terms then the Compartment Assets may be substituted in whole or in part by the Swap Counterparty.

The Swap Counterparty may substitute the Compartment Assets for:

- (i) either securities denominated in the currency specified in the Final Terms issued by the entity specified as the eligible collateral issuer (each, an **"Eligible Compartment Assets Issuer"**) in the Final Terms (**"Eligible Compartment Assets Issuer Obligations"**); or
- (ii) such other securities, obligations or an amount of cash in the currency in which the principal amount of the existing Compartment Assets is expressed to be payable where **"Alternative Substitution"** is specified in the Final Terms.

The new securities, obligations or cash to be substituted must be in a principal amount equal (or, if in another currency, the equivalent to the principal amount of the currency in which the Compartment Assets are expressed to be payable, as determined on the date of such substitution by the Swap Counterparty in good faith and in a commercially reasonable manner) to the then fair market value of the Warrants as determined by the Swap Counterparty (or, in the case of a substitution or redemption of part only of the Compartment Assets, of the relevant proportion thereof as at the date of such substitution).

The securities, obligations or cash which may be substituted for the Compartment Assets shall be delivered (or paid, in the case of cash) by the Swap Counterparty to the Custodian or such other relevant Counterparty.

By making any substitution pursuant to this Condition 9(f) the Swap Counterparty shall be deemed to agree with the Issuer and the Trustee that its obligations under the relevant Swap Agreement shall continue in full force and effect irrespective of such substitution and that no termination or adjustment to its obligations thereunder shall occur as a consequence of such substitution.

The Trustee shall, upon notice from the Swap Counterparty (upon which the Trustee may rely without further enquiry) that the conditions for substitution referred to in this Condition 9(f) are met, release the Compartment Assets to be substituted from the security created in respect of it under the Trust Deed. The Issuer, the Trustee and the Swap Counterparty will upon such substitution enter into such further documentation as may be required (if at all) by any applicable law and/or as may be required by the Trustee to give effect to the creation of security over any replacement securities, obligations or cash amounts in the manner set out in this Condition 9(f).

References in these Conditions and the Trust Deed to "**Compartment Assets**" shall be deemed to include any substituted Compartment Assets and references to "**Charged Assets**" shall be deemed to include any additional assets or rights charged or assigned in favour of the Trustee pursuant to such substitution.

Where "Substitution Notification" is specified in the applicable Final Terms, the Issuer shall give notice of any substitution to Warrantholders under this Condition 9(f) in accordance with Condition 17 (*Notices*) and, in relation to any Warrants listed on the Luxembourg Stock Exchange, to the Luxembourg Stock Exchange (or if listed on another stock exchange to such other stock exchange) and will, if required by the rules of the Luxembourg Stock Exchange (or of such other stock exchange), prepare a supplement to any applicable prospectus or such other documents as may be required.

If this Condition 9(f) is applicable, the Trustee and any Warrantholders may at any time require the Issuer to notify them of the composition of the Compartment Assets at such time.

*The Swap Counterparty may substitute the Compartment Assets in accordance with this Condition 9(f) without regard to the projected market value of substitute securities or obligations. There is no guarantee that the value of such Compartment Assets in the event of termination of the relevant Swap Agreement, taking into account any termination payment due under such Swap Agreement to or from the Swap Counterparty, will equal or exceed the Cash Settlement Amount (if any) for each Warrant or Unit, as the case may be.*

(g) *Compartment Assets substitution under a Credit Support Annex, Credit Support Deed or Pledge*

Where the Issuer and the Swap Counterparty have entered into a Credit Support Annex in respect of any Swap Agreement, then the Compartment Assets may be substituted in whole or in part by the Swap Counterparty in accordance with the terms of the Credit Support Annex.

The securities, obligations or cash which may be substituted for the Compartment Assets shall be delivered (or paid, in the case of cash) by the Swap Counterparty to the Custodian (or, where an alternative bank or institution is specified as custodian for the Compartment Assets in the applicable Final Terms, to such entity).

By making any substitution pursuant to this Condition 9(g), the Swap Counterparty shall be deemed to agree with the Issuer and the Trustee that its obligations under the relevant Swap Agreement shall continue in full force and effect irrespective of such substitution and that no termination or adjustment to its obligations thereunder shall occur as a consequence of such substitution.

In the case of Compartment Assets substitution under a Credit Support Annex, the Trustee shall, upon notice from the Swap Counterparty (upon which the Trustee may rely without further enquiry) that the conditions for substitution referred to in this Condition 9(g) are met, release the Compartment Assets to be substituted from the security created in respect of it under the Trust Deed.

The Issuer, the Trustee and the Swap Counterparty will upon such substitution enter into such further documentation as may be required (if at all) by any applicable law and/or as may be required by the Trustee to give effect to the creation of security over any replacement securities, obligations or cash amounts in the manner set out in this Condition 9(g).

After any substitution, references in these Conditions and the Trust Deed to "**Compartment Assets**" shall be deemed to include any Compartment Assets substituted and references to "**Charged Assets**" shall be deemed to include any additional assets or rights charged or assigned in favour of the Trustee pursuant to such substitution.

Where substitution of the Compartment Assets takes place in accordance with the terms of any credit support annex, the Issuer shall not be obliged to give notice of any substitution to Warrantholders under this Condition 9(g).

If this Condition 9(g) is applicable, the Trustee may at any time require the Issuer to notify it of the composition of the Compartment Assets at such time.

Where the Issuer and the Swap Counterparty have entered into a Credit Support Deed in respect of any Swap Agreement, the collateral secured under the relevant Credit Support Deed may be substituted in whole or in part by the Swap Counterparty in accordance with the terms of the relevant Credit Support Deed.

Where the Issuer and the Swap Counterparty have entered into a Pledge in respect of any Swap Agreement, the assets secured under the relevant Pledge may be substituted in whole or in part by the Swap Counterparty in accordance with the terms of the relevant Pledge.

*The Swap Counterparty may substitute the Compartment Assets in accordance with this Condition 9(g) without regard to the projected market value of substitute securities or obligations. There is no guarantee that the value of such Compartment Assets in the event of termination of the relevant Swap Agreement, taking into account any termination payment due under such Swap Agreement to or from the Swap Counterparty, will equal or exceed the Cash Settlement Amount (if any) for each Warrant or Unit, as the case may be.*

(h) *Swap Counterparty optional termination*

Where this Condition 9(h) is specified as being applicable in the Final Terms, the Swap Counterparty may (unless it is the Defaulting Party under, and as defined in, the relevant Swap Agreement) opt to terminate a Swap Agreement in whole or in part in accordance with either or both of the methods set out below (as specified in the Final Terms).

(i) *Cancellation following Swap Counterparty optional termination*

Where "**Swap Counterparty optional termination - Call option**" is specified as being applicable in the Final Terms, the following will apply:

The Swap Counterparty may opt to terminate a Swap Agreement in whole or in part on either on any date specified as being applicable in the Final Terms upon the number of Business Days' notice specified as being applicable in the Final Terms.

Such optional termination will lead to early termination in whole or in part, as the case may be, of the Warrants in the manner set out in this Condition 9(h).

Within two Business Days of service by the Swap Counterparty of a notice that it has opted to terminate a Swap Agreement in whole or in part on any date (where it has such right as so specified in the Final Terms) nominated by the Swap Counterparty (the "**Nominated Termination Date**"), the Issuer shall notify the relevant Warrantholders in accordance with Condition 17 (Notices) of the early termination of the Warrants in whole or in part on such Nominated Termination Date and subject to Condition 8(c) (*Early Termination Events*) shall terminate the relevant Warrants at their fair market value on such Nominated Termination Date.

If any such termination becomes due to be made by the Issuer in accordance with this Condition 9 and payment to the Warrantholders pursuant hereto is not made, the security constituted by the Trust Deed shall become enforceable and the Trustee may take such action as is provided in Condition 11 (*Events of Default*) or the Master Trust Terms.

(ii) *Repurchase:*

Where this Condition 9(h)(ii) is specified as being applicable in the Final Terms, the Swap Counterparty may opt to terminate a Swap Agreement (or where a Swap Agreement has been entered into respect of the Warrants and one or more series of Related Warrants, the Series Transaction) upon service of written notice on the Issuer with a copy to the Trustee, in whole or in part and without payment by either party, if any of the Warrants to which that transaction relates are purchased by or on behalf of the Swap Counterparty or any of its subsidiaries or affiliates ("**Purchased Warrants**"). Where such option is exercised, such Swap Agreement, or as applicable, the Series Transaction will terminate *pro rata* in the proportion (the "**Proportion**") that the aggregate number of the Purchased Warrants bears to the number of the Warrants remaining unexercised immediately prior to the purchase of the Purchased Warrants by the Swap Counterparty or any of its subsidiaries or affiliates. Upon service of such notice, the Swap Counterparty will be either (A) authorised by the Issuer to take delivery of and/or deliver and/or realise on the Issuer's behalf the Proportion of the Charged Assets (if any) charged to or otherwise secured in favour of the Trustee under the Trust Deed or (B) entitled to payment of an amount equal to the Proportion of the Charged Assets where the Charged Assets is constituted by cash ("**Realised Collateral**"). The Realised Collateral will be payable or deliverable, as the case may be, by the Issuer to or to the order of the Swap Counterparty, in the contractual currency paid by the Issuer under the relevant Swap Agreement or, if applicable, the Series Transaction (where the Realised Collateral is not being delivered). Upon receipt of the Realised Collateral, the Swap Counterparty will deliver to the Principal Warrant and Certificate Agent the Purchased Warrants for cancellation. In such circumstances:

- (1) the Issuer will be deemed to have consented to the Trustee releasing the Realised Collateral to the Swap Counterparty upon termination of the relevant Swap Agreement or, as applicable, the Series Transaction in the manner described in this Condition 9(h);
- (2) where relevant, the Swap Counterparty, on behalf of the Issuer, will be deemed to be authorised by the Issuer to realise the Proportion of the Charged Assets; and
- (3) the Trustee will, unless an Event of Default or a Potential Event of Default has occurred, be deemed to release the Realised Collateral from the security created in respect of it under the Trust Deed.

Where "Initial Condition Precedent" is specified as applicable in the applicable Final Terms, the Issuer's obligation to pay or procure the payment of the Initial Remittance under the Deposit Agreement and/or to purchase the relevant Reference Securities and/or to pay the purchase price under the Repurchase Agreement to buy the securities which will constitute the Reference Securities under the Repurchase Agreement, as the case may be, will be subject to the condition precedent that the Dealer has determined in its absolute discretion that it has received from the Acquiring Party an amount equal to the Initial Remittance by no later than the Initial Condition Precedent Time on the Initial Condition Precedent Date. If the Dealer determines that it has not received such amounts, the Swap Counterparty may terminate the Swap Agreement, or, as applicable, the Series Transaction in accordance with this Condition 9(h)(ii) and the Issuer shall repurchase the Warrants in accordance with this Condition 9(h)(ii), which will lead to the termination of the Deposit Agreement (where applicable).

As used in this Condition 9(h)(ii),

"**Acquiring Party**" means the Authorised Offeror or such other party specified as such in the applicable Final Terms;

**"Additional Proceeds Amount"** means each amount specified as such in the applicable Final Terms;

**"Additional Proceeds Payer"** means the Swap Counterparty or, if Alternative Additional Proceeds Payer is specified in the applicable Final Terms, the Repo Counterparty;

**"Authorised Offeror"** means the party specified as such in the applicable Final Terms;

**"Initial Remittance"** means (a) where Full Proceeds is specified in the applicable Final Terms, 100 per cent. of the net proceeds of issue of the Notes (the **"Full Proceeds Amount"**), (b) where Partial Proceeds is specified in the applicable Final Terms, a proportion of the net proceeds of issue of the Securities less than 100 per cent. thereof (such lower amount, the **"Partial Proceeds Amount"**) and (c) where either Full Proceeds or Partial Proceeds is specified and Additional Proceeds is specified as applicable in the applicable Final Terms either the Full Proceeds Amount or the Partial Proceeds Amount, as the case may be, plus the Additional Proceeds Amount paid to the Issuer by the Additional Proceeds Payer.

(i) *Residual Shortfall*

In the case of Warrants (but without prejudice to the rights of a holder of Guaranteed Warrants under the Guarantee (if applicable)), if the net proceeds of the realisation or enforcement of the Charged Assets created pursuant to the Trust Deed and/or any Additional Security Document in respect of the Charged Assets following payment of all prior ranking amounts (the **"Net Proceeds"**) are not sufficient to make all payments due in respect of such Warrants and any Related Warrants, then:

- (i) the obligations of the Issuer in respect of such Warrants and any Related Warrants will be limited to such Net Proceeds and neither the Trustee nor any Secured Party nor anyone acting on behalf of any Secured Party shall have any claim in respect of any asset of the Issuer not forming part of the Charged Assets; and
- (ii) the Issuer will not be obliged to make any further payment in excess of the Net Proceeds and any Warrantholder's right to receive any further sums in respect of any Residual Shortfall shall be extinguished in full, and neither the Trustee nor any Secured Party nor anyone acting on behalf of any Secured Party shall be entitled to take any further steps against the Issuer or the Trustee to recover any such Residual Shortfall.

No Secured Party nor any party to the Trust Deed shall be entitled to petition or take any other step for the winding-up of the Issuer (including, without limitation, the opening of any bankruptcy (*faillite*), insolvency, voluntary or judicial liquidation (*insolvabilité liquidation volontaire ou judiciaire*), judicial reorganisation (*réorganisation judiciaire*), administrative dissolution without liquidation (*dissolution administrative sans liquidation*), reprieve from payment (*sursis de paiement*), fraudulent conveyance (*actio pauliana*), general settlement with creditors or reorganisation proceedings or similar proceedings affecting the rights of creditors generally) or the appointment of an examiner in respect of the Issuer (including, without limitation, the appointment of any receiver (*curateur*) (except any receiver appointed by the Trustee pursuant to the Trust Deed), liquidator (*liquidateur*), auditor (*commissaire*), verifier (*expert-vérificateur*), deputy judge (*juge délégué*) or reporting judge (*juge commissaire*)). Failure by the Issuer to make any payment in respect of any Residual Shortfall shall in no circumstances constitute an Event of Default under Condition 11.

In this Condition, "**Residual Shortfall**" means the difference, if any, between the Net Proceeds and the aggregate amount which would have been due under the Warrants but for the operation of this Condition 9(i).

(j) *Issuer's rights as holder of Compartment Assets*

The Issuer may exercise any rights in its capacity as holder of the Compartment Assets (including, without limitation, a right to vote or any analogous right howsoever described) only with the consent of the Trustee (or as directed in writing by the respective holders of at least 25 per cent. (by number) of the Warrants then outstanding and at least 25 per cent (by number) of each series of Related Warrants then unexercised or as directed by an Extraordinary Resolution of the Warrantholders and by an Extraordinary Resolution of the holders of each series of Related Warrants) and (except in relation to the Swap Agreement) the Swap Counterparty and, if such direction is given, the Issuer will act in accordance with such directions, unless such instructions are in the reasonable opinion of the Issuer contrary to applicable laws, regulations and/or circular letters issued by the Issuer's supervisory authority or materially detrimental to the interests of the Issuer. In particular, the Issuer will not attend or vote at any meeting of holders of the Compartment Assets, or give any consent or notification or make any declaration in relation to the Compartment Assets, save with the consent of the Trustee (or as directed in writing by the respective holders of at least 25 per cent. (by number) of Warrants then outstanding and at least 25 per cent (by number) of each series of Related Warrants unexercised or as directed by an Extraordinary Resolution of each of the Warrantholders and by an Extraordinary Resolution of the holders of each series of Related Warrants) and the Swap Counterparty. In the event of a conflict between the instructions of the Trustee (or the Warrantholders and, where applicable, the holders of each series of Related Warrants) and the Swap Counterparty, the instructions of the Instructing Party will prevail.

In these Conditions "**Instructing Party**" means if "Swap Counterparty Priority" applies the Swap Counterparty (except in relation to the Swap Agreement, or where it is the Defaulting Party under, and as defined in, the relevant Swap Agreement, in which case the Instructing Party will be the Warrantholders) and if either "Warrantholder Priority" or "Pari-Passu Ranking" applies, the Warrantholders or, in the case of Warrants issued through a Multi-Series Compartment, means, if "Swap Counterparty Priority" applies, the Swap Counterparty (except in relation to the Swap Agreement, or where it is the defaulting party under the Swap Agreement, in which case the Instructing Party will be the Warrantholders, and if either "Warrantholder Priority", or "Pari-Passu Ranking" applies, the Warrantholders, provided that, if more than one series of warrants has been issued through the Compartment through which the Warrants have been issued, where the Instructing Party would otherwise be the Warrantholders, it shall the holders of at least 25 per cent. in number of the Warrants then unexercised and at least 25 per cent. in number of each series of Related Warrants then outstanding, or as directed by an Extraordinary Resolution of such Warrantholders and by an Extraordinary Resolution of the holders of each series of Related Warrants.

(k) *Swap termination*

Notwithstanding the terms of Condition 9(j) (*Issuer's rights as holder of Compartment Assets*), where "**Swap Termination Without Cancellation**" is specified as applicable in the applicable Final Terms and where an Event of Default (as defined in the Swap Agreement) occurs under the Swap Agreement in circumstances where the Swap Counterparty is the Defaulting Party (as defined in the Swap Agreement), following notification of such Event of Default by the Issuer to the Trustee (a "**Swap Default**"), the Trustee shall promptly, and in any event not later than five Business Days after such notification, instruct the Issuer to deliver, in respect of the Swap Agreement (where such agreement is constituted by a 2002 Master Agreement published by the International Swaps and Derivatives Association, Inc. (the "**Master Agreement**") and schedule thereto and any confirmations thereunder), a notice under Section 6(a) of the Master Agreement designating an Early Termination Date (as defined in the Swap Agreement). In such circumstances, the Issuer (with the consent of the Trustee) may appoint an agent (a "**Termination Agent**") to assist it in terminating the Swap Agreement and making any calculations necessary in connection with such termination. A *pro rata* share of the amount, if any and subject to a minimum of zero, equal to (i) the sum of (1) the Early Termination Amount (as defined in the Swap Agreement) received by the Issuer under the Swap Agreement (2) any interest which has accrued on the amount received by the Issuer (which may be

a positive or negative amount) and (3) the Unused Charged Assets Proceeds less (ii) the costs and expenses of the Trustee and any costs and expenses of the Termination Agent incurred in connection with the termination of the Swap Agreement shall be paid by the Issuer to the Warrantholders on a *pro rata* and *pari passu* basis on the Settlement Date. For the purposes of this Condition 9(k), "**Unused Charged Assets Proceeds**" means any amounts received by the Issuer from the Charged Assets other than the Swap Agreement which have not been used on or prior to the Settlement Date to pay Cash Settlement Amounts otherwise payable in respect of the Warrants, amounts due to the Swap Counterparty under the Swap Agreement (including in respect of any Early Termination Amount due to the Swap Counterparty) and/or any fees, costs or expenses due to the Trustee and/or any of the Agents.

#### 10. **Expenses and Taxation**

All payments in respect of the Warrants or under the Guarantee shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of any Tax authority, unless such withholding or deduction is required by law, including, without limitation, any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986, as amended, (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto, in which case the Issuer or, as the case may be, the Guarantor shall make all payments net of such withholding or deduction. Such withholding or deduction shall not constitute an Event of Default under Condition 11.

In addition, and if the Securities are deemed to be Specified Securities (as specified in the applicable Final Terms) for the purpose of Section 871(m) of the Code, in determining the amount of withholding or deduction required pursuant to Section 871(m) of the Code imposed with respect to any amounts to be paid on the Warrants, the Issuer shall be entitled to withhold on any "dividend equivalent" payment (as defined for purposes of Section 871(m) of the Code) at a rate of 30 per cent.

Payments on the Warrants that reference U.S. securities or an index that includes U.S. securities may be calculated by reference to the dividends on such U.S. securities that are reinvested at a rate of 70 per cent. In such case, in calculating the relevant payment amount, the Issuer may withhold, and the holder may be deemed to receive, 30 per cent. of any "dividend equivalent" payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

All taxes, duties and/or expenses, including any applicable depository charges, transaction or exercise charges, stamp duty, stamp duty reserve tax, issue, registration, securities transfer and/or other taxes or duties arising from the exercise and settlement of such Warrants and/or the delivery or transfer of the Entitlement (as applicable) pursuant to the terms of such Warrants ("**Exercise Expenses**") relating to such Warrants shall be for the account of the Warrantholder. The Issuer shall deduct from amounts payable or from assets deliverable to Warrantholders all Related Expenses, not previously deducted from amounts paid or assets delivered to Warrantholders, as the Calculation Agent shall in good faith and in a commercially reasonable manner determine are attributable to the Warrants. Such deduction by the Issuer shall not constitute an Event of Default under Condition 11.

For the avoidance of doubt, neither the Issuer, the Trustee nor the Guarantor (if applicable) shall be liable for any Related Expenses and Warrantholders shall be liable to pay the Related Expenses attributable to their Warrants.

"**Expenses**" means Exercise Expenses and any Related Expenses.

"**Related Expenses**" means (a) all present, future, prospective, contingent or anticipated Taxes which are (or may be) or were (or may have been) withheld or payable under the laws, regulations or administrative practices of any state (or any political sub-division or authority thereof or therein) and (b) any other present, future, or contingent expenses (including without limitation, any applicable depository charges, transaction charges, issue registration, securities transfer or other

**"Relevant Date"** in respect of any Warrant means the date on which payment in respect of it first becomes due or (if any amount of the money payable is improperly withheld or refused) the date on which payment in full of the amount outstanding is made or, in the case of materialised Warrants (if earlier) the date seven days after that on which notice is duly given to the Warrantholders that, upon further presentation of the Warrant, being made in accordance with the Conditions, such payment will be made, provided that payment is in fact made upon such presentation.

**"Taxes"** means taxes, levies, imposts, duties, deductions, withholdings, assessments or other charges (including any stamp, registration or transfer tax, duty or other charge or tax on income, payments (or delivery of assets), profits, capital gains, or, for the avoidance of doubt, any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto) together with any interest, additions to tax or penalties.

(by number) of the Warrants of any Series then remaining unexercised, or if so directed by an Extraordinary Resolution of such holders, shall, subject in each case to being indemnified and/or secured to its satisfaction, give notice to the Issuer and the Guarantor (if applicable) that the Warrantholders are, and they shall accordingly forthwith become, (unless otherwise specified in the Final Terms) entitled to the Liquidation Proceeds (such occurrence, a **"Warrant Acceleration"**) upon the occurrence of any of the following events (each an **"Event of Default"**):

  - (ii) the Issuer fails to perform or observe any of its other obligations under the Warrants or the Trust Deed and (unless such failure is, in the opinion of the Trustee, incapable of remedy in which case no such notice as is referred to in this paragraph shall be required) such failure continues for a period of 45 days (or such longer period as the Trustee may permit) following the service by the Trustee on the Issuer of notice requiring the same to be remedied (and for these purposes, a failure to perform or observe an obligation shall be deemed to be remediable notwithstanding that the failure results from not doing an act or thing by a particular time); or
  - (iii) in respect of any other series of Related Warrants, a "Warrant Acceleration" (as defined under the terms and conditions of such Related Warrants) occurs; or
  - (iv) any order is made by any competent court or any resolution passed for the winding-up or dissolution of the Issuer (including, without limitation, the opening of any bankruptcy (*faillite*), insolvency, voluntary or judicial liquidation (*insolvabilité, liquidation volontaire*)).

- (b) If an Event of Default occurs by virtue of the operation of Condition 11(a)(iii) above: (i) a Warrant Acceleration for the purposes of the Warrants shall be deemed to have occurred at the same time as the "Warrant Acceleration" (as such expression is defined in the terms and conditions of the relevant Related Warrants) occurred for the purposes of the relevant Related Warrants; and (ii) the Compartment Security constituted by or created pursuant to the Trust Deed and any Additional Security Document shall become enforceable as described in Condition 13 (*Enforcement and Realisation*).

(including in the case of a resolution proposed to address a Reserved Matter (as defined in the Trust Deed)) (by number) of the Warrants of such Series for the time being remaining unexercised shall for all purposes be as valid and effectual as an Extraordinary Resolution passed at a meeting of the Warrantholders.

(b) *Modification*

The Trustee may, in respect of each Series, without the consent of the Warrantholders, agree to (i) any modification to any Transaction Document or any other agreement to which the Issuer is a party which is of a formal, minor or technical nature or is made to correct a manifest error; (ii) any modification of any of the provisions of the Trust Deed or any other Transaction Document (other than in respect of a Warrant Reserved Matter) which in the opinion of the Trustee is not materially prejudicial to the interests of the Warrantholders and the holders of any Related Warrants; and (iii) any modification of the provisions of the Trust Deed or any other Transaction Document (other than in respect of a Warrant Reserved Matter) which is made to satisfy any requirement of any stock exchange on which the Warrants are or are proposed to be listed and which, in each case, is not in the opinion of the Trustee materially prejudicial to the interests of the Warrantholders and the holders if any Related Warrants.

Notice of such modification shall be notified by the Issuer to the Warrantholders as soon as practicable thereafter in accordance with Condition 17 unless the Trustee agrees otherwise.

(e) *Substitution*

Not later than 14 days after the execution of such amendment and compliance with such conditions as aforesaid, the Substitute Company shall give notice thereof in a form previously approved by the Trustee to the relevant Warrantholders in the manner provided in accordance with Condition 17.

(f) *Entitlement of the Trustee*

**15. Further Warrants and Related Warrants**

The Issuer may from time to time without the consent of the Warrantholders (but provided that the Trustee is satisfied that the restrictions set out in this Condition 15 will be complied with), create and issue:

- (a) further Warrants ("**Further Warrants**") having the same terms and conditions as the Warrants in all respects (or in all respects except for the Issue Date and issue price) and so that the same shall be consolidated and form a single series with such Warrants; and
- (b) where the relevant Compartment is specified in the applicable Final Terms to be a Compartment through which more than one Series of warrants may be issued (a "**Multi-Series Compartment**"), Related Warrants,

provided that (unless otherwise approved by an Extraordinary Resolution of the Warrantholders, and an Extraordinary Resolution (as defined under the terms and conditions of such Related Warrants) in respect of the holders of each Series of Related Warrants (if any) then outstanding under the relevant Compartment immediately prior to the date on which such Further Warrants or Related Warrants are to be issued)

- (i) in the case of Further Warrants, the Issuer provides additional security for such Further Warrants that comprises assets that are fungible with, and have the same proportionate composition as, the Charged Assets in respect of the relevant existing Warrants and that has an aggregate principal amount at least equal to the product

of (i) the principal amount of such existing security and (ii) a fraction, the numerator of which is the number of the Further Warrants and the denominator is the aggregate number of the existing Warrants;

- (ii) in the case of Related Warrants, where there are Compartment Assets for the existing Warrants, (A) where the Compartment Asset Coverage Test is not specified to be applicable in the applicable Final Terms, the Issuer provides additional security for such Related Warrants that comprises assets that are fungible with, and have the same proportionate composition as, the Compartment Assets in respect of the relevant existing Warrants and that has an aggregate principal amount at least equal to the product of (1) the principal amount of such existing security and (2) a fraction, the numerator of which is the Aggregate Outstanding Issue Amount of the Related Warrants and the denominator is the sum of the Aggregate Outstanding Issue Amount of the existing Warrants and Aggregate Outstanding Issue Amount of any existing Related Warrants or (B) where the Compartment Asset Coverage Test is specified to be applicable in the applicable Final Terms, the Issuer provides additional security for such Related Warrants (including Compartment Assets) so that the Compartment Asset Coverage Test is not breached; and
- (iii) in the case of Further Warrants, the Issuer enters into an additional and/or supplemental agreement varying the terms of the relevant Swap Agreement, Repurchase Agreement or Deposit Agreement, as applicable, to take account of the Further Warrants on terms no less favourable than those of the Swap Agreement, Repurchase Agreement or Deposit Agreement, as applicable.

In the event that any Series of Related Warrants is redeemed other than pursuant to a Warrant Acceleration (as such expression is defined under the terms and conditions of such Related Warrants), the Issuer (or any Disposal Agent) shall be entitled, notwithstanding any provision to the contrary, to modify the composition or, if appropriate, the terms of the Compartment Assets so as to ensure that such redemption does not cause a breach of the Compartment Asset Coverage Test if specified as applicable, in each case, in the applicable Final Terms.

Any Further Warrants shall be constituted and secured by a supplemental trust deed and the Related Warrants shall be constituted and secured by the Trust Deed and the Warrants and the Further Warrants shall be secured by the same Charged Assets. References in these Conditions to "**Warrants**" and "**Charged Assets**" shall be construed accordingly.

Where the applicable Final Terms do not specify that the relevant Compartment is a Multi- Series Compartment, references in these Terms and Conditions to Related Warrants or the holders of Related Warrants, as the case may be, shall not be applicable and these Terms and Conditions shall be construed accordingly.

## **16. Removal, Indemnification and Obligations of the Trustee**

The Trust Deed contains provisions for the appointment, retirement and removal of the Trustee. The Issuer shall as soon as practicable after the appointment of a new trustee notify the Warrantholders of such appointment in accordance with Condition 17.

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility including for the exercise of any voting rights in respect of the Compartment Assets or for the value, validity, sufficiency and enforceability (which the Trustee has not investigated) of the Compartment Security created over the Charged Assets. The Trustee is not obliged to take any action under the Trust Deed, the Warrants or otherwise unless indemnified and/or secured to its satisfaction. The Trustee and any affiliate is entitled to enter into business transactions with the Issuer, the Guarantor, any issuer or guarantor (where applicable) of any of the Charged Assets any party other than the Issuer under a Related Agreement (including, without limitation, the Swap Counterparty), or any of their subsidiary, holding or associated companies without accounting to the Warrantholders for profit resulting therefrom.

The Trustee is exempted from liability with respect to any loss or theft or reduction in value (as appropriate) of the Charged Assets from any obligation to insure or to procure the insuring of the Charged Assets (or any documents evidencing, constituting or representing the same or transferring any rights or obligations thereunder) and from any claim arising from the fact that the Charged Assets are held in an account with a clearing agent in accordance with that relevant clearing agent's rules or otherwise held in safe custody by the Custodian or any custodian whether or not selected by the Trustee (in each case, if applicable). The Trustee is not responsible for supervising the performance by (i) the Issuer of its own obligations and (ii) any other person of their obligations to the Issuer.

For the purposes of this Condition 16, each of the Issuer and, as the case may be, the Guarantor expressly accepts and confirms, for the purposes of articles 1278 and 1281 of the Luxembourg civil code, that notwithstanding any assignment, transfer and/or novation permitted under and made in accordance with the provisions of the Trust Deed or any agreement referred to therein to which the Issuer and, as the case may be, the Guarantor are party, any security created or guarantee given under the Trust Deed shall be reserved for the benefit of the new trustee (for itself and for the benefit of each other Secured Party).

## **17. Notices**

All notices regarding the Warrants shall be valid if: (a) in the case of Warrants represented by a Global Warrant, delivered to Euroclear and/or Clearstream, Luxembourg for communication by them to the Warrantholders; (b) so long as any Warrants are listed on a stock exchange or are admitted to trading by another relevant authority and the rules of such stock exchange or relevant authority so require, in accordance with such rules; or (c) in the case of Registered Warrants if sent by first class mail to the Warrantholders (or the first named of joint Warrantholders) at their respective addresses recorded in the Register. If and for so long as the Warrants are admitted to trading on, and listed on the Official List of the Luxembourg Stock Exchange, and so long as the Luxembourg Stock Exchange so require, notices shall be made available on the Luxembourg Stock Exchange's website, [www.luxse.com](http://www.luxse.com). Any such notice shall be deemed to have been given on the Business Day on which such delivery takes place or, if earlier, the date of such publication, or, if published more than once, on the date of the first such publication.

If publication as provided above is not practicable, a notice will be given in such other manner, and will be deemed to have been given on such date, as the Trustee shall approve.

Whilst any of the Warrants are represented by a Global Warrant, such notice may be given by any Warrantholder to the Principal Warrant and Certificate Agent or the Registrar (as applicable) via Euroclear and/or Clearstream, Luxembourg, as the case may be, in such manner as the Principal Warrant and Certificate Agent or the Registrar (as applicable) and Euroclear and/or Clearstream, Luxembourg, as the case may be, may approve for this purpose.

Notwithstanding the foregoing, none of the Issuer, the Guarantor (if any), the Calculation Agent, the Principal Warrant and Certificate Agent and the Trustee shall be liable to any Warrantholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the transfer of euro or any currency conversion or rounding effected in connection therewith.

## 19. **Contracts (Rights of Third Parties) Act 1999**

The Warrants shall not confer on a third party any rights under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of the Warrants, but this does not affect any right or remedy of a third party which may exist or is available apart from that Act.

## 20. **Governing Law and Submission to Jurisdiction**

(d) *Transfers of Interests in Global Certificates*

Subject as set forth in this Condition, all transactions (including permitted transfers of Certificates) in the open market or otherwise must be effected, in the case of Clearing System Certificates, subject to and in accordance with the rules and procedures for the time being of the relevant Clearing System(s). **2. Status of the Certificates; Guaranteed Certificates**

(a) *Status of the Certificates*

The Certificates are secured, limited recourse obligations of the Issuer, ranking *pari passu* without any preference among themselves which are secured in the manner described in Condition 9 (*Compartment Assets*) and recourse in respect of which is limited in the manner described in Condition 9 (*Compartment Assets*).

Unless Waiver of Set-Off is specified as not applicable in the applicable Final Terms, no Certificateholder may at any time exercise or claim any Waived Set-Off Rights against any right, claim, or liability the Issuer (or, the Guarantor) has or may have or acquire against such holder, directly or indirectly, howsoever arising (and, for the avoidance of doubt, including all such rights, claims and liabilities arising under or in relation to any and all agreements or other instruments of any sort or any non-contractual obligations, in each case whether or not relating to such Certificate) and each such holder shall be deemed to have waived all Waived Set-Off Rights to the fullest extent permitted by applicable law in relation to all such actual and potential rights, claims and liabilities.

The obligations of BNP Paribas as Guarantor under any Guarantee are senior preferred (within the meaning of Article L.613-30-3-I-3° of the French Code *monétaire et financier*) and unsecured obligations of the Guarantor and will rank pari passu with all its other present and future senior preferred and unsecured obligations, subject to such exceptions as may from time to time be mandatory under French law.

(c) *Subrogation of the Guarantor*

Under the Guarantee, the Guarantor will be subrogated to any rights of the holders of the Guaranteed Certificates and the Trustee against the Issuer to the fullest extent permitted by applicable law and to the extent of such payment in respect of amounts due in respect of the Certificates which have been paid by the Guarantor under the Guarantee.

"**Determination Date(s)**" means the date(s) specified in the applicable Final Terms;

"**Determination Period**" means each period from (and including) a Determination Date to but excluding the next Determination Date (including, where either the Interest Commencement Date or the Interest Period End Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date);

"**Reference Rate Fallback Event**" means, in relation to any Screen Page Reference Rate or AER Reference Rate, as applicable, any of the following, as determined by the Calculation Agent:

A change in the methodology of the Screen Page Reference Rate or AER Reference Rate, as applicable, shall not, absent the occurrence of one of the above, be deemed a Reference Rate Fallback Event.

Notwithstanding the foregoing, where the applicable Final Terms specifies that the relevant Day Count Fraction is "**unadjusted**", the Calculation Period and the Interest Amount payable on any date shall not, unless otherwise provided in the applicable Final Terms, be affected by the application of any Business Day Convention.

- (iv) *Linear Interpolation*

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Final Terms), the FBF Rate (where FBF Determination is specified as applicable in the applicable Final Terms) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Final Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

**"Designated Maturity"** means (i) in relation to Screen Rate Determination, the period of time designated in the Reference Rate or (ii) in relation to FBF Determination, the period of time specified in the relevant FBF Rate.

(c) *Interest on Linked Interest Certificates*

(i) *Interest Period End Dates and Interest Payment Dates*

Each Index Linked Interest Certificate, Share Linked Interest Certificate, Debt Linked Interest Certificate, Commodity Linked Interest Certificate, Inflation Linked Interest Certificate, Currency Linked Interest Certificate, Fund Linked Interest Certificate, Underlying Interest Rate Linked Interest Certificate, Credit Linked Interest Certificate, ETI Linked Interest Certificate and Hybrid Certificate (together, the **"Linked Interest Certificates"**) pays interest in respect of each Interest Period (which expression shall in these Terms and Conditions mean the period from (and including) an Interest Period End Date (or if none the Interest Commencement Date to (but excluding) the next (or first) Interest Period End Date (each such latter date the **"Interest Period End Final Date"** for the relevant Interest Period)). For the purposes of this Condition 4(c), **"Interest Period End Date"** shall mean either:

- (A) the specified Interest Period End Date(s) in each year specified in the applicable Final Terms; or

Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Redemption Date. If an Interest Payment Date falls after an Interest Period End Final Date in respect of the relevant Interest Period, no additional interest or other amount shall be payable as a result of such interest being payable on such later date.

If a Business Day Convention is specified in the applicable Final Terms as applying to an Interest Period End Date or an Interest Payment Date and (x) if there is no numerically corresponding day on the calendar month in which an Interest Period End Date or Interest Payment Date, as the case may be, should occur or (y) if any Interest Period End Date or Interest Payment Date, as the case may be, would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (1) in any case where Specified Periods are specified in accordance with Condition 4(c)(i)(A) above, the Floating Rate Convention, such Interest Period End Date or Interest Payment Date, as the case may be, (I) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (2) below shall apply *mutatis mutandis* or (II) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (aa) such Interest Period End Date or Interest Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day and (bb) each subsequent Interest Period End Date or Interest Payment Date, as the case may be, shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Period End Date or Interest Payment Date, as the case may be, occurred; or
- (2) the Following Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be postponed to the next day which is a Business Day; or
- (3) the Modified Following Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be postponed to the next day

which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Period End Date or Interest Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day; or

- (4) the Preceding Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day.

(ii) *Rate of Interest*

The Rate of Interest payable from time to time in respect of Linked Interest Certificates will be the Coupon Rate determined in the manner specified in the applicable Final Terms which Coupon Rate may comprise one or more Additional Coupons determined in the manner specified in the applicable Final Terms.

(iii) *Determination of Rate of Interest and Calculation of Interest Amount*

The Principal Warrant and Certificate Agent will, on or as soon as practicable after each date on which the Rate of Interest is to be determined (the "**Interest Determination Date**"), determine the Rate of Interest (subject to any Minimum Interest Rate or Maximum Interest Rate specified in the applicable Final Terms) for the relevant Interest Period.

The Principal Warrant and Certificate Agent will calculate the amount of interest (the "**Interest Amount**") payable on the Certificates for the relevant Interest Period by applying the Rate of Interest to:

- (A) in the case of Floating Rate Certificates which are represented by a Global Certificate, the aggregate outstanding Notional Amount of the Certificates represented by such Global Certificate; or

- (B) in the case of Floating Rate Certificates in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the Day Count Fraction (if any) specified in the applicable Final Terms and rounding the resultant figure to the nearest sub-unit (as defined above) of the relevant Specified Currency, one half of such a sub-unit being rounded upwards or otherwise in accordance with the applicable market convention and, in the case of Dual Currency Linked Interest Certificates, converting the resulting figure into the Settlement Currency as provided in Condition 4(m) below.

(d) ISDA, FBF and Screen Rate Determination

(i) *ISDA Determination*

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this subparagraph (i), "**ISDA Rate**" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent (as defined in the ISDA Definitions (as defined below)) for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Certificates (the "**ISDA Definitions**") and under which:

- (A) the Floating Rate Option is as specified in the applicable Final Terms;
- (B) the Designated Maturity is a period specified in the applicable Final Terms; and

- (C) the relevant Reset Date is either (x) if the applicable Floating Rate Option is based on the Euro-zone inter-bank offered rate ("**EURIBOR**") (or, in the event that EURIBOR has been discontinued, such other successor benchmark rate as the financial industry shall have accepted as a successor or substitute rate for EURIBOR ) the first day of that Interest Period or (y) in any other case, as specified in the applicable Final Terms.

For the purposes of this sub-paragraph (i), "**Floating Rate**", "**Floating Rate Option**", "**Designated Maturity**" and "**Reset Date**" have the meanings given to those terms in the ISDA Definitions.

Unless otherwise stated in the applicable Final Terms as greater than zero, the Minimum Rate of Interest shall be deemed to be zero.

(ii) *FBF Determination*

Where so specified in the applicable Final Terms, interest will be payable on such dates, at such a rate (the "**FBF Rate**") and in such amounts, plus or minus (as indicated in the applicable Final Terms) the Margin (if any), as would have been payable (regardless of any event of default or termination event thereunder) by the Issuer if it had entered into an interest rate swap transaction governed by an agreement in the form of the Master Agreement relating to transactions on forward financial instruments (an "**FBF Agreement**"), as in effect on the date of issue of the Certificates, published by the *Fédération Bancaire Française* and evidenced by a Confirmation (as defined in the FBF Agreement) with the holder of the relevant Certificate under which:

- (A) the Issuer was the Floating Amount Payer;
- (B) the Principal Warrant and Certificate Agent (as defined herein) was the Agent (as defined in the FBF Agreement) or as otherwise specified in the applicable Final Terms;
- (C) the Interest Commencement Date was the Transaction Date;
- (D) the Notional Amount in respect of a Certificate was the Notional Amount (as defined in the FBF Agreement);
- (E) the Interest Payment Dates were the Floating Amount Payment Dates; and
- (F) all other terms were as specified in the applicable Final Terms.

When the preceding sentence applies, in respect of each relevant Interest Payment Date:

- (1) the amount of interest determined for such Interest Payment Date will be the Interest Amount for the relevant Interest Period for the purposes of these Terms and Conditions as though determined under sub-paragraph (iii) below;
- (2) the Rate of Interest for such Interest Period will be the Floating Rate (as defined in the FBF Agreement) determined by the Principal Warrant and Certificate Agent in accordance with the preceding sentence; and
- (3) the Principal Warrant and Certificate Agent will be deemed to have discharged its obligations under subparagraph (iii) below if it has determined the Rate of Interest and the Interest Amount payable on such Interest Payment Date in the manner provided in the preceding sentence.

(iii) *Screen Rate Determination*

- (A) EURIBOR or STIBOR

## TERMS AND CONDITIONS OF THE CERTIFICATES

- 717 -

- (1) Where "Screen Rate Determination - IBOR" is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (I) the offered quotation; or
- (II) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the reference rate(s) (the "**Reference Rate(s)**") which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) as at the Specified Time indicated in the applicable Final Terms (which will be 11.00 a.m. Brussels time, in the case of EURIBOR or Stockholm time, in the case of STIBOR) (the "**Screen Page Reference Rate**") on the relevant Interest Determination Date plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

- (2) If the Relevant Screen Page is not available or if in the case of (1)(I) above, no such offered quotation appears on the Relevant Screen Page (or such replacement page on that service which displays the information), or, in the case of (1)(II) above, fewer than three such offered quotations appear, on the Relevant Screen Page (or such replacement page on that service which displays the information), in each case as at the Specified Time, the Calculation Agent shall request each of the Reference Banks (as defined below) to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate at approximately the Specified Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean (rounded if necessary to the nearest 0.001 with 0.0005 being rounded upwards) of such offered quotations plus or minus (as appropriate) the Margin (if any), all as determined by the Calculation Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate per annum which the Calculation Agent determines as being the arithmetic mean (rounded if necessary to the nearest 0.001, with 0.0005 being rounded upwards) of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, at approximately the Specified Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the inter-bank market plus or minus (as appropriate) the Margin (if any) as determined by the Calculation Agent.

If fewer than two of the Reference Banks provide the Calculation Agent with offered rates, the Rate of Interest or Rate, as the case may be, for the relevant Interest Period shall be the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at approximately the Specified Time on the relevant

Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Calculation Agent suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in the Euro-zone inter-bank market if the Reference Rate is EURIBOR (or, as the case may be, the quotations of such bank or banks to the Calculation Agent) plus or minus (as appropriate) the Margin (if any), as determined by the Calculation Agent.

If the Rate of Interest or Rate, as the case may be, cannot be determined in accordance with the foregoing provisions of this paragraph (iii), the Rate of Interest or Rate, as the case may be, shall be equal to the last Reference Rate available on the Relevant Screen Page plus or minus (as appropriate) the Margin (if any), as determined by the Calculation Agent, except that if the Calculation Agent determines that the absence of the quotation is due to the discontinuation of the Screen Page Reference Rate, then the Reference Rate will be determined in accordance with Condition 4(d)(iv) below.

**"Reference Banks"** means, in the case of a determination of EURIBOR, the principal Euro-zone office of four major banks in the Euro-zone inter-bank market, or in the case of a determination of STIBOR, the principal office of four major banks in the Stockholm inter-bank market in each case selected by the Calculation Agent, or as specified in the applicable Final Terms.

#### IV. SOFR Replacement Provisions

If the Calculation Agent determines at any time prior to the SOFR Determination Time on any U.S. Government Securities Business Day that a SOFR Transition Event and the related SOFR Replacement Date have occurred, the Calculation Agent will appoint an agent (the "**Replacement Rate Determination Agent**") which will determine the SOFR Replacement. In connection with the determination of the SOFR Replacement, the Replacement Rate Determination Agent will determine appropriate SOFR Replacement Conforming Changes.

Any determination, decision or election that may be made by the Calculation Agent or Replacement Rate Determination Agent (as the case may be) pursuant to these provisions, will (in the absence of manifest error) be conclusive and binding on the Issuer, the Calculation Agent, the Principal Warrant and Certificate Agent and the Certificateholders.

Following the designation of a SOFR Replacement, the Calculation Agent may subsequently determine that a SOFR Transition Event and a related SOFR Replacement Date have occurred in respect of such SOFR Replacement, provided that the SOFR Benchmark has already been substituted by the SOFR Replacement and any SOFR Replacement Conforming Changes in connection with such substitution have been applied. In such circumstances, the SOFR Replacement shall be deemed to be the SOFR Benchmark and all relevant definitions shall be construed accordingly.

  - (f) where a €STR Transition Event or details of it are announced prior to the relevant €STR Replacement Date then the Replacement Rate Determination Agent may on or after such earlier announcement date give notice to Certificateholders in accordance with Condition 19 (*Notices*) of the relevant changes which will be made to the Certificates, provided that, such changes will only take effect as of the €STR Replacement Date.

## II. SARON Replacement Provisions

- (1) If the Calculation Agent determines at any time prior to the SARON Reference Time on any Zurich Banking Day that a SARON Index Cessation Event and the related SARON Index Cessation Effective Date have occurred, the Calculation Agent shall determine the SARON Replacement.

If there is no Recommended SARON Replacement Rate and the SNB Policy Rate for any Zurich Banking Day with respect to which SARON is to be determined has not been published on such Zurich Banking Day (the **"Affected Zurich Banking Day"**), then the Calculation Agent will appoint an agent (the **"Replacement Rate Determination Agent"**) on or prior to the first Zurich Banking Day in respect of which a SARON Index Cessation Event and related SARON Index Cessation Effective Date have occurred and for which the SNB Policy Rate has not been published. The Replacement Rate Determination Agent may be (x) a leading bank, broker-dealer or benchmark agent in the principal financial centre of the Settlement Currency as appointed by the Calculation Agent, (y) the Issuer or the Guarantor (if applicable), (z) an affiliate of the Issuer, the Guarantor (if applicable) or the Calculation Agent or (aa) such other entity that the Calculation Agent determines to be competent to carry out such role.

The Replacement Rate Determination Agent will determine whether to use an alternative rate to SARON for the Affected Zurich Banking Day and for all subsequent Zurich Banking Days in the SARON Observation Period in which the Affected Zurich Banking Day falls (the **"Affected SARON Observation Period"**) and all SARON Observation Periods thereafter.

For the purposes of determining the Rate of Interest or Rate, as the case may be:

## TERMS AND CONDITIONS OF THE CERTIFICATES

- 741 -

- (b) for the Affected Zurich Banking Day and all subsequent Zurich Banking Days in the Affected SARON Observation Period and all SARON Observation Periods thereafter, references to SARON in the Terms and Conditions shall be deemed to be references to the SARON Replacement, including any alternative method for determining such rate and any adjustment factor as described in sub-clause (a) above;
- (c) the Replacement Rate Determination Agent may make SARON Replacement Conforming Changes with respect to the Certificates from time to time;
- (d) any determination, decision or election that may be made by the Replacement Rate Determination Agent pursuant to this Condition 4(d)(iii)(F)II. including any SARON Replacement Conforming Changes or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, in each case, solely with respect to the relevant Certificates, will be conclusive and binding absent manifest error and will be made by the Replacement Rate Determination Agent acting in good faith and a commercially reasonable manner;
- (e) to the extent that there is any inconsistency between this Condition and any other Terms and Conditions, this Condition 4(d)(iii)(F)II. shall prevail with respect to any Certificates for which the Rate of Interest or Rate is calculated in accordance with this Condition 4(d)(iii)(F);
- (f) the Calculation Agent may determine that it is appropriate for a SARON Replacement to replace the then-current SARON Benchmark and apply any SARON Replacement Conforming Changes in respect of any subsequent SARON Index Cessation Event; and
- (g) where a SARON Index Cessation Event or details of it are announced prior to the relevant SARON Index Cessation Effective Date then the Replacement Rate Determination Agent may on or after such earlier announcement date give notice to Certificateholders in accordance with Condition 19 (*Notices*) of the relevant changes which will be made to the Securities, provided that, such changes will only take effect as of the SARON Index Cessation Effective Date.

- (b) if the Recommending Body has not recommended such a spread, formula or methodology as described in clause (a) above to be applied to such Recommended SARON Replacement Rate, for the purposes of determining SARON, the Calculation Agent will determine the spread, acting in good faith and in a commercially reasonable manner, to reduce or eliminate, to the extent reasonably practicable under the circumstances, any economic prejudice or benefit (as applicable) to Certificateholders as a result of the replacement of the Swiss Average Rate Overnight with such Recommended SARON Replacement Rate. The Calculation Agent will take into account industry-accepted practices for fixed income securities with respect to which such Recommended SARON Replacement Rate has replaced the Swiss Average Rate Overnight as the reference rate for the purposes of determining the applicable rate of interest thereon;

**"Recommended SARON Replacement Rate"** means the rate that has been recommended as the replacement for the Swiss Average Rate Overnight by any working group or committee in Switzerland organised in the same or a similar manner as the National Working Group on Swiss Franc Reference Rates that was founded in 2013 for the purposes of, among other things, considering proposals to reform reference interest rates in Switzerland (any such working group or committee, the **"Recommending Body"**);

**"SARON Benchmark"** means, initially, Compounded Daily SARON (as defined in Condition 4(d)(iii)(F)I. above), provided that, if a SARON Index Cessation Event and its related SARON Index Cessation Effective Date have occurred with respect to Compounded Daily SARON, or the then-current SARON Benchmark, then **"SARON Benchmark"** means the applicable SARON Replacement.

- (b) a public statement or publication of information by the SARON Administrator or any competent authority announcing that (x) the Swiss Average Rate Overnight is no longer representative or will as of a certain date no longer be representative, or (y) the Swiss Average Rate Overnight may no longer be used after a certain

date, which statement, in the case of sub-clause (y), is applicable to (but not necessarily limited to) fixed income securities and derivatives;

**"SARON Replacement Conforming Changes"** means, with respect to any SARON Replacement, any technical, administrative or operational changes (including, but not limited to, timing and frequency of determining rates with respect to each interest period and making payments of interest, rounding of amounts or tenors, day count fractions, business day convention, amendments to any other Condition and other administrative matters) that the Replacement Rate Determination Agent decides may be appropriate to reflect the adoption of such SARON Replacement in a manner substantially consistent with market practice (or, if the Replacement Rate Determination Agent determines that adoption of any portion of such market practice is not administratively feasible or if the Replacement Rate Determination Agent determines that no market practice for use of the SARON Replacement exists, in such other manner as the Replacement Rate Determination Agent or the Calculation Agent, as the case may be, determines is reasonably necessary, acting in good faith and in a commercially reasonable manner); and

**"SNB Adjustment Spread"** means, with respect to the SNB Policy Rate, the spread to be applied to the SNB Policy Rate in order to reduce or eliminate, to the extent reasonably practicable under the circumstances, any economic prejudice or benefit (as applicable) to Certificateholders as a result of the replacement of the Swiss Average Rate Overnight with the SNB Policy Rate for the purposes of determining SARON, which spread will be determined by the Calculation Agent, acting in good faith and in a commercially reasonable manner, taking into account the historical median between the Swiss Average Rate Overnight and the SNB Policy Rate during the two year period ending on the date on which the SARON Index Cessation Event occurred (or, if more than one SARON Index Cessation Event has occurred, the date on which the first of such events occurred).

(G) TONA

- I. Where "Screen Rate Determination – TONA" is specified in the applicable Final Terms as the manner in which a Rate of Interest or Rate is to be determined, such Rate of Interest or Rate, as the case may be, for each Interest Period will be Compounded Daily TONA plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Calculation Agent, calculated in accordance with this Condition 4(d)(iii)(G)I., subject to the provisions of Condition 4(d)(iii)(G)I. and 4(d)(iii)(G)II..

II. Correction of TONA

If TONA in respect of any Tokyo Banking Day is subsequently corrected and provided by the administrator of TONA to authorised distributors of TONA and published on the Relevant Screen Page no later than the Correction Cut-off Time (if any) or, if later (or there is no such Correction Cut-off Time), one hour after the rate for such Tokyo Banking Day is published on the Relevant Screen Page, then TONA in respect of such Tokyo Banking Day shall be the subsequently corrected and published rate appearing on the Relevant Screen Page.

Where:

**"Correction Cut-off Time"** means the time specified as such by the administrator of TONA in the TONA benchmark methodology.

III. TONA Fallbacks

If the Calculation Agent determines at any time prior to the TONA Reference Time on any Tokyo Banking Day that a TONA Index Cessation Event has occurred, then the rate in respect of each Tokyo Banking Day falling on or after the TONA Index Cessation Effective Date will be the JPY Recommended Rate.

If there is a JPY Recommended Rate before the end of the first Tokyo Banking Day following the TONA Index Cessation Effective Date, but neither the administrator nor authorised distributors provide or publish the JPY Recommended Rate, then, subject to the below, in respect of any day for which the JPY Recommended Rate is required, references to the JPY Recommended Rate will be deemed to be references to the last provided or published JPY Recommended Rate. However, if there is no last provided or published JPY Recommended Rate, then in respect of any day for which the JPY Recommended Rate is required, references to the JPY Recommended Rate will be deemed to be references to the last provided or published TONA.

If:

- (1) there is no JPY Recommended Rate before the end of the first Tokyo Banking Day following the TONA Index Cessation Effective Date; or
- (2) there is a JPY Recommended Rate and a JPY Recommended Rate Index Cessation Effective Date subsequently occurs in respect of such JPY Recommended Rate,

then the rate in respect of each Tokyo Banking Day falling on or after the TONA Index Cessation Effective Date or a JPY Recommended Rate Fixing Day occurring on or after the JPY

Recommended Rate Index Cessation Effective Date, as the case may be, will be a commercially reasonable alternative for TONA or the JPY Recommended Rate, as the case may be, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, taking into account any rate implemented by central counterparties and/or futures exchanges, in each case with trading volumes in derivatives or futures referencing TONA or the JPY Recommended Rate (as applicable) that the Calculation Agent considers sufficient for that rate to be a representative alternative rate.

For the purposes of this Condition 4(d)(iii)(G)III.:

**"JPY Recommended Rate"** means, in respect of any Tokyo Banking Day, the rate (inclusive of any spreads or adjustments) recommended as the replacement for TONA by a committee officially endorsed or convened by the Bank of Japan for the purpose of recommending a replacement for TONA (which rate may be produced by the Bank of Japan or another administrator) and as provided by the administrator of that rate or, if that rate is not provided by the administrator thereof (or a successor administrator), published by an authorised distributor in respect of such day;

**"JPY Recommended Rate Fixing Day"** means, in respect of the JPY Recommended Rate and any day, the publication day specified by the administrator of the JPY Recommended Rate for the JPY Recommended Rate in its benchmark methodology;

**"JPY Recommended Rate Index Cessation Effective Date"** means, in respect of the JPY Recommended Rate and a JPY Recommended Rate Index Cessation Event, the first date on which the JPY Recommended Rate would ordinarily have been published or provided and is no longer published or provided;

**"JPY Recommended Rate Index Cessation Event"** means, in respect of the JPY Recommended Rate:

- (e) a public statement or publication of information by or on behalf of the administrator of the JPY Recommended Rate announcing that it has ceased or will cease to provide the JPY Recommended Rate permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide the JPY Recommended Rate; or
- (f) a public statement or publication of information by the regulatory supervisor for the administrator of the JPY Recommended Rate, the central bank for the currency of the JPY Recommended Rate, an insolvency official with jurisdiction over the administrator of the JPY Recommended Rate, a resolution authority with

jurisdiction over the administrator of the JPY Recommended Rate or a court or an entity with similar insolvency or resolution authority over the administrator of the JPY Recommended Rate, which states that the administrator of the JPY Recommended Rate has ceased or will cease to provide the JPY Recommended Rate permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide the JPY Recommended Rate;

**"TONA Index Cessation Effective Date"** means, in respect of TONA and a TONA Index Cessation Event, the first date on which TONA would ordinarily have been published or provided and is no longer published or provided;

**"TONA Index Cessation Event"** means, in respect of TONA:

- (g) a public statement or publication of information by or on behalf of the administrator of TONA announcing that it has ceased or will cease to provide TONA permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide TONA; or
- (h) a public statement or publication of information by the regulatory supervisor for the administrator of TONA, the central bank for the currency of TONA, an insolvency official with jurisdiction over the administrator of TONA, a resolution authority with jurisdiction over the administrator of TONA or a court or an entity with similar insolvency or resolution authority over the administrator of TONA, which states that the administrator of TONA has ceased or will cease to provide TONA permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide TONA; and

**"TONA Reference Time"** means, with respect to any determination of TONA, 10.00 a.m. (Tokyo time) on the Tokyo Banking Day immediately following the date of such determination.

(iv) *Screen Rate Discontinuation*

Where Condition 4(d)(iii)(A) applies, if the Calculation Agent determines at any time prior to any Interest Determination Date, that the Screen Page Reference Rate has been discontinued or a Reference Rate Fallback Event has occurred, the Calculation Agent will use, as a substitute for the Screen Page Reference Rate, an alternative reference rate determined by the Calculation Agent to be the alternative reference rate selected by the central bank, reserve bank, monetary authority or any similar institution (including any committee or working group thereof) in the jurisdiction or region

of the Specified Currency (each a "Relevant Nominating Body") that is consistent with industry accepted standards, provided that, if two or more alternative reference rates are selected by any Relevant Nominating Body, the Calculation Agent shall determine which of those alternative reference rates is most appropriate to preserve the economic features of the relevant Certificates. If the Calculation Agent notifies the Issuer that it is unable to determine such an alternative reference rate, the Calculation Agent will as soon as reasonably practicable (and in any event before the Business Day prior to the applicable Interest Determination Date) appoint an agent (the "Reference Rate Determination Agent"), which will determine whether a substitute or successor rate, which is substantially comparable to the Screen Page Reference Rate, is available for the purpose of determining the Reference Rate on each Interest Determination Date falling on or after the date of such determination. If the Reference Rate Determination Agent determines that there is an industry accepted successor rate, the Reference Rate Determination Agent will notify the Issuer of such successor rate to be used by the Principal Warrant and Certificate Agent to determine the Rate of Interest.

If the Reference Rate Determination Agent or the Calculation Agent, as applicable, has determined a substitute or successor rate in accordance with the foregoing paragraph (such rate, the "**Replacement Reference Rate**"), for the purpose of determining the Reference Rate on each Interest Determination Date falling on or after such determination:

- (A) the Reference Rate Determination Agent or the Calculation Agent, as applicable, will also determine the changes (if any) required to the applicable Business Day Convention, the definition of Business Day, the Interest Determination Date, the Day Count Fraction, and any method for obtaining the Replacement Reference Rate, including any adjustment needed to make such Replacement Reference Rate comparable to the Screen Page Reference Rate, including, where applicable, and if Unwind Costs is specified as applicable in the applicable Final Terms, to reflect any increased costs of the Issuer or the Swap Counterparty, as the case may be, providing such exposure to the Replacement Reference Rate, in each case acting in good faith and in a commercially reasonable manner that is consistent with industry-accepted practices for such Replacement Reference Rate;
- (B) references to the Reference Rate in these Conditions will be deemed to be references to the relevant Replacement Reference Rate, including any alternative method for determining such rate as described in (A) above;
- (C) the Reference Rate Determination Agent or the Calculation Agent, as applicable, will notify the Issuer of the Replacement Reference Rate, and the details described in (A) above, as soon as reasonably practicable; and
- (D) the Issuer will give notice to the Certificateholders in accordance with Condition 19 (*Notices*), the Principal Warrant and Certificate Agent, the Trustee and the Calculation Agent of the Replacement Reference Rate, and the details described in (A) above as soon as reasonably practicable but in any event no later than 5:00 p.m. (London time) on the Business Day prior to the applicable Interest Determination Date.

The determination of the Replacement Reference Rate and the other matters referred to above by the Reference Rate Determination Agent or the Calculation Agent, as applicable, will (in the absence of manifest error) be final and binding on the Issuer, the Calculation Agent, the Principal Warrant and Certificate Agent, the Trustee and the Certificateholders, unless the Calculation Agent or the Reference Rate Determination Agent determines at a later date that the Replacement Reference Rate is no longer substantially comparable to the Reference Rate or does not constitute an industry accepted successor rate, in which case the Calculation Agent shall appoint or re-appoint a Reference Rate Determination Agent, as the case may be (which may or may not be the same entity as the original Reference Rate Determination Agent or the Calculation Agent) for the purpose of confirming the Replacement Reference Rate or determining a substitute Replacement Reference Rate in an identical manner as described in this Condition 4(d)(iv). If the replacement Reference Rate Determination Agent or the Calculation Agent, as applicable, is unable to or otherwise does not determine a substitute Replacement Reference Rate, then the Replacement Reference Rate will remain unchanged.

The Reference Rate Determination Agent may be (x) a leading bank, broker-dealer or benchmark agent in the principal financial centre of the Settlement Currency as appointed by the Calculation Agent, (y) the Swap Counterparty or (z) an affiliate of the Swap Counterparty or the Calculation Agent.

If the relevant Reference Rate Fallback Event may also constitute an Administrator/Benchmark Event in the determination of the Calculation Agent pursuant to Condition 8(o)(A), the provisions of this Condition 4(d)(iv) will apply.

Notwithstanding anything to the contrary in the provisions of (and all provisions referred to in) this Condition 4(d)(iv), the Calculation Agent or Reference Rate Determination Agent (as applicable) may make all determinations and/or adjustments and take all actions in respect of the Certificates as are provided for in connection with a Reference Rate Fallback Event or Administrator/Benchmark Event, as applicable, notwithstanding that such Reference Rate Fallback Event or Administrator/Benchmark Event, as applicable, may have occurred before the Issue Date of the Certificates.

(e) *Minimum and/or Maximum Interest Rate*

In the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of Conditions 4(c)(ii) or 4(d) (as appropriate) is less than the Minimum Interest Rate specified in the applicable Final Terms, the Rate of Interest for such Interest Period shall be such Minimum Interest Rate.

If the applicable Final Terms specifies a Maximum Interest Rate for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of Conditions 4(c)(ii) or 4(d) (as appropriate) is greater than such Maximum Interest Rate, the Rate of Interest for such Interest Period shall be such Maximum Interest Rate.

If the applicable Final Terms specifies a Rate Multiplier for any Interest Period, then, the Rate of Interest in respect of any such Interest Period shall be multiplied by the relevant Rate Multiplier, subject always to the Minimum and/or Maximum Rate of Interest as described above.

(f) *Notification of Rate of Interest and Interest Amount*

The Principal Warrant and Certificate Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Guarantor (if applicable) (such notifications to occur no later than the Business Day following such determination), (in the case of Certificates which are listed on the Luxembourg Stock Exchange and where the rules of such stock exchange so require) the Luxembourg Stock Exchange and, if applicable, to any other stock exchange on which the relevant Certificates are for the time being listed. In addition, the Principal Warrant and Certificate Agent (except where the relevant Certificates are unlisted and are in global form and held in their entirety on behalf of Euroclear and Clearstream, Luxembourg in which event there may be substituted for such publication the delivery of such notice to Euroclear and Clearstream, Luxembourg for communication to the Certificateholders) shall publish or cause to be published such Rate of Interest, Interest Amount and Interest Payment Date in accordance with Condition 19 as soon as possible after their determination but in no event later than the fifth Luxembourg Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Certificates are for the time being listed and to the Certificateholders in accordance with Condition 19. For the purposes of these Conditions, the expression "**Luxembourg Business Day**" means a day (other than a Saturday or a Sunday) on which commercial banks are open for business in Luxembourg.

(g) *Certificates to be Final*

All certificates, communications, determinations, calculations and decisions made for the purposes of the provisions of this Condition 4 by the Principal Warrant and Certificate Agent or, if applicable,

the Calculation Agent or the Trustee, shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Guarantor (if applicable), the Principal Warrant and Certificate Agent, the other Warrant and Certificate Agents (if any), or, if applicable, the Calculation Agent and all Certificateholders, and (in the absence as aforesaid) no liability to the Certificateholders shall attach to the Principal Warrant and Certificate Agent or, if applicable, the Calculation Agent or the Trustee, in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(h) *Coupon Switch*

If Coupon Switch is specified as applicable in the applicable Final Terms:

- (i) if Coupon Switch Election is specified as applicable in the applicable Final Terms, the Issuer shall (where a corresponding election is made by the Swap Counterparty in respect of the Swap Agreement relating to the Certificates) elect that the Rate of Interest or Premium Amount for the Certificates will be amended (a "**Coupon Switch**") from the pre-switch coupon specified in the Final Terms (the "**Pre-Switch Coupon**") to the post-switch coupon specified in the applicable Final Terms (the "**Post-Switch Coupon**") on and after the Coupon Switch Date; and
- (ii) if Automatic Coupon Switch is specified as applicable in the applicable Final Terms and an Automatic Coupon Switch Event occurs, the Rate of Interest or Premium Amount for the Certificates will be amended (a "**Coupon Switch**") from Pre-Switch Coupon specified in the applicable Final Terms to the Post-Switch Coupon specified in the applicable Final Terms on and after the Coupon Switch Date immediately following the SPS ACS Valuation Date or SPS ACS Valuation Period, as applicable, on which the Automatic Coupon Switch Event occurs.

If Additional Switch Coupon is specified as applicable in the applicable Final Terms, following the occurrence of a Coupon Switch, an Additional Switch Coupon Amount will be payable on the Additional Switch Coupon Payment Date. The "**Additional Switch Coupon Amount**" in respect of each nominal amount of Certificates equal to the Calculation Amount will be the amount specified as such in the applicable Final Terms. For the purposes of Conditions 6 and 11, Additional Switch Coupon Amount shall be deemed to be interest. For the avoidance of doubt, the Additional Switch Coupon Amount will only be paid on the single Additional Switch Coupon Payment Date.

Notice of any Coupon Switch will be given to Certificateholders in accordance with Condition 19.

- (B) if Digital Coupon or Snowball Digital Coupon is specified in the applicable Final Terms and Target Switch Coupon is specified as applicable in the applicable Final Terms, the number of times the Digital Coupon Condition or the Snowball Digital Coupon Condition, as the case may be, has been satisfied is equal to or greater than the Automatic Coupon Switch Level as of a SPS ACS Valuation Date; or
- (C) if Digital Coupon or Snowball Digital Coupon is not specified in the applicable Final Terms and Target Switch Coupon is specified as applicable in the applicable

In the event that the Swap Counterparty fails to pay an amount under the Swap Agreement or the Swap Agreement terminates for any reason other than as scheduled on its scheduled termination date or where the termination of the Swap Agreement has resulted from an Event of Default thereunder where the Issuer is the Defaulting Party, the Issuer will have no further obligation to pay interest in respect of the Certificates and no Event of Default will occur in respect of such non-payment save where the termination of the Swap Agreement has resulted from an Event of Default thereunder where the Issuer is the Defaulting Party.

(j) *Interest Payments*

Interest will be paid subject to and in accordance with the provisions of Condition 6 (*Payments and Physical Delivery*). Interest will cease to accrue on each Certificate (or, in the case of the redemption of part only of a Certificate, that part only of such Certificate) on the due date for redemption thereof unless such Certificate is redeemed early. If such Certificate is redeemed early, (i) if the applicable Final Terms specify that Accrual to Redemption is applicable, interest will cease to accrue on the due date for redemption, (ii) if the applicable Final Terms specify that Accrual to Redemption is not applicable, no interest shall accrue or be payable in respect of which the relevant payment date has not occurred on or prior to the due date for redemption of such Certificate or (iii) if the applicable Final Terms specify that Accrual to Redemption is not applicable and Accrual to Preceding IPED is applicable, no interest shall accrue or be payable in respect of any period since the Interest Period End Date immediately preceding the occurrence of the relevant Early Redemption Event, unless in either case payment of principal and/or delivery of all assets deliverable is improperly withheld or refused. If upon due presentation thereof, payment of principal or the payment, and/or delivery of the Entitlement (if applicable and unless such Entitlement is to be delivered following a Physical Delivery Early Redemption Event in accordance with Condition 8(w)(ii)), is improperly withheld or

refused, interest will continue to accrue (as well after as before any judgment) at the Fixed Rate or, as the case may be, the Rate of Interest until whichever is the earlier of (i) the day on which all sums due and/or assets deliverable in respect of such Certificate up to that day are received by or on behalf of the holder of such Certificate and (ii) the day on which the Principal Warrant and Certificate Agent or any agent appointed by the Issuer to deliver such assets to Certificateholders has notified the holder thereof (either in accordance with Condition 19 (*Notices*) or individually) of receipt of all sums due in respect thereof up to that date. Where Suspension of Payments is specified as applicable in the applicable Final Terms, upon the occurrence, in the opinion of the Calculation Agent, of a Suspension Event, interest on the Notional Amount outstanding on the Certificates will be paid in accordance with this Condition 4 on the relevant Deferred Interest Payment Date provided that no interest shall be payable on the Certificates or any accrued interest thereon for the period from (and including) the relevant Interest Payment Date to such Deferred Interest Payment Date and, where an Early Redemption Event occurs prior to the end of the relevant Suspension Period, the reference in this Condition 4(j) to "Early Redemption Event" shall be read as reference to such Suspension Event. Where "Screen Rate Determination – SONIA", "Screen Rate Determination – SOFR", "Screen Rate Determination – €STR", "Screen Rate Determination – SARON" or "Screen Rate Determination – TONA" is specified in the applicable Final Terms, for the purposes of Condition 4(d), if accrued interest is required to be calculated in respect of a period, which, but for this provision, would not be an Interest Period, notwithstanding anything to the contrary in the Conditions, for the purposes of calculating such interest, the final Interest Period End Date shall be the date such period ends on (but excludes) and the final Interest Determination Date shall be the earliest date on which the Issuing and Paying Agent or the Calculation Agent, as applicable, determines that the Rate of Interest or Rate, as the case may be, for the final Interest Period can be determined.

Provided that in the case of Credit Linked Securities, these provisions shall be subject to the provisions contained in Annex 10 – "Additional Terms and Conditions for Credit Linked Securities".

(k) *Determination or Calculation by Trustee*

If for any reason at any relevant time the Principal Warrant and Certificate Agent or, as the case may be, the Calculation Agent defaults in its obligation to determine the Rate of Interest or the Principal Warrant and Certificate Agent defaults in its obligation to calculate any Interest Amount in accordance with Conditions 4(c)(ii) and 4(d) as the case may be, and in each case in accordance with Condition 4(c)(iii), the Trustee shall, (or shall appoint an agent on its behalf to do so), determine the Rate of Interest at such rate as, in its sole and absolute discretion (having such regard as it shall think fit to the foregoing provisions of this Condition 4, but subject always to any Minimum Rate of Interest or Maximum Rate of Interest specified in the applicable Final Terms), it shall deem fair and reasonable in all the circumstances or, as the case may be, the Trustee shall (or shall appoint an agent on its behalf to do so) calculate the Interest Amount(s) in such manner as it shall deem fair and reasonable in all the circumstances and each such determination or calculation shall be deemed to have been made by the Principal Warrant and Certificate Agent or the Calculation Agent, as applicable.

"**Determination Period**" means each period from and including a Determination Date to but excluding the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date).

"**Interest Period**" means the period beginning on and including the Interest Commencement Date and ending on but excluding the first Interest Period End Date and each successive period beginning

on (and including) an Interest Period End Date and ending on (but excluding) the next Interest Period End Date or such other period as is specified in the applicable Final Terms.

**"Interest Rate<sub>(i-1)</sub>"** means in respect of an Interest Period the Rate of Interest determined by the Calculation Agent in respect of the immediately preceding Interest Period. For the avoidance of doubt, Interest Rate<sub>(i-1)</sub> is expressed as a rate per annum, unless otherwise specified in the Final Terms.

**"Issue Date"** means the date specified as such on the applicable Final Terms.

(l) *Rounding generally*

In connection with the calculation of any amount payable in respect of the Certificates (including, without limitation, interest) and unless otherwise provided in these Terms and Conditions or in the applicable Final Terms, such amounts will, if necessary, be rounded to the nearest sub-unit (as defined above) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise as specified in the applicable Final Terms.

(m) *Dual Currency Linked Interest Certificates*

If the Certificates are specified in the applicable Final Terms as Dual Currency Linked Interest Certificates, the amount of interest calculated in respect of any Interest Payment Date is not an amount in the Settlement Currency, it will be converted into the Settlement Currency at the Specified Exchange Rate specified in the applicable Final Terms or, if no Specified Exchange Rate is specified, the Settlement Currency Exchange Rate on the relevant Settlement Currency Exchange Rate Observation Date.

**"Price Materiality Event"** means that, in respect of the determination of any Settlement Currency Exchange Rate, the Calculation Agent determines that the rate derived at the relevant time from the source specified in the Final Terms differs from the rate that would be derived at the relevant time from a source that the Calculation Agent deems, in good faith and in a commercially reasonable manner having taken into account any relevant market practice, to be equivalent, by more than 3 per cent.

**"Settlement Currency"** means the currency specified as such in the applicable Final Terms or, if no such currency is specified, the Specified Currency.

**"Settlement Currency Exchange Rate"** means in respect of a Settlement Currency Exchange Rate Observation Date, the rate of exchange (including any rates of exchange pursuant to which the relevant rate of exchange is derived) between the currencies and from the source(s) and at the time in each case specified in the applicable Final Terms on such day, as determined by the Calculation Agent, provided that if any source specified in the applicable Final Terms is not available or the Calculation Agent determines that there has been a Price Materiality Event, any such rate of exchange may be determined by the Calculation Agent by reference to such sources as it, any such rate of exchange may be determined by the Calculation Agent by reference to such sources as it, acting in good faith and in a commercially reasonable manner having taken into account any relevant market practice, considers to be appropriate.

**"Settlement Currency Exchange Rate Observation Date"** means the date falling the number of Business Days specified in the applicable Final Terms prior to the relevant scheduled payment date in respect of the Certificates.

**"Specified Exchange Rate"** means the rate of exchange specified in the applicable Final Terms.

**5. Premium Amount**

circumstances the Cash Settlement Amount payable on redemption of the Certificates may be less than the Issue Price or even zero.

- (b) A premium amount may be a fixed amount ("**Fixed Premium Amount Certificates**"), a variable amount ("**Variable Premium Amount Certificates**") and/or an amount calculated by reference to the performance of one or more index or custom index, share, inflation index, interest in an exchange traded fund, an exchange traded note, an exchange traded commodity or other exchange traded product (each an "**exchange traded instrument**"), commodity and/or commodity index, foreign exchange rate, fund, fund index and/or the credit of one or more reference entity or any combination thereof in the manner specified in the applicable Final Terms (such Certificates, "**Linked Premium Amount Certificates**") and may be subject to a Maximum Premium Amount Rate, as specified in the applicable Final Terms.
- (c) Each Certificate will pay the Premium Amount on each Premium Amount Payment Date provided that no Early Redemption Event or Event of Default has occurred on or prior to the Premium Amount Payment Date, and provided further that, if Automatic Early Redemption is specified as applicable in the applicable Final Terms, no Premium Amount will be payable unless the Premium Amount Payment Date falls on or prior to the Automatic Early Redemption Date.
- (d) The Premium Amount shall be rounded to the nearest sub-unit of the relevant Settlement Currency (with half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention) provided that if Rounding Convention 2 is specified as applicable in the applicable Final Terms, the Premium Amount shall not be subject to rounding but Certificates of the same Series held by the same Holder will be aggregated for the purpose of determining the aggregate Premium Amount in respect of such Certificates and the aggregate of such Premium Amounts will be rounded down to the nearest whole sub-unit of the Settlement Currency in such manner as the Calculation Agent shall determine. Such Premium Amount will be paid in accordance with Condition 6 (*Payments and Physical Delivery*).
- (e) If a Business Day Convention is specified in the applicable Final Terms as applying to a Premium Amount Payment Date and (i) if there is no numerically corresponding day in the calendar month in which a Premium Amount Payment Date should occur or (ii) if any Premium Amount Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:
  - (i) the Following Business Day Convention, such Premium Amount Payment Date shall be postponed to the next day which is a Business Day; or
  - (ii) the Modified Following Business Day Convention, such Premium Amount Payment Date, as the case may be, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Premium Amount Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day; or
  - (iii) the Preceding Business Day Convention, such Premium Amount Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day.
- (f) Definitions relating to Premium Amount(s):

**"Premium Amount"** means, in respect of a Premium Amount Payment Date and a Certificate

  - (i) in respect of Fixed Premium Amount Certificates, the amount specified in the applicable Final Terms;
  - (ii) in respect of Variable Premium Amount Certificates, an amount calculated by the Calculation Agent on the basis set out, in the applicable Final Terms; or
  - (iii) in respect of Linked Premium Amount Certificates, an amount calculated by the Calculation Agent equal to the Notional Amount x the Premium Amount Rate and, if a Day Count Fraction is specified in the applicable Final Terms, multiplying such sum by the applicable

Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Settlement Currency, half of any such sub-unit being rounded upwards or otherwise in according with applicable market convention,

in each case, if the resulting amount is not an amount in the Settlement Currency, it will be converted into the Settlement Currency at the Exchange Rate specified in the applicable Final Terms;

**"Premium Amount Payment Date"** means each date specified as such in the applicable Final Terms; and

**"Premium Amount Period"** means the period from (and including) the Issue Date to (but excluding) the first Premium Amount Payment Date and each following period from (and including) a Premium Amount Payment Date to (but excluding) the next occurring Premium Amount Payment Date.

References in these Conditions to "Interest Valuation Time" or "Interest Valuation Date" will, in the case of Linked Premium Amount Certificates, be deemed to be references to "Premium Amount Valuation Time" or "Premium Amount Valuation Date", as applicable.

- (g) The Calculation Agent will cause each Premium Amount for each Premium Amount Payment Date to be notified to the Principal Warrant and Certificate Agent, the Issuer and the Guarantor (if applicable) (such notifications to occur no later than the Business Day following such determination), and (in the case of Certificates which are listed on the Luxembourg Stock Exchange and the rules of such stock exchange so require) Luxembourg Stock Exchange and, if applicable, to any other stock exchange on which the relevant Certificates are for the time being listed. In addition, the Calculation Agent shall publish or cause to be published such Premium Amount in accordance with Condition 19 (*Notices*) as soon as possible after their determination but in no event later than the fifth Luxembourg Business Day thereafter.
- (h) Where the Certificates are Variable Premium Amount Certificates and Linear Interpolation is specified as applicable in respect of a Premium Amount Period in the applicable Final Terms, the Premium Amount Rate for such Premium Amount Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Final Terms), the FBF Rate (where FBF Determination is specified as applicable in the applicable Final Terms) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Final Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Premium Amount Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Premium Amount Period, provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

**"Designated Maturity"** means (i) in relation to Screen Rate Determination, the period of time designated in the Reference Rate or (ii) in relation to FBF Determination, the period of time specified in the relevant FBF Rate.

- (i) If the applicable Final Terms specifies a Minimum Premium Amount Rate for any Premium Amount Period, then, in the event that the Premium Amount Rate in respect of such Premium Amount Period is less than such Minimum Premium Amount Rate, the Premium Amount Rate for such Interest Period shall be such Minimum Premium Amount Rate.

If the applicable Final Terms specifies a Maximum Premium Amount Rate for any Premium Amount Period, then, in the event that the Premium Amount Rate in respect of such Premium Amount Period is greater than such Maximum Premium Amount Rate, the Premium Amount Rate for such Premium Amount Period shall be the Maximum Premium Amount Rate.

## 6. Payments and Physical Delivery

For the purposes of this Condition 6, references to payment or repayment (as the case may be) of principal and/or interest and other similar expressions will, where the context so admits, be deemed also to refer to physical delivery of any Entitlement.

### (a) *Method of Payment*

The "**Cash Settlement Amount**" shall be an amount (which may never be less than zero) to which the Holder of Certificates is entitled in the Settlement Currency in relation to each such Certificate equal to the Final Redemption Amount specified in the applicable Final Terms.

The Cash Settlement Amount (if any) shall be rounded to the nearest sub-unit of the relevant Settlement Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention, provided that if Rounding Convention 2 is specified as applicable in the applicable Final Terms, the Cash Settlement Amount shall not be subject to rounding but Certificates of the same Series held by the same Holder of Certificates will be aggregated for the purpose of determining the aggregate Cash Settlement Amount in respect of such Certificates and the aggregate of such Cash Settlement Amounts will be rounded down to the nearest whole sub-unit of the Settlement Currency in such manner as the Calculation Agent shall determine, provided that if the product of the Final Payout is zero, no amount shall be payable in respect of the relevant Certificate.

If the Cash Settlement Amount is not an amount in the Settlement Currency, if specified in the applicable Final Terms it will be converted into the Settlement Currency at the Exchange Rate specified in the applicable Final Terms;

### (i) *Registered Certificates*

Payments of the Cash Settlement Amount (or, where Certificates are redeemable in instalments, the final instalment) in respect of each Registered Certificate (whether or not in global form) will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Registered Certificate at the specified office of the Registrar or any of the Warrant and Certificate Agents. Such payments will be made by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Certificate appearing in the Register at the close of the business day (being for this purpose a day on which Euroclear, Clearstream, Luxembourg and/or any other relevant Clearing System are open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the third business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) before the relevant due date (in each case, the "**Record Date**"). Notwithstanding the previous sentence, if (i) a holder does not have a Designated Account or (ii) the aggregate Issue Price of the Certificates held by a holder is less than U.S.\$250,000 (or integral multiples of U.S.\$1,000 in excess thereof) (or its approximate equivalent in any other Settlement Currency), payment will instead be made by a cheque in the Settlement Currency drawn on a Designated Bank (as defined below), provided that, any payment in CNY will be made solely by transfer to the Designated Account in the CNY Settlement Centre(s) of the holder (or the first named of joint holders) of the Registered Certificate appearing in the Register. For these purposes, "**Designated Account**" means the account maintained by a holder with a Designated Bank and identified as such in the Register and "**Designated Bank**" means (i) (in the case of payment in a Settlement Currency other than euro or CNY) a bank in the principal financial centre of the country of such Settlement Currency; (ii) (in the case of a payment in euro) any bank which processes payments in euro; and (iii) (in the case of a payment in CNY) a bank in the CNY Settlement Centre(s).

Payments of interest and, where Certificates are redeemable in instalments, each instalment (other than the final instalment) in respect of each Registered Certificate (whether or not in global form) will be made by a cheque in the Settlement Currency drawn on a Designated Bank and mailed on the business day in the city where the specified office of the Registrar is located immediately

- 760 -

preceding the relevant due date to the holder (or the first named of joint holders) of the Registered Certificate appearing in the Register at the close of business on the fifteenth day (whether or not such fifteenth day is a business day) before the Record Date at his address shown in the Register on the Record Date and at his risk. Notwithstanding the foregoing, payment of the Interest Amount in CNY will be made solely by transfer to the Designated Account in the CNY Settlement Centre(s) of the holder (or the first named of joint holders) of the Registered Certificates in appearing in the Register. Upon application of the holder to the specified office of the Registrar not less than three business days in the city where the specified office of the Registrar is located before the due date for any payment of interest in respect of a Registered Certificate, the payment may be made by transfer on the due date in the manner provided in the preceding paragraph. Any such application for transfer shall be deemed to relate to all future payments of interest (other than interest due on redemption) and instalments of principal (other than the final instalment) in respect of the Registered Certificates which become payable to the holder who has made the initial application until such time as the Registrar is notified in writing to the contrary by such holder. Payment of the interest due in respect of each Registered Certificate on redemption and the final instalment (if applicable) will be made in the same manner as payment of the Cash Settlement Amount in respect of such Registered Certificate.

Holders of Registered Certificates will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Registered Certificate as a result of a cheque posted in accordance with this Condition arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments of the Cash Settlement Amount, any instalment (if applicable) or interest in respect of the Registered Certificates.

Neither the Issuer, the Guarantor (if applicable), the Trustee nor any of the Agents will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Certificates or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

### (ii) *Global Certificates*

Except in the case of Registered Certificates, payments of the Cash Settlement Amount, any instalments (if applicable) and interest (if any) in respect of Certificates represented by any Global Certificate will be made in the manner specified in the relevant Global Certificate against presentation or surrender, as the case may be, of such Global Certificate at the specified office of any Warrant and Certificate Agent outside of the United States. A record of each payment made on such Global Certificate, distinguishing between any payment of principal and any payment of interest, will be made on such Global Certificate by the Warrant and Certificate Agent to which such Global Certificate is presented for the purpose of making such payment, and such record shall be prima facie evidence that the payment in question has been made.

If "CNY Payment Disruption Event" is specified as applicable in the applicable Final Terms, in the event that the Calculation Agent determines, acting in good faith and in a commercially reasonable manner, that a CNY Payment Disruption Event has occurred or is likely to occur and that such CNY Payment Disruption Event is material in relation to the Issuer's payment obligations under the Certificates in respect of any forthcoming Payment Date or other date on which any amount in respect of the Certificates shall be due and payable (each such date, an "**Affected Payment Date**"), then the Calculation Agent shall notify holders of the relevant Registered Certificates as soon as practicable of the occurrence of such CNY Payment Disruption Event in accordance with Condition 19 (*Notices*).

If the applicable Final Terms specify that "CNY Payment Disruption Event" is applicable to the Certificates, upon the occurrence of a CNY Payment Disruption Event:

#### (A) Postponement

If "Postponement" is specified as applicable in the applicable Final Terms, then the Affected Payment Date shall be postponed until the earlier of (1) the second Business Day following the day on which such CNY Payment Disruption Event ceases to exist, and (2) the date

falling 14 calendar days following the original date on which the Affected Payment Date was scheduled to fall (the "**CNY Payment Disruption Cut-off Date**") and notice thereof shall be given to the relevant holders of the Registered Certificates in accordance with Condition 19 (*Notices*). For the avoidance of doubt, no amount of interest shall be payable in respect of any delay in payment of any amount(s) due to the adjustment of any Affected Payment Date.

(iii) *Issuer's Option to Substitute Assets or to pay the Alternate Cash Redemption Amount*

Unless Issuer's Option to Substitute Assets is specified as not applicable in the applicable Final Terms, following a valid redemption of Certificates in accordance with these Conditions, the Issuer may, in respect of such Certificates, if the Calculation Agent determines (acting in good faith and in a commercially reasonable manner) that the Relevant Asset or Relevant Assets, as the case may be, comprises shares which are not freely tradeable, elect either (A) to substitute for the Relevant Asset or the Relevant Assets, as the case may be, an equivalent value (as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner) of such other shares which the Calculation Agent determines, in good faith and in a commercially reasonable manner, are freely tradeable (the "**Substitute Asset**" or the "**Substitute Assets**", as the case may be) or (B) not to deliver or procure the delivery of the Entitlement or the Substitute Asset or Substitute Assets, as the case may be, to the relevant Certificateholders, but in lieu thereof to make payment to the relevant Certificateholder on the Delivery Date of an amount equal to the fair market value as determined by the Calculation Agent (unless otherwise specified) (the "**fair market value**") of the Entitlement on the Valuation Date as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner by reference to such sources as it considers appropriate (the "**Alternate Cash Redemption Amount**"). Notification of any such election will be given to Certificateholders in accordance with Condition 19 (*Notices*) and in the event that the Issuer elects to pay the Alternate Cash Redemption Amount such notice shall give details of the manner in which such amount shall be paid.

For purposes hereof, a "**freely tradeable**" share shall mean (i) with respect to the United States, a share which is registered under the Securities Act or not restricted under the Securities Act and which is not purchased from the issuer of such share and not purchased from an affiliate of the issuer of such share or which otherwise meets the requirements of a freely tradeable share for purposes of the Securities Act, in each case, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner or (ii) with respect to any other jurisdiction, a share not subject to any legal restrictions on transfer in such jurisdiction.

(c) *Currency unavailability*

This Condition shall apply when payment is due to be made in respect of any Certificate in the Specified Currency (other than where the Specified Currency is euro) and the Specified Currency is not available to the Issuer or the Guarantor (as applicable) due to the imposition of exchange controls, the Specified Currency's replacement or disuse or other circumstances beyond the control of the Issuer or the Guarantor (as applicable) ("**Currency Unavailability**"). In the event of Currency Unavailability, the Issuer or the Guarantor (as applicable) will be entitled to satisfy its obligations to the holder of such Certificate by making payment in euro on the basis of the spot exchange rate at which the Specified Currency is offered in exchange for euro in an appropriate inter-bank market at noon, Paris time, four Business Days prior to the date on which payment is due or, if such spot exchange rate is not available on that date, as of the most recent prior practicable date. - (iv) if Liquidation Proceeds is specified in the applicable Final Terms as the Early Redemption Amount, the Issuer shall appoint an agent to sell or otherwise realise the Charged Assets (the "**Disposal Agent**") which shall be the Calculation Agent (or such other party as may be agreed by the Issuer and the Trustee provided that, for the avoidance of doubt, the Disposal Agent may not be the Issuer) and the Early Redemption Amount in respect of each Certificate shall be the *pro rata* share of the Liquidation Proceeds. "**Liquidation Proceeds**" shall be an amount, subject to a maximum equal to the Liquidation Proceeds Cap save where

"Liquidation Proceeds Cap" is specified as not applicable in the applicable Final Terms, equal to the amounts received by or on behalf of the Issuer upon the sale or realisation of the Charged Assets (including, without limitation, any termination payment received by the Issuer under the relevant Swap Agreement and/or, where applicable, the amount received by the Issuer in respect of the Charged Assets on the redemption date, expiration date or other date for final payment in respect of the Charged Assets) after the deduction of any fees (including, without limitation, any legal fees), costs, expenses and taxes incurred by the Disposal Agent (for itself and on behalf of the Issuer), in respect of the sale or realisation of the Charged Assets and the early redemption of the Certificates, any due and unpaid fees, costs and expenses of the Trustee and the Agents and any amounts due to be paid to the Swap Counterparty under the Swap Agreement. In respect of Certificates bearing interest, notwithstanding anything to the contrary herein, the Early Redemption Amount, as determined by the Calculation Agent in accordance with this Condition 8(e)(iv) shall include any accrued interest to (but excluding) the relevant early redemption date and apart from any such interest included in the Early Redemption Amount, no interest, accrued or otherwise, or any other amount whatsoever will be payable by the Issuer in respect of such redemption. Unless otherwise specified in the applicable Final Terms, the Early Redemption Amount will be "Liquidation Proceeds" as defined above;

- (v) if Liquidation Proceeds/Fair Market Value is specified in the applicable Final Terms as the Early Redemption Amount, the Calculation Agent will determine the fair market value of a Certificate (taking into account the occurrence of the relevant Early Redemption Event but otherwise equal to a *pro rata* share of the amounts payable to the Issuer in respect of the Charged Assets following their early termination or realisation on or prior to the Early Redemption Date) which such amount will be the Early Redemption Amount in respect of each Certificate unless such amount would be less than the *pro rata* share of the Liquidation Proceeds (subject to the Liquidation Proceeds Cap, if applicable) realised by a Disposal Agent appointed by the Issuer in respect of a Certificate, in which case a *pro rata* share of the Liquidation Proceeds (subject to the Liquidation Proceeds Cap, if applicable) will be the Early Redemption Amount in respect of each Certificate; or
- (vi) if Liquidation Proceeds/No Unwind Costs is specified as the Early Redemption Amount, the Early Redemption Amount in respect of each Certificate shall be the *pro rata* share of the Unadjusted Liquidation Proceeds. "**Unadjusted Liquidation Proceeds**" shall be an amount, subject to a maximum equal to the Liquidation Proceeds Cap save where "Liquidation Proceeds Cap" is specified as not applicable in the applicable Final Terms, equal to the amounts received by or on behalf of the Issuer upon the sale or realisation of the Charged Assets (including, without limitation, any termination payment received by the Issuer under the relevant Swap Agreement which relates to the Certificates (and not, for the avoidance of doubt, any termination payment (or part thereof) which relates to any series of Related Certificates) or the proceeds of any sale of the Issuer's claim to such termination amount and/or, where applicable, the amount received by the Issuer in respect of the Charged Assets on the redemption date, expiration date or other date for final payment in respect of the Charged Assets) after the deduction of any termination payment due to be paid to the Swap Counterparty under the Swap Agreement. Where the Liquidation Proceeds Cap is applicable, "**Liquidation Proceeds Cap**" means in case of redemption of the Certificates as a result of an Early Redemption Event, the Final Redemption Amount (calculated on the basis that any reference to the Redemption Date in relation to the determination thereof shall be deemed to be a reference to the Early Redemption Date) that

would have been payable but for the occurrence of the Early Redemption Event. In respect of Certificates bearing interest, notwithstanding anything to the contrary herein, the Early Redemption Amount, as determined by the Calculation Agent in accordance with this Condition 8(e)(vi) shall include any accrued interest to (but excluding) the relevant early redemption date and apart from any such interest included in the Early Redemption Amount, no interest, accrued or otherwise, or any other amount whatsoever will be payable by the Issuer in respect of such redemption; or

- (vii) if ERE Force Majeure/No Unwind Costs is specified as the Early Redemption Amount, the Early Redemption Amount in respect of each Certificate shall be the pro rata share of the Unadjusted Proceeds. "**Unadjusted Proceeds**" shall be an amount, subject to a maximum equal to the Liquidation Proceeds Cap (save where "Liquidation Proceeds Cap" is specified as not applicable in the applicable Final Terms), equal to the amounts received by or on behalf of the Issuer upon the sale or realisation of the Charged Assets (or the relevant proportion thereof where the Certificates are being redeemed in part only) (including, without limitation, any termination payment received by the Issuer under the relevant Swap Agreement and/or, where applicable, the amount received by the Issuer in respect of the Charged Assets on the redemption date, expiration date or other date for final payment in respect of the Charged Assets) after the deduction of any termination payment due to be paid to the Swap Counterparty under the Swap Agreement but without deduction of costs other than such costs that are unavoidable to redeem the Certificates early. Where the Liquidation Proceeds Cap is applicable, "Liquidation Proceeds Cap" means in case of redemption of the Certificates as a result of an Early Redemption Event, the Final Redemption Amount (calculated on the basis that any reference to the Redemption Date in relation to the determination thereof shall be deemed to be a reference to the Early Redemption Date) that would have been payable but for the occurrence of the Early Redemption Event. In respect of Certificates bearing interest, notwithstanding anything to the contrary herein, the Early Redemption Amount, as determined by the Calculation Agent in accordance with this Condition 8(e)(vii) shall include any accrued interest to (but excluding) the relevant early redemption date and apart from any such interest included in the Early Redemption Amount, no interest, accrued or otherwise, or any other amount whatsoever will be payable by the Issuer in respect of such redemption; or

(D) AER Rate Determination

(1) Where the applicable Final Terms specify that the AER Rate is determined by reference to a Screen Rate, the AER Rate will, subject as provided below, be either:

- (i) the offered quotation; or
- (ii) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the AER Reference Rate which appears or appear, as the case may be, on the AER Screen Page (or such replacement page on that service which displays the information) as at the AER Specified Time indicated in the applicable Final Terms (which will be 11.00 a.m. Brussels time, in the case of EURIBOR, or Stockholm time, in the case of STIBOR) (the "**Screen Page AER Rate**") on the relevant AER Reference Rate Determination Date plus or minus (as indicated in the applicable Final Terms) the AER Margin (if any), all as determined by the Calculation Agent. If five or more of such offered quotations are available on the AER Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If the AER Screen Page is not available or if, in the case of subparagraph (i), no offered quotation appears on the AER Screen Page (or such replacement page on that service which displays the information) or, in the case of subparagraph (ii), fewer than three offered quotations appear on the AER Screen Page (or such replacement page on that service which displays the information), in each case as at the AER Specified Time, except as provided in paragraph (2) below the Calculation Agent shall request each of the Reference Banks to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the AER Reference Rate at the AER Specified Time on the AER Reference Rate Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with offered quotations, the AER Rate shall be the arithmetic mean (rounded if necessary to the nearest 0.0001 with 0.0005 being rounded upwards) of the relevant quotations, eliminating the highest quotation (or in the event that two or more quotations are identical, one of the highest) and the lowest (or in the event that two or more quotations are identical, one of the lowest) plus or minus (as applicable) the AER Margin (if any), all as determined by the Calculation Agent.

If on any AER Reference Rate Determination Date one only or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the preceding paragraph, the AER Rate shall be the rate per annum which the Calculation Agent determines as being the arithmetic mean (rounded if necessary to the nearest 0.0001, with 0.0005 being rounded upwards) of the rates per annum, as communicated to the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, at the AER Specified Time on the relevant AER Reference Rate Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the AER Reference Rate by leading banks in the inter-bank market plus or minus (as applicable) the AER Margin (if any).

If fewer than two of the Reference Banks provide the Calculation Agent with offered rates, the AER Rate shall be the offered rate for deposits in the Settlement Currency for a period equal to that which would have been used for the AER Reference Rate, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the AER Reference Rate, at which, at the AER Specified Time on the relevant AER Reference Rate Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Calculation Agent suitable for the purpose) informs the Calculation Agent it is quoting to leading banks in the Euro-zone inter-bank market plus or minus (as applicable) the AER Margin (if any).

If the AER Rate cannot be determined in accordance with the foregoing provisions of this paragraph, the Calculation Agent shall determine the AER Rate from such source(s) as it, acting in good faith and in a commercially reasonable manner, may select, except that if the Calculation Agent determines that the absence of the quotation is due to the discontinuation of the Screen Page AER Rate, or the occurrence of a Reference Rate Fallback Event, then the AER Reference Rate will be determined in accordance with paragraph (2) below.

- (2) If the Calculation Agent determines at any time prior to any AER Reference Rate Determination Date, that the Screen Page AER Rate has been discontinued or a Reference Rate Fallback Event has occurred, the Calculation Agent will use, as a substitute for the Screen Page AER Rate, an alternative reference rate determined by the Calculation Agent to be the alternative reference rate selected by the central bank, reserve bank, monetary authority or any similar institution (including any committee or working group thereof) in the jurisdiction or region of the currency of the relevant rate (each a "**Relevant Nominating Body**") that is consistent with industry accepted standards, provided that, if two or more alternative reference rates are selected by any Relevant Nominating Body, the Issuer or the Calculation Agent, as applicable, shall determine which of those alternative reference rates is most appropriate to preserve the economic features of the relevant Certificates. If the Calculation Agent notifies the Issuer that it is unable to determine such an alternative reference rate, the Calculation Agent will as soon as reasonably practicable (and in any event before the Business Day prior to the applicable AER Reference Rate Determination Date) appoint an agent (the "**Reference Rate Determination Agent**"), which will determine whether a substitute or successor rate, which is substantially comparable to the Screen Page AER Rate, is available for the purpose of determining the AER Reference Rate on each AER Reference Rate Determination Date falling on or after the date of such determination. If the Reference Rate Determination Agent determines that there is an industry accepted successor rate, the Reference Rate Determination Agent will notify the Issuer of such successor rate to be used by the Calculation Agent to determine the AER Rate.

If the Reference Rate Determination Agent or the Calculation Agent, as applicable, has determined a substitute or successor rate in accordance with the foregoing paragraph (such rate, the "**Replacement AER Reference Rate**"), for the purpose of determining the AER Reference Rate on each AER Reference Rate Determination Date falling on or after such determination:

- (i) the Reference Rate Determination Agent or the Calculation Agent, as applicable, will also determine the changes (if any) required to the applicable Business Day Convention, the definition of Business Day, the AER Reference Rate Determination Date, the Day Count Fraction, and any method for obtaining the Replacement AER Reference Rate, including any adjustment needed to make such Replacement AER Reference Rate comparable to the Screen Page AER Rate, including, where applicable, and if Unwind Costs is specified as applicable in the applicable Final Terms, to reflect any increased costs of the Issuer providing such exposure to the Replacement Reference Rate, in each case acting in good faith and in a commercially reasonable manner that is consistent with industry-accepted practices for such Replacement AER Reference Rate;
- (ii) references to the AER Reference Rate in these Conditions will be deemed to be references to the relevant Replacement AER Reference Rate, including any alternative method for determining such rate as described in (i) above;
- (iii) the Reference Rate Determination Agent or the Calculation Agent, as applicable, will notify the Issuer of the Replacement AER Reference Rate, and the details described in (i) above, as soon as reasonably practicable; and
- (iv) the Issuer will give notice to the Certificateholders in accordance with Condition 19, the Issuing and Paying Agent and the Calculation Agent of the Replacement AER Reference Rate, and the details described in (i) above as soon as reasonably

practicable but in any event no later than 5:00 p.m. (London time) on the Business Day prior to the applicable AER Reference Rate Determination Date.

The determination of the Replacement AER Reference Rate and the other matters referred to above by the Reference Rate Determination Agent or the Calculation Agent, as applicable, will (in the absence of manifest error) be final and binding on the Issuer, the Calculation Agent, the Principal Warrant and Certificate Agent and the Certificateholders, unless the Issuer, the Calculation Agent or the Reference Rate Determination Agent determines at a later date that the Replacement AER Reference Rate is no longer substantially comparable to the AER Reference Rate or does not constitute an industry accepted successor rate, in which case the Calculation Agent shall appoint or re-appoint a Reference Rate Determination Agent, as the case may be (which may or may not be the same entity as the original Reference Rate Determination Agent or the Calculation Agent) for the purpose of confirming the Replacement AER Reference Rate or determining a substitute Replacement AER Reference Rate in an identical manner as described in this paragraph (2). If the replacement Reference Rate Determination Agent or the Calculation Agent, as applicable, is unable to or otherwise does not determine a substitute Replacement AER Reference Rate, then the Replacement AER Reference Rate will remain unchanged.

The Reference Rate Determination Agent may be (x) a leading bank, broker-dealer or benchmark agent in the principal financial centre of the relevant rate as appointed by the Calculation Agent, (y) the Swap Counterparty or the Guarantor (if any) or (z) an affiliate of the Swap Counterparty, the Guarantor (if any) or the Calculation Agent.

- (3) If the applicable Final Terms specifies a Minimum AER Reference Rate then, in the event that the AER Reference Rate determined in accordance with the above provisions is less than such Minimum AER Reference Rate, the AER Rate calculated using such Minimum AER Reference Rate.

If the applicable Final Terms specifies a Maximum AER Reference Rate then, in the event that the AER Reference Rate determined in accordance with the above provisions is greater than such Maximum AER Reference Rate, the AER Rate shall be such Maximum AER Reference Rate.

If the relevant Reference Rate Fallback Event may also constitute an Administrator/Benchmark Event in the determination of the Calculation Agent pursuant to Condition 8(o)(A), the provisions of this Condition 8(s)(D)(3) will apply.

Notwithstanding anything to the contrary in the provisions of (and all provisions referred to in) this Condition 8(s)(D)(3), the Issuer, the Calculation Agent or Reference Rate Determination Agent (as applicable) may make all determinations and/or adjustments and take all actions in respect of the Securities as are provided for in connection with a Reference Rate Fallback Event or Administrator/Benchmark Event, as applicable, notwithstanding that such Reference Rate Fallback Event or Administrator/Benchmark Event, as applicable, may have occurred before the Issue Date of the Certificates.

Where "Condition to Final Payout Payment" is specified as applicable in the applicable Final Terms, the obligation of the Issuer to pay a Final Payout Premium as part of the Final Redemption Amount will be subject to the receipt of an aggregate amount equal to the Final Payout Premium payable in respect of each Certificate outstanding on or prior to the Redemption Date from the Swap Counterparty under the Swap Agreement. In the event that the Swap Counterparty fails to pay an amount under the Swap Agreement or the Swap Agreement terminates for any reason other than as scheduled on its scheduled termination date or where the termination of the Swap Agreement has resulted from an Event of Default thereunder where the Issuer is the Defaulting Party, the Issuer will have no further obligation to pay an amount equal to the Final Payout Premium in respect of each Certificate (but without prejudice to the Issuer's obligations to pay an amount equal to the Scheduled Final Redemption Amount less the relevant Final Payout Premium in respect of each Certificate) and no Event of Default will occur in respect of such non-payment save where the termination of the

Swap Agreement has resulted from an Event of Default thereunder where the Issuer is the Defaulting Party.

For the purposes of this Condition 8(t):

**"Final Payout Premium"** means, in respect of a Certificate, a *pro rata* share of an amount equal to the amount by which the Scheduled Final Redemption Amount is greater than the amount which the Issuer is scheduled to receive in respect of the Charged Assets other than the Swap Agreement on maturity or termination of such assets; and

Certificateholders in accordance with Condition 19 (*Notices*), the Trustee and the Swap Counterparty, and on the Unwind Date, the Issuer will deliver, in respect of each Certificate, the Entitlement in respect of such Certificate in accordance with Condition 8(w)(iii). No Event of Default shall arise as a result of the occurrence of a Physical Delivery Event unless the Issuer fails to deliver the relevant Entitlements in accordance with Condition 8(w)(iii). For the avoidance of doubt, if any Early Redemption Event occurs which is not a Physical Delivery Early Redemption Event, such Early Redemption Event shall be governed by Condition 8(l) and not this Condition 8(w).

For the purposes of this Condition 8(w)(ii), "**Physical Delivery Early Redemption Amount**" means an amount equal to any termination payment received by the Issuer under the relevant Swap Agreement and any amounts received from the realisation of the Charged Assets (other than the Reference Securities) after the deduction of any fees (including, without limitation, any legal fees), costs, expenses and taxes of the Issuer and, if applicable, any Delivery Agent, in respect of the delivery of the Reference Securities and the early redemption of the Certificates, any due and unpaid fees, costs and expenses of the Trustee and the Agents and any amounts due to be paid to the Swap Counterparty under the Swap Agreement.

If, at any time during the Suspension Period, the Calculation Agent determines that an Early Redemption Event has occurred, then the provisions of Condition 8(l) shall apply. **"Suspension Event"** means the Calculation Agent determines that facts exist which may (assuming the expiration of any applicable grace period) amount to (a) an Asset Payment Default Event (disregarding any terms allowing for non-payment, deferral or adjustments to any scheduled payments and any notice period in respect thereof) in respect of any relevant Reference Securities (where Asset Payment Default Event is specified as an Early Redemption Event in respect of the relevant Certificates), or (b) an Asset Default Event in respect of any relevant Reference Securities (where Asset Default Event is specified as an Early Redemption Event in respect of the relevant Certificates) or (c) an RCA Payment Default Event as if No Grace Period had been specified in the applicable Final Terms (and disregarding any terms allowing for non-payment, deferral or adjustments to any scheduled payments and any notice period in respect thereof) in respect of any relevant Reference Securities (where Annex 12 (*Additional Terms for Notional Value Repack Securities*) is applicable and RCA Payment Default Event is specified as an Early Redemption Event in respect of the relevant Certificates);

If the moneys received by the Trustee are not enough to pay such amounts in full, the Trustee shall apply them *pro rata* on the basis of the amount due to each party entitled to such payment;
  - (5) fifthly, rateably in meeting the claims (if any) of the Swap Counterparty under each Swap Agreement relating to the Certificates and any Related Certificates and the Collateral Exchange Counterparty under the Collateral Exchange Agreement (if any) relating to the Certificates and any Related Certificates. If the moneys received by the Trustee are not enough to pay such amounts in full, the Trustee shall apply them *pro rata* on the basis of the amount due to each party entitled to such payment; and
  - (6) sixthly, in payment of the balance (if any) to the Issuer.

**"Secured Parties"** means each of the Trustee, any receiver, the Certificateholders, the Swap Counterparty, the Repo Counterparty (if any), the Collateral Exchange Counterparty (if any) and the Agents (each, a **"Secured Party"**).

(f) *Compartment Assets substitution by Swap Counterparty*

Where this Condition 9(f) is specified as being applicable in the Final Terms then the Compartment Assets may be substituted in whole or in part by the Swap Counterparty.

The Swap Counterparty may substitute the Compartment Assets for:

- (i) either securities denominated in the currency specified in the Final Terms issued by the entity specified as the eligible collateral issuer (each, an **"Eligible Compartment Assets Issuer"**) in the Final Terms (**"Eligible Compartment Assets Issuer Obligations"**); or
- (ii) such other securities, obligations or an amount of cash in the currency in which the principal amount of the existing Compartment Assets is expressed to be payable where **"Alternative Substitution"** is specified in the Final Terms.

The new securities, obligations or cash to be substituted must be in a principal amount equal (or, if in another currency, the equivalent to the principal amount of the currency in which the Compartment Assets are expressed to be payable, as determined on the date of such substitution by the Swap

Counterparty in good faith and in a commercially reasonable manner) to the then fair market value of the Certificates as determined by the Swap Counterparty (or, in the case of a substitution or redemption of part only of the Compartment Assets, of the relevant proportion thereof as at the date of such substitution).

The securities, obligations or cash which may be substituted for the Compartment Assets shall be delivered (or paid, in the case of cash) by the Swap Counterparty to the Custodian or such other relevant Counterparty.

By making any substitution pursuant to this Condition 9(f) the Swap Counterparty shall be deemed to agree with the Issuer and the Trustee that its obligations under the relevant Swap Agreement shall continue in full force and effect irrespective of such substitution and that no termination or adjustment to its obligations thereunder shall occur as a consequence of such substitution.

The Trustee shall, upon notice from the Swap Counterparty (upon which the Trustee may rely without further enquiry) that the conditions for substitution referred to in this Condition 9(f) are met, release the Compartment Assets to be substituted from the security created in respect of it under the Trust Deed. The Issuer, the Trustee and the Swap Counterparty will upon such substitution enter into such further documentation as may be required (if at all) by any applicable law and/or as may be required by the Trustee to give effect to the creation of security over any replacement securities, obligations or cash amounts in the manner set out in this Condition 9(f).

References in these Conditions and the Trust Deed to "**Compartment Assets**" shall be deemed to include any substituted Compartment Assets and references to "**Charged Assets**" shall be deemed to include any additional assets or rights charged or assigned in favour of the Trustee pursuant to such substitution.

Where "Substitution Notification" is specified in the applicable Final Terms, the Issuer shall give notice of any substitution to Certificateholders under this Condition 9(f) in accordance with Condition 19 (*Notices*) and, in relation to any Certificates listed on the Luxembourg Stock Exchange, to the Luxembourg Stock Exchange (or if listed on another stock exchange to such other stock exchange) and will, if required by the rules of the Luxembourg Stock Exchange (or of such other stock exchange), prepare a supplement to any applicable prospectus or such other documents as may be required.

If this Condition 9(f) is applicable, the Trustee and any Certificateholders may at any time require the Issuer to notify them of the composition of the Compartment Assets at such time.

*The Swap Counterparty may substitute the Compartment Assets in accordance with this Condition 9(f) without regard to the projected market value of substitute securities or obligations. There is no guarantee that the value of such Compartment Assets in the event of termination of the relevant Swap Agreement, taking into account any termination payment due under such Swap Agreement to or from the Swap Counterparty, will equal or exceed the Cash Settlement Amount (if any) for each Certificate.*

(g) *Compartment Assets substitution under a Credit Support Annex, Credit Support Deed or Pledge*

Where the Issuer and the Swap Counterparty have entered into a Credit Support Annex in respect of any Swap Agreement, then the Compartment Assets may be substituted in whole or in part by the Swap Counterparty in accordance with the terms of the Credit Support Annex.

The securities, obligations or cash which may be substituted for the Compartment Assets shall be delivered (or paid, in the case of cash) by the Swap Counterparty to the Custodian (or, where an alternative bank or institution is specified as custodian for the Collateral in the applicable Final Terms, to such entity).

By making any substitution pursuant to this Condition 9(g), the Swap Counterparty shall be deemed to agree with the Issuer and the Trustee that its obligations under the relevant Swap Agreement shall continue in full force and effect irrespective of such substitution and that no termination or adjustment to its obligations thereunder shall occur as a consequence of such substitution.

In the case of Compartment Assets substitution under a Credit Support Annex, the Trustee shall, upon notice from the Swap Counterparty (upon which the Trustee may rely without further enquiry) that the conditions for substitution referred to in this Condition 9(g) are met, release the Compartment Assets to be substituted from the security created in respect of it under the Trust Deed. The Issuer, the Trustee and the Swap Counterparty will upon such substitution enter into such further documentation as may be required (if at all) by any applicable law and/or as may be required by the Trustee to give effect to the creation of security over any replacement securities, obligations or cash amounts in the manner set out in this Condition 9(g).

After any substitution, references in these Conditions and the Trust Deed to "**Compartment Assets**" shall be deemed to include any Compartment Assets substituted and references to "**Charged Assets**" shall be deemed to include any additional assets or rights charged or assigned in favour of the Trustee pursuant to such substitution.

Where substitution of the Compartment Assets takes place in accordance with the terms of any credit support annex, the Issuer shall not be obliged to give notice of any substitution to Certificateholders under this Condition 9(g).

If this Condition 9(g) is applicable, the Trustee may at any time require the Issuer to notify it of the composition of the Compartment Assets at such time.

Where the Issuer and the Swap Counterparty have entered into a Credit Support Deed in respect of any Swap Agreement, the collateral secured under the relevant Credit Support Deed may be substituted in whole or in part by the Swap Counterparty in accordance with the terms of the relevant Credit Support Deed.

Where the Issuer and the Swap Counterparty have entered into a Pledge in respect of any Swap Agreement, the assets that are subject to the relevant Pledge may be substituted in whole or in part by the Swap Counterparty in accordance with the terms of the relevant Pledge.

*The Swap Counterparty may substitute the Compartment Assets in accordance with this Condition 9(g) without regard to the projected market value of substitute securities or obligations. There is no guarantee that the value of such Compartment Assets in the event of termination of the relevant Swap Agreement, taking into account any termination payment due under such Swap Agreement to or from the Swap Counterparty, will equal or exceed the Cash Settlement Amount (if any) for each Certificate.*

(h) *Swap Counterparty optional termination*

Where this Condition 9(h) is specified as being applicable in the Final Terms, the Swap Counterparty may (unless it is the Defaulting Party under, and as defined in, the relevant Swap Agreement) opt to terminate a Swap Agreement in whole or in part in accordance with either or both of the methods set out below (as specified in the Final Terms).

(i) *Redemption following Swap Counterparty optional termination*

Where "**Swap Counterparty optional termination - Call option**" is specified as being applicable in the Final Terms, the following will apply:

The Swap Counterparty may opt to terminate a Swap Agreement in whole or in part on either on any date specified as being applicable in the Final Terms upon the number of Business Days' notice specified as being applicable in the Final Terms.

Such optional termination will lead to early redemption in whole or in part, as the case may be, of the Certificates in the manner set out in this Condition 9(h).

(ii) *Repurchase:*

Where this Condition 9(h)(ii) is specified as being applicable in the Final Terms, the Swap Counterparty may opt to terminate a Swap Agreement (or where a Swap Agreement has

been entered into respect of the Certificates and one or more series of Related Certificates, the Series Transaction) upon service of written notice on the Issuer with a copy to the Trustee, in whole or in part and without payment by either party, if any of the Certificates to which that transaction relates are purchased by or on behalf of the Swap Counterparty or any of its subsidiaries or affiliates ("**Purchased Certificates**"). Where such option is exercised, such Swap Agreement, or as applicable, the Series Transaction will terminate *pro rata* in the proportion (the "**Proportion**") that the aggregate notional amount of the Purchased Certificates bears to the aggregate notional amount of the Certificates remaining outstanding (or, where applicable, unexercised) immediately prior to the purchase of the Purchased Certificates by the Swap Counterparty or any of its subsidiaries or affiliates. Upon service of such notice, the Swap Counterparty will be either (A) authorised by the Issuer to take delivery of and/or deliver and/or realise on the Issuer's behalf the Proportion of the Charged Assets (if any) charged to or otherwise secured in favour of the Trustee under the Trust Deed or (B) entitled to payment of an amount equal to the Proportion of the Charged Assets where the Charged Assets is constituted by cash ("**Realised Collateral**"). The Realised Collateral will be payable or deliverable, as the case may be, by the Issuer to or to the order of the Swap Counterparty, in the contractual currency paid by the Issuer under the relevant Swap Agreement or, if applicable, Series Transaction (where the Realised Collateral is not being delivered). Upon receipt of the Realised Collateral, the Swap Counterparty will deliver to the Principal Warrant and Certificate Agent the Purchased Certificates for cancellation. In such circumstances:

- (1) the Issuer will be deemed to have consented to the Trustee releasing the Realised Collateral to the Swap Counterparty upon termination of the relevant Swap Agreement or, as applicable, the relevant Series Transaction in the manner described in this Condition 9(h);
- (2) where relevant, the Swap Counterparty, on behalf of the Issuer, will be deemed to be authorised by the Issuer to realise the Proportion of the Charged Assets; and
- (3) the Trustee will, unless an Event of Default or a Potential Event of Default has occurred, be deemed to release the Realised Collateral from the security created in respect of it under the Trust Deed.

Where "Initial Condition Precedent" is specified as applicable in the applicable Final Terms, the Issuer's obligation to pay or procure the payment of the Initial Remittance under the Deposit Agreement and/or to purchase the relevant Reference Securities and/or to pay the purchase price under the Repurchase Agreement to buy the securities which will constitute the Reference Securities under the Repurchase Agreement, as the case may be, will be subject to the condition precedent that the Dealer has determined in its absolute discretion that it has received from the Acquiring Party an amount equal to the Initial Remittance by no later than the Initial Condition Precedent Time on the Initial Condition Precedent Date. If the Dealer determines that it has not received such amounts, the Swap Counterparty may terminate the Swap Agreement, or, as applicable, the Series Transaction in accordance with this Condition 9(h)(ii) and the Issuer shall repurchase the Certificates in accordance with this Condition 9(h)(ii), which will lead to the termination of the Deposit Agreement (where applicable).

As used in this Condition 9(h)(ii),

"**Acquiring Party**" means the Authorised Offeror or such other party specified as such in the applicable Final Terms;

"**Additional Proceeds Amount**" means each amount specified as such in the applicable Final Terms;

"**Additional Proceeds Payer**" means the Swap Counterparty or, if Alternative Additional Proceeds Payer is specified in the applicable Final Terms, the Repo Counterparty;

"**Authorised Offeror**" means the party specified as such in the applicable Final Terms;

**"Dealer"** means the party specified as such in the applicable Final Terms;

**"Initial Condition Precedent Date"** means the Issue Date unless specified otherwise in the applicable Final Terms;

**"Initial Condition Precedent Time"** means 12.00 noon (Central European Time) unless specified otherwise in the applicable Final Terms; and

**"Initial Remittance"** means (a) where Full Proceeds is specified in the applicable Final Terms, 100 per cent. of the net proceeds of issue of the Notes (the **"Full Proceeds Amount"**), (b) where Partial Proceeds is specified in the applicable Final Terms, a proportion of the net proceeds of issue of the Securities less than 100 per cent. thereof (such lower amount, the **"Partial Proceeds Amount"**) and (c) where either Full Proceeds or Partial Proceeds is specified and Additional Proceeds is specified as applicable in the applicable Final Terms either the Full Proceeds Amount or the Partial Proceeds Amount, as the case may be, plus the Additional Proceeds Amount paid to the Issuer by the Additional Proceeds Payer.

(i) *Residual Shortfall*

In the case of Certificates (but without prejudice to the rights of a holder of Guaranteed Certificates under the Guarantee (if applicable)), if the net proceeds of the realisation or enforcement of the Charged Assets created pursuant to the Trust Deed and/or any Additional Security Document in respect of the Charged Assets following payment of all prior ranking amounts (the **"Net Proceeds"**) are not sufficient to make all payments due in respect of such Certificates, and any Related Certificates then:

- (i) the obligations of the Issuer in respect of such Certificates and any such Related Certificates will be limited to such Net Proceeds and neither the Trustee nor any Secured Party nor anyone acting on behalf of any Secured Party shall have any claim in respect of any asset of the Issuer not forming part of the Charged Assets; and
- (ii) the Issuer will not be obliged to make any further payment in excess of the Net Proceeds and any Certificateholder's right to receive any further sums in respect of any Residual Shortfall shall be extinguished in full, and neither the Trustee nor any Secured Party nor anyone acting on behalf of any Secured Party shall be entitled to take any further steps against the Issuer or the Trustee to recover any such Residual Shortfall.

No Secured Party nor any party to the Trust Deed shall be entitled to petition or take any other step for the winding-up of the Issuer (including, without limitation, the opening of any bankruptcy (*faillite*), insolvency, voluntary or judicial liquidation (*insolvabilité liquidation volontaire ou judiciaire*), judicial reorganisation (*réorganisation judiciaire*), administrative dissolution without liquidation (*dissolution administrative sans liquidation*), reprieve from payment (*sursis de paiement*), fraudulent conveyance (*actio pauliana*), general settlement with creditors or reorganisation proceedings or similar proceedings affecting the rights of creditors generally) or the appointment of an examiner in respect of the Issuer (including, without limitation, the appointment of any receiver (*curateur*) (except any receiver appointed by the Trustee pursuant to the Trust Deed), liquidator (*liquidateur*), auditor (*commissaire*), verifier (*expert-vérificateur*), deputy judge (*juge délégué*) or reporting judge (*juge commissaire*)). Failure by the Issuer to make any payment in respect of any Residual Shortfall shall in no circumstances constitute an Event of Default under Condition 12.

In this Condition, **"Residual Shortfall"** means the difference, if any, between the Net Proceeds and the aggregate amount which would have been due under the Certificates but for the operation of this Condition 9(i).

(j) *Issuer's rights as holder of Compartment Assets*

The Issuer may exercise any rights in its capacity as holder of the Compartment Assets (including, without limitation, a right to vote or any analogous right howsoever described) only with the consent

of the Trustee (or as directed in writing by the respective holders of at least 25 per cent. (by number) of the Certificates then outstanding and at least 25 per cent. (by number) of each series of Related Certificates then outstanding or as directed by an Extraordinary Resolution of the Certificateholders and by an Extraordinary Resolution of the holders of each series of Related Certificates) and (except in relation to the Swap Agreement) the Swap Counterparty and, if such direction is given, the Issuer will act in accordance with such directions, unless such instructions are in the reasonable opinion of the Issuer contrary to applicable laws, regulations and/or circular letters issued by the Issuer's supervisory authority or materially detrimental to the interests of the Issuer. In particular, the Issuer will not attend or vote at any meeting of holders of the Compartment Assets, or give any consent or notification or make any declaration in relation to the Compartment Assets, save with the consent of the Trustee (or as directed in writing by the respective holders of at least 25 per cent. (by number) of Certificates then outstanding and at least 25 per cent. (by numbers) of each series of Related Certificates then outstanding or as directed by an Extraordinary Resolution of each of the Certificateholders and by an Extraordinary Resolution of the holders of each series of Related Certificates) and the Swap Counterparty. In the event of a conflict between the instructions of the Trustee (or the Certificateholders and, where applicable, the holders of each series of Related Certificates) and the Swap Counterparty, the instructions of the Instructing Party will prevail.

In these Conditions "**Instructing Party**" means if "Swap Counterparty Priority" applies the Swap Counterparty (except in relation to the Swap Agreement, or where it is the Defaulting Party under, and as defined in, the relevant Swap Agreement, in which case the Instructing Party will be the Certificateholders) and if either "Certificateholder Priority" or "Pari-Passu Ranking" applies, the Certificateholders or, in the case of Certificates issued through a Multi-Series Compartment, means, if "Swap Counterparty Priority" applies, the Swap Counterparty (except in relation to the Swap Agreement, or where it is the defaulting party under the Swap Agreement, in which case the Instructing Party will be the Certificateholders, and if either "Certificateholder Priority", or "Pari-Passu Ranking" applies, the Certificateholders, provided that, if more than one series of certificates has been issued through the Compartment through which the Certificates have been issued, where the Instructing Party would otherwise be the Certificateholders, it shall the holders of at least 25 per cent. in number of the Certificates then outstanding and at least 25 per cent. in number of each series of Related Certificates then outstanding, or as directed by an Extraordinary Resolution of such Certificateholders and by an Extraordinary Resolution of the holders of each series of Related Certificates.

(k) *Swap termination*

Notwithstanding the terms of Condition 9(j) (*Issuer's rights as holder of Compartment Assets*), where "**Swap Termination Without Redemption**" is specified as applicable in the applicable Final Terms and where an Event of Default (as defined in the Swap Agreement) occurs under the Swap Agreement in circumstances where the Swap Counterparty is the Defaulting Party (as defined in the Swap Agreement), following notification of such Event of Default by the Issuer to the Trustee (a "**Swap Default**"), the Trustee shall promptly, and in any event not later than five Business Days after such notification, instruct the Issuer to deliver, in respect of the Swap Agreement (where such agreement is constituted by a 2002 Master Agreement published by the International Swaps and Derivatives Association, Inc. (the "**Master Agreement**") and schedule thereto and any confirmations thereunder), a notice under Section 6(a) of the Master Agreement designating an Early Termination Date (as defined in the Swap Agreement). In such circumstances, the Issuer (with the consent of the Trustee) may appoint an agent (a "**Termination Agent**") to assist it in terminating the Swap Agreement and making any calculations necessary in connection with such termination. A *pro rata* share of the amount, if any and subject to a minimum of zero, equal to (i) the sum of (1) the Early Termination Amount (as defined in the Swap Agreement) received by the Issuer under the Swap Agreement (2) any interest which has accrued on the amount received by the Issuer (which may be a positive or negative amount) and (3) the Unused Charged Assets Proceeds less (ii) the costs and expenses of the Trustee and any costs and expenses of the Termination Agent incurred in connection with the termination of the Swap Agreement shall be paid by the Issuer to the Certificateholders on a *pro rata* and *pari passu* basis on the Redemption Date. If the Issuer does not receive the Early Termination Amount on or prior to the Redemption Date, Condition 8(n) will apply. For the purposes of this Condition 9(k), "**Unused Charged Assets Proceeds**" means any amounts received by the Issuer from the Charged Assets other than the Swap Agreement which have not been used on or prior

to the Redemption Date to pay interest and/or premium and redemption amounts otherwise payable in respect of the Certificates, amounts due to the Swap Counterparty under the Swap Agreement (including in respect of any Early Termination Amount due to the Swap Counterparty) and/or any fees, costs or expenses due to the Trustee and/or any of the Agents.

#### 10. Expenses and Taxation

All payments in respect of the Certificates or under the Guarantee shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of any Tax authority, unless such withholding or deduction is required by law, including, without limitation, any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986, as amended, (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto and any withholding or deduction required pursuant to Section 871(m) of the Code, in which case the Issuer or, as the case may be, the Guarantor shall make all payments net of such withholding or deduction. Such withholding or deduction shall not constitute an Event of Default under Condition 12.

In addition, and if the Securities are deemed to be Specified Securities (as specified in the applicable Final Terms) for the purpose of Section 871(m) of the Code, in determining the amount of withholding or deduction required pursuant to Section 871(m) of the Code imposed with respect to any amounts to be paid on the Certificates, the Issuer shall be entitled to withhold on any "dividend equivalent" payment (as defined for purposes of Section 871(m) of the Code) at a rate of 30 per cent.

Payments on the Certificates that reference U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70 per cent. In such case, in calculating the relevant payment amount, the Issuer may withhold, and the holder may be deemed to receive, 30 per cent. of any "dividend equivalent" payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

In respect of Exercisable Certificates only, all taxes, duties and/or expenses, including any applicable depository charges, transaction or exercise charges, stamp duty, stamp duty reserve tax, issue, registration, securities transfer and/or other taxes or duties arising from the exercise and settlement of such Certificates and/or the delivery or transfer of the Entitlement (as applicable) pursuant to the terms of such Certificates ("**Exercise Expenses**") relating to such Certificates shall be for the account of the Certificateholder. The Issuer shall deduct from amounts payable or from assets deliverable to Certificateholders all Related Expenses, not previously deducted from amounts paid or assets delivered to Certificateholders, as the Calculation Agent shall in good faith and in a commercially reasonable manner determine are attributable to the Certificates. Such deduction by the Issuer shall not constitute an Event of Default under Condition 12.

For the avoidance of doubt, neither the Issuer, the Trustee nor the Guarantor (if applicable) shall be liable for any Related Expenses and Certificateholders shall be liable to pay the Related Expenses attributable to their Certificates.

"**Expenses**" means Exercise Expenses and any Related Expenses.

"**Related Expenses**" means (a) all present, future, prospective, contingent or anticipated Taxes which are (or may be) or were (or may have been) withheld or payable under the laws, regulations or administrative practices of any state (or any political sub-division or authority thereof or therein) and (b) any other present, future, or contingent expenses (including without limitation, any applicable depository charges, transaction charges, issue registration, securities transfer or other expenses) which are (or may be) or were (or may have been) payable, in each case in respect of or in connection with:

- (i) the issue, transfer or enforcement of the Certificates;

- (ii) any payment (or delivery of assets) to Certificateholders;
- (iii) a person or its agent's assets or any rights, distributions of dividends appertaining to such assets (has such an investor (or agent) purchased, owned, held, realised, sold or otherwise disposed of assets) in such a number as the Calculation Agent, in good faith and in a commercially reasonable manner, may determine to be appropriate as a hedge or related trading position in connection with the Certificates; or
- (iv) any of the Swap Counterparty's or any Affiliate of the Swap Counterparty other hedging arrangements in connection with the Certificates.

**"Relevant Date"** in respect of any Certificate means the date on which payment in respect of it first becomes due or (if any amount of the money payable is improperly withheld or refused) the date on which payment in full of the amount outstanding is made or, in the case of materialised Certificates (if earlier) the date seven days after that on which notice is duly given to the Certificateholders that, upon further presentation of the Certificate, being made in accordance with the Conditions, such payment will be made, provided that payment is in fact made upon such presentation.

**"Taxes"** means taxes, levies, imposts, duties, deductions, withholdings, assessments or other charges (including any stamp, registration or transfer tax, duty or other charge or tax on income, payments (or delivery of assets), profits, capital gains, or, for the avoidance of doubt, (i) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto) and (ii) any withholding or deduction required pursuant to Section 871(m) of the Code), together with any interest, additions to tax or penalties.

## 11. Prescription

Claims against the Issuer or the Guarantor (if applicable) for payment of Cash Settlement Amounts, interest and/or Premium Amount in respect of the Certificates shall become void unless made within 5 years after the Relevant Date (as defined in Condition 10) and no claims shall be made after such date.

## 12. Events of Default

- (a) The Trustee at its discretion may (subject as provided in sub-paragraph (b) below), and if so requested in writing by the holders of at least 25 per cent. (by number) of the Certificates of any Series then outstanding, or if so directed by an Extraordinary Resolution of such holders, shall, subject in each case to being indemnified and/or secured to its satisfaction, give notice to the Issuer and the Guarantor (if applicable) that the Certificateholders are, and they shall accordingly forthwith become, (unless otherwise specified in the Final Terms) entitled to the Liquidation Proceeds (such occurrence, a **"Certificate Acceleration"**) upon the occurrence of any of the following events (each an **"Event of Default"**):
  - (i) a default is made for a period of 30 days or more in the payment of any sum due or the delivery of the Entitlement deliverable in respect of the Certificates; or
  - (ii) the Issuer fails to perform or observe any of its other obligations under the Certificates or the Trust Deed and (unless such failure is, in the opinion of the Trustee, incapable of remedy in which case no such notice as is referred to in this paragraph shall be required) such failure continues for a period of 45 days (or such longer period as the Trustee may permit) following the service by the Trustee on the Issuer of notice requiring the same to be remedied (and for these purposes, a failure to perform or observe an obligation shall be deemed to be remediable notwithstanding that the failure results from not doing an act or thing by a particular time); or
  - (iii) in respect of any Related Certificates, a "Certificate Acceleration" (as defined under the terms and conditions of such Related Certificates) occurs; or

- (iv) any order is made by any competent court or any resolution passed for the winding-up or dissolution of the Issuer (including, without limitation, the opening of any bankruptcy (*faillite*), insolvency, voluntary or judicial liquidation (*insolvabilité, liquidation volontaire ou judiciaire*), judicial reorganisation (*réorganisation judiciaire*), administrative dissolution without liquidation (*dissolution administrative sans liquidation*), reprieve from payment (*sursis de paiement*), fraudulent conveyance (*actio pauliana*), general settlement with creditors or reorganisation proceedings or similar proceedings affecting the rights of creditors generally) or the appointment of a receiver of the Issuer (including, without limitation, the appointment of any receiver (*curateur*), liquidator (*liquidateur*), auditor (*commissaire*), verifier (*expert-vérificateur*), deputy judge (*juge délégué*) or reporting judge (*juge commissaire*)) save for the purposes of amalgamation, merger, consolidation, reorganisation or other similar arrangement on terms previously approved in writing by the Trustee or by an Extraordinary Resolution of the Certificateholders; or
- (v) in the case of Guaranteed Certificates, the Guarantee ceases to be in full force and effect in respect of the Certificates or notice is given by the Guarantor which would cause the Guarantee to cease to be in full force and effect in respect of such Certificates or is rendered void for any cause or by any means whatsoever or any legislation is introduced the result of which would be to remove the benefit of the Guarantee from the Certificates or terminate or amend the same in a manner (in the opinion of the Trustee) materially adverse to the interests of the Certificateholders, or the Guarantor is unable to perform its obligations thereunder for any reason.
- (b) If an Event of Default occurs by virtue of the operation of Condition 12(a)(iii) above: (i) a Certificate Acceleration for the purposes of the Certificates shall be deemed to have occurred at the same time as the "Certificate Acceleration" (as such expression is defined in the terms and conditions of the relevant Related Certificates) occurred for the purposes of the relevant Related Certificates; and (ii) the Compartment Security constituted by or created pursuant to the Trust Deed and any Additional Security Document shall become enforceable as described in Condition 14 (*Enforcement and Realisation; Physical Settlement upon Acceleration; Remedies*).
- (c) The Trust Deed provides that the Trustee shall not be under any obligation to monitor whether or not an Event of Default or a Potential Event of Default has occurred or is continuing.

### 14. Enforcement and Realisation; Physical Settlement upon Acceleration; Remedies

- (a) *Enforcement and Realisation*

Upon the occurrence of a Certificate Acceleration under Condition 12, the Compartment Security constituted by or created pursuant to the Trust Deed and any Additional Security Document relating to a Series of Certificates and any Related Certificates and the Compartment to which such Series relates, shall become enforceable. The Trustee may enforce the Compartment Security at any time after it has become enforceable but is only obliged to enforce the Compartment Security if directed to do so by (x) (where the Instructing Party is the Certificateholder) either a direction in writing by Certificateholders of at least 25 per cent. (by number) of the relevant Series of Certificates then outstanding or by an Extraordinary Resolution of the Certificateholders; or (y) (where the Instructing Party is the Swap Counterparty) a written direction of the Swap Counterparty. The Trustee or any appointee or receiver appointed thereby may enforce the security by one or more of the following:

- (i) endeavouring to sell or otherwise realise the Charged Assets (including, without limitation, by terminating, closing out or enforcing any Related Agreement or other agreement entered into by the Issuer, the rights of the Issuer in respect of which form part of the Charged Assets) in accordance with the provisions of the Trust Deed; and/or
- (ii) otherwise enforcing the Compartment Security constituted by or pursuant to the Trust Deed and/or any Additional Security Document, in each case, without any liability as to the consequences of any such action and without having regard to the effect of any such action on individual Certificateholders,

provided that the Trustee shall not be required to take any such action without first being indemnified and/or secured to its satisfaction or to do anything which is or may be contrary to any applicable law or regulation and provided further that where Physical Settlement is specified as applicable in the applicable Final Terms, where Trustee enforces the Compartment Security, it will do so in accordance with Condition 14(b) and Condition 14(a)(i) shall not apply save as set out in Condition 14(b)(ii) following the occurrence of a Collateral Settlement Disruption Event (as defined in Condition 14(b)).

(b) *Physical Settlement upon Acceleration*

- (i) Where Physical Settlement upon Acceleration is specified as applicable in the applicable Final Terms and where the Trustee is to enforce the Compartment Security in accordance with Condition 14, the Trustee, will apply the Charged Assets in accordance with applicable Order of Priority and arrange for delivery of the Enforcement Entitlement to each Certificateholder on a *pari passu* basis within the relevant Series and shall effect the sale or realisation of any other Charged Assets. Prior to determining the Enforcement Entitlement in respect of each Certificate, the Trustee or any or any appointee or receiver appointed thereby shall determine the cash amount which is equal to the sum of the proceeds from the realisation of the Charged Assets (other than the Reference Securities) (the "**Asset Disposal Proceeds**") and whether such cash sum is sufficient to satisfy any applicable Priority Amounts in full. For the avoidance of doubt, the Trustee shall request the Calculation Agent to calculate such amounts or may appoint a calculation agent to make such calculations (such agent or the Calculation Agent, the "**Disposal Calculation Agent**"). If such sum is not sufficient to satisfy the applicable Priority Amounts in full, the Disposal Calculation Agent shall then calculate the amount of Reference Securities which are required to be sold in order to pay any Priority Amounts after the application of the Asset Disposal Proceeds to pay such Priority Amounts and shall confirm such amount to the Trustee and the Trustee shall arrange for the sale of the relevant amount of Reference Securities to meet any unsatisfied Priority Amounts and any proceeds from such sale remaining after payment of such Priority Amounts shall be the "**Residual Proceeds Amount**" and shall be paid in accordance with this Condition 14(b) as part of the Enforcement Proceeds.

## TERMS AND CONDITIONS OF THE CERTIFICATES

- 838 -

In connection with any such delivery in respect of the Certificates, such delivery shall be made in accordance with Condition 6(b) provided that any reference therein to the Issuer shall be deemed to be a reference to the Trustee or any agent or receiver appointed by the Trustee and the Entitlement shall be deemed to be the Enforcement Entitlement, as determined by the Disposal Calculation Agent and confirmed in writing to the Trustee. The Trustee shall be entitled to appoint a Delivery Agent as set out in Condition 6(b) (which may be the same party as the Disposal Calculation Agent) to assist it with the delivery of the Enforcement Entitlement and sale of Reference Securities required to be made in accordance with this Condition 14(b). The Trustee shall notify the Delivery Date in respect of the Certificates to the relevant Certificateholders in accordance with Condition 19 (*Notices*).

In connection with such delivery, (i) Condition 6(b)(i)(E) shall not apply, (ii) for the purposes of Condition 6(b)(i)(C), Expenses shall be deemed to include any costs involved in appointing a Disposal Calculation Agent and a Delivery Agent or which are incurred in delivery of the Enforcement Entitlement in accordance with this Condition 14(b), (iii) the Trustee shall be entitled to deduct from the assets deliverable to the Certificateholders all Expenses not previously deducted from amounts paid or assets delivered to Certificateholders, as the Trustee shall in its sole and absolute discretion determine are attributable to the relevant Certificates and (iv) any reference in the Conditions to "Relevant Assets" shall be deemed, in connection with a delivery of Reference Securities in accordance with this Condition 14(b), to be a reference to "Reference Securities".

The final sentence of the first paragraph of Condition 6(b)(i)(D) shall not apply and the Reference Securities which it is not possible to deliver to a Certificateholder due to such rounding shall, if and to the extent practicable, be sold by the Trustee (or the Disposal Calculation Agent or such other agent as may be appointed by the Trustee for such purpose) and a *pro rata* share of the resulting amount (the "**Rounding Amount**") shall be paid to each Certificateholder whose Enforcement Entitlement is subject to such rounding.

Where Physical Settlement upon Acceleration is applicable to the Certificates, upon delivery of the relevant Enforcement Entitlement and payment of the relevant Enforcement Proceeds, no further amount will be due to the Certificateholders. In connection with the delivery of the Enforcement Entitlement, the Disposal Calculation Agent shall determine the Enforcement Proceeds and shall notify such amounts to the Trustee who shall notify the Certificateholders of such amounts prior to such delivery or, where applicable, payment of relevant Enforcement Proceeds due in accordance with this Condition 14(b).

- (ii) If, in the opinion of the Trustee (or such other agent as may be appointed by the Trustee for such purpose), delivery of the Enforcement Entitlement following the occurrence of a Certificate Acceleration, is not practicable by reason of a Collateral Settlement Disruption Event having occurred and continuing on any Delivery Date then such Delivery Date for such Certificates shall be postponed to the first following Business Day in respect of which there is no such Collateral Settlement Disruption Event, provided that the Trustee (or such agent) may elect in its sole discretion and without liability to any party to deliver the Enforcement Entitlement in such commercially reasonable manner as it may select and in such event the Delivery Date shall be such day as the Trustee (or such agent) deems appropriate in connection with delivery of the Enforcement Entitlement in such commercially reasonable manner. For the avoidance of doubt, where a Collateral Settlement Disruption Event affects some but not all of the Reference Securities comprising the Enforcement Entitlement, the Delivery Date for the Reference Securities not affected by the Collateral Settlement Disruption Event will be the originally designated Delivery Date.

If delivery of the relevant Enforcement Entitlement is not possible due to the occurrence of a Collateral Settlement Disruption Event, for a period of greater than the Collateral Settlement Disruption Period, then in lieu of physical settlement and notwithstanding any other provision hereof, the Trustee (or such agent on its behalf) shall sell or realise the undeliverable Reference Securities as if Condition 14(a) were applicable. The Trustee shall give notice as soon as practicable to the Certificateholders in accordance with Condition 19 (*Notices*) that a Collateral Settlement Disruption Event has occurred. No Certificateholder shall be entitled to any payment in respect of the relevant Certificate in the event of any delay in the delivery of the Enforcement Entitlement due to the occurrence of a Collateral Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer, the Guarantor (if any) or the Trustee (or any agent on its behalf).

(iii) Where "Essential Trigger" is specified as applicable in the applicable Final Terms, Physical Settlement upon Acceleration will not apply.

(iv) As used in this Condition 14(b):

**"Available Reference Securities"** means the nominal amount of Reference Securities held by the Issuer in respect of the Series at the time of the Certificate Acceleration less any Delivery Reduction Amount, as determined by the Disposal Calculation Agent and notified to the Trustee;

**"Collateral Settlement Disruption Event"** means any event beyond the control of the Trustee (or any Delivery Agent appointed by the Trustee), as a result of which it is impossible or illegal for the Trustee or its agent to deliver some or all of the relevant Enforcement Entitlement to a Certificateholder on the related Delivery Date due to failure of the relevant clearance system or due to any law, regulation, court order or market conditions;

**"Collateral Settlement Disruption Period"** means eight Business Days or such other period specified in the applicable Final Terms;

**"Enforcement Proceeds"** means the sum of (a) a *pro rata* share of the Residual Proceeds Amount and (b) the Rounding Amount (if applicable); and

**"Priority Amounts"** means the amounts which are payable in accordance with the applicable Order of Priority in priority to amounts due to be paid or delivered to Certificateholders.

Notice of such modification shall be notified by the Issuer to the Certificateholders as soon as practicable thereafter in accordance with Condition 19 unless the Trustee agrees otherwise.

(c) *Waiver*

The Trustee may, in respect of any Series, without the consent of the Certificateholders and without prejudice to its rights in respect of any subsequent breach, from time to time and at any time, but only if and in so far as in its opinion the interests of the Certificateholders and the holders of any Related Certificates shall not be materially prejudiced thereby, waive or authorise, on such terms and conditions as to it shall seem expedient, any breach or proposed breach by the Issuer or (if applicable) the Guarantor of any of the covenants or provisions in the Trust Deed or the Conditions or determine that any Event of Default or Potential Event of Default shall not be treated as such provided always that the Trustee shall not exercise any powers conferred on it by this Condition 15(c) in respect of any Reserved Matter or in contravention of any express direction given by an Extraordinary Resolution of the Certificateholders and an Extraordinary Resolution of the holders of each series of any Related Certificates, but no such direction shall affect any waiver, authorisation or determination previously given or made. Any such waiver, authorisation or determination shall be binding on the Certificateholders of such Series.

Notice of any such waiver, authorisation or determination shall be notified by the Issuer to the Certificateholders as soon as practicable thereafter in accordance with Condition 19 unless the Trustee agrees otherwise.

(e) *Substitution*

The Trust Deed contains provisions permitting the Trustee, subject to the further conditions set out in the Trust Deed and such amendment of the Trust Deed and other conditions as the Trustee may require, but without the consent of the holders of the relevant Series of Certificates, unless Issuer Substitution is specified as not applicable in the applicable Final Terms, to agree with the Issuer and the Guarantor (if applicable) to the substitution, in respect of any Series of Certificates, in place of the Issuer (or of the previous substitute) as the principal debtor under the Certificates of such Series, or, when applicable, the Guarantor, as guarantor of the payment obligations of the Issuer under the relevant Series of Certificates, of any other company (such substituted company hereinafter called the "**Substitute Company**").

Mutilated or defaced Certificates must be surrendered before replacements will be issued.

#### 17. Further Certificates and Related Certificates

The Issuer may from time to time without the consent of the Certificateholders (but provided that the Trustee is satisfied that the restrictions set out in this Condition 17 will be complied with), create and issue

- (a) further Certificates ("**Further Certificates**") having the same terms and conditions as the Certificates in all respects (or in all respects except for the Issue Date, first payment of interest (if applicable) and issue price) and so that the same shall be consolidated and form a single series with such Certificates; and
- (b) where the relevant Compartment is specified in the applicable Final Terms to be a Compartment through which more than one Series of Certificates may be issued (a "**Multi-Series Compartment**"), Related Certificates,

provided that (unless otherwise approved by an Extraordinary Resolution of the Certificateholders) and an Extraordinary Resolution (as defined under the terms and conditions of such Related Certificates) in respect of the holders of each series of Related Certificates (if any) then outstanding under the relevant Compartment immediately prior to the date on which such Further Certificates or Related Certificates are to be issued:

In the event that any Series of Related Certificates is redeemed other than pursuant to a Certificate Acceleration (as such expression is defined under the terms and conditions of such Related Certificates), the Issuer (or any Disposal Agent) shall be entitled, notwithstanding any provision to the contrary, to modify the composition or, if appropriate, the terms of the Compartment Assets so

as to ensure that such redemption does not cause a breach of the Compartment Asset Coverage Test if specified as applicable, in each case, in the applicable Final Terms.

Any Further Certificates shall be constituted and secured by a supplemental trust deed and the Related Certificates shall be constituted and secured by the Trust Deed and the Certificates and the Further Certificates or, as the case may be, the Related Certificates shall be secured by the same Charged Assets. References in these Conditions to "**Certificates**" and "**Charged Assets**" shall be construed accordingly.

Where the applicable Final Terms do not specify that the relevant Compartment is a Multi- Series Compartment, references in these Terms and Conditions to Related Certificates or the holders of Related Certificates, as the case may be, shall not be applicable and these Terms and Conditions shall be construed accordingly.

#### **18. Removal, Indemnification and Obligations of the Trustee**

The Trustee is not obliged to take any action under the Trust Deed, the Certificates or otherwise unless indemnified and/or secured to its satisfaction. The Trustee and any affiliate is entitled to enter into business transactions with the Issuer, the Guarantor, any issuer or guarantor (where applicable) of any of the Charged Assets any party other than the Issuer under a Related Agreement (including, without limitation, the Swap Counterparty), or any of their subsidiary, holding or associated companies without accounting to the Certificateholders for profit resulting therefrom.

The Trustee is exempted from liability with respect to any loss or theft or reduction in value (as appropriate) of the Charged Assets from any obligation to insure or to procure the insuring of the Charged Assets (or any documents evidencing, constituting or representing the same or transferring any rights or obligations thereunder) and from any claim arising from the fact that the Charged Assets are held in an account with a clearing agent in accordance with that relevant clearing agent's rules or otherwise held in safe custody by the Custodian or any custodian whether or not selected by the Trustee (in each case, if applicable). The Trustee is not responsible for supervising the performance by (i) the Issuer of its own obligations and (ii) any other person of their obligations to the Issuer.

*For the purposes of this Condition 18, each of the Issuer and, as the case may be, the Guarantor expressly accepts and confirms, for the purposes of articles 1278 and 1281 of the Luxembourg civil code, that notwithstanding any assignment, transfer and/or novation permitted under and made in accordance with the provisions of the Trust Deed or any agreement referred to therein to which the Issuer and, as the case may be, the Guarantor are party, any security created or guarantee given under the Trust Deed shall be reserved for the benefit of the new trustee (for itself and for the benefit of each other Secured Party).*

If publication as provided above is not practicable, a notice will be given in such other manner, and will be deemed to have been given on such date, as the Trustee shall approve.

Whilst any of the Certificates are represented by a Global Certificate, such notice may be given by any Certificateholder to the Principal Warrant and Certificate Agent or the Registrar (as applicable) via Euroclear and/or Clearstream, Luxembourg, as the case may be, in such manner as the Principal Warrant and Certificate Agent or the Registrar (as applicable) and Euroclear and/or Clearstream, Luxembourg, as the case may be, may approve for this purpose.

The election will have effect as follows:

  - (ii) where the Exchange Rate and/or any other terms of these Conditions are expressed in or, in the case of the Exchange Rate, contemplate the exchange from or into, the currency (the "**Original Currency**") of a country which is participating in the third stage of European Economic and Monetary Union, such Exchange Rate and/or any other terms of these Conditions shall be deemed to be expressed in or, in the case of the Exchange Rate, converted from or, as the case may be into, euro at the Established Rate; and

Notwithstanding the foregoing, none of the Issuer, the Guarantor (if any), the Calculation Agent, the Principal Warrant and Certificate Agent and the Trustee shall be liable to any Certificateholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the transfer of euro or any currency conversion or rounding effected in connection therewith.

Any such election, determination, modification or adjustment shall not create a significant imbalance between the rights and obligations of the Issuer compared to the Certificateholders, to the detriment of the Certificateholders.
- (c) If Essential Trigger is specified as applicable in the applicable Final Terms, the Issuer or the Calculation Agent, as the case may be, may only modify or adjust the terms of the Certificates (other than modifications that do not relate to essential characteristics of the Certificates) or redeem the Certificates prior to their scheduled Redemption Date, as described in the Terms and Conditions, following an event or circumstance (or combination of events or circumstances) that (a) is not attributable to the Issuer that significantly alters the economics of the Certificates compared to the economics as of the Issue Date, or (b) constitutes a force majeure.

- (b) Subject to Condition 23(f) below, the courts of England are to have exclusive jurisdiction to settle any disputes which may directly or indirectly, arise out of or in connection with the Certificates (including any dispute as to their existence, validity, interpretation, performance, breach or termination or the consequences of their nullity and any dispute relating to any non-contractual obligations arising out of or in connection with the Trust Deed and the Certificates) (a "**Dispute**") and each of the Issuer, the Trustee and each Certificateholder (by its acquisition of a Certificate) is deemed to submit to the exclusive jurisdiction of the English courts.
- (c) The Issuer and each Certificateholder (by its acquisition of a Certificate) waive any objection to the courts of England on the grounds that they are an inconvenient or inappropriate forum to settle any Dispute.
- (d) The Issuer appoints BNP Paribas, London Branch, of 10 Harewood Avenue, London NW1 6AA (Attention: the Loan Administration Department), as its agent for service of process, and undertakes that, in the event of BNP Paribas, London Branch ceasing so to act or ceasing to be registered in England, it will appoint, subject to the prior written approval of the Trustee, another person as its agent for service of process in England in respect of any suit, action or proceedings (together referred to as "**Proceedings**") arising out of or in connection with the Certificates (including Proceedings relating to any non-contractual obligations arising out of or in connection with such Certificates). **Worked example one**

In the event of any inconsistency between (i) the Conditions and/or the Index Linked Conditions and (ii) the Final Terms, the Final Terms shall prevail.*

**1. Market Disruption**

**"Market Disruption Event"** means, in relation to Securities relating to a single Index or basket of Indices:-

- (x) in respect of a Composite Index:
  - (i) (a) the occurrence or existence, in respect of any Component Security, of:
    - (1) a Trading Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded;
    - (2) an Exchange Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded; or
    - (3) an Early Closure in respect of such Component Security; and
  - (b) in respect of a Multi-Exchange Index only, the aggregate of all Component Securities in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists comprises 20 per cent. or more of the level of such Index; or
- (ii) the occurrence or existence, in respect of futures or options contracts relating to such Index, of: (a) a Trading Disruption; (b) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that ends at the Valuation Time in respect of the Related Exchange; or (c) an Early Closure, in each case in respect of such futures or options contracts.

In the case of a Multi-Exchange Index, for the purposes of determining whether a Market Disruption Event exists in respect of a Component Security at any time, if a Market Disruption Event occurs in respect of such Component Security at that time, then the relevant percentage contribution of that Component Security to the level of such Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that

Component Security to (y) the overall level of such Index, in each case using the official opening weightings as published by the Index Sponsor as part of the market "opening data"; and

- (y) in the case of Indices other than Composite Indices, the occurrence or existence of (i) a Trading Disruption, (ii) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that (a) for the purposes of the occurrence of a Knock-in Event or a Knock-out Event begins or ends at the same time when the level of such Index triggers respectively the Knock-in Level or the Knock-out Level or (b) in all other circumstances ends at the relevant Valuation Time, or (iii) an Early Closure. For the purposes of determining whether a Market Disruption Event in respect of such Index exists at any time, if a Market Disruption Event occurs in respect of a security included in such Index at any time, then the relevant percentage contribution of that security to the level of such Index shall be based on a comparison of (x) the portion of the level of such Index attributable to that security and (y) the overall level of the Index, in each case immediately before the occurrence of such Market Disruption Event. The Calculation Agent shall give notice as soon as practicable to the Holders of Securities in accordance with Condition 18 of the Notes, Condition 17 of the Warrants, or Condition 19 of the Certificates, as applicable, of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day would have been the Strike Date, an Averaging Date, an Observation Date or a Valuation Date, as the case may be.

## 2. Adjustments to an Index

### (A) *Successor Index Sponsor Calculates and Reports an Index*

If a relevant Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Calculation Agent (the "**Successor Index Sponsor**"), or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the "**Successor Index**") will be deemed to be the Index.

### (B) *Modification and Cessation of Calculation of an Index*

If (i) on or prior to the Strike Date, the last Valuation Date, last Observation Date, last Averaging Date, the last Knock-in Determination Day or the last Knock-out Determination Day, the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation and other routine events) (an "**Index Modification**"), or permanently cancels a relevant Index and no Successor Index exists (an "**Index Cancellation**"), or (ii) on the Strike Date, a Valuation Date, an Observation Date, an Averaging Date, a Knock-in Determination Day or Knock-out Determination Day, the Index Sponsor or (if applicable) the Successor Index Sponsor fails to calculate and announce a relevant Index (an "**Index Disruption**") and, together with an Index Modification and an Index Cancellation, each an "**Index Adjustment Event**"), then,

- (i) the Calculation Agent shall determine if such Index Adjustment Event has a material effect on the Securities and, if so, shall calculate the relevant Settlement Price using, in lieu of a published level for that Index, the level for that Index as at the Valuation Time on that Strike Date, that Valuation Date, Observation Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event;
- (ii) the Calculation Agent may replace the relevant Index with a new similar index, multiplied, if need be by a linking coefficient to ensure continuity in the condition of the underlying of the Securities;

- (iii) in the case of Notes and Certificates only, unless Delayed Redemption on Occurrence of Index Adjustment Event, Highest Value, Market Value or Monetisation Option are specified as being applicable in the applicable Final Terms, the Calculation Agent may require the Issuer to redeem the Notes or Certificates, as applicable, in which case it will so notify the Issuer and the Issuer will give notice to Noteholders in accordance with Condition 18 of the Notes or to the Certificateholders in accordance with Condition 19 of the Certificates, as applicable. If the Notes or Certificates are so redeemed the Issuer will pay an amount to each Noteholder or Certificateholder, as the case may be, in respect of each redeemed Note or Certificate equal to the Early Redemption Amount in accordance with Condition 7(e) of the Notes or Condition 8(e) of the Certificates, as applicable. Payments will be made in such manner as shall be notified to the Noteholders in accordance with Condition 18 of the Notes or to the Certificateholders in accordance with Condition 19 of the Certificates, as applicable;
- (iv) in the case of Notes and Certificates only, if Delayed Redemption on Occurrence of Index Adjustment Event is specified as being applicable in the applicable Final Terms, on the Maturity Date (in the case of Notes) or on the Redemption Date (in the case of Certificates) the Issuer shall redeem each Note or Certificate, as applicable, at an amount calculated by the Calculation Agent equal to the sum of (x) the Protected Amount (specified in the applicable Final Terms) and (y) the Swap Early Termination Amount (if any).

For the purposes of this Index Linked Condition 2(B)(iv) "**Swap Early Termination Amount**" means an amount (if any) equal to, in respect of each Note or Certificate, and subject to a minimum of zero, a *pro rata* share of the sum of (1) the Early Termination Amount (as defined in the Swap Agreement) received by the Issuer under the Swap Agreement in connection with the termination of the Swap Agreement in whole or in part and (2) any interest which has accrued in respect of the amount of such Early Termination Amount received by the Issuer (which may be a positive or negative figure);

- (v) in the case of Warrants only, the Issuer may cancel the Warrants by giving notice to the Warrantholders in accordance with Condition 17 of the Warrants. If the Warrants are so cancelled the Issuer will pay an amount to each holder in respect of each Warrant or, if Units are specified in the applicable Final Terms, each Unit, equal to the Early Termination Amount in accordance with Condition 8(c) of the Warrants. Payments will be made in such manner as shall be notified to the Warrantholders in accordance with Condition 17 of the Warrants.
- (vi) if Highest Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Condition 18 of the Notes, or to Certificateholders in accordance with Condition 19 of the Certificates, redeem all but not some only of the Securities and pay to each Holder of Securities an amount in respect of each Security held by such Holder of Securities calculated and paid on such date determined, in accordance with Condition 7(e)(ix) (in the case of Notes), or in accordance with Condition 8(e)(viii) (in the case of Certificates);
- (vii) if Market Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Condition 18 of the Notes, or to Certificateholders in accordance with Condition 19 of the Certificates, redeem all but not some only of the Securities and pay to each Holder of Securities an amount in respect of each Security held by such Holder of Securities calculated and paid on such date determined, in accordance with Condition 7(e)(x) (in the case of Notes), or in accordance with Condition 8(e)(ix) (in the case of Certificates);
- (viii) if Monetisation Option is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Condition 18 of the Notes, or to Certificateholders in accordance with Condition 19 of the Certificates redeem all but not some only of the Securities and pay to each Holder of Securities an amount in respect of each Security held by such Holder of Securities calculated and paid on such date determined,

in accordance with Condition 7(e)(xi) (in the case of Notes) or in accordance with Condition 8(e)(x) (in the case of Certificates); or

- (ix) in the case of Notes and Certificates only, where one of Highest Value, Market Value or Monetisation Option is specified as applicable in the applicable Final Terms in respect of an Index Adjustment Event, if the Calculation Agent determines that such Index Adjustment Event constitutes a force majeure, and if Index Linked Condition 2(B)(ix) is specified in the applicable Final Terms, the Issuer will, on giving notice to Noteholders in accordance with Condition 18 of the Notes, or to Certificateholders in accordance with Condition 19 of the Certificates redeem all but not some only of the Securities and pay to each Holder of Securities an amount in respect of each Security held by such Holder of Securities, calculated and paid on such date determined, in accordance with Condition 7(v) (in the case of Notes) or in accordance with Condition 7(b) (in the case of Certificates) on the basis that ERE Force Majeure/No Unwind Costs applies.

(C) *Calculation Agent Determination*

Notwithstanding the foregoing, the Calculation Agent will adjust any relevant terms of the Securities as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Securities.

(D) *General*

In determining to take a particular action as a result of an Index Adjustment Event, the Calculation Agent is under no duty to consider the interests of Holders of Securities or any other person. In making any determination as to which action to take following the occurrence of an Index Adjustment Event, to the extent permitted by applicable law, none of the Calculation Agent, the Issuer or the Swap Counterparty shall be responsible for any loss (including liability in respect of interest), underperformance or opportunity cost suffered or incurred by Holders of Securities or any other person in connection with the Securities as a result thereof, howsoever arising including as a result of any delay in making any payment or delivery in respect of the Securities.

(E) *Notice*

The Calculation Agent shall, as soon as practicable, notify the relevant Agent of any determination made by it pursuant to paragraph (B) above and the action proposed to be taken in relation thereto and such Agent shall make available for inspection by Holders of Securities copies of any such determinations.

**3. Correction of Index**

If the level of the Index published on a given day and used or to be used by the Calculation Agent to make any determination under the Securities, is subsequently corrected and the correction is published by the relevant Index Sponsor or (if applicable) the relevant Successor Index Sponsor (i) in respect of a Composite Index, no later than five Business Days following the date of the original publication or (ii) in respect of an Index which is not a Composite Index, within the number of days equal to the Index Correction Period of the original publication, the level to be used shall be the level of the Index as so corrected, except that any corrections published after the day which is three Business Days prior to, in the case of Notes and Certificates, a due date for payment under the Notes or Certificates, as the case may be, or, in the case of Warrants, the relevant Settlement Date calculated by reference to the level of the Index will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

"**Affiliate**" means in relation to any entity (the "**First Entity**"), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or indirectly, the First Entity or any entity directly or indirectly under common control with the First Entity. "**Averaging Date**" means:

- (a) each date specified as an Averaging Date in the applicable Final Terms or, if any such date is not a Scheduled Trading Day, the immediately following Scheduled Trading Day unless, in the opinion of the Calculation Agent any such day is a Disrupted Day. If any such day is a Disrupted Day, then:
  - (A) If "**Omission**" is specified as applying in the applicable Final Terms, then such date will be deemed not to be an Averaging Date for the purposes of determining the relevant Settlement Price provided that, if through the operation of this provision no Averaging Date would occur, then the provisions of the definition of "**Valuation Date**" will apply for purposes of determining the relevant level, price, value or amount on the final Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day; or
  - (B) if "**Postponement**" is specified as applying in the applicable Final Terms, then the provisions of the definition of "**Valuation Date**" will apply for the purposes of determining the relevant level, price, value or amount on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or
  - (C) if "**Modified Postponement**" is specified as applying in the applicable Final Terms then:
    - (i) where the Securities are Index Linked Securities relating to a single Index (other than a Component Security Index), the Averaging Date shall be the first succeeding Valid Date (as defined below). If the first succeeding Valid Date has not occurred for a number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date, then (A) that last such consecutive Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether such Scheduled Trading Day is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant level or price for that Averaging Date in accordance with sub-paragraph (A)(ii) of the definition of "Valuation Date" below;
    - (ii) where the Securities are Index Linked Securities relating to a single Component Security Index, the Calculation Agent shall determine the relevant level for the Averaging Date in accordance with sub-paragraph (A)(ii) of the definition of "Valuation Date" below and the Averaging Date shall be deemed to be the earliest date on which the Calculation Agent determines the level of the Component Security Index in accordance with the provisions of sub-paragraph (A)(ii) of the definition of "Valuation Date" below;
    - (iii) where the Securities are Index Linked Securities relating to a basket of Indices (other than a Basket of Component Security Indices), the Averaging Date for each Index not affected by the occurrence of a Disrupted Day shall be the originally designated Averaging Date (the "**Scheduled Averaging Date**") and the Averaging Date for each Index affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date (as defined below) in relation to such Index. If the first succeeding Valid Date in relation to such Index has not occurred for a number of consecutive Scheduled Trading days equal to the Specified Maximum Days of Disruption immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day,

would have been the final Averaging Date, then (A) that last such consecutive Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether such Scheduled Trading Day is already an Averaging Date) in respect of such Index, and (B) the Calculation Agent shall determine the relevant level, price, value or amount for that Averaging Date in accordance with sub-paragraph (B)(ii) of the definition of "Valuation Date" below;

- (iv) where the Securities are Index Linked Securities relating to a Basket of Component Security Indices, the Averaging Date for each Component Security Index not affected by the occurrence of a Disrupted Day shall be the Scheduled Averaging Date, and for each Component Security Index affected (an "**Affected Item**") by the occurrence of a Disrupted Day, the Calculation Agent shall determine the level of the Component Security Index in accordance with the provisions of sub-paragraph (a)(iv) of the definition of "Valuation Date" below and the Averaging Date shall be deemed to be the earliest date on which the Calculation Agent determines the level of the Component Security Index in accordance with the provisions of sub-paragraph (a)(iv) of the definition of "Valuation Date" below; and
- (v) for the purposes of these Index Linked Conditions "Valid Date" means a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date does not or is not deemed to occur; or
- (b) in the case of Open End Notes or Open End Certificates (other than Put/Call Open End Notes or Put/Call Open End Certificates), the date designated as such by the Issuer, provided that such date is determined by the Issuer and notified to Noteholders in accordance with Condition 18 of the Notes or to the Certificateholders in accordance with Condition 19 of the Certificates, as the case may be, at the latest on the tenth (10th) Business Day preceding the contemplated Averaging Date.

## 6. Adjustments to a Custom Index and Custom Index Disruption

### (A) Successor Index Sponsor Calculates and Reports an Index

If a relevant Custom Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the "**Successor Custom Index Sponsor**") acceptable to the Calculation Agent, or (ii) replaced by a successor custom index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Custom Index, then in each case that custom index (the "**Successor Custom Index**") will be deemed to be the Custom Index.

### (B) Modification and Cessation of Calculation of a Custom Index and Custom Index Disruption

If (i) on or prior to the Strike Date, the last Valuation Date, the last Observation Date or the last Averaging Date, the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Custom Index or in any other way materially modifies that Custom Index (other than a modification prescribed in that formula or method to maintain that Custom Index in the event of changes in constituent components and capitalisation, contracts or commodities and other routine events) (a "**Custom Index Modification**"), or permanently cancels a relevant Custom Index and no Successor Custom Index exists (a "**Custom Index Cancellation**"), or (ii) on a Strike Date a Valuation Date, an Observation Date or an Averaging Date, the Index Sponsor or (if applicable) a Custom Index Disruption Event occurs (a Custom Index Disruption Event, together with a Custom Index Modification and a Custom Index Cancellation, each a "**Custom Index Adjustment Event**"), then:

- (1) in the case of Custom Index Securities relating to a single Custom Index where Scheduled Custom Index Business Days (Single Custom Index Basis) is specified as applicable in the applicable Final Terms, then:

- (i) if the Custom Index Adjustment Event is a Custom Index Disruption Event which occurs or is occurring on the last Valuation Date, last Averaging Date or last Observation Date, then

- (A) such Valuation Date, Averaging Date or Observation Date, as the case may be, shall be the first succeeding Scheduled Custom Index Business Day on which a Custom Index Disruption Event is not occurring, unless there is a Custom Index Disruption Event on each of the number of consecutive Scheduled Custom Index Business Days equal to the Specified Maximum Days of Disruption immediately following the scheduled Valuation Date, Averaging Date or Observation Date, as the case may be, in which case the last such consecutive Scheduled Custom Index Business Day shall be deemed to be the Valuation Date, Averaging Date or Observation Date, as the case may be, notwithstanding the Custom Index Disruption Event and the Calculation Agent shall determine the relevant value, level or price by using commercially

reasonable efforts to determine the level of the Custom Index as of the Valuation Time on the last such consecutive Scheduled Custom Index Business Day in accordance with the formulae for and method of calculating the Custom Index last in effect prior to the occurrence of the Custom Index Disruption Event and using its good faith estimate of the value for the components of the Custom Index; or

- (B) in respect of a Custom Index Disruption Event in respect of any Index Component, the Calculation Agent shall determine if such Custom Index Disruption Event has a material effect on the Securities and, if so, shall determine the relevant level or price of the Custom Index using, in lieu of a published level for the relevant Custom Index, the Custom Index Fallback Value; or
- (ii) following a Custom Index Modification or Custom Index Cancellation at any time or a Custom Index Disruption Event (which in the latter case occurs or is occurring on the Strike Date, an Averaging Date (other than the last Averaging Date), an Observation Date (other than the last Observation Date) or a Valuation Date (other than the last Valuation Date), the Calculation Agent shall determine if such Custom Index Adjustment Event has a material effect on the Securities and, if so:
  - (I) if the Custom Index Adjustment Event is a Custom Index Disruption Event which occurs or is occurring on the Strike Date, an Averaging Date, a Valuation Date or an Observation Date, then:
    - (A) the Calculation Agent may determine that the Strike Date, relevant Averaging Date, Valuation Date or Observation Date, as the case may be, shall be the first succeeding Scheduled Custom Index Business Day (in the case of the Strike Date) or Valid Date (in the case of an Averaging Date, a Valuation Date or an Observation Date, as the case may be) unless there is a Custom Index Disruption Event on each of the number of consecutive Scheduled Custom Index Business Days equal to the Specified Maximum Days of Disruption immediately following the scheduled Strike Date, Averaging Date, Valuation Date or Observation Date, as the case may be, in which case the Calculation Agent may determine that the last such consecutive Scheduled Custom Index Business Day shall be deemed to be the Strike Date, Averaging Date, Valuation Date or Observation Date, as the case may be (irrespective, in the case of an Averaging Date, a Valuation Date or an Observation Date, of whether that last consecutive Scheduled Custom Index Business Day is already an Averaging Date, a Valuation Date or an Observation Date, as the case may be) and may determine the relevant value, level or price by using commercially reasonable efforts to determine a level of the Custom Index as of the Valuation Time on the last such consecutive Scheduled Custom Index Business Day in accordance with the formulae for and method of

- 1017 -

calculating the Custom Index last in effect prior to the occurrence of the Custom Index Disruption Event and using its good faith estimate of the value for the components of the Custom Index; or

- (B) in respect of a Custom Index Disruption Event in respect of any Index Component, the Calculation Agent shall determine if such Custom Index Disruption Event has a material effect on the Securities and, if so, shall determine the relevant level or price of the Custom Index using, in lieu of a published level for the relevant Custom Index, the Custom Index Fallback Value; or
- (II) the Calculation Agent may use commercially reasonable efforts to select a successor index with a substantially similar strategy as the original Custom Index and, upon selection of such index, the Calculation Agent shall promptly notify the Holders of Securities and such index shall become the Successor Custom Index and shall be deemed to be the "Custom Index" for the purpose of the Securities and the Calculation Agent will make such adjustment, if any, to one or more of the terms of the Securities as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate (including, without limitation, by applying a linking coefficient); or
- (III) the Calculation Agent may determine in good faith and in a commercially reasonable manner such other appropriate adjustments, if any, to be made to the terms of the Securities to account for the Custom Index Adjustment Event and determine the effective date of those adjustments; or
- (IV) in the case of Notes and Certificates only, unless Delayed Redemption on Occurrence of Custom Index Adjustment Event, Highest Value, Market Value or Monetisation Option is specified as being applicable in the applicable Final Terms, the Calculation Agent may require the Issuer to redeem the Notes or Certificates, as applicable, in which case it will so notify the Issuer and the Issuer will give notice to Noteholders in accordance with Condition 18 of the Notes or to the Certificateholders in accordance with Condition 19 of the Certificates, as the case may be. If the Notes or Certificates are so redeemed the Issuer will pay an amount to each Noteholder or Certificateholder, as the case may be, in respect of each redeemed Note or Certificate equal to the Early Redemption Amount in accordance with Condition 7(e) of the Notes or Condition 8(e) of the Certificates, as applicable. Payments will be made in such manner as shall be notified to the Noteholders in accordance with Condition 18 of the Notes or as to the Certificateholders in accordance with Condition 19 of the Certificates (as applicable); or
- (V) in the case of Notes and Certificates only, if Delayed Redemption on Occurrence of Custom Index Adjustment Event is specified as being applicable in the applicable Final Terms, on the Maturity Date (in the case of Notes) or on the Redemption Date (in the case of Certificates) the Issuer shall redeem each

Note or Certificate, as applicable, at an amount calculated by the Calculation Agent equal to the sum of (x) the Protected Amount (specified in the applicable Final Terms) and (y) the Swap Early Termination Amount (if any).

For the purposes of this Index Linked Condition 6(B)(1)(ii)(V) "**Swap Early Termination Amount**" means an amount (if any) equal to, in respect of each Note or Certificate, and subject to a minimum of zero, a *pro rata share* of the sum of (1) the Early Termination Amount (as defined in the Swap Agreement) received by the Issuer under the Swap Agreement in connection with the termination of the Swap Agreement in whole or in part and (2) any interest which has accrued in respect of the amount of such Early Termination Amount received by the Issuer (which may be a positive or negative figure); or

- (VI) in the case of Warrants only, the Issuer may cancel the Warrants by giving notice to the Warrantholders in accordance with Condition 17 of the Warrants. If the Warrants are so cancelled the Issuer will pay an amount to each holder in respect of each Warrant or, if Units are specified in the applicable Final Terms, each Unit, as the case may be, held by him which amount shall be equal to the Early Termination Amount in accordance with Condition 8(c) of the Warrants. Payments will be made in such manner as shall be notified to the Warrantholders in accordance with Condition 17 of the Warrants; or
- (VII) if Highest Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Condition 18 of the Notes or to Certificateholders in accordance with Condition 19 of the Certificates, redeem all but not some only of the Securities and pay to each Holder of Securities an amount in respect of each Security held by such Holder of Securities calculated and paid on such date determined, in accordance with Condition 7(e)(ix) (in the case of Notes) or in accordance with Condition 8(e)(viii) (in the case of Certificates);

In the case of a Multi-Exchange Index, for the purposes of determining whether an Equity Custom Index Market Disruption Event exists in respect of a Component Security at any time, if an Equity Custom Index Market Disruption Event occurs in respect of such Component Security at that time, then the relevant percentage contribution of that Component Security to the level of such Multi-Exchange Index shall be based on a comparison of (x) the portion of the level of such Multi-Exchange Index attributable to that Component Security to (y) the overall level of such Multi-Exchange Index, in each case using the official opening weightings as published by the Index Sponsor as part of the market "opening data".

The Calculation Agent shall give notice as soon as practicable to the Holders in accordance with Condition 18 (*Notices*) of the Notes or Condition 19 (*Notices*) of the Certificates of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been the Strike Date, an Averaging Date, an Observation Date, the Automatic Early Redemption Valuation Date or a Valuation Date, as the case may be.

## 16.2 **Commodity Custom Index Market Disruption**

### (a) **Commodity Custom Index Market Disruption Event**

**"Commodity Custom Index Market Disruption Event"** means, in respect of a relevant Custom Index and as determined by the Calculation Agent, the occurrence or existence of a Price Source Disruption, Commodity Trading Disruption, Disappearance of Commodity Reference Price, Limit Price Event, Material Change in Formula, Material Change in Content, Tax Disruption and/or an Index Component Disruption Event. The Calculation Agent shall give notice as soon as practicable to Holders, in accordance with Condition 18 (*Notices*) of the Notes or Condition 19 (*Notices*) of the Certificates of the occurrence of a Commodity Custom Index Market Disruption Event and the action proposed to be taken in relation thereto.

### (b) **Consequences of a Commodity Custom Index Market Disruption Event and Disruption Fallbacks**

Upon a Commodity Custom Index Market Disruption Event occurring or continuing on any Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published by the Price Source), the Calculation Agent may, acting in good faith and in a commercially reasonable manner, take the action described in (i), (ii) or (iii) below:

- (i) the Calculation Agent shall determine if such event has a material effect on the Securities and, if so shall calculate the relevant Interest Amount and/or Cash Settlement Amount and/or make any other relevant calculation using, in lieu of a published price or level for the

relevant Custom Index the level for such Custom Index as determined by the Calculation Agent using the Commodity Fallback Value; or

- (ii) the Calculation Agent may substitute the relevant Commodity Reference Price or Index Component with a Commodity Reference Price or Index Component, as the case may be, selected by it acting in good faith and in a commercially reasonable manner (each, a "**Substitute Commodity Reference Price**" or a "**Substitute Index Component**") for each Commodity Reference Price or Index Component, as the case may be, (each, an "**Affected Commodity Reference Price**" or "**Affected Index Component**", as the case may be), which is affected by the Commodity Custom Index Market Disruption Event and the Substitute Commodity Reference Price or Substitute Index Component, as the case may be, will be deemed to be a "**Commodity Reference Price**" or an "**Index Component**", as the case may be, for the purposes of the Securities, and the Calculation Agent will make such adjustment, if any, to any one or more of the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate, provided that in the event that any amount payable under the Securities was to be determined by reference to the Commodity Reference Price or the initial price of the Index Component, as the case may be, the Substitute Commodity Reference Price or the initial price of the Substitute Index Component, as the case may be, will be determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

Such substitution and the relevant adjustment(s) will be deemed to be effective as of the date selected by the Calculation Agent (the "**Substitution Date**") acting in good faith and in a commercially reasonable manner which may, but need not, be the relevant date of the Commodity Custom Index Market Disruption Event. Such substitution will be notified to the Holders as soon as practicable after the Substitution Date in accordance with Condition 18 (*Notices*) of the Notes or Condition 19 (*Notices*) of the Certificates; or

If the Notes or Certificates are so redeemed the Issuer will pay an amount to each Noteholder or Certificateholder in respect of each redeemed Note or Certificate equal to the Early Redemption Amount in accordance with Condition 7(e) of the Notes or Condition 8(e) of the Certificates, as applicable. Payments will be made in such manner as shall be notified to the Noteholders in accordance with Condition 18 of the Notes or to the Certificateholders in accordance with Condition 19 of the Certificates; or
- (B) in the case of Warrants only, the Issuer may cancel the Warrants by giving notice to the Warrantholders in accordance with Condition 17 of the Warrants. If the Warrants are so cancelled the Issuer will pay an amount to each holder in respect of each Warrant or, if Units are specified in the applicable Final Terms, each Unit, as the case maybe, held by him which amount shall be the fair market value of a Warrant or a Unit, equal to the Early Termination Amount in accordance with Condition 8(c) of the Warrants. Payments will be made in such manner as shall be notified to the Warrantholders in accordance with Condition 17 of the Warrants;
- (C) if Highest Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Condition 18 of the Notes or to the Certificateholders in accordance with Condition 19 of the Certificates, redeem all but not some only of the Securities and pay to each Holder of Securities an amount in respect of each Security held by such Holder of Securities calculated and paid on such date determined in accordance with Condition 7(e)(ix) of the Notes or Condition 8(e)(viii) of the Certificates;

- (D) if Market Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Condition 18 of the Notes or to the Certificateholders in accordance with Condition 19 of the Certificates, redeem all but not some only of the Securities and pay to each Holder of Securities an amount in respect of each Security held by such Holder of Securities calculated and paid on such date determined in accordance with Condition 7(e)(x) of the Notes or Condition 8(e)(ix) of the Certificates; or
- (E) if Monetisation Option is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Condition 18 of the Notes or to the Certificateholders in accordance with Condition 19 of the Certificates, redeem all but not some only of the Securities and pay to each Holder of Securities an amount in respect of each Security held by such Holder of Securities calculated and paid on such date determined in accordance with Condition 7(e)(x) of the Notes or Condition 8(e)(ix) of the Certificates; or
- (F) if the Calculation Agent determines that such Commodity Custom Index Market Disruption Event constitutes a force majeure, and if Index Linked Condition 16.2(b)(iii)(F) is specified in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Condition 18 of the Notes or to the Certificateholders in accordance with Condition 19 of the Certificates, redeem all but not some only of the Securities and pay to each Holder of Securities an amount in respect of each Security held by such Holder of Securities, an amount in respect of each Security held by such Holder of Securities calculated and paid on such date determined, in accordance with Condition 7(v) (in the case of Notes) or in accordance with Condition 7(b) (in the case of Certificates) on the basis that ERE Force Majeure/No Unwind Costs applies.

The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Shares traded on that options exchange.

Upon the making of any such adjustment by the Calculation Agent, the Calculation Agent shall give notice as soon as practicable to the Holders of Securities in accordance with Condition 18 of the Notes, Condition 17 of the Warrants or Condition 19 of the Certificates, as applicable, stating the adjustment to any Relevant Asset and/or the Entitlement (in each case with respect to Physical Delivery Securities) and/or the Weighting and/or any of the other terms of these Share Linked Conditions and/or the applicable Final Terms and giving brief details of the Potential Adjustment Event and the Potential Adjustment Event Effective Date.

(B) Consequences of the occurrence of an Extraordinary Event

If an Extraordinary Event occurs in relation to a Share, the Calculation Agent shall (x) to the extent that an equivalent adjustment has been made in respect of the relevant Swap Agreement, take the action described in (i), (xi) and/or (xii) (if applicable), and (y) in the event that the circumstances giving rise to such Extraordinary Event result in an Additional Termination Event occurring in respect of the relevant Swap Agreement, take the action described in either (ii) (in the case of Securities relating to a Basket of Shares), (iii), (iv), (v), (vi), (vii), (viii), (ix) or (x) (as applicable) as it deems appropriate:

The relevant adjustments may include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or to the Securities. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the relevant Extraordinary Event made by any options exchange to options on the Shares traded on that options exchange; or

- (ii) in the case of Share Linked Securities relating to a Basket of Shares, notify the Issuer and the Issuer will redeem the Notes or Certificates, as applicable, in part by giving notice to Noteholders in accordance with Condition 18 of the Notes or to the Certificateholders in accordance with Condition 19 of the Certificates, or, as the case may be, cancel part of the Warrants by giving notice to the Warrantholders in accordance with Condition 17 of the Warrants. If the Securities are so redeemed in part the portion of each Note or Certificate (the "**Redeemed Amount**") or, as the case may be, the portion of each Warrant (the "**Cancelled Amount**") representing the affected Share(s) shall be redeemed or cancelled as the case may be, and the Issuer will:
  - (1) if Highest Value is specified as applicable in the applicable Final Terms, pay to each Holder of Securities an amount in respect of each Security held by such Holder of Securities calculated and paid on such date determined, in accordance with Condition 7(e)(ix) in the case of Notes or Condition 8(e)(viii) in the case of Certificates; or
  - (2) if Market Value is specified as applicable in the applicable Final Terms, pay to each Holder of Securities an amount in respect of each Security held by such Holder of Securities calculated and paid on such date determined, in accordance with Condition 7(e)(x) in the case of Notes or Condition 8(e)(ix); or
  - (3) in the case of Notes and Certificates only, where one of Highest Value, Market Value or Monetisation Option is specified as applicable in the applicable Final Terms in respect of an Extraordinary Event, if the Calculation Agent determines that such Extraordinary Event constitutes a force majeure, and if Share Linked Condition 2(b)(B)(ii)(3) is specified in the applicable Final Terms, pay to each Holder of Securities an amount in respect of each Security held by such Holder of Securities, calculated and paid on such date determined, in accordance with Condition 7(v) in (the case of Notes) or in accordance with Condition 7(b) (in the case of Certificates) on the basis that ERE Force Majeure/No Unwind Costs applies; or
  - (4) otherwise, pay to each Holder in respect of each Security held by him an amount equal to the fair market value of the Redeemed Amount or Cancelled Amount taking into account the relevant Extraordinary Event, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Swap Counterparty and/or its Affiliates of unwinding the relevant Swap Agreement (if any) (or part thereof) and any underlying related hedging arrangements, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner; and
- (iii) the Calculation Agent shall determine acting in good faith and in a commercially reasonable manner the appropriate adjustment, if any, to be made to any one or more of any Relevant Asset and/or the Entitlement (in each case with respect to Physical Delivery Securities) and/or the Weighting and/or any of the other terms of these Share Linked Conditions and/or the applicable Final Terms to account for such redemption or cancellation in part.

For the avoidance of doubt the remaining part of each Security after such redemption or cancellation, as the case may be, and adjustment shall remain outstanding with full force and effect. Payments will be made in such manner as shall be notified to the Holders of Securities in accordance with Condition

For the purposes of this Share Linked Condition 2(b)(B)(iv) "**Swap Early Termination Amount**" means an amount (if any) equal to, in respect of each Note or Certificate, and subject to a minimum of zero, a *pro rata share* of the sum of (1) the Early Termination Amount (as defined in the Swap Agreement) received by the Issuer under the Swap Agreement in connection with the termination of the Swap Agreement in whole or in part and (2) any interest which has accrued in respect of the amount of such Early Termination Amount received by the Issuer (which may be a positive or negative figure);

- (vi) in the case of Warrants only, notify the Issuer and the Issuer shall cancel the Warrants by giving notice to the Warrantholders in accordance with Condition 17 of the Warrants. If the Warrants are so cancelled the Issuer will pay an amount to each holder in respect of each Warrant or, if Units are specified in the applicable Final Terms, each Unit, as the case may be, held by him which amount shall be equal to the Early Termination Amount in accordance with Condition 8(c) of the Warrants. Payments will be made in such manner as shall be notified to the Warrantholders in accordance with Condition 17 of the Warrants;
- (vii) if Highest Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Condition 18 of the Notes or to Certificateholders in accordance with Condition 19 of the Certificates, redeem all but not some only of the Securities and pay to each Holder of Securities an amount in respect of each Security held by such Holder of Securities calculated and paid on such date determined, in accordance with Condition 7(e)(ix) (in the case of Notes) or in accordance with Condition 8(e)(viii) (in the case of Certificates);

- (ix) if Monetisation Option is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Condition 18 of the Notes, or to Certificateholders in accordance with Condition 19 of the Certificates redeem all but not some only of the Securities and pay to each Holder of Securities an amount in respect of each Security held by such Holder of Securities calculated and paid on such date determined, in accordance with Condition 7(e)(xi) (in the case of Notes) or in accordance with Condition 8(e)(x) (in the case of Certificates); or
- (x) in the case of Notes and Certificates only, where one of Highest Value, Market Value or Monetisation Option is specified as applicable in the applicable Final Terms in respect of an Extraordinary Event, if the Calculation Agent determines that such Extraordinary Event constitutes a force majeure and if Share Linked Condition 2(b)(B)(x) is specified in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Condition 18 of the Notes or to Certificateholders in accordance with Condition 19 of the Certificates, redeem all but not some only of the Securities and pay to each Holder of Securities an amount in respect of each Security held by such Holder of Securities, calculated and paid on such date determined, in accordance with Condition 7(v) (in the case of Notes) or in accordance with Condition 7(b) (in the case of Certificates) on the basis that ERE Force Majeure/No Unwind Costs applies;
- (xi) following such adjustment to the settlement terms of options on the Shares traded on such exchange(s) or quotation system(s) as is selected in respect of the Swap Agreement, if any (the "**Options Exchange**"), make a corresponding adjustment to any one or more of any Relevant Asset and/or the Entitlement (in each case with respect to Physical Delivery Securities) and/or the Weighting and/or any of the other terms of these Share Linked Conditions and/or the applicable Final Terms, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Options Exchange. If options on the Shares are not traded on the Options Exchange, the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (in each case with respect to Physical Delivery Securities) and/or the Weighting and/or any of the other terms of these Share Linked Conditions and/or the applicable Final Terms as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate, with reference to the rules and precedents (if any) set by the Options Exchange to account for the relevant Extraordinary Event, that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Exchange if such options were so traded; or
- (xii) on or after the relevant Extraordinary Event Effective Date the Calculation Agent may adjust the Basket of Shares to include a Share selected by it in accordance with the criteria for Share selection set out below (each, a "**Substitute Share**") for each Share (each, an "**Affected Share**") of each Basket Company (each, an "**Affected Basket Company**") which is affected by such Extraordinary Event and the Substitute Share will be deemed to be a "**Share**" and the relevant issuer of such shares, a "**Share Company**" or a "**Basket Company**" for the purposes of the Securities, and the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Securities are Physical

Delivery Securities) and/or the Weighting and/or any of the other terms of these Share Linked Conditions and/or the applicable Final Terms as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate, provided that in the event that any amount payable under the Securities was to be determined by reference to the Initial Price of the Affected Share, the Initial Price of each Substitute Share will be determined by the Calculation Agent in accordance with the following formula:

Initial Price (in the case of Notes or Certificates) / Exercise Price (in the case of Warrants) =  $A \times (B/C)$

where:

"A" is the official closing price of the relevant Substitute Share on the relevant Exchange on the Substitution Date;

"B" is the Exercise Price in the case of Warrants or, in the case of Notes or Certificates, the Initial Price of the relevant Affected Share; and

"C" is the official closing price of the relevant Affected Share on the relevant Exchange on the Substitution Date or, in the case of a Stapling, the official closing price of the relevant Affected Share on the Scheduled Trading Day immediately preceding the Extraordinary Event Effective Date.

Such substitution and the relevant adjustment to the Basket of Shares will be deemed to be effective as of the date selected by the Calculation Agent (the "**Substitution Date**") acting in good faith and in a commercially reasonable manner and specified in the notice referred to below which may, but need not, be the relevant Extraordinary Event Effective Date.

The Weighting of each Substitute Share in the Basket of Shares will be equal to the Weighting of the relevant Affected Share.

In order to be selected as a Substitute Share in the Basket of Shares, the relevant share must satisfy the following criteria, in the determination of the Calculation Agent, acting in good faith and in a commercially reasonable manner:

- (a) where the relevant Extraordinary Event is a Merger Event or a Tender Offer and the relevant share is not already included in the Basket of Shares, the relevant share shall be an ordinary share of the entity or person (other than the Affected Basket Company) involved in the Merger Event or the making of the Tender Offer, that is, or that as of the relevant Extraordinary Event Effective Date is promptly scheduled to be, (i) publicly quoted, traded or listed on an exchange or quotation system located in the same country as the relevant Exchange (or, where the relevant Exchange is within the European Union, in any Member State of the European Union) and (ii) not subject to any currency exchange controls, trading restrictions or other trading limitations; or
- (b) where the relevant Extraordinary Event is a Merger Event or a Tender Offer and a share would otherwise satisfy the criteria set out in paragraph (a) above, but such share is already included in the Basket of Shares or such share does not satisfy the criteria set out in the paragraph above, or in the case of an Extraordinary Event other than a Merger Event or a Tender Offer:
  - (i) the relevant issuer of the share shall belong to the same economic sector as the Affected Basket Company;
  - (ii) the relevant issuer of the share shall have a comparable market capitalisation, international standing and exposure as the Affected Basket Company in respect of the Affected Share; and

- (iii) in the case of the occurrence of a CSR Event only, the relevant issuer of the share shall have a comparable Non-Financial Rating to the Affected Basket Company.

Notwithstanding the foregoing, in the case of a Stapling, the Affected Share may be substituted with the Stapled Shares and the provisions of Share Linked Condition 11 (*Extraordinary Event*) shall apply in respect of such Stapled Shares.

- (C) In determining to take a particular action as a result of an Extraordinary Event, the Calculation Agent is under no duty to consider the interests of Holders of Securities or any other person. In making any determination as to which action to take following the occurrence of an Extraordinary Event, (to the extent permitted by any applicable laws) none of the Calculation Agent, the Issuer or the Swap Counterparty shall be responsible for any loss (including liability in respect of interest), underperformance or opportunity cost suffered or incurred by Holders of Securities or any other person in connection with the Securities as a result thereof, howsoever arising including as a result of any delay in making any payment or delivery in respect of the Securities.
  - (D) If the Calculation Agent determines that more than one Extraordinary Event occurs in respect of a Share Company or a Basket Company, which are not connected and have different consequences pursuant to this Share Linked Condition 2, the Calculation Agent will determine which such Extraordinary Event and related consequences shall apply acting in good faith and in a commercially reasonable manner.
  - (E) Upon the occurrence of an Extraordinary Event, if the Calculation Agent determines to take any action in respect thereof it shall give notice as soon as practicable to the Holders of Securities in accordance with Condition 18 of the Notes, Condition 17 of the Warrants or Condition 19 of the Certificates, as applicable, stating the occurrence of the Extraordinary Event giving details thereof and the action proposed to be taken in relation thereto, including, in the case of a Share Substitution, the identity of the Substitute Shares and the Substitution Date.
- (c) Hedging Liquidity Event
- (A) "**Hedging Liquidity Event**" means that, at any time after the Listing Date of the Securities, the volume of Shares held by the Swap Counterparty and/or any of its Affiliates in relation to any hedging arrangements in respect of the Securities is above the Maximum Hedging Liquidity Level; and  
  
"**Maximum Hedging Liquidity Level**" means the percentage specified as such in the applicable Final Terms or, if not so specified, 50 per cent. of the daily average volume of the transactions on the Shares on the Exchange over the last 6 month time period appearing on the relevant Screen Page.
  - (B) In the case of Notes or Certificates, if Hedging Liquidity Event is specified as applicable in the applicable Final Terms and in the determination of the Calculation Agent a Hedging Liquidity Event occurs in relation to a Share, it may notify the Issuer and the Issuer will redeem the Securities by giving notice to Holders in accordance with Condition 18 of the Notes, Condition 17 of the Warrants or Condition 19 of the Certificates, as applicable. If the Notes or Certificates are so redeemed the Issuer will pay an amount to each Holder in respect of each Note or Certificate, as applicable, equal to the Early Redemption Amount in accordance with Condition 7(e) of the Notes or Condition 8(e) of the Certificates, as applicable. Payments will be made in such manner as shall be notified to the Holders in accordance with Condition 18 of the Notes and Condition 19 of the Certificates, as applicable.
  - (C) In the case of Warrants only, if Hedging Liquidity Event is specified as applicable in the applicable Final Terms and in the determination of the Calculation Agent a Hedging Liquidity Event occurs in relation to a Share, it may notify the Issuer and the Issuer shall cancel the Warrants by giving notice to the Warrantholders in accordance with Condition

17 of the Warrants. If the Warrants are so cancelled the Issuer will pay an amount to each holder in respect of each Warrant or, if Units are specified in the applicable Final Terms, each Unit, as the case may be, held by him which amount shall be equal to the Early Termination Amount in accordance with Condition 8(c) of the Warrants. Payments will be made in such manner as shall be notified to the Warrantholders in accordance with Condition 17 of the Warrants.

### 3. Correction of Share Price

With the exception of any corrections published after the day which is three Business Days prior to the due date for any payment under the Securities, if the price of relevant Share published on a given day and used or to be used by the Calculation Agent to make any determination under the Securities, is subsequently corrected and the correction published by the relevant Exchange within the number of days equal to the Share Correction Period of the original publication, the price to be used shall be the price of the relevant Share as so corrected. Corrections published after the day which is three Business Days prior to a due date for payment under the Securities will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

"**Averaging Date**" means

- (a) each date specified as an Averaging Date in the applicable Final Terms or, if any such date is not a Scheduled Trading Day, the immediately following Scheduled Trading Day unless, in the opinion of the Calculation Agent any such day is a Disrupted Day. If any such day is a Disrupted Day, then:
  - (A) If "**Omission**" is specified as applying in the applicable Final Terms, then such date will be deemed not to be an Averaging Date for the purposes of determining the relevant Settlement Price provided that, if through the operation of this provision no Averaging Date would occur, then the provisions of the definition of "**Valuation Date**" will apply for purposes of determining the relevant level, price, value or amount on the final Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day; or
  - (B) if "**Postponement**" is specified as applying in the applicable Final Terms, then the provisions of the definition of "**Valuation Date**" will apply for the purposes of determining the relevant level, price, value or amount on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or

If the first succeeding Valid Date has not occurred for a number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date, then (A) that last such consecutive Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether such Scheduled Trading Day is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant level or price for

that Averaging Date in accordance with sub-paragraph (A)(ii) of the definition of "**Valuation Date**" below;

- (ii) where the Securities are Share Linked Securities relating to a Basket of Shares, the Averaging Date for each Share not affected by the occurrence of a Disrupted Day shall be the originally designated Averaging Date (the "**Scheduled Averaging Date**") and the Averaging Date for each Share affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date (as defined below) in relation to such Share. If the first succeeding Valid Date in relation to such Share has not occurred for a number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date, then (A) that such Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that last such consecutive Scheduled Trading Day is already an Averaging Date) in respect of such Share, and (B) the Calculation Agent shall determine the relevant level, price, value or amount for that Averaging Date in accordance with sub-paragraph (B)(ii) of the definition of "**Valuation Date**" below; and
  - (iii) for the purposes of these Share Linked Conditions, "**Valid Date**" means a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date does not occur.

- (iv) for the purposes of these Debt Linked Conditions, "**Valid Date**" means a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date does not occur; or

**2. Consequences of a Market Disruption Event and Disruption Fallbacks**

- 2.1 Upon a Market Disruption Event occurring or continuing on any Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published by the Price Source), the Calculation Agent may (a) take the action described in (i) and/or (ii) below or (b), take the action set out in (iii) below or (c) (in the case of a Commodity that is an EU Allowance) (viii) below:

#### 3.2 Modification and Cessation of Calculation of a Commodity Index

- (iv) if Monetisation Option is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Condition 18 of the Notes, or to Certificateholders in accordance with Condition 19 of the Certificates redeem all but not some only of the Securities and pay to each Holder of Securities an amount in respect of each Security held by such Holder of Securities calculated and paid on such date determined, in accordance with Condition 7(e)(xi) (in the case of Notes) or in accordance with Condition 8(e)(x) (in the case of Certificates).
- (v) in the case of Notes and Certificates only, where one of Highest Value, Market Value or Monetisation Option is specified as applicable in the applicable Final Terms in respect of a Commodity Index Adjustment Event, if the Calculation Agent determines that such Commodity Index Adjustment Event constitutes a force majeure, and if Commodity Linked Condition 3.2(a)(v) is specified in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Condition 18 of the Notes, or to Certificateholders in accordance with Condition 19 of the Certificates, redeem all but not some only of the Securities and pay to each Holder of Securities an amount in respect of each Security held by such Holder of Securities calculated and paid on such date determined in accordance with Condition 7(v) (in the case of Notes) or in accordance with Condition 7(b)(in the case of Certificates) on the basis that ERE Force Majeure/No Unwind Costs is applicable.

In the event of any inconsistency between (i) the Conditions and/or the Inflation Linked Conditions and (ii) the Final Terms, the Final Terms shall prevail.*

**1. Delay in Publication**

If the Calculation Agent determines that a Delayed Index Level Event in respect of an Inflation Index has occurred with respect to any Valuation Date, then the Relevant Level with respect to any Reference Month which is to be utilised in any calculation or determination to be made by the Calculation Agent with respect to such Valuation Date (the "**Substitute Inflation Index Level**") shall be determined by the Calculation Agent (subject to Inflation Linked Condition 3(ii) below), as follows:

- (i) if Related Bond is specified as applicable in the applicable Final Terms, the Calculation Agent shall determine the Substitute Inflation Index Level by reference to the corresponding index level determined under the terms and conditions of the Related Bond; or
- (ii) if (I) Related Bond is specified as not applicable in the applicable Final Terms, or (II) the Calculation Agent is not able to determine a Substitute Inflation Index Level under (i) above, the Calculation Agent shall determine the Substitute Inflation Index Level by reference to the following formula:

$$\text{Substitute Inflation Index Level} = \text{Base Level} \times (\text{Latest Level}/\text{Reference Level}),$$

where:

**"Base Level"** means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Inflation Index Level is being determined.

**"Latest Level"** means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor prior to the month in respect of which the Substitute Inflation Index Level is being determined.

**"Reference Level"** means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the month that is 12 calendar months prior to the month in respect of the Latest Level.

The Calculation Agent shall notify the Issuer and the Issuer shall promptly give notice to Holders of Securities in accordance with Condition 18 of the Notes, Condition 17 of the Warrants or Condition 19 of the Certificates, as applicable, of any Substitute Inflation Index Level.

If the Relevant Level is published or announced at any time on or after the relevant Cut-Off Date specified in the applicable Final Terms, such Relevant Level will not be used in any calculations. The Substitute Inflation Index Level so determined pursuant to this Inflation Linked Condition 1 will be the definitive level for that Reference Month.

## 2. SUCCESSOR INFLATION INDEX

If the Calculation Agent determines that the level of an Inflation Index is not calculated and announced by the Index Sponsor for two consecutive months and/or the Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index and/or the Index Sponsor cancels the Inflation Index (each of which, an "**Inflation Index Adjustment Event**") then the Calculation Agent shall determine a successor index (a "**Successor Inflation Index**") (in lieu of any previously applicable Inflation Index) for the purposes of the Securities as follows:

- (i) if Related Bond is specified as applicable in the applicable Final Terms, the Calculation Agent shall determine a "Successor Inflation Index" by reference to the corresponding successor index determined under the terms and conditions of the Related Bond;
- (ii) if (x) Related Bond is specified as not applicable in the Final Terms or (y) a Related Bond Redemption Event has occurred and Fallback Bond is specified as not applicable in the applicable Final Terms, the Index Sponsor announces that it will no longer publish or announce the Inflation Index but that it will be superseded by a replacement Inflation Index specified by the Index Sponsor, and the Calculation Agent determines that such replacement Inflation Index is calculated using the same or a substantially similar formula or method of calculation as used in the calculation of the Inflation Index, such replacement index shall be designated a "Successor Inflation Index";
- (iii) if no Successor Inflation Index has been deemed under (i) or (ii) the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be; if between four and five responses are received, and of those four or five responses, three or more leading independent dealers state the same index, such index will be deemed the "Successor Inflation Index"; if three responses are received, and two or more leading independent dealers state the same index, such index will be deemed the "Successor Inflation Index"; if fewer than three responses are received by the Cut-Off Date the Calculation Agent will determine an appropriate alternative index, and such index will be deemed a "Successor Inflation Index"; or
- (iv) if the Calculation Agent determines that there is no appropriate alternative index, there will be deemed to be no Successor Inflation Index and an Index Cancellation will be deemed to have occurred.

For the avoidance of doubt, the Calculation Agent shall determine the date on which the Successor Inflation Index shall be deemed to replace the Inflation Index for the purposes of the Securities. Notwithstanding any other provision of this Inflation Linked Condition 2, in making its determinations hereunder, the Calculation Agent shall, to the extent applicable to the relevant Securities, take into account any corresponding or similar determination or selection or any other adjustment or calculation made in respect of the relevant Swap Agreement in relation to such Inflation Index Adjustment Event.

Notice of the determination of a Successor Inflation Index, the effective date of the Successor Inflation Index or the occurrence of an Index Cancellation will be given to the Issuer by the Calculation Agent and the Issuer will give notice to Holders of Securities in accordance with Condition 18 of the Notes, Condition 17 of the Warrants or Condition 19 of the Certificates, as applicable.

The Issuer shall give notice to the Holders of Securities of any such adjustment in accordance with Condition 18 of the Notes, Condition 17 of the Warrants, or Condition 19 of the Certificates, as applicable.

- (b) If, within 30 days of publication or at any time prior to a Valuation Date in respect of which a Relevant Level will be used in any calculation or determination in respect of such Valuation Date, the Calculation Agent determines that the Index Sponsor has corrected the Relevant Level to correct a manifest error, the Calculation Agent may make any adjustment to any amount payable under the Securities and/or any other relevant term of the Securities as the Calculation Agent determines to be appropriate acting in good faith and in a commercially reasonable manner as a result of such correction and/or determine the amount (if any) that is payable as a result of that correction. If the Calculation Agent determines that neither (A) nor (B) above would produce a commercially reasonable result, the Calculation Agent may notify the Issuer and on such notification the Issuer shall redeem each Note or Certificate, or cancel each Warrant, as applicable, on a date notified by the Issuer to Holders of Securities in accordance with Condition 18 of the Notes, Condition 17 of the Warrants, or Condition 19 of the Certificates, as applicable, in which event the Issuer will pay to each Holder of Securities in respect of each such Security or, if Units are specified in the applicable Final Terms, each Unit, held by him an amount equal to its Early Redemption

- (A) with respect to each Fund Index Component which is not affected by an Extraordinary Fund Event, the index level will be calculated using the NAV per Fund Share of such Fund Index Component on the relevant Settlement Price Date; and
- (B) with respect to each Fund Index Component which is affected by an Extraordinary Fund Event (each an "**Affected Fund Index Component**"), the index level will be calculated using the NAV per Fund Share of such Fund Index Component on the first Fund Business Day following the relevant Settlement Price Date on which no Extraordinary Fund Event occurs or is subsisting with respect to the Affected Fund Index Component, unless an Extraordinary Fund Event in respect of the Affected Fund Index Component is occurring for the number of consecutive Fund Business Days equal to the Maximum Days of Disruption immediately following the relevant Settlement Price Date. In that case the last such consecutive Fund Business Day shall be deemed to be the Settlement Price Date for the Affected Fund Index Component, notwithstanding the Extraordinary Fund Event and the Calculation Agent will determine the price of the Affected Fund Index Component based upon the price at which a Hypothetical Investor can sell or otherwise realise any hedge positions in respect of an Affected Fund Index Component during the period of five Fund Business Days following such Settlement Price Date;
- (b) require the Calculation Agent to use reasonable efforts to substitute the Fund Index that includes the Affected Fund Index Component (the "**Affected Fund Index**") with an alternative fund index which, in the determination of the Calculation Agent (acting in good faith and in a commercially reasonable manner) measures the same (or a substantially similar) market or economic reality as the Affected Fund Index, including, but not limited to, the method of calculation; or
- (c) on giving notice to Noteholders in accordance with Condition 18 of the Notes, or to Certificateholders in accordance with Condition 19 of the Certificates or to Warrantholders in accordance with Condition 17 of the Warrants (which such notice may be included in the Extraordinary Fund Event Notice in respect of the relevant Extraordinary Fund Event), redeem all but not some only of the outstanding Securities by payment of the Termination Amount on the date determined as set out in the definition of Termination Amount, payment being made in such manner as shall be notified to the Noteholders in accordance with Condition 18 of the Notes, or to Certificateholders in accordance with Condition 19 of the Certificates or to Warrantholders in accordance with Condition 17 of the Warrants.

#### 10. Consequences of an Extraordinary Euro Fund Event

If an Extraordinary Euro Fund Event occurs in relation to a Euro Fund, the Calculation Agent may take any of the relevant action(s) described in (a), (b) or (c) below as it deems appropriate:

- (a) determine acting in good faith and in a commercially reasonable manner the appropriate adjustment, if any, to be made to any of the terms of these Terms and Conditions and/or the applicable Final Terms to account for the relevant Extraordinary Euro Fund Event and determine the effective date of that adjustment. The relevant adjustments may include, without limitation, adjustments to account for changes to the Gross Rate of Return, the Provisional Minimum Rate or to the Securities;
- (b)
  - (i) the Calculation Agent may give notice to the Issuer and, unless Delayed Redemption on Extraordinary Euro Fund Event is specified as applicable in the applicable Final Terms, the Issuer shall, on giving notice to Noteholders in accordance with Condition 18 of the Notes, or Certificateholders in accordance with Condition 19 of the Certificates, as applicable, redeem or cancel, as applicable, all but not some only of the Securities, each Security being redeemed or cancelled, as applicable, by payment of an amount equal to the Early Redemption Amount (in the case of Notes or Certificates) in accordance with Condition 7(e) of the Notes or Condition 8(e) of the Certificates. Payment shall be made in such manner as shall be notified to the Noteholders in accordance with Condition 18 of the Notes or the Certificateholders in accordance with Condition 19 of the Certificates, as applicable; or
  - (ii) if Delayed Redemption on Extraordinary Euro Fund Event is specified as being applicable in the applicable Final Terms and Early Redemption Amount is specified as applicable in the applicable Final Terms, on the Maturity Date (in the case of Notes) or on the Redemption Date (in the case of Certificates) the Issuer shall redeem each Note or Certificate, as applicable, at an amount calculated by the Calculation Agent equal to the sum of (x) the Protected Amount (specified in the applicable Final Terms) and (y) the Swap Early Termination Amount (if any).

For the purposes of this Fund Linked Condition 10(b)(ii) "**Swap Early Termination Amount**" means an amount (if any) equal to, in respect of each Note or Certificate, and subject to a minimum of zero, a pro rata share of the sum of (1) the Early Termination Amount (as defined in the Swap Agreement) received by the Issuer under the Swap Agreement in connection with the termination of the Swap

Agreement in whole or in part and (2) any interest which has accrued in respect of the amount of such Early Termination Amount received by the Issuer (which may be a positive or negative figure); or

- (c) on or after the relevant Extraordinary Euro Fund Effective Date, the Calculation Agent may substitute the Euro Fund affected by an Extraordinary Euro Fund Event (the "**Affected Euro Fund**") with an alternative insurance or investment policy or capitalisation contract backed by euro-denominated assets in accordance with the criteria set out below (the "**Substitute Euro Fund**") and the Substitute Euro Fund will be deemed to be the Euro Fund and the relevant insurance company offering the insurance or investment policy or capitalisation contract, the Insurance Company, for the purposes of the Securities. The Calculation Agent will make such adjustment, if any, to any of the terms of these Terms and Conditions and/or the applicable Final Terms as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate.

Such substitution and the relevant adjustment (if any) will be deemed to be effective as of the date selected by the Calculation Agent (the "**Substitution Date**") acting in good faith and in a commercially reasonable manner and specified in the notice referred to below which may, but need not be, the relevant Extraordinary Euro Fund Event Effective Date.

For the avoidance of doubt, the Substitute Euro Fund may, but need not, be offered by the same Insurance Company as the Affected Euro Fund.

If the Calculation Agent determines that more than one Extraordinary Euro Fund Event has occurred in respect of a Euro Fund, which are not connected and have different consequences pursuant to this Fund Linked Condition 10, the Calculation Agent will determine which such Extraordinary Euro Fund Event and related consequences shall apply acting in good faith and in a commercially reasonable manner.

Upon the occurrence of an Extraordinary Euro Fund Event, if the Calculation Agent determines that an adjustment in accordance with the above provisions is necessary it shall notify the Issuer thereof as soon as practicable, and the Issuer shall give notice as soon as practicable to the Holders of the Securities in accordance with in accordance with Condition 18 of the Notes, or Condition 19 of the Certificates, as applicable, stating the occurrence of the Extraordinary Euro Fund Event, giving details thereof and the action proposed to be taken in relation thereto.

In the event of any inconsistency between (i) the Conditions and/or the Underlying Interest Rate Linked Conditions and/or the Additional Terms and Conditions and (ii) the Final Terms, the Final Terms shall prevail.*

**1. Underlying Interest Rate Determination**

In respect of each Underlying Interest Determination Date specified in the applicable Final Terms, the Underlying Interest Rate or, if two or more Underlying Interest Rates are specified in the applicable Final Terms, each Underlying Interest Rate will be determined in the manner specified in the applicable Final Terms. Each Underlying Interest Rate comprising a Multiple Underlying Interest Rate will be calculated separately and independently as provided below and in the applicable Final Terms.

**2. ISDA Determination**

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Underlying Interest Rate is to be determined, the Underlying Reference Rate will be the relevant Underlying ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Underlying Margin (if any) specified in the applicable Final Terms. For the purposes of these Underlying Interest Rate Linked Conditions, "**Underlying ISDA Rate**" means a rate equal to the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent (as defined in the ISDA Definitions) for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Securities (the "**ISDA Definitions**") and under which:

- (a) the Floating Rate Option is as specified in the applicable Final Terms, provided that, if the Floating Rate Option specified in the applicable Final Terms is a EURIBOR rate, in the event that EURIBOR has been discontinued, such other successor benchmark rate as the financial industry shall have accepted as a successor or substitute rate for EURIBOR;
- (b) the Designated Maturity is a period specified in the applicable Final Terms; and
- (c) the relevant Reset Date is as specified in the applicable Final Terms.

For the purposes of these Underlying Interest Rate Linked Conditions, "**Floating Rate**", "**Floating Rate Option**", "**Designated Maturity**" and "**Reset Date**" have the meanings given to those terms in the ISDA Definitions.

3. **Screen Rate Determination**

- (a) (i) Where "Screen Rate Determination – IBOR" is specified in the applicable Final Terms as the manner in which the Underlying Interest Rate is to be determined, the Underlying Reference Rate will, subject as provided below, be either:

(A) the offered quotation; or

(B) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Underlying Reference Rate(s) which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) as at the Specified Time indicated in the applicable Final Terms (which will be 11.00 a.m., Brussels time, in the case of EURIBOR) (the "**Screen Page Underlying Reference Rate**") on the Underlying Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Underlying Margin (if any), all as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

- (ii) In the event that the Relevant Screen Page is not available or if, in the case of (i)(A) above, no such offered quotation appears on the Relevant Screen Page (or such replacement page on that service which displays the information) or, in the case of (i)(B) above, fewer than three such offered quotations appear on the Relevant Screen Page (or such replacement page on that service which displays the information), in each case as at the Specified Time indicated above or in the applicable Final Terms, except as provided in paragraph (iii) below the Calculation Agent will determine the Underlying Reference Rate at such time acting in good faith and in a commercially reasonable manner.

- (iii) If the Calculation Agent determines at any time prior to any Underlying Interest Determination Date, that the Screen Page Underlying Reference Rate has been discontinued, the Calculation Agent will use, as a substitute for the Screen Page Underlying Reference Rate, the alternative reference rate selected by the central bank, reserve bank, monetary authority or any similar institution (including any committee or working group thereof) in the jurisdiction or region of the currency of the relevant rate (each a "**Relevant Nominating Body**") that is consistent with industry accepted standards, provided that, if two or more alternative reference rates are selected by any Relevant Nominating Body, the Calculation Agent shall determine which of those alternative reference rates is most appropriate to preserve the economic features of the relevant Securities. If the Calculation Agent notifies the Issuer that it is unable to determine such an alternative reference rate, the Calculation Agent will as soon as reasonably practicable (and in any event before the Business Day prior to the applicable Underlying Interest Determination Date) appoint an agent (the "**Underlying Reference Rate Determination Agent**"), which will determine whether a substitute or successor rate, which is substantially comparable to the Screen Page Underlying Reference Rate, is available for the purpose of determining the Underlying Reference Rate on each Underlying Interest Determination Date falling on or after the date of such determination. If the Underlying Reference Rate Determination Agent determines that there is an industry accepted successor rate, the Underlying Reference Rate Determination Agent will notify the Issuer and the Calculation Agent of such successor rate to be used by the Calculation Agent to determine the Underlying Interest Rate.

If the Underlying Reference Rate Determination Agent or the Calculation Agent, as applicable has determined a substitute or successor rate in accordance with the foregoing paragraph (such rate, the "**Replacement Underlying Reference Rate**"), for the purpose of determining the Underlying Reference Rate on each Underlying Interest Determination Date falling on or after such determination:

- (A) the Underlying Reference Rate Determination Agent or the Calculation Agent, as applicable, will also determine the changes (if any) required to the Underlying Interest Determination Date and any method for obtaining the Replacement Underlying Reference Rate, including any adjustment needed to make such Replacement Underlying Reference Rate comparable to the Screen Page Underlying Reference Rate, in each case acting in good faith and in a commercially reasonable manner that is consistent with industry-accepted practices for such Replacement Underlying Reference Rate;
- (B) references to the Underlying Reference Rate in these Underlying Interest Rate Linked Conditions will be deemed to be references to the relevant Replacement Underlying Reference Rate, including any alternative method for determining such rate as described in (A) above;
- (C) the Underlying Reference Rate Determination Agent or the Calculation Agent, as applicable, will notify the Issuer of the Replacement Underlying Reference Rate, and the details described in (A) above as soon as reasonably practicable; and
- (D) the Issuer will give notice to the Holders of Securities in accordance with Condition 18 of the Notes or Condition 19 of the Certificates, as applicable, and the Calculation Agent of the Replacement Underlying Reference Rate and the details described in (A) above as soon as reasonably practicable but in any event no later than 5:00 p.m. (London time) on the Business Day prior to the applicable Underlying Interest Determination Date.

The determination of the Replacement Underlying Reference Rate and the other matters referred to above by the Underlying Reference Rate Determination Agent or the Calculation Agent, as applicable, will (in the absence of manifest error) be final and binding on the Issuer, the Calculation Agent and the Holders of Securities, unless the Issuer, the Calculation Agent or the Underlying Reference Rate Determination Agent determines at a later date that the Replacement Underlying Reference Rate is no longer substantially comparable to the Underlying Reference Rate or does not constitute an industry accepted successor rate, in which case the Calculation Agent shall appoint or re-appoint a Underlying Reference Rate Determination Agent, as the case may be (which may or may not be the same entity as the original Underlying Reference Rate Determination Agent or the Calculation Agent) for the purpose of confirming the Replacement Underlying Reference Rate or determining a substitute Replacement Underlying Reference Rate in an identical manner as described in this paragraph (iii). If the replacement Underlying Reference Rate Determination Agent or the Calculation Agent, as applicable, is unable to or otherwise does not determine a substitute Replacement Underlying Reference Rate, then the Replacement Underlying Reference Rate will remain unchanged.

The Underlying Reference Rate Determination Agent may be (x) a leading bank, broker-dealer or benchmark agent in the principal financial centre of the currency of the relevant rate as appointed by the Calculation Agent, (y) the Swap Counterparty or the Guarantor (if any) or (z) an affiliate of the Swap Counterparty, the Guarantor (if any) or the Calculation Agent.

Notwithstanding paragraphs (i) to (iii) above, if the Calculation Agent determines on or prior to the SOFR Determination Time, that a SOFR Transition Event and its related SOFR Replacement Date have occurred with respect to the relevant SOFR Benchmark (as defined below), then the provisions set forth in Underlying Interest Rate Linked Condition 3(c)(iv) (SOFR Replacement Provisions) below will apply to all determinations of the Underlying Reference Rate for each Underlying Interest Determination Date thereafter.

(iv) SOFR Replacement Provisions

If the Calculation Agent determines at any time prior to the SOFR Determination Time on any U.S. Government Securities Business Day that a SOFR Transition Event and the related SOFR Replacement Date have occurred, the Calculation Agent will appoint an agent (the **"Replacement Underlying Rate Determination Agent"**) which will determine the SOFR Replacement. The Replacement Underlying Rate Determination Agent may be (x) a leading bank, broker-dealer or benchmark agent in the principal financial centre of the Settlement Currency as appointed by the Calculation Agent, (y) the Issuer or the Guarantor (if applicable), (z) an affiliate of the Issuer, the Guarantor (if applicable) or the Calculation Agent or (aa) such other entity that the Calculation Agent determines to be competent to carry out such role.

In connection with the determination of the SOFR Replacement, the Replacement Underlying Rate Determination Agent will determine appropriate SOFR Replacement Conforming Changes.

Any determination, decision or election that may be made by the Calculation Agent or Replacement Underlying Rate Determination Agent (as the case may be) pursuant to these provisions, will (in the absence of manifest error) be conclusive and binding on the Issuer, the Calculation Agent, the Issuing and Paying Agent or the Principal Warrant and Certificate Agent, as the case may be, and the Holders of Securities.

Following the designation of a SOFR Replacement, the Calculation Agent may subsequently determine that a SOFR Transition Event and a related SOFR Replacement Date have occurred in respect of such SOFR Replacement, provided that the SOFR Benchmark has already been substituted by the SOFR Replacement and any SOFR Replacement Conforming Changes in connection with such substitution have been applied. In such circumstances, the SOFR Replacement shall be deemed to be the SOFR Benchmark and all relevant definitions shall be construed accordingly.

In connection with the SOFR Replacement provisions above, the following definitions shall apply:

**"2006 ISDA Definitions"** means, in respect of a Series of Securities, the 2006 ISDA Definitions published by the International Swaps and Derivatives Association, Inc. or any successor thereto ("**ISDA**"), as amended, updated or supplemented as at the Issue Date of the first Tranche of Securities of such Series;

**"SOFR Replacement"** means any one (or more) of the SOFR Replacement Alternatives to be determined by the Replacement Underlying Rate Determination Agent as of the SOFR Replacement Date if the Calculation Agent determines that a SOFR Transition Event and its related SOFR Replacement Date have occurred on or prior to the SOFR Determination Time in respect of any determination of the SOFR Benchmark on any U.S. Government Securities Business Day in accordance with:

- (a) the order of priority specified as the SOFR Replacement Alternatives Priority in the applicable Final Terms; or

- (ii) ISDA Fallback Replacement; and

provided, in each case, that, if the Replacement Underlying Rate Determination Agent is unable to determine the SOFR Replacement in accordance with the first SOFR Replacement Alternative listed, it shall attempt to determine the SOFR Replacement in accordance with the each subsequent SOFR Replacement Alternative until a SOFR Replacement is determined. The SOFR Replacement will replace the then-current SOFR Benchmark for the purpose of determining the relevant Underlying Reference Rate in respect of the relevant Underlying Interest Determination Date and any subsequent Underlying Interest Determination Date, subject to the occurrence of a subsequent SOFR Transition Event and related SOFR Replacement Date;

**"SOFR Replacement Adjustment"** means the first alternative set forth in the order below that can be determined by the Replacement Underlying Rate Determination Agent as of the applicable SOFR Replacement Date:

- (a) the spread adjustment, or method for calculating or determining such spread adjustment (which may be a positive or negative value or zero) that has been selected or recommended by the Relevant Governmental Body for the applicable Unadjusted SOFR Replacement;

market practice (or, if the Replacement Underlying Rate Determination Agent determines that adoption of any portion of such market practice is not administratively feasible or if the Replacement Underlying Rate Determination Agent determines that no market practice for use of the SOFR Replacement exists, in such other manner as the Replacement Underlying Rate Determination Agent or the Calculation Agent, as the case may be, determines is reasonably necessary, acting in good faith and in a commercially reasonable manner);

**"SOFR Replacement Date"** means the earliest to occur of the following events with respect to the then-current SOFR Benchmark (including the daily published component used in the calculation thereof):

- (a) in the case of sub-paragraphs (a) or (b) of the definition of "SOFR Transition Event" the later of (i) the date of the public statement or publication of information referenced therein and (ii) the date on which the administrator of the SOFR Benchmark permanently or indefinitely ceases to provide the SOFR Benchmark (or such component); or
- (b) in the case of sub-paragraph (c) of the definition of "SOFR Transition Event" the date of the public statement or publication of information referenced therein; or
- (c) in the case of sub-paragraph (d), the last such consecutive U.S. Government Securities Business Day on which the SOFR Benchmark has not been published,

provided that, in the event of any public statements or publications of information as referenced in sub-paragraphs (a) or (b) above, should such event or circumstance referred to in such a public statement or publication occur on a date falling later than three (3) months after the relevant public statement or publication, the SOFR Transition Event shall be deemed to occur on the date falling three (3) months prior to such specified date (and not the date of the relevant public statement or publication).

For the avoidance of doubt, if the event giving rise to the SOFR Replacement Date occurs on the same day as, but earlier than, the SOFR Determination Time in respect of any determination, the SOFR Replacement Date will be deemed to have occurred prior to the SOFR Determination Time for such determination.

**"SOFR Transition Event"** means the occurrence of any one or more of the following events with respect to the then-current SOFR Benchmark (including the daily published component used in the calculation thereof):

(ii) **€STR Fallback provisions**

(A) *A €STR Transition Event has occurred*

If the Calculation Agent determines at any time prior to the €STR Reference Time on any T2 Business Day that a €STR Transition Event and the related €STR Replacement Date have occurred, the Calculation Agent will appoint an agent (the "**Replacement Underlying Rate Determination Agent**") which will determine the €STR Replacement. The Replacement Underlying Rate Determination Agent may be (x) a leading bank, broker-dealer or benchmark agent in the principal financial centre of the Settlement Currency as appointed by the Calculation Agent, (y) the Issuer or the Guarantor (if applicable), (z) an affiliate of the Issuer, the Guarantor (if applicable) or the Calculation Agent or (aa) such other

- 1144 -

entity that the Calculation Agent determines to be competent to carry out such role. In connection with the determination of the €STR Replacement:

- (X) the €STR Replacement will replace the then-current €STR Benchmark for all purposes relating to the relevant Securities in respect of such determination on such date and all determinations on all subsequent dates;
- (Y) the Replacement Underlying Rate Determination Agent may make €STR Replacement Conforming Changes with respect to the relevant Securities from time to time;

any determination, decision or election that may be made by the Replacement Underlying Rate Determination Agent pursuant to this Underlying Interest Rate Linked Condition 3(d)(ii) including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, in each case, solely with respect to the relevant Securities, will be conclusive and binding absent manifest error, will be made by the Replacement Underlying Rate Determination Agent acting in good faith and a commercially reasonable manner;

- (Z) to the extent that there is any inconsistency between this Underlying Interest Rate Linked Condition 3(d)(ii) and any other Terms and Conditions, this Underlying Interest Rate Linked Condition 3(d)(ii) shall prevail with respect to any Securities for which the Underlying Reference Rate is calculated in accordance with this Underlying Interest Rate Linked Condition 3(d)(ii);
- (AA) the Calculation Agent may determine that it is appropriate for an €STR Replacement to replace the then-current €STR Benchmark and apply any €STR Replacement Conforming Changes in respect of any subsequent €STR Transition Event; and
- (BB) where an €STR Transition Event or details of it are announced prior to the relevant €STR Replacement Date then the Replacement Underlying Rate Determination Agent may on or after such earlier announcement date give notice to, in the case of Notes, Noteholders in accordance with Condition 18 of the Notes, in the case of Certificates, Certificateholders in accordance with Condition 19 of the Certificates, and in the case of Warrants, Warrantholders in accordance with Condition 17 of the Warrants, of the relevant changes which will be made to the Securities, provided that, such changes will only take effect as of the €STR Replacement Date.

- (B) *A €STR Transition Event has not occurred and the €STR Benchmark is unavailable*

If, by the relevant €STR Reference Time on a relevant determination date, the €STR Benchmark is unavailable in respect of such determination date and a €STR Transition Event has not occurred, then the rate for such determination date will be the €STR Benchmark, where applicable, of the Corresponding Tenor, as provided by the administrator of the €STR Benchmark and published by an alternative authorised distributor or by or on behalf of the administrator of the €STR Benchmark itself. If no such rate has been published by the Rate Cut-Off Time specified in the applicable Final Terms (or if no time is so specified, 4 p.m. (London time)), then the rate for such determination date will be the rate determined

- 1145 -

by the Calculation Agent to be a commercially reasonable alternative for the €STR Benchmark by applying one of the following rates:

- (1) a rate formally recommended for use by the administrator of the €STR Benchmark; or
- (2) a rate formally recommended for use by the Relevant Governmental Body or any other supervisor which is responsible for supervising the €STR Benchmark or the administrator of the €STR Benchmark,

in each case, during the period of non-publication of the €STR Benchmark and for so long as a €STR Transition Event has not occurred. If a rate described in sub-paragraph (1) is available, the Calculation Agent shall apply that rate. If no such rate is available, but a rate described in sub-paragraph (2) is available, the Calculation Agent shall apply that rate. If neither a rate described in sub-paragraph (1) nor a rate described in sub-paragraph (2) is available, then the Calculation Agent shall determine a commercially reasonable alternative for the €STR Benchmark taking into account, where available, any rate implemented by central counterparties and/or futures exchanges, in each case with trading volumes in derivatives or futures referencing the €STR Benchmark that the Calculation Agent considers sufficient for that rate to be a representative alternative rate.

If there is no Recommended SARON Replacement Rate and the SNB Policy Rate for any Zurich Banking Day with respect to which SARON is to be determined has not been published on such Zurich Banking Day (the **"Affected Zurich Banking Day"**), then the Calculation Agent will appoint an agent (the **"Replacement Underlying Rate Determination Agent"**) on or prior to the first Zurich Banking Day in respect of which a SARON Index Cessation Event and related SARON Index Cessation Effective Date have occurred and for which the SNB Policy Rate has not been published. - (iii) the Replacement Underlying Rate Determination Agent may make SARON Replacement Conforming Changes with respect to the Securities from time to time;
- (iv) any determination, decision or election that may be made by the Replacement Underlying Rate Determination Agent pursuant to this Underlying Interest Rate Linked Condition 3(e)(ii) including any SARON Replacement Conforming Changes or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, in each case, solely with respect to the relevant Securities, will be conclusive and binding absent manifest error and will be made by the Replacement Underlying Rate Determination Agent acting in good faith and a commercially reasonable manner;
- (v) to the extent that there is any inconsistency between this Underlying Interest Rate Linked Condition and any other Terms and Conditions, this Underlying Interest Rate Linked Condition 3(e)(ii) shall prevail with respect to any Securities for which the Underlying Reference Rate is calculated in accordance with this Underlying Interest Rate Linked Condition 3(e);
- (vi) the Calculation Agent may determine that it is appropriate for a SARON Replacement to replace the then-current SARON Benchmark and apply any SARON Replacement Conforming Changes in respect of any subsequent SARON Index Cessation Event; and
- (vii) where a SARON Index Cessation Event or details of it are announced prior to the relevant SARON Index Cessation Effective Date then the Replacement Underlying Rate Determination Agent may on or after such earlier announcement date give notice to, in the case of Notes, Noteholders in accordance with Condition 18 of the Notes, in the case of Certificates, Certificateholders in accordance with Condition 19 of the Certificates, and in the case of Warrants, Warrantholders in accordance with Condition 17 of the Warrants, of the relevant changes which will be made to the Securities, provided that, such changes will only take effect as of the SARON Index Cessation Effective Date.

**"Recommended SARON Adjustment Spread"** means, with respect to any Recommended SARON Replacement Rate:

- (i) the spread (which may be positive, negative or zero), formula or methodology for calculating such a spread, that the Recommending Body has recommended be applied to such Recommended SARON Replacement Rate in the case of fixed income securities with respect to which such Recommended SARON Replacement Rate has replaced the Swiss Average Rate Overnight as the reference rate for the purposes of determining the applicable rate of interest thereon; or
- (ii) if the Recommending Body has not recommended such a spread, formula or methodology as described in clause (i) above to be applied to such Recommended SARON Replacement Rate, for the purposes of determining

SARON, the Calculation Agent will determine the spread, acting in good faith and in a commercially reasonable manner, to reduce or eliminate, to the extent reasonably practicable under the circumstances, any economic prejudice or benefit (as applicable) to Holders as a result of the replacement of the Swiss Average Rate Overnight with such Recommended SARON Replacement Rate. The Calculation Agent will take into account industry-accepted practices for fixed income securities with respect to which such Recommended SARON Replacement Rate has replaced the Swiss Average Rate Overnight as the reference rate for the purposes of determining the applicable rate of interest thereon;

**"Recommended SARON Replacement Rate"** means the rate that has been recommended as the replacement for the Swiss Average Rate Overnight by any working group or committee in Switzerland organised in the same or a similar manner as the National Working Group on Swiss Franc Reference Rates that was founded in 2013 for the purposes of, among other things, considering proposals to reform reference interest rates in Switzerland (any such working group or committee, the **"Recommending Body"**);

**"SARON Benchmark"** means, initially, Compounded Daily SARON (as defined in Underlying Interest Rate Linked Condition 3(e)(i), provided that, if a SARON Index Cessation Event and its related SARON Index Cessation Effective Date have occurred with respect to Compounded Daily SARON, or the then-current SARON Benchmark, then "SARON Benchmark" means the applicable SARON Replacement.

**"SARON Index Cessation Event"** means the occurrence of one or more of the following events:

- (i) a public statement or publication of information by or on behalf of the SARON Administrator, or by any competent authority, announcing or confirming that the SARON Administrator has ceased or will cease to provide the Swiss Average Rate Overnight permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Swiss Average Rate Overnight; or
- (ii) a public statement or publication of information by the SARON Administrator or any competent authority announcing that (x) the Swiss Average Rate Overnight is no longer representative or will as of a certain

**"SARON Replacement Conforming Changes"** means, with respect to any SARON Replacement, any technical, administrative or operational changes (including, but not limited to, timing and frequency of determining rates with respect to each interest period and making payments of interest, rounding of amounts or tenors, day count fractions, business day convention, amendments to any other Condition and other administrative matters) that the Replacement Underlying Rate Determination Agent decides may be appropriate to reflect the adoption of such SARON Replacement in a manner substantially consistent with market practice (or, if the Replacement Underlying Rate Determination Agent determines that adoption of any portion of such market practice is not administratively feasible or if the Replacement Underlying Rate Determination Agent determines that no market practice for use of the SARON Replacement exists, in such other manner as the Replacement Underlying Rate Determination Agent or the Calculation Agent, as the case may be, determines is reasonably necessary, acting in good faith and in a commercially reasonable manner); and

**"SNB Adjustment Spread"** means, with respect to the SNB Policy Rate, the spread to be applied to the SNB Policy Rate in order to reduce or eliminate, to the extent reasonably practicable under the circumstances, any economic prejudice or benefit (as applicable) to Holders as a result of the replacement of the Swiss Average Rate Overnight with the SNB Policy Rate for the purposes of determining SARON, which spread will be determined by the Calculation Agent, acting in good faith and in a commercially reasonable manner, taking into account the historical median between the Swiss Average Rate Overnight and the SNB Policy Rate during the two year period ending on the date on which the SARON Index Cessation Event occurred (or, if more than one SARON Index Cessation Event has occurred, the date on which the first of such events occurred).

(f) TONA

- (i) Where "Screen Rate Determination – TONA" is specified in the applicable Final Terms as the manner in which the Underlying Interest Rate is to be determined, the Underlying Reference Rate will be Compounded Daily TONA plus or minus (as indicated in the applicable Final Terms) the Underlying Margin (if any), all as determined by the Calculation Agent on the relevant Underlying Interest Determination Date and calculated in accordance with this Underlying Interest Rate

Linked Condition 3(f)(i), subject to the provisions of Underlying Interest Rate Linked Condition 3(f)(ii) and 3(f)(iii).

The following definitions shall apply for the purpose of this Underlying Interest Rate Linked Condition 3(f):

**"Compounded Daily TONA"** means, with respect to an Underlying Interest Determination Date, an amount equal to the rate of return of a daily compounded interest investment in Japanese yen (with the daily Tokyo Overnight Average rate as the reference rate for the calculation of interest), calculated by the Calculation Agent on the relevant Underlying Interest Determination Date in accordance with the following formula:

- (A) if "TONA Compound with Lookback" is specified as the Observation Method in the applicable Final Terms:

$$\left[ \prod_{i=1}^{d_0} \left( 1 + \frac{TONA_{i-pTBD} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

- (B) if "TONA Compound with Observation Period Shift" is specified as the Observation Method in the applicable Final Terms:

$$\left[ \prod_{i=1}^{d_0} \left( 1 + \frac{TONA_i \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

with the resulting percentage being rounded, if necessary, to the fifth decimal place, with 0.000005 being rounded upwards;

"**TONA Observation Period**" means, in respect of an Underlying Interest Determination Date, the period from (and including) the date falling the number of Observation Shift Days prior to the Underlying Interest Period Start Date in respect of such Underlying Interest Determination Date to (but excluding) the date that is the number Observation Shift Days prior to the Underlying Interest Period End Date in respect of such Underlying Interest Determination Date; and

If no such rate is published by the administrator of TONA or an authorised distributor and is not otherwise provided by the administrator of TONA other than as a consequence of a TONA Index Cessation Event, then TONA for such Tokyo Banking Day will be TONA last provided or published on the Relevant Screen Page (or as otherwise published by relevant authorised distributors) that appears at approximately 10.00 a.m. (Tokyo time) on the Bank of Japan's Website on the Tokyo Banking Day immediately following such Tokyo Banking Day;

(ii) Correction of TONA

If TONA in respect of any Tokyo Banking Day is subsequently corrected and provided by the administrator of TONA to authorised distributors of TONA and published on the Relevant Screen Page no later than the Correction Cut-off Time (if any) or, if later (or there is no such Correction Cut-off Time), one hour after the rate for such Tokyo Banking Day is published on the Relevant Screen Page, then TONA in respect of such Tokyo Banking Day shall be the subsequently corrected and published rate appearing on the Relevant Screen Page.

Where:

**"Correction Cut-off Time"** means the time specified as such by the administrator of TONA in the TONA benchmark methodology.

(iii) TONA Fallbacks

If the Calculation Agent determines at any time prior to the TONA Reference Time on any Tokyo Banking Day that a TONA Index Cessation Event has occurred, then the rate in respect of each Tokyo Banking Day falling on or after the TONA Index Cessation Effective Date will be the JPY Recommended Rate.

If there is a JPY Recommended Rate before the end of the first Tokyo Banking Day following the TONA Index Cessation Effective Date, but neither the administrator nor authorised distributors provide or publish the JPY Recommended Rate, then, subject to the below, in respect of any day for which the JPY Recommended Rate is required, references to the JPY Recommended Rate will be deemed to be references to the last provided or published JPY Recommended Rate. However, if there is no last provided or published JPY Recommended Rate, then in respect of any day for which the JPY Recommended Rate is required, references to the JPY Recommended Rate will be deemed to be references to the last provided or published TONA.

If:

- (A) there is no JPY Recommended Rate before the end of the first Tokyo Banking Day following the TONA Index Cessation Effective Date; or
- (B) there is a JPY Recommended Rate and a JPY Recommended Rate Index Cessation Effective Date subsequently occurs in respect of such JPY Recommended Rate,

then the rate in respect of each Tokyo Banking Day falling on or after the TONA Index Cessation Effective Date or a JPY Recommended Rate Fixing Day occurring on or after the JPY Recommended Rate Index Cessation Effective Date, as the case may be, will be a commercially reasonable alternative for TONA or the JPY Recommended Rate, as the case may be, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, taking into account any rate implemented by central counterparties and/or futures exchanges, in each case with trading volumes in derivatives or futures referencing TONA or the JPY Recommended Rate (as applicable) that the Calculation Agent considers sufficient for that rate to be a representative alternative rate.

For the purposes of this Underlying Interest Rate Linked Condition 3(f)(iii):

**"JPY Recommended Rate"** means, in respect of any Tokyo Banking Day, the rate (inclusive of any spreads or adjustments) recommended as the replacement for TONA by a committee officially endorsed or convened by the Bank of Japan for the purpose of recommending a replacement for TONA (which rate may be produced by the Bank of Japan or another administrator) and as provided by the administrator of that rate or, if that rate is not provided by the administrator thereof (or a successor administrator), published by an authorised distributor in respect of such day;

**"JPY Recommended Rate Fixing Day"** means, in respect of the JPY Recommended Rate and any day, the publication day specified by the administrator of the JPY Recommended Rate for the JPY Recommended Rate in its benchmark methodology;

**"JPY Recommended Rate Index Cessation Effective Date"** means, in respect of the JPY Recommended Rate and a JPY Recommended Rate Index Cessation Event, the first date on which the JPY Recommended Rate would ordinarily have been published or provided and is no longer published or provided;

**"JPY Recommended Rate Index Cessation Event"** means, in respect of the JPY Recommended Rate:

- (a) a public statement or publication of information by or on behalf of the administrator of the JPY Recommended Rate announcing that it has ceased or will cease to provide the JPY Recommended Rate permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide the JPY Recommended Rate; or
- (b) a public statement or publication of information by the regulatory supervisor for the administrator of the JPY Recommended Rate, the central bank for the currency of the JPY Recommended Rate, an insolvency official with jurisdiction over the administrator of the JPY Recommended Rate, a resolution authority with jurisdiction over the administrator of the JPY Recommended Rate or a court or an entity with similar insolvency or resolution authority over the administrator of the JPY Recommended Rate, which states that the administrator of the JPY Recommended Rate has ceased or will cease to provide the JPY Recommended Rate permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide the JPY Recommended Rate;

**"TONA Index Cessation Effective Date"** means, in respect of TONA and a TONA Index Cessation Event, the first date on which TONA would ordinarily have been published or provided and is no longer published or provided;

**"TONA Index Cessation Event"** means, in respect of TONA:

- (a) a public statement or publication of information by or on behalf of the administrator of TONA announcing that it has ceased or will cease to provide TONA permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide TONA; or
- (b) a public statement or publication of information by the regulatory supervisor for the administrator of TONA, the central bank for the currency of TONA, an insolvency official with jurisdiction over the administrator of TONA, a resolution authority with jurisdiction over the administrator of TONA or a court or an entity with similar insolvency or resolution authority over the administrator of TONA, which states that the administrator of TONA has ceased or will cease to provide TONA permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide TONA; and

**"TONA Reference Time"** means, with respect to any determination of TONA, 10.00 a.m. (Tokyo time) on the Tokyo Banking Day immediately following the date of such determination.

#### 4. **Determination of Underlying Interest Rate**

The Calculation Agent will, on or as soon as practicable after each date on which the Underlying Interest Rate is to be determined, which if the Securities are Hybrid Securities and Hybrid Business Day is specified as applicable in the applicable Final Terms, will be deemed to be a Scheduled Trading Day for the purposes of determining whether such day is a Hybrid Business Day (the

**"Underlying Interest Determination Date"**), determine the Underlying Reference Rate (subject to any Minimum Underlying Reference Rate or Maximum Underlying Reference Rate specified in the applicable Final Terms). The Calculation Agent will notify the Issuing and Paying Agent or the Principal Warrant and Certificate Agent, as applicable, of the Underlying Reference Rate as soon as practicable after calculating the same.

5. **Minimum and/or Maximum Underlying Reference Rate**

If the applicable Final Terms specifies a Minimum Underlying Reference Rate, then, in the event that the Underlying Reference Rate determined in accordance with the provisions of Underlying Interest Linked Conditions 2 or 3 above (as appropriate) is less than such Minimum Underlying Reference Rate, the Underlying Reference Rate shall be such Minimum Underlying Reference Rate.

If the applicable Final Terms specifies a Maximum Underlying Reference Rate, then, in the event that the Underlying Reference Rate determined in accordance with the provisions of Underlying Interest Rate Linked Conditions 2 or 3 above (as appropriate) is greater than such Maximum Underlying Reference Rate, the Underlying Reference Rate shall be such Maximum Underlying Reference Rate.

In the event of any inconsistency between the Conditions and the Credit Linked Conditions, the Credit Linked Conditions shall prevail. In the event of any inconsistency between (i) the Conditions and/or the Credit Linked Conditions and (ii) the Final Terms, the Final Terms shall prevail.*

**1. General****(a) Credit Terms**

The Final Terms shall specify amongst other things:

The remaining provisions of these Credit Linked Conditions shall be construed accordingly.

## (e) Payer/Receiver Option

Where "Payer/Receiver Option" is specified as applicable in the applicable Final Terms:

(A) the Payer/Receiver Option shall be automatically exercised at the Option Expiration Time on the Option Expiry Date in respect of the Option Outstanding Notional Amount per Credit Linked Security. A Holder of Securities, upon such due exercise, will receive from the Issuer on the Option Settlement Date, in respect of each Credit Linked Security, an "**Option Cash Settlement Amount**" per Credit Linked Security calculated by the Calculation Agent (which shall not be less than zero) to be equal to:

(i) where "Option Type" is "Payer" and "Index Quotation Method" is "Spread":

or

(ii) where "Option Type" is "Payer" and "Index Quotation Method" is "Upfront":

$OONA * \text{Max} [0\%; \text{Index Strike} - \text{Final Index Price}];$

or

(iii) where "Option Type" is "Receiver" and "Index Quotation Method" is "Spread":

$OONA * \text{Max} [0\%; \text{Upfront (Index Strike Spread)} - \text{Upfront (Final Index Spread)}];$

or

(iv) where "Option Type" is "Receiver" and "Index Quotation Method" is "Upfront":

Where:

"**CDS Notional Amount**" means the amount specified as such in the applicable Final Terms.

"**Final Index Price**" means, where "Index Quotation Method" is "Upfront", with respect to the Underlying Index, a percentage determined by the Calculation Agent as follows:

(1) the Calculation Agent shall use reasonable efforts to seek, at or about the Option Expiration Time on the Option Expiry Date, firm and executable (i) where the "Option Type" is "Payer", offer quotations; or (ii) where the "Option Type" is

"Receiver", bid quotations, (expressed in % upfront) with respect to a market standard credit default swap transaction referencing the Underlying Index for a notional amount equal to or lower than the CDS Notional Amount from at least three Market Makers (each a "**Quotation (Upfront)**"), as selected by the Calculation Agent in its sole discretion;

- (2) if two or more Quotations (Upfront) are received by the Calculation Agent, (i) where the "Option Type" is "Payer", the lowest Quotation (Upfront) shall be the Final Index Price; or (ii) where the "Option Type" is "Receiver", the highest Quotation (Upfront) shall be the Final Index Price;
- (3) if only one Quotation (Upfront) is received by the Calculation Agent, such Quotation (Upfront) shall be the Final Index Price; and
- (4) if no Quotation (Upfront) is received by the Calculation Agent, the Final Index Price shall be determined by the Calculation Agent in good faith and in a commercially reasonable manner,

(the "**Original Final Index Price**"), provided that, where an Event Determination Date occurs with respect to any Reference Entities included in the Underlying Index ("**Underlying Index Reference Entities**") and the final prices for such affected Underlying Index Reference Entities are determined pursuant to an industry organised auction mechanism (a "**Market Auction**") prior to the Option Expiry Date, the Calculation Agent shall recalculate the Final Index Price using the Original Final Index Price adjusted to take into account the final prices determined by the relevant Market Auction. The Calculation Agent shall do so using the following formula:

$$\text{Final Index Price} = \text{original Final Index Price} \times \left(1 - \sum_{i=1}^N w_i \times D_i\right) + \sum_{i=1}^N w_i \times D_i \times RR_i$$

Where:

- (1) N = Number of original constituents in the Underlying Index;
- (2)  $w_i$  = weighting of the Reference Entity i in the Underlying Index;
- (3)  $RR_i$  = final price of the Reference Entity i;
- (4)  $D_i = 1$  if an Event Determination Date occurred on the Reference Entity i and the corresponding recovery rate has been determined. Otherwise  $D_i = 0$ .

"**Final Index Spread**" means, where "Index Quotation Method" is "Spread", with respect to the Underlying Index, a spread determined by the Calculation Agent as follows:

- (1) the Calculation Agent shall use reasonable efforts to seek, at or about the Option Expiration Time on the Option Expiry Date, firm and executable (i) where the "Option Type" is "Payer", bid quotations; or (ii) where the "Option Type" is "Receiver", offer quotations, (expressed in % per annum) with respect to a market standard credit default swap transaction referencing the Underlying Index for a notional amount equal to or lower than the CDS Notional Amount from at least three Market Makers (each a "**Quotation (Spread)**"), as selected by the Calculation Agent in its sole discretion;

- (2) if two or more Quotations (Spread) are received by the Calculation Agent, (i) where the "Option Type" is "Payer", the highest Quotation (Spread) shall be the Final Index Spread, or (ii) where the "Option Type" is "Receiver", the lowest Quotation (Spread) shall be the Final Index Spread;
- (3) if only one Quotation (Spread) is received by the Calculation Agent, such Quotation (Spread) shall be the Final Index Spread; and
- (4) if no Quotation (Spread) is received by the Calculation Agent, the Final Index Spread shall be determined by the Calculation Agent in good faith and in a commercially reasonable manner,

(the "**Original Final Index Spread**"), provided that, where an Event Determination Date occurs with respect to any Reference Entities included in the Underlying Index ("**Underlying Index Reference Entities (Spread)**") and the final prices for such affected Underlying Index Reference Entities (Spread) are determined pursuant to an industry organised auction mechanism (a "**Market Auction (Spread)**") prior to the Option Expiry Date, the Calculation Agent shall recalculate the Final Index Spread using the Original Final Index Spread adjusted to take into account the final prices determined by the relevant Market Auction (Spread). The Calculation Agent shall do so using the following formula:

$$\text{Final Index Price} = \text{original Final Index Price} \times \left( 1 - \sum_{i=1}^N w_i \times D_i \right) + \sum_{i=1}^N w_i \times D_i \times RR_i$$

Where:

- (1) N = Number of original constituents in the Underlying Index;
- (2)  $w_i$  = weighting of the Reference Entity i in the Underlying Index;
- (3)  $RR_i$  = final price of the Reference Entity i;
- (4)  $D_i = 1$  if an Event Determination Date occurred on the Reference Entity i and the corresponding recovery rate has been determined. Otherwise  $D_i = 0$ ; and
- (5) the "**Original Final Index Price**" shall be obtained by the Calculation Agent by converting, in a commercially reasonable manner, the Original Final Index Spread from a running spread to an upfront price using the "I" (ISDA Standard Upfront Settlement) Calculator available through the Bloomberg page CDSW (or any successor page thereto as determined by the Calculation Agent) and using the recovery currently assumed by the market as determined by the Calculation Agent in good faith and in a commercially reasonable manner.

Once the Final Index Price is calculated in accordance with the formula above, the Calculation Agent shall convert it back from an upfront amount to a running spread (i.e. the Final Index Spread) using the same methodology described in the previous paragraph, and such running spread shall thereupon be the Final Index Spread.

"**Index Quotation Method**" means "Upfront" or "Spread" as specified in the applicable Final Terms.

"**Index Strike**" means (i) where "Index Quotation Method" is "Spread", the spread specified as such in the applicable Final Terms; or (ii) where "Index Quotation Method" is "Upfront", the percentage specified as such in the applicable Final Terms.

"**OONA**" means the Option Outstanding Notional Amount per Credit Linked Security.

"**Option Expiration Time**" means the time specified as such in the applicable Final Terms.

"**Option Expiry Date**" means the date specified as such in the applicable Final Terms.

"**Option Outstanding Notional Amount per Credit Linked Security**" means the amount specified as such in the applicable Final Terms, or if not specified, the Outstanding Security Amount per Credit Linked Security.

"**Option Settlement Date**" means the date specified as such in the applicable Final Terms.

"**Option Type**" means "Payer" or "Receiver" as specified in the applicable Final Terms.

"**Upfront (Final Index Spread)**" means, where "Index Quotation Method" is "Spread", the Upfront (Spread) as determined by the Calculation Agent with reference to the Final Index Spread.

"**Upfront (Index Strike Spread)**" means, where "Index Quotation Method" is "Spread", the Upfront (Spread) as determined by the Calculation Agent with reference to the Index Strike.

"**Upfront (Spread)**" means the cash amount determined by the Calculation Agent in good faith and in a commercially reasonable manner which a seller of credit protection would receive (expressed as a percentage) to enter into a credit default swap on market standard terms on the Option Expiry Date referencing the Underlying Index and which may include, without limitation, use by the Calculation Agent of the CDSW function in Bloomberg (or such other function as the Calculation Agent may select for determining a percentage amount).

- (B) where "Automatic Roll" is specified as applicable in the applicable Final Terms and provided that the Holder of Securities is the sole holder of the 100% of the Outstanding Security Amount of the Credit Linked Securities as evidenced by proof of holding satisfactory to the Calculation Agent as the Calculation Agent may request from time to time, the Calculation Agent shall, during each Automatic Roll Period and at the relevant frequency specified in the applicable Final Terms (and if no such frequency is specified, once a year), use reasonable efforts to consult with such Holder of Securities to roll the existing Payer/Receiver Option to the then on-the-run Underlying Index (each an "**Automatic Roll**"), provided that a failure to agree on any Automatic Roll shall not result in a breach by the Calculation Agent under the terms of the Credit Linked Securities. Upon agreement of an Automatic Roll (a copy of the details of such Automatic Roll shall be provided by the Calculation Agent to the Issuer, copying such sole Holder of Securities) and provided that the Issuer consents to such Automatic Roll in writing within 10 Business Days following receipt of the details of such Automatic Roll from the Calculation Agent, amendments required in order to effect such Automatic Roll (including, without limitation, amendments to the Underlying Index and the relevant spread, as applicable) shall be made in accordance with the terms of the Credit Linked Securities, and the terms of the Credit Linked Securities shall be construed accordingly.

For the purpose of the above, "**Automatic Roll Period**" means each period specified as such in the applicable Final Terms.

**2. Redemption****(a) Redemption at Credit Security Settlement Date**

The Issuer will redeem each Credit Linked Security on the related Credit Security Settlement Date (as such date may be extended in accordance with the definition thereof) by payment of an amount equal to (in the case of Certificates) the Cash Settlement Amount or (in the case of Notes) the outstanding principal amount of such Security (or, in the case of Linear Basket Credit Linked Securities, the relevant portion thereof) (together with interest, if any, payable thereon) unless:

- (A) the Credit Linked Securities have been previously redeemed or purchased and cancelled in full (including pursuant to Credit Linked Conditions 2(b), 2(c) or 2(d); or
- (B) an Event Determination Date has occurred, in which event the Issuer shall redeem the Credit Linked Securities in accordance with Credit Linked Condition 2(b).

**(b) Redemption or Settlement following Event Determination Date**

Upon the occurrence of an Event Determination Date in relation to any Reference Entity, then each Credit Linked Note or Credit Linked Certificate (or, in the case of Linear Basket Credit Linked Securities, the relevant portion thereof) will be subject to redemption and settlement:

- (A) if the applicable Settlement Method is Auction Settlement, by payment of its *pro rata* share (such amount to be apportioned *pro rata* amongst the outstanding nominal amount or outstanding notional amount of each Credit Linked Security corresponding to the (in the case of Credit Linked Notes) Calculation Amount or (in the case of Credit Linked Certificates) Notional Amount) of the Auction Settlement Amount on the Auction Settlement Date, unless a Fallback Settlement Event occurs, in which event the Issuer shall perform its respective payment and/or delivery obligations in accordance with the applicable Fallback Settlement Method. If an Event Determination Date occurs with respect to a Reference Entity following the occurrence of a Fallback Settlement Event with respect to a prior Event Determination Date in relation to such Reference Entity and no Fallback Settlement Event occurs with respect to such subsequent Event Determination Date, the Issuer shall, if the Swap Counterparty so elects on or prior to a related Valuation Date or Delivery Date, redeem or settle, as applicable, the Credit Linked Securities in accordance with this Credit Linked Condition 2(b)(A) by Auction Settlement;
- (B) if the applicable Settlement Method is Physical Settlement, in accordance with Credit Linked Condition 4; and
- (C) if the applicable Settlement Method is Cash Settlement, by payment of its *pro rata* share (such amount to be apportioned *pro rata* amongst the outstanding nominal amount or outstanding notional amount of each Credit Linked Security corresponding to the (in the case of Credit Linked Notes) Calculation Amount or (in the case of Credit Linked Certificates) Notional Amount) of the Credit Event Cash Settlement Amount on the Cash Settlement Date.

Where the Credit Linked Securities are Nth-to-Default Credit Linked Securities, an Event Determination Date shall not be taken into account for the purposes of Credit Linked Condition 2 and Credit Linked Condition 3 unless and until the number of Reference Entities in respect of which an Event Determination Date has occurred is equal to "N" (as specified in the Final Terms). Unless a value is specified for "M" in the Final Terms of such Credit Linked Securities, with effect from such date, no Event Determination Date shall occur in respect of any other Reference Entity. Where

a value is specified for "M", the provisions of Credit Linked Condition 2 and Credit Linked Condition 3 shall apply in respect of every subsequent Event Determination Date until the number of Reference Entities in respect of which an Event Determination Date has occurred is equal to "M" (as specified in the Final Terms). Where the Credit Linked Securities are Nth-to-Default Credit Linked Securities and an Event Determination Date occurs with respect to more than one Reference Entity on the same day, the Swap Counterparty shall determine the order in which such Event Determination Dates occurred. Where "Unwind Costs for the Remaining Names" is specified as applicable in the Final Terms of such Credit Linked Securities, an amount equal to the Unwind Value of the Reference CDS in respect of the Reference Entity which has not been determined as the Nth-to-Default Reference Entity (where N is 1) shall be added to the Credit Unwind Costs in respect of the Auction Settlement Amount or the Credit Event Cash Settlement Amount, as applicable.

This Credit Linked Condition 2(b) (*Redemption or Settlement following Event Determination Date*) shall not apply, and the Issuer shall have no obligation hereunder in respect of Zero Recovery Securities.

(c) Redemption following a Merger Event

If this Credit Linked Condition 2(c) is specified as applicable in the applicable Final Terms, in the event that in the determination of the Calculation Agent a Merger Event has occurred, the Issuer shall give notice if requested to do so by the Swap Counterparty to the holders of Securities in accordance with Condition 18 of the Notes or Condition 19 of the Certificates, as applicable, and redeem all but not some only of the Credit Linked Securities on the Merger Event Redemption Date, and if the Credit Linked Securities are so redeemed or, as the case may be, cancelled, the Issuer shall pay an amount to each Holder of Securities in respect of each Credit Linked Security, which amount shall be the fair market value of the Credit Linked Security taking into account the Merger Event less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or the Swap Counterparty and/or its Affiliates of unwinding any underlying related hedging arrangements (including, without limitation, any Unwind Costs), all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

(d) Additional Credit Linked Security Disruption Events

If the Calculation Agent determines that an Additional Credit Linked Security Disruption Event has occurred, the Issuer may, at the Calculation Agent's election, redeem the Credit Linked Securities by giving notice to holders of Securities in accordance with Condition 18 of the Notes or Condition 19 of the Certificates, as applicable. If the Credit Linked Securities are so redeemed, the Issuer will pay an amount to each Holder of Securities in respect of each Credit Linked Security equal to the Early Redemption Amount in accordance with Condition 7(e) of the Notes or Condition 8(e) of the Certificates, as applicable. Payments will be made in such manner as shall be notified to the Holders of Securities in accordance with Condition 18 of the Notes or Condition 19 of the Certificates, as applicable.

(e) Suspension of Obligations

If there is a DC Credit Event Question in relation to any Reference Entity, then (unless the Swap Counterparty otherwise elects by notice to the Issuer, the Issuing and Paying Agent or the Principal Warrant and Certificate Agent, as applicable, the Calculation Agent and the Trustee) from the date of such DC Credit Event Question (and notwithstanding that the relevant Credit Derivatives Determinations Committee has yet to determine whether Publicly Available Information is available or that a Credit Event has occurred):

- (i) any obligation of the Issuer to redeem any Credit Linked Security (including pursuant to Credit Linked Condition 2(b)) or pay any amount of interest which would otherwise be due thereon (and the timing requirements of the Credit Event Cash Settlement Date, Valuation Date, Relevant Valuation Date, NOPS Cut-off Date, Physical Settlement Period, any other provisions pertaining to settlement and any related obligation of the Swap Counterparty under the Swap Agreement and Credit Default Swap Agreement) shall, insofar as it relates to the relevant Reference Entity;
- (ii) if the Final Terms specifies that "Calculation and Settlement Suspension" applies, any obligation of the Issuer to redeem or settle any Credit Linked Security (including pursuant to Credit Linked Condition 2(b)) (and the timing requirements of the Cash Settlement Date, Valuation Date, Relevant Valuation Date, NOPS Cut-off Date, Physical Settlement Period and any other provisions pertaining to settlement) insofar as it relates to the relevant Reference Entity, or pay any amount of interest which would otherwise be due thereon (and any related obligation of the Swap Counterparty under the Swap Agreement and/or Credit Default Swap Agreement) or any obligation of the Calculation Agent to calculate any amount of interest (in each case, regardless of whether any such interest relates to the relevant Reference Entity), shall,

be and remain suspended until the date of the relevant DC Credit Event Announcement, DC No Credit Event Announcement or DC Credit Event Question Dismissal.

During such suspension period, neither the Issuer nor the Swap Counterparty shall be obliged to, nor entitled to, take any action in connection with the settlement of any credit derivative transaction to which the Credit Default Swap Agreement relates or the Credit Linked Securities, in each case insofar as they relate to the relevant Reference Entity, or in connection with the payment of any applicable interest on the Credit Linked Securities, nor, if the Final Terms specifies that "Calculation and Settlement Suspension" applies, shall the Calculation Agent be obliged to take any action in connection with the calculation of any amount of interest (in each case, if the Final Terms specifies that "Calculation and Settlement Suspension" applies, regardless of whether any such interest relates to the relevant Reference Entity). Once the relevant DC Credit Event Announcement, DC No Credit Event Announcement or DC Credit Event Question Dismissal has occurred, such suspension shall terminate and any obligations so suspended shall resume on the Credit Security Business Day following such public announcement by ISDA, with the Issuer, the Swap Counterparty and, as the case may be, the Calculation Agent having the benefit of the full day notwithstanding when the suspension began. Any amount of interest so suspended shall, subject always to Credit Linked Condition 3(a), become due on a date selected by the Calculation Agent falling not later than fifteen Business Days following such public announcement by ISDA.

For the avoidance of doubt, no interest shall accrue on any payment of interest or any other amounts which are deferred in accordance with this Credit Linked Condition 2(e).

- (f) Miscellaneous provisions relating to Redemption

If the Credit Linked Securities are partially redeemed, the relevant Credit Linked Securities or, if the Credit Linked Securities are represented by a Global Note or Global Certificate, such Global Note or Global Certificate, shall be endorsed to reflect such partial redemption. Upon such partial redemption, the outstanding notional amount or outstanding principal amount of each Credit Linked Security shall be reduced for all purposes (including accrual of interest thereon) accordingly.

Redemption or settlement of any Credit Linked Security in accordance with this Credit Linked Condition 2, together with payment of interest, if any, due thereon shall discharge all or the relevant portion of the obligations of the Issuer in relation thereto.

Any amount payable under Credit Linked Condition 2(b) shall be rounded downwards to the nearest sub-unit of the relevant currency.

(g) Settlement at Maturity

Where "Settlement at Maturity" is specified as applicable in the applicable Final Terms, payment of any Outstanding Security Amount, Auction Settlement Amounts or Credit Event Cash Settlement Amounts, as applicable, shall be deferred until the later of the Credit Security Settlement Date and the last Auction Settlement Date or Credit Event Cash Settlement Date determined in respect of any Reference Entity (and notwithstanding any other provision of the Conditions or these Credit Linked Conditions, no interest shall accrue on any payment of any amount which is so deferred).

(h) Credit Linked Interest Only

If Credit Linked Interest Only is specified as applicable in the applicable Final Terms, Credit Linked Condition 3 will apply to the Securities, but Credit Linked Conditions 2(a) and 2(b) will not apply. Unless the Credit Linked Securities have previously been redeemed or purchased and cancelled in full (including pursuant to Credit Linked Conditions 2(c) or 2(d)), the Issuer will redeem each Credit Linked Security on the relevant Credit Security Settlement Date by payment of the original nominal amount (in the case of Notes) or the original notional amount (in the case of Certificates) specified in the applicable Final Terms.

(i) Credit Linked Principal Only

If "Credit Linked Principal Only" is specified as applicable in the applicable Final Terms, Credit Linked Condition 2 will apply to the Securities but Credit Linked Condition 3 (*Interest*) will not apply. Where the redemption of any such Credit Linked Securities is postponed following the Scheduled Maturity Date or the Scheduled Redemption Date, as the case may be, no interest shall accrue in respect of any such Credit Linked securities from (and including) the Scheduled Maturity Date or the Scheduled Redemption Date, as the case may be, until the relevant date of redemption.

Where any such Credit Linked Securities are subject to redemption in full in circumstances where further amounts are or may be payable subsequently in respect of interest thereon, then, only to the extent required by the terms of any relevant clearing system in order to permit payment of such interest, each Credit Linked Security shall be deemed to remain outstanding in an amount equal to one unit of the Specified Currency. No payment shall be made in respect of such outstanding amount, and each Credit Linked Security which is deemed to be outstanding on such basis shall be cancelled in full on the last date for payment of interest thereon.

(j) Hybrid Credit Linked Securities

Where the Credit Linked Securities are Hybrid Securities, then:

- (A) if the Final Terms provide that "Event Determination Date Overrides Automatic Early Redemption" is applicable, an Automatic Early Redemption Date shall not be capable of occurring in respect of the Credit Linked Securities if, as of the related Automatic Early Redemption Valuation Date, an Event Determination Date has occurred (but any Event Determination Date occurring after such Automatic Early Redemption Valuation Date shall be disregarded);

- (B) if the Final Terms specify that "Credit Linked Calculation Basis" is applicable, any reference to the "Nominal Amount", "Notional Amount", "Calculation Amount", "Specified Denomination" or any related abbreviation for the purpose of determining any amount payable by way of interest or coupon or on scheduled or early redemption of the Securities and which is calculated by reference to a Type of Underlying Reference other than the Reference Entity or Entities or the credit risk thereof, shall be to the Outstanding Security Amount, save with respect to any amounts determined and paid under any item of the Final Terms specified as an "Excluded Item" for such purpose; and
- (C) the Credit Security Settlement Date shall notwithstanding such definition, be subject to deferral as provided for in these Credit Linked Conditions and as provided with respect to the Maturity Date or the Redemption Date, as the case may be, in any terms and conditions of the Credit Linked Securities which relate to a Type of Underlying Reference referred to at (B) above.

### 3. Interest

#### (a) Cessation of Interest Accrual

Upon the occurrence of an Event Determination Date in respect of any Reference Entity, interest on such Credit Linked Security (or, in the case of Linear Basket Credit Linked Securities, the relevant portion thereof) shall cease to accrue with effect from and including:

- (A) either:
  - (i) the Interest Payment Date; or
  - (ii) if so specified in the Final Terms, the Interest Period End Date,

immediately preceding such Event Determination Date (or, in the case of the first Interest Period, the Interest Commencement Date); or

- (B) if so specified in the applicable Final Terms, such Event Determination Date.

#### (b) Interest following the Scheduled Maturity Date or Scheduled Redemption Date, as applicable

Subject always to Credit Linked Condition 3(a), if an Extension Notice has been given (other than pursuant to paragraph (iv) of the definition of "Extension Notice"), each Credit Linked Security (or, in the case of Linear Basket Credit Linked Securities, the relevant portion thereof) which is outstanding following the Scheduled Redemption Date or Scheduled Maturity Date, as the case may be, shall continue to bear interest from (and including) the Scheduled Redemption Date or Scheduled Maturity Date, as the case may be, to (but excluding) the related Credit Security Settlement Date at a rate of interest equal to either:

- (A) the rate that the Issuing and Paying Agent or the Principal Warrant and Certificate Agent, as applicable, would pay to an independent customer in respect of overnight deposits in the currency of the Credit Linked Securities; or
- (B) such other rate as shall be specified for such purpose in the Final Terms (which may be zero),

subject in all cases to a minimum of zero.

For the avoidance of doubt, if an Extension Notice has been given pursuant to paragraph (iv) of the definition thereof, no interest shall accrue from (and including) the Scheduled Redemption Date or

Scheduled Maturity Date, as the case may be, to (but excluding) the related Credit Security Settlement Date. Where No Interest Post Scheduled Redemption is specified as applicable in the applicable Final Terms, subject always to Credit Linked Condition 3(a), no interest will accrue or be payable in respect of each Credit Linked Security (or, in the case of Linear Basket Credit Linked Securities, the relevant portion thereof) which is outstanding following the Scheduled Maturity Date or Scheduled Redemption Date, as applicable, from (and including) the Scheduled Maturity Date or Scheduled Redemption Date, as applicable, to (and including) the related Credit Security Settlement Date.

(c) Interest Payment Dates

If the Credit Linked Securities are redeemed pursuant to the Terms and Conditions of the Notes or the Terms and Conditions of the Certificates, as applicable, or these Credit Linked Conditions, the Scheduled Redemption Date, the Scheduled Maturity Date, the Credit Security Settlement Date (if not the Scheduled Redemption Date or Scheduled Maturity Date, as the case may be), the Auction Settlement Date, the Cash Settlement Date or the last Delivery Date, as the case may be, shall be an Interest Payment Date in respect of each Credit Linked Security (or, in the case of Linear Basket Credit Linked Securities, the relevant portion thereof) and the Issuer shall pay any interest that has accrued in respect of each Credit Linked Security (or, as applicable, the relevant portion thereof) on such Interest Payment Date.

**4. Physical Settlement**

(a) Delivery and payment

If Physical Settlement applies to any Credit Linked Security, then, upon the occurrence of an Event Determination Date, the Issuer and the Swap Counterparty shall, on or prior to the related Physical Settlement Date and subject to Credit Linked Conditions 4(b), 4(c) and 4(f), settle the credit derivative transaction evidenced by the Credit Default Swap Agreement and the Issuer shall redeem such Credit Linked Security (or, in the case of Linear Basket Credit Linked Securities, the relevant portion thereof), respectively, by:

(A) Delivering (or, in the case of the Issuer, procuring that the Swap Counterparty Delivers) a *pro rata* share of the Deliverable Obligations specified in the related Notice of Physical Settlement or NOPS Amendment Notice, as applicable; and

(B) paying such Security's *pro rata* portion of the related Physical Settlement Adjustment Rounding Amount.

(b) Partial Cash Settlement Due to Impossibility or Illegality

If, due to an event beyond the control of the Issuer and/or the Swap Counterparty, it is impossible or illegal for the Issuer or the Swap Counterparty, as applicable, to Deliver or, due to an event beyond the control of the Issuer or any Holder of Securities, it is impossible or illegal for the Issuer or the relevant Holder of Securities to accept Delivery of any of the Deliverable Obligations (other than a Deliverable Obligation described in paragraph (iv) of the definition of "Deliverable Obligation") specified in a Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, on the related Physical Settlement Date, then on such date the Issuer shall Deliver or procure that the Swap Counterparty Delivers any of the Deliverable Obligations specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, for which it is possible and legal to take Delivery. If any Undeliverable Obligations have not been delivered on or prior to the Latest Permissible Physical Settlement Date, then Partial Cash Settlement shall apply with respect to such Undeliverable Obligations and, accordingly, the Swap Counterparty shall pay the Issuer and the

Issuer shall pay the relevant Holders of Securities an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the relevant holders of Securities on the Partial Cash Settlement Date.

(c) Non-Delivery of Deliverable Obligations

If the Issuer and/or the Swap Counterparty does not Deliver any Deliverable Obligation specified in a Notice of Physical Settlement or NOPS Amendment Notice, as applicable, other than as a result of an event or circumstance contemplated in Credit Linked Condition 4(b) above (including following the occurrence of a Hedge Disruption Event), such failure shall not constitute an Event of Default or breach of agreement for the purpose of the Securities or the Credit Default Swap Agreement and the Issuer and/or the Swap Counterparty may continue to attempt to Deliver the Deliverable Obligations that are Bonds or Loans until the Extended Physical Settlement Date.

If, as at the relevant Extended Physical Settlement Date, any such Deliverable Obligations have not been Delivered, then Partial Cash Settlement shall apply with respect to such Deliverable Obligations and the Swap Counterparty shall pay to the Issuer and the Issuer shall pay to the holders of Securities an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the Holders of Securities on the Partial Cash Settlement Date.

(d) Aggregation and Rounding

Where a Holder of Securities holds Credit Linked Notes or Credit Linked Certificates in an aggregate nominal amount outstanding or aggregate notional amount outstanding greater, as the case may be, than the Specified Denomination or Notional Amount respectively, the Outstanding Principal Balance of the Deliverable Obligations to be Delivered in respect of the Credit Linked Security shall be aggregated for the purposes of this Credit Linked Condition 4. If the Outstanding Principal Balance of the Deliverable Obligations to be Delivered in respect of each Credit Linked Security to be redeemed pursuant to this Credit Linked Condition 4(d) on any occasion is not equal to an authorised denomination (or integral multiple thereof) of such Deliverable Obligations then the Outstanding Principal Balance of Deliverable Obligations to be Delivered will be rounded down to the nearest authorised denomination or multiple thereof, or, if none, to zero. In such circumstances, the Deliverable Obligations that were not capable of being Delivered shall, if and to the extent practicable, be sold by the Issuer or such agent as may be appointed by the Issuer for such purpose and, if they are so sold, the Issuer shall make payment in respect of each Credit Linked Security in an amount equal to its *pro rata* share of the related net sale proceeds as soon as reasonably practicable following receipt thereof.

(e) Delivery and Fees

The Delivery of any of the Deliverable Obligations pursuant to the provisions of this Credit Linked Condition 4 shall be made in such manner as the Swap Counterparty on behalf of the Issuer shall determine in a commercially reasonable manner, to be appropriate for such Delivery. Subject as set out in the definition of "Deliver":

- (A) any recordation, processing or similar fee reasonably incurred by the Issuer and/or the Swap Counterparty and/or any of its Affiliates and payable to the agent under a Loan in connection with an assignment or novation (where Deliverable Obligations include Assignable Loans or Consent Required Loans) or participation (where Deliverable Obligations include Direct Loan Participations) shall be payable by the relevant Holders of Securities, and if any stamp tax or transaction tax is payable in connection with the Delivery of any Deliverable Obligations, payment thereof shall be made by the relevant Holders of Securities; and

- (B) any other expenses arising from the Delivery and/or transfer of the Deliverable Obligations shall be for the account of the Holders of Securities or the Swap Counterparty, as appropriate, determined by the Calculation Agent in accordance with then current market conventions.

Delivery and/or transfer of the Deliverable Obligations shall be delayed until all expenses relating to such Delivery or transfer payable by the Holders of Securities have been paid to the satisfaction of the Issuer and the Swap Counterparty.

(f) Asset Transfer Notice

A Holder of Securities will not be entitled to any of the amounts or assets specified as being due to it in this Credit Linked Condition 4(f) upon the occurrence of an Event Determination Date and delivery of the Notice of Physical Settlement unless it has presented or surrendered (as is appropriate) the relevant Credit Linked Security and delivered an Asset Transfer Notice in accordance with Condition 6(b)(i)(A) (*Asset Transfer Notices*) of the Notes and Condition 6(b)(i)(A) (*Asset Transfer Notices*) of the Certificates, as applicable. For so long as the Credit Linked Securities are held in any clearing system, any communication from such clearing system on behalf of the holder of Securities containing the information required in an Asset Transfer Notice will be treated as an Asset Transfer Notice. For as long as Bearer Notes or Clearing System Certificates, as the case may be, are represented by a Global Note or Global Certificate, surrender of Credit Linked Securities for such purpose will be effected by presentation of the Global Note or Global Certificate and its endorsement to note the principal amount or notional amount of Credit Linked Securities to which the relevant Asset Transfer Notice relates.

**5. Provisions relating to Obligation Category and Characteristics and Deliverable Obligation Category and Characteristics**

(a) Obligation Characteristics

If either of the Obligation Characteristics "Listed" or "Not Domestic Issuance" is specified in the applicable Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though the relevant Obligation Characteristic had been specified as an Obligation Characteristic only with respect to Bonds.

(b) Deliverable Obligation Category and Characteristics

If:

- (i) any of the Deliverable Obligation Characteristics "Listed", "Not Domestic Issuance" or "Not Bearer" is specified in the applicable Final Terms or is applicable in respect of the applicable Transaction Type, such Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Bonds;
- (ii) the Deliverable Obligation Characteristic "Transferable" is specified in the applicable Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Deliverable Obligations that are not Loans;
- (iii) any of the Deliverable Obligation Characteristics "Assignable Loan", "Consent Required Loan" or "Direct Loan Participation" is specified in the applicable Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed

as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Loans; and

- (iv) more than one of "Assignable Loan", "Consent Required Loan" and "Direct Loan Participation" are specified in the applicable Final Terms as Deliverable Obligation Characteristics or is applicable in respect of the applicable Transaction Type, the Deliverable Obligations may include any Loan that satisfies any one of such Deliverable Obligation Characteristics specified and need not satisfy all such Deliverable Obligation Characteristics.

(c) Relevant Guarantee

If an Obligation or a Deliverable Obligation is a Relevant Guarantee, the following will apply:

- (i) For purposes of the application of the Obligation Category or the Deliverable Obligation Category, the Relevant Guarantee shall be deemed to be described by the same category or categories as those that describe the Underlying Obligation.
- (ii) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, both the Relevant Guarantee and the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics or Deliverable Obligation Characteristics, if any, specified in the applicable Final Terms or applicable in respect of the relevant Transaction Type from the following list: "Not Subordinated", "Specified Currency", "Not Sovereign Lender", "Not Domestic Currency" and "Not Domestic Law".
- (iii) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, only the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics or the Deliverable Obligation Characteristics, if any, specified in the applicable Final Terms or applicable in respect of the relevant Transaction Type from the following list: "Listed", "Not Domestic Issuance", "Assignable Loan", "Consent Required Loan", "Direct Loan Participation", "Transferable", "Maximum Maturity", "Accelerated or Matured" and "Not Bearer".
- (iv) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics to an Underlying Obligation, references to the Reference Entity shall be deemed to refer to the Underlying Obligor.
- (v) For the avoidance of doubt the provisions of this Credit Linked Condition 5 apply in respect of the definitions of "Obligation" and "Deliverable Obligation" as the context admits.

(d) Maximum Maturity

For purposes of the application of the Deliverable Obligation Characteristic "Maximum Maturity", remaining maturity shall be determined on the basis of the terms of the Deliverable Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation that is due and payable, the remaining maturity shall be zero.

(e) Financial Reference Entity Terms and Governmental Intervention

If "Financial Reference Entity Terms" and "Governmental Intervention" are specified as applicable in respect of a Reference Entity, if an obligation would otherwise satisfy a particular Obligation Characteristic or Deliverable Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's

obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Obligation Characteristic or Deliverable Obligation Characteristic.

(f) Prior Deliverable Obligation or Package Observable Bond

For purposes of determining the applicability of Deliverable Obligation Characteristics and the requirements specified in Credit Linked Condition 8(b) (*Mod R*) and Credit Linked Condition 8(c) (*Mod Mod R*) to a Prior Deliverable Obligation or a Package Observable Bond, any such determination shall be made by reference to the terms of the relevant obligation in effect immediately prior to the Asset Package Credit Event.

(g) Subordinated European Insurance Terms

If "Subordinated European Insurance Terms" is specified as applicable in respect of the Reference Entity, if an obligation would otherwise satisfy the "Maximum Maturity" Deliverable Obligation Characteristic, the existence of any Solvency Capital Provisions in such obligation shall not cause it to fail to satisfy such Deliverable Obligation Characteristic.

(h) Accrued Interest

With respect to any Credit Linked Securities for which:

- (i) "Physical Settlement" is specified to be the Settlement Method in the applicable Final Terms (or for which Physical Settlement is applicable as the Fallback Settlement Method), the Outstanding Principal Balance of the Deliverable Obligations being Delivered will exclude accrued but unpaid interest, unless "Include Accrued Interest" is specified in the applicable Final Terms, in which case, the Outstanding Principal Balance of the Deliverable Obligations being Delivered will include accrued but unpaid interest;
- (ii) "Cash Settlement" is specified to be the Settlement Method in the applicable Final Terms (or if Cash Settlement is applicable as the Fallback Settlement Method), and:
  - (A) "Include Accrued Interest" is specified in the applicable Final Terms, the Outstanding Principal Balance of the Reference Obligation or Valuation Obligation, as applicable, shall include accrued but unpaid interest;
  - (B) "Exclude Accrued Interest" is specified in the applicable Final Terms, the Outstanding Principal Balance of the Reference Obligation or Valuation Obligation, as applicable, shall not include accrued but unpaid interest; or
  - (C) neither "Include Accrued Interest" nor "Exclude Accrued Interest" is specified in the applicable Final Terms, the Calculation Agent shall determine based on the then current market practice in the market of the Reference Obligation or Valuation Obligation, as applicable, whether the Outstanding Principal Balance of the Reference Obligation or Valuation Obligation shall include or exclude accrued but unpaid interest and, if applicable, the amount thereof; or
- (iii) Credit Linked Condition 4(b) (*Partial Cash Settlement Due to Impossibility or Illegality*) or Credit Linked Condition 4(c) (*Non-Delivery of Deliverable Obligations*) is applicable, the Calculation Agent shall determine, based on the then current market practice in the market for the relevant Undeliverable Obligation, Undeliverable Loan Obligation, Undeliverable Participation or Unassignable Obligation, whether such Quotations shall include or exclude accrued but unpaid interest.

## (i) Asset Package Delivery

"**Asset Package Delivery**" will apply if an Asset Package Credit Event occurs, unless (i) such Asset Package Credit Event occurs prior to the Credit Event Backstop Date determined in respect of the Credit Event specified in the Credit Event Notice or DC Credit Event Announcement applicable to the Event Determination Date, or (ii) if the Reference Entity is a Sovereign, no Package Observable Bond exists immediately prior to such Asset Package Credit Event.

If the "Sovereign No Asset Package Delivery Supplement" is applicable in respect of a Reference Entity, then, notwithstanding the above, it shall be deemed that no Package Observable Bond exists with respect to such Reference Entity that is a Sovereign (even if such a Package Observable Bond has been published by ISDA) and accordingly, Asset Package Delivery shall not apply thereto.

**6. Successors**

## (a) Provisions for determining a Successor

- (i) The Calculation Agent may determine, following any succession (or, in relation to a Reference Entity that is a Sovereign, a Sovereign Succession Event) and with effect from the Succession Date, any Successor or Successors under the definition of "Successor"; provided that the Calculation Agent will not make such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations.

The Calculation Agent will make all calculations and determinations required to be made under the definition of "Successor" (or the provisions relating to the determination of a Successor) on the basis of Eligible Information.

In calculating the percentages used to determine whether an entity qualifies as a Successor under the definition of "Successor", if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

- (ii) An entity may only be a Successor if:
- (I) either (A) the related Succession Date occurs on or after the Successor Backstop Date, or (B) such entity is a Universal Successor in respect of which the Succession Date occurred on or after 1 January 2014;
  - (II) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity; and
  - (III) where the Reference Entity is a Sovereign, such entity succeeded to the Relevant Obligations by way of a Sovereign Succession Event.
- (iii) In the case of an exchange offer, the determination required pursuant to the definition of "Successor" shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.
- (iv) If two or more entities (each, a "**Joint Potential Successor**") jointly succeed to a Relevant Obligation (the "**Joint Relevant Obligation**") either directly or as a provider of a Relevant

Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

(b) Single Reference Entity

Where the Credit Linked Securities are Single Reference Entity Credit Linked Securities and a Succession Date has occurred and more than one Successor has been identified, the credit derivative transaction relating to the Credit Default Swap Agreement will be deemed for all purposes to have been divided, with effect from the Succession Date, into the same number of new credit derivative transactions as there are Successors with the following terms:

- (i) each Successor will be a Reference Entity for the purposes of one of the deemed new credit derivative transactions;
- (ii) in respect of each deemed new credit derivative transaction, the Reference Entity Notional Amount will be the Reference Entity Notional Amount applicable to the original Reference Entity divided by the number of Successors; and
- (iii) all other terms and conditions of the original credit derivative transactions will be replicated in each deemed new credit derivative transaction except that the Calculation Agent shall make such modifications as it determines, acting in good faith and in a commercially reasonable manner, are required in order to preserve the economic effects of the original credit derivative transactions in the deemed new credit derivative transactions and the Credit Linked Securities (considered in aggregate).

(c) Nth-to-Default

Where the Credit Linked Securities are Nth-to-Default Credit Linked Securities:

- (i) where a Succession Date has occurred in respect of a Reference Entity (other than a Reference Entity in respect of which a Credit Event has occurred) and more than one Successor has been identified, the credit derivative transaction evidenced by the Credit Default Swap Agreement will be deemed for all purposes to have been divided, with effect from the Succession Date, into a number of new credit derivative transactions equal to the number of Successors. Each such new credit derivative transaction shall include a Successor and each and every one of the unaffected Reference Entities and the provisions of Credit Linked Condition 6(b)(i) to (iii) (inclusive) shall apply thereto;
- (ii) if "Substitution" is specified as not being applicable in the Final Terms, where any Reference Entity (the "**Surviving Reference Entity**") (other than a Reference Entity that is subject to the Succession Date) would be a Successor to any other Reference Entity (the "**Legacy Reference Entity**") pursuant to a Succession Date, such Surviving Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity; and
- (iii) if "Substitution" is specified as being applicable in the Final Terms, where the Surviving Reference Entity (other than a Reference Entity that is subject to the Succession Date) would be a Successor to a Legacy Reference Entity pursuant to a Succession Date:

- (A) such Surviving Reference Entity shall be deemed not to be a Successor to the Legacy Reference Entity; and
- (B) the Replacement Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity.

(d) **Linear Basket**

Where the Credit Linked Securities are Linear Basket Credit Linked Securities, and one or more Successors have been identified in respect of a Reference Entity that has been the subject of a related Succession Date (the "**Affected Entity**"), then, with effect from the Succession Date:

- (i) the Affected Entity will no longer be a Reference Entity (unless it is a Successor as described in (ii) below);
- (ii) each Successor will be deemed a Reference Entity (in addition to each Reference Entity which is not an Affected Entity);
- (iii) the Reference Entity Notional Amount for each such Successor will equal the Reference Entity Notional Amount of the Affected Entity divided by the number of Successors;
- (iv) the Calculation Agent may make any modifications to the terms of the Credit Default Swap Agreement and these Credit Linked Conditions which it determines may be required to preserve the economic effects of the Swap Agreement and the Credit Linked Securities prior to the Succession Date (considered in the aggregate). For the avoidance of doubt, the Calculation Agent may not, without the consent of the Issuer and the Trustee, amend any of the terms and conditions of the Credit Linked Securities other than these Credit Linked Conditions; and
- (v) for the avoidance of doubt, a Reference Entity may, as a result of a Succession Date, be represented in the basket with respect to multiple Reference Entity Notional Amounts for the Successor(s) of such Reference Entity.

**7. Provisions relating to LPN Reference Entities and CoCo Supplement**

(a) **LPN Reference Entities**

The following provisions shall apply if the applicable Final Terms provide that "LPN Reference Entity" is applicable:

- (i) Multiple Holder Obligation will not be applicable with respect to any Reference Obligation and any Underlying Loan;
- (ii) each Reference Obligation will be an Obligation notwithstanding anything to the contrary in these Credit Linked Conditions, and in particular, that the obligation is not an obligation of the Reference Entity;
- (iii) each Reference Obligation will be a Deliverable Obligation notwithstanding anything to the contrary in these Credit Linked Conditions, and in particular, that the obligation is not an obligation of the Reference Entity;
- (iv) for the avoidance of doubt, with respect to any LPN Reference Obligation that specifies an Underlying Loan or an Underlying Finance Instrument, the outstanding principal balance shall be determined by reference to the Underlying Loan or Underlying Finance Instrument (as applicable) relating to such LPN Reference Obligation;

- (v) the "Not Subordinated" Obligation Characteristic and Deliverable Obligation Characteristic shall be construed as if no Reference Obligation was specified in respect of the Reference Entity; and
- (vi) "Reference Obligation" shall mean each of the obligations listed as a Reference Obligation of the Reference Entity in the Final Terms or set forth on the relevant LPN Reference Obligation List (each, a "**Markit Published LPN Reference Obligation**"), as published by Markit Group Limited, or any successor thereto, which list is currently available at <http://www.markit.com/marketing/services.php>, any Additional LPN, determined in accordance with the definition thereof, and each Additional Obligation. Each Reference Obligation determined in accordance with the foregoing will be a Reference Obligation notwithstanding anything to the contrary in these Conditions and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity, Standard Reference Obligation shall be Not Applicable. The proviso in the definition of "Original Non-Standard Reference Obligation" shall not apply. If there is more than one Reference Obligation, all applicable references in these Conditions to "the Reference Obligation" shall be construed as a reference to "a Reference Obligation", and all other provisions of these Conditions shall be construed accordingly. The provisions in "Substitute Reference Obligation" and "Substitution Event" shall not be applicable to LPN Reference Obligations.

(b) Provisions relating to CoCo Supplement

The following provisions shall apply in respect of a Reference Entity if the "CoCo Supplement" is applicable:

- (i) If, with respect to one or more Obligations and in relation to an aggregate amount of not less than the Default Requirement, the operation of one or more CoCo Provisions results in (i) a permanent or temporary reduction of the amount of principal payable at redemption or (ii) a conversion of principal into shares or another instrument, such event shall be deemed to constitute a Governmental Intervention falling within paragraph (i) of the definition thereof.
- (ii) A CoCo Provision shall be deemed to be a provision which permits a Governmental Intervention for all purposes.
- (iii) The following terms shall have the following meanings:

"**Capital Ratio**" means the ratio of capital to risk weighted assets applicable to the Obligation, as described in the terms thereof in effect from time to time.

"**CoCo Provision**" means, with respect to an Obligation, a provision which requires (i) a permanent or temporary reduction of the amount of principal payable at redemption or (ii) a conversion of principal into shares or another instrument, in each case, if the Capital Ratio is at or below the Trigger Percentage.

"**Trigger Percentage**" means the trigger percentage specified in respect of the Reference Entity (or if no such trigger percentage is specified, 5.25 per cent.).

**8. Restructuring Credit Event**

(a) Multiple Credit Event Notices

Upon the occurrence of an M(M)R Restructuring with respect to a Reference Entity:

- (i) the Swap Counterparty may deliver multiple Credit Event Notices with respect to such M(M)R Restructuring, each such notice setting forth the amount of the relevant Reference Entity Notional Amount to which such notice applies (the "**Exercise Amount**") provided that if the Credit Event Notice does not specify an Exercise Amount, the then outstanding Reference Entity Notional Amount (and not a portion thereof) will be deemed to have been specified as the Exercise Amount;
- (ii) the provisions of these Credit Linked Conditions shall be deemed to apply to an aggregate outstanding principal amount or aggregate outstanding notional amount equal to the Exercise Amount only and all the provisions shall be construed accordingly; and
- (iii) the Exercise Amount in connection with a Credit Event Notice describing an M(M)R Restructuring must be an amount that is at least 1,000,000 units of the Specified Currency (or, if Japanese Yen, 100,000,000 units) in which the Reference Entity Notional Amount is denominated or any integral multiple thereof or the entire relevant Reference Entity Notional Amount.

In the case of an Nth-to-Default Credit Linked Security, once an Event Determination Date has occurred in respect of the Nth Reference Entity where the Credit Event is an M(M)R Restructuring, no further Credit Event Notices may be delivered in respect of any other Reference Entity (save to the extent that the Credit Default Swap Agreement and Credit Linked Securities are deemed to have been divided into new credit derivative transactions or Credit Linked Securities respectively pursuant to Credit Linked Condition 6).

If any Credit Linked Security is subject to partial settlement in accordance with this Credit Linked Condition 8, the relevant Credit Linked Security or, if the Credit Linked Securities are represented by a Global Note or Global Certificate, such Global Note or Global Certificate shall be endorsed to reflect such partial settlement.

(b) Mod R

If (i) "Physical Settlement" or "Cash Settlement" is specified to be the Settlement Method in the applicable Final Terms (or is applicable as the Fallback Settlement Method), (ii) "Mod R" is specified as applicable in respect of the Reference Entity and (iii) Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation or, as applicable, Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation or, as applicable, Valuation Obligation may only be specified (or deemed specified) in the Notice of Physical Settlement or in any NOPS Amendment Notice or selected by the Swap Counterparty to form part of the related Valuation Obligations Portfolio, as applicable, if such Deliverable Obligation or, as applicable, Valuation Obligation:

- (A) is a Fully Transferable Obligation; and
- (B) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date,

in each case, as of both the NOPS Effective Date and the Delivery Date or, as applicable, as of the Relevant Valuation Date.

(c) Mod Mod R

If (i) "Physical Settlement" or "Cash Settlement" is specified to be the Settlement Method in the applicable Final Terms (or is applicable as the Fallback Settlement Method), (ii) "Mod Mod R" is

specified as applicable in respect of the Reference Entity and (iii) Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation or, as applicable, Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation or, as applicable, Valuation Obligation may only be specified (or deemed specified) in the Notice of Physical Settlement or in any NOPS Amendment Notice or selected by the Swap Counterparty to form part of the related Valuation Obligations Portfolio, as applicable, if it (A) is a Conditionally Transferable Obligation and (B) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of both the NOPS Effective Date and the Delivery Date or, as applicable, as of the Relevant Valuation Date. Notwithstanding the foregoing, for purposes of this paragraph, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

If the relevant Deliverable Obligation specified in the Notice of Physical Settlement (or in any NOPS Amendment Notice, as applicable) or, as applicable, the relevant Valuation Obligation selected, is a Conditionally Transferable Obligation with respect to which consent is required to novate, assign or transfer and the requisite consent is refused (whether or not a reason is given for such refusal and, where a reason is given for such refusal, regardless of that reason), or is not received by the Physical Settlement Date or, as applicable, the Relevant Valuation Date (in which case it shall be deemed to have been refused), the Issuer or the Swap Counterparty shall, as soon as reasonably practicable, notify the relevant Holders of Securities of such refusal (or deemed refusal) and:

- (i) each such holder of Securities may designate a third party (which may or may not be an Affiliate of such holder of Securities) to take Delivery of the Deliverable Obligation on its behalf; and
  - (ii) if a holder of Securities does not designate a third party that takes Delivery on or prior to the date which is three Credit Security Business Days after the Physical Settlement Date, then the Issuer will redeem the Credit Linked Securities for which Delivery has not occurred, by payment of the relevant Partial Cash Settlement Amount to such holder of Securities. For the avoidance of doubt Credit Linked Condition 4(b) will not apply to this paragraph.
- (d) General Terms relating to Mod R and Mod Mod R

For the purposes of making a determination pursuant to "Mod R" and "Mod Mod R", final maturity date shall, subject to Credit Linked Condition 8(c) (Mod Mod R), be determined on the basis of the terms of the Deliverable Obligation or, as applicable, Valuation Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation or, as applicable, Valuation Obligation that is due and payable, the final maturity date shall be deemed to be the date on which such determination is made.

- (e) Multiple Holder Obligations

Notwithstanding anything to the contrary in the definition of "Restructuring" and related provisions, the occurrence of, agreement to, or announcement of, any of the events described in sub-paragraph (i)(A) to (i)(E) (inclusive) thereof shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation, provided that any obligation that is a Bond shall be deemed to satisfy the requirements of sub-paragraph (ii) of the definition of "Multiple Holder Obligation".

**9. Miscellaneous Provisions relating to Credit Linked Securities****(a) Determinations of the Calculation Agent**

The determination by the Calculation Agent of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent pursuant to the Credit Linked Conditions shall (in the absence of manifest error) be final and binding on the Issuer, the Guarantor (if applicable) and the Holders of Securities. Unless otherwise expressly stated, the Calculation Agent is not bound to follow or act in accordance with any determination of the relevant Credit Derivatives Determinations Committee. Whenever the Calculation Agent is required to make any determination it may, *inter alia*, decide issues of construction and legal interpretation. If the Calculation Agent chooses to rely on the determinations of the relevant Credit Derivatives Determinations Committee it may do so without liability. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or its discretion under the Credit Linked Securities including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion, and none of the Swap Counterparty, the Trustee, the Issuing and Paying Agent or the Principal Warrant and Certificate Agent, as applicable, the Calculation Agent, the Issuer or the Guarantor (if applicable) shall, in the absence of wilful misconduct and gross negligence, bear any liability in respect of, or consequent upon, any such delay, deferral or forbearance.

**(b) Reversal of DC Resolutions**

If, where a calculation or determination with respect to the Credit Linked Securities has been made by the Calculation Agent in reliance upon a DC Resolution or otherwise resulted from a DC Resolution, ISDA publicly announces that such DC Resolution has been reversed by a subsequent DC Resolution, such reversal will be taken into account for the purposes of any subsequent calculations, provided that the ISDA public announcement occurs prior to the DC Resolution Reversal Cut-off Date (or where redeemed or settled in part, save to the extent of any such redemption or settlement). The Calculation Agent, acting in good faith and in a commercially reasonable manner, will make any adjustment to any future payments as are required to take account of such reversal, including any payment of additional interest or any reduction in any interest or any other amount payable under the Credit Linked Securities. For the avoidance of doubt, no accruals of interest shall be taken into account when calculating any such adjustment payment.

**(c) Change in Standard Terms and Market Conventions**

The Calculation Agent, acting reasonably, may (but shall not be obligated to) modify these Credit Linked Conditions from time to time with effect from a date designated by the Calculation Agent to the extent reasonably necessary to ensure consistency with prevailing market standards or market trading conventions, which are, pursuant to the agreement of leading dealers in the credit derivatives market or any relevant ISDA committee, a market-wide protocol, any applicable law or regulation or the rules of any applicable exchange or clearing system, applicable to any Notional Credit Derivative Transaction or any Hedge Transaction entered into prior to such date or terms thereof. The Calculation Agent shall notify the Issuer, the Trustee, the Issuing and Paying Agent or the Principal Warrant and Certificate Agent, as applicable, and the Swap Counterparty as soon as reasonably practicable upon making any such determination. For the avoidance of doubt, the Calculation Agent may not, without the consent of the Issuer and the Trustee, amend, pursuant to this Credit Linked Condition 9(c) any of the terms and conditions of the Credit Linked Securities other than the Credit Linked Conditions.

In particular, the Calculation Agent may make such modifications as may be necessary to ensure consistency with any successor provisions ("**Successor Provisions**") which are published by ISDA and which supersede the 2003 ISDA Credit Derivatives Definitions, the 2003 ISDA Credit Derivatives Definitions as supplemented by the July 2009 Supplement and/or the 2014 ISDA Credit Derivatives Definitions, as the case may be, for the purposes of credit derivatives transactions generally (including with respect to transactions which are entered into prior to the relevant date of publication and which are outstanding as of that date) and/or may apply and rely on determinations of a Credit Derivatives Determinations Committee made in respect of a relevant Reference Entity under any such Successor Provisions notwithstanding any discrepancy between the terms of such Successor Provisions and these Credit Linked Conditions.

This Credit Linked Condition 9(c) shall apply unless the applicable Final Terms specify that "Change in Standard Terms and Market Conventions" is not applicable.

(d) Delivery of Notices

As soon as reasonably practicable after receiving a Credit Event Notice or Notice of Publicly Available Information, Notice of Physical Settlement (or amendment or correction thereof), Auction Settlement Amount Notice or Extension Notice from the Swap Counterparty, the Issuer shall promptly inform, or shall procure that the Swap Counterparty informs the Trustee, the Issuing and Paying Agent or the Principal Warrant and Certificate Agent, as applicable, and the Holders of Securities in accordance with Condition 18 of the Notes or Condition 19 of the Certificates, as applicable. Resolutions of the Credit Derivatives Determinations Committees are, as of the date hereof, available on the website of the Credit Derivatives Determinations Committees (<https://www.cdsdeterminationscommittees.org>) (or any successor website thereto).

(e) Effectiveness of Notices

Any notice referred to in Credit Linked Condition 9(d) above which is delivered on or prior to 5.00 p.m. (London time) on a London Business Day is effective on such date and if delivered after such time or on a day that is not a London Business Day, is deemed effective on the next following London Business Day.

A notice given by telephone by the Issuer, the Swap Counterparty or the Calculation Agent will be deemed to have been delivered at the time the telephone conversation takes place.

(f) Excess Amounts

If, on a Business Day, the Calculation Agent reasonably determines that an Excess Amount has been paid to Holders of Securities on or prior to such day, then following notification of the determination of an Excess Amount to the Issuer and Holders of Securities in accordance with Condition 18 of the Notes or Condition 19 of the Certificates, as applicable, the Issuer may deduct any such Excess Amount from future payments in relation to the Credit Linked Securities (whether interest or principal) or may reduce the amount of any assets deliverable under the terms of the Credit Linked Securities to the extent that it determines, acting reasonably, to be necessary to compensate for such Excess Amount.

(g) Disposal of Charged Assets

Following the occurrence of an Event Determination Date in respect of any Reference Entity, unless the Issuer is required or entitled to deliver a selected portion of the Charged Assets to the Swap Counterparty or the Repo Counterparty, respectively, under the terms of the Credit Default Swap Agreement, the Repurchase Agreement, or any other Swap Agreement relating to the Credit Linked

Securities, as applicable, or as otherwise specified in the Final Terms, the Redemption Agent shall, on behalf of the Issuer, use reasonable efforts to dispose of the Charged Assets (or, in the case of Linear Basket Credit Linked Securities, the relevant portion thereof) in accordance with Credit Linked Condition 9(h) for settlement not later than one Credit Security Business Day prior to the date on which the related Reference Entity Notional Amount of each Credit Linked Security is due to be redeemed save where the relevant Charged Asset is a Deposit Agreement and the Issuer will receive payment of an amount from the Deposit Counterparty at least equal to the relevant redemption amount on or prior to the date on which the related Reference Entity Notional Amount of each Credit Linked Security is due to be redeemed.

(h) Sale of Charged Assets

Where the Redemption Agent is required to dispose of any Charged Assets on behalf of the Issuer in order to redeem the Credit Linked Securities as set out in Credit Linked Condition 9(g), then:

- (i) the Redemption Agent shall seek firm bid quotations from at least three dealers in assets such as the relevant Charged Assets (and, for such purpose, it may seek quotations in respect of such Charged Assets in their entirety or in respect of designated tranches thereof, as it considers appropriate);
- (ii) the Redemption Agent may itself provide a bid in respect of the relevant Charged Assets or any tranche thereof;
- (iii) it shall and shall be authorised to accept on behalf of the Issuer in respect of each relevant tranche or, as applicable, the entirety of the relevant Charged Assets the highest such quotation so obtained (which may be a quotation of the Redemption Agent); and
- (iv) the net proceeds of sale of the relevant Charged Assets shall be paid into the Compartment Account and applied to meet the Issuer's obligations in respect of the Credit Linked Securities, the Swap Agreements and, if applicable, the Repurchase Agreement.

(i) Provisions Relating to Timing

Subject to Credit Linked Condition 9(e) and Credit Linked Condition 9(j), in order to determine the day on which an event occurs for purposes of the Credit Linked Conditions, the demarcation of days shall be made by reference to Greenwich Mean Time (or, if the Transaction Type of the Reference Entity relates to Japan, Tokyo time), irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.

(j) Payment Timing

Notwithstanding the "Credit Event Notice" definition and Credit Linked Condition 9(g) (*Provisions Relating to Timing*), if a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or, if the Transaction Type of the Reference Entity relates to Japan, Tokyo time), irrespective of the time zone of its place of payment.

(k) Business Day Convention

If the last day of any period calculated by reference to calendar days falls on a day that is not a Business Day, such last day shall be subject to adjustment in accordance with the applicable Business Day Convention; provided that if the last day of any period is the Credit Event Backstop Date or the

Successor Backstop Date, such last day shall not be subject to any adjustment in accordance with any Business Day Convention.

(l) No Frustration

In the absence of other reasons, the Credit Linked Securities will not be considered frustrated, or otherwise void or voidable (whether for mistake or otherwise) solely because:

- (i) the Reference Entity does not exist on, or ceases to exist on or following, the Trade Date; and/or
- (ii) Obligations, Deliverable Obligations or the Reference Obligation do not exist on, or cease to exist on or following, the Trade Date.

(m) Provisions relating to FX Adjustment

If "FX Adjustment" is specified to be applicable in the relevant Final Terms, any amount payable in respect of the Credit Linked Securities shall be made in such amount as determined absent this provision multiplied by the FX Adjustment.

**"Valuation Obligations Portfolio"** means one or more Valuation Obligations of a Reference Entity selected by the Swap Counterparty in its discretion, each in an Outstanding Amount (or, as the case may be, an Outstanding Amount of the relevant Prior Deliverable Obligation or Package Observable Bond immediately prior to the Asset Package Credit Event) selected by the Swap Counterparty in its sole and absolute discretion (and references to "Quotation Amount" shall be construed accordingly), provided that the aggregate of such Outstanding Amounts (or in each case the equivalent in the Specified Currency thereof (converted at the foreign exchange rate prevailing on any date from (and including) the Event Determination Date to (and including) the Valuation Date, as selected by the Swap Counterparty in good faith and in a commercially reasonable manner)), shall not exceed the relevant Reference Entity Notional Amount.

**"Valuation Time"** means the time specified in relation to a Reference Entity or, if no such time is specified, 11:00 a.m. in the principal trading market for the relevant Valuation Obligation or Undeliverable Obligation, as the case may be.

**"Voting Shares"** means the shares or other interests that have the power to elect the board of directors or similar governing body of an entity.

**"Weighted Average Final Price"** means the weighted average of the Final Prices determined for each selected Valuation Obligation in the Valuation Obligations Portfolio, weighted by the outstanding amount of each such Valuation Obligation (or its equivalent in the Settlement Currency

converted by the Calculation Agent in good faith and in a commercially reasonable manner by reference to exchange rates in effect at the time of such determination).

If "Zero Recovery" is specified as applicable in the Final Terms, the Weighted Average Final Price shall be zero.

**"Weighted Average Quotation"** means, in accordance with the bid quotations provided by the Credit Security Dealers, the weighted average of firm quotations obtained from the Credit Security Dealers at the Valuation Time, to the extent reasonably practicable, each for an amount of the Reference Obligation, Deliverable Obligation or Undeliverable Obligation, as the case may be, with an Outstanding Principal Balance or Due and Payable Amount, as applicable (or its equivalent in the relevant currency converted by the Calculation Agent in a commercially reasonable manner by reference to exchange rates in effect at the time of such determination), of as large a size as available but less than the Quotation Amount (in the case of Deliverable Obligations only, but of a size at least equal to the Minimum Quotation Amount) that in the aggregate are approximately equal to the Quotation Amount.

## 11. Amendments to Note Conditions and Certificate Conditions

### 11.1 Amendments to Note Conditions

The Terms and Conditions of the Notes are amended as follows:

- (a) The last 3 paragraphs of Condition 5(a) (*Interest on Fixed Rate Notes*) shall be amended as follows:

"Interest shall be calculated by applying the Rate of Interest to: (A) in the case of Fixed Rate Notes which are represented by a Global Note, the daily average of the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note; or (B) in the case of Fixed Rate Notes in definitive form, the Calculation Amount (or, as applicable, the daily average of the outstanding nominal amount corresponding to the Calculation Amount), multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of a Fixed Rate Note in definitive form comprises more than one Calculation Amount, the amount of Interest payable in respect of such Fixed Rate Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount (or, as applicable, for each relevant daily average of the outstanding nominal amount corresponding to such Calculation Amount) comprising the Specified Denomination without any further rounding.

**"sub-unit"** means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent."

- (b) In paragraph (A) of each of Condition 5(b)(iii) (*Determination of Rate of Interest and Calculation of Interest Amount*) and Condition 5(c)(iii) (*Determination of Rate of Interest and Calculation of Interest Amount*), the reference to "the aggregate outstanding nominal amount" shall be deleted and replaced with "the daily average of the aggregate outstanding nominal amount".

- (c) In paragraph (B) of each of Condition 5(b)(iii) (*Determination of Rate of Interest and Calculation of Interest Amount*) and Condition 5(c)(iii) (*Determination of Rate of Interest and Calculation of Interest Amount*), the reference to "the Calculation Amount" shall be deleted and replaced with "(or, as applicable, the daily average of the outstanding nominal amount corresponding to the Calculation Amount)".
- (d) In the last paragraph of each of Condition 5(b)(iii) (*Determination of Rate of Interest and Calculation of Interest Amount*) and Condition 5(c)(iii) (*Determination of Rate of Interest and Calculation of Interest Amount*), the reference to "each Calculation Amount" shall be deleted and replaced with "(or, as applicable, for each relevant daily average of the outstanding nominal amount corresponding to such Calculation Amount)".
- (e) In Condition 5(k) (*Interest Payments*), the second sentence thereof shall be deleted and replaced with the following:  
  

"If such Note is redeemed early (i) if the applicable Final Terms specify that Accrual to Redemption is applicable, interest will cease to accrue on the due date for redemption or (ii) if the applicable Final Terms specify that Accrual to Redemption is not applicable, no interest shall accrue or be payable in respect of which the relevant Interest Payment Date has not occurred on or prior to the due date for redemption of such Note (or if the applicable Final Terms specify that Accrual to Preceding IPED is applicable, interest will cease to accrue from and including the Interest Period End Date immediately preceding (A) the date on which notice is given for the early redemption of such Note or (B) if there is no such notice, the due date for early redemption of such Note)."
- (f) Condition 7(a) (*Redemption at Maturity*) shall be amended by adding the following immediately before the end thereof:  
  

"Notwithstanding the above, unless previously redeemed or purchased and cancelled as provided below, each Credit Linked Note will be redeemed in accordance with the Credit Linked Conditions and the applicable Final Terms."

## 11.2 Amendments to Certificate Conditions

The Terms and Conditions of the Certificates are amended as follows:

- (a) The definition of "Cash Settlement Amount" in Condition 6(a) (*Method of Payment*) shall be amended by adding immediately after the words "the Final Redemption Amount specified in the applicable Final Terms", the following:  
  

"(or, in relation to Credit Linked Certificates, the amount specified in the applicable Final Terms)".
- (b) The penultimate paragraph of Condition 4(a) (*Interest on Fixed Rate Certificates*) shall be amended as follows:  
  

"Interest shall be calculated by applying the Rate of Interest to the average daily outstanding notional amount of each Certificate and if a Day Count Fraction is specified in the applicable Final Terms multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Settlement Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention."

- (c) Each of Condition 4(b)(iii) (*Determination of Rate of Interest and Calculation of Interest Amount*) and Condition 4(c)(iii) (*Determination of Rate of Interest and Calculation of Interest Amount*) shall be amended by deleting and replacing the reference to "the Notional Amount of such Certificate" with the following:

"the average daily outstanding Notional Amount of such Certificate".

- (d) In Condition 4(j) (*Interest Payments*), the third sentence thereof shall be deleted and replaced with the following:

"If such Certificate is redeemed early, (i) if the applicable Final Terms specify that Accrual to Redemption is applicable, interest will cease to accrue on the due date for redemption or (ii) if the applicable Final Terms specify that Accrual to Redemption is not applicable, no interest shall accrue or be payable in respect of which the relevant payment date has not occurred on or prior to the due date for redemption of such Certificate (or if the applicable Final Terms specify that Accrual to Preceding IPED is applicable, interest will cease to accrue from and including the Interest Period End Date immediately preceding (A) the date on which notice is given for the early redemption of such Certificate or (B) if there is no such notice, the due date for early redemption of such Certificate), unless in either case payment of principal and/or delivery of all assets deliverable is improperly withheld or refused.".

## 12. 2019 Narrowly Tailored Credit Event Provisions

The following are the "NTCE Provisions", which shall (i) not apply in respect of a Reference Entity if such Reference Entity is a Sovereign, or (ii) apply in respect of a Reference Entity if such Reference Entity is not a Sovereign, in each case unless otherwise specified in the Final Terms (and reference in any applicable Transaction Type to "2019 NTCE Supplement to the 2014 ISDA Credit Derivatives Definitions (July 2019)" shall for clarification, be to these provisions).

- (a) Outstanding Principal Balance

The definition of "Outstanding Principal Balance" in Credit Linked Condition 11 shall be deleted and replaced with the following:

"The "**Outstanding Principal Balance**" of an obligation will be calculated as follows:

- (i) first, by determining, in respect of the obligation, the amount of the Reference Entity's principal payment obligations and, where applicable in accordance with Credit Linked Condition 5(h) (*Accrued Interest*), the Reference Entity's accrued but unpaid interest payment obligations (which, in the case of a Guarantee will be the lower of (A) the Outstanding Principal Balance (including accrued but unpaid interest, where applicable) of the Underlying Obligation (determined as if references to the Reference Entity were references to the Underlying Obligor) and (B) the amount of the Fixed Cap, if any);
- (ii) second, by subtracting all or any portion of such amount which, pursuant to the terms of the obligation, (A) is subject to any Prohibited Action, or (B) may otherwise be reduced as a result of the effluxion of time or the occurrence or non-occurrence of an event or circumstance (other than by way of (I) payment or (II) a Permitted Contingency) (the amount determined in paragraph (i) less any amounts subtracted in accordance with this paragraph (ii), the "**Non-Contingent Amount**"); and
- (iii) third, by determining the Quantum of the Claim, which shall then constitute the Outstanding Principal Balance,

in each case, determined:

- (A) unless otherwise specified, in accordance with the terms of the obligation in effect on either (I) the NOPS Effective Date (or if the terms of the obligation are amended after such date but on or prior to the Delivery Date, the Delivery Date), or (II) the Relevant Valuation Date; and
- (B) with respect to the Quantum of the Claim only, in accordance with any applicable laws (insofar as such laws reduce or discount the size of the claim to reflect the original issue price or accrued value of the obligation).

For the purposes of paragraph (B) above, "**applicable laws**" shall include any bankruptcy or insolvency law or other law affecting creditors' rights to which the relevant obligation is, or may become, subject.

Unless "Fallback Discounting" is specified as not applicable in the applicable Final Terms with respect to the relevant Reference Entity, then notwithstanding the above, if (i) the Outstanding Principal Balance of an obligation is not reduced or discounted under paragraph (B) above, (ii) that obligation is either a Bond that has an issue price less than ninety-five per cent. of the principal redemption amount or a Loan where the amount advanced is less than ninety-five per cent. of the principal repayment amount, and (iii) such Bond or Loan does not include provisions relating to the accretion over time of the amount which would be payable on an early redemption or repayment of such Bond or Loan that are customary for the applicable type of Bond or Loan as the case may be, then the Outstanding Principal Balance of such Bond or Loan shall be the lesser of (a) the Non-Contingent Amount; and (b) an amount determined by straight line interpolation between the issue price of the Bond or the amount advanced under the Loan and the principal redemption amount or principal repayment amount, as applicable.

For the purposes of determining whether the issue price of a Bond or the amount advanced under a Loan is less than ninety-five per cent. of the principal redemption amount or principal repayment amount (as applicable) or, where applicable, for applying straight line interpolation:

- (x) where such Bond or Loan was issued as a result of an exchange offer, the issue price or amount advanced of the new Bond or Loan resulting from the exchange shall be deemed to be equal to the aggregate Outstanding Principal Balance of the original obligation(s) that were tendered or exchanged (the "**Original Obligation(s)**") at the time of such exchange (determined without regard to market or trading value of the Original Obligation(s)); and
- (y) in the case of a Bond or Loan that is fungible with a prior debt obligation previously issued by the Reference Entity, such Bond or Loan shall be treated as having the same issue price or amount advanced as the prior debt obligation.

In circumstances where a holder would have received more than one obligation in exchange for the Original Obligation(s), the Calculation Agent will determine the allocation of the aggregate Outstanding Principal Balance of the Original Obligation(s) amongst each of the resulting obligations for the purpose of determining the issue price or amount advanced of the relevant Bond or Loan. Such allocation will take into account the interest rate, maturity, level of subordination and other terms of the obligations that resulted from the exchange and shall be made by the Calculation Agent in accordance with the methodology (if any) determined by the relevant Credit Derivatives Determinations Committee or, if none, as determined by the Calculation Agent in such manner and by reference to such source(s) as it determines appropriate."

- (b) Failure to Pay

The definition of "Failure to Pay" in Credit Linked Condition 10 shall be deleted and replaced with the following:

""**Failure to Pay**"" means, after the expiration of any applicable Grace Period (after the satisfaction of any conditions precedent to the commencement of such Grace Period), the failure by the Reference Entity to make, when and where due, any payments in an aggregate amount of not less than the Payment Requirement under one or more Obligations, in accordance with the terms of such Obligations at the time of such failure.

If an occurrence that would constitute a Failure to Pay (a) is a result of a redenomination that occurs as a result of action taken by a Governmental Authority which is of general application in the jurisdiction of such Governmental Authority and (b) a freely available market rate of conversion existed at the time of the redenomination, then such occurrence will be deemed not to constitute a Failure to Pay unless the redenomination itself constituted a reduction in the rate or amount of interest, principal or premium payable (as determined by reference to such freely available market rate of conversion) at the time of such redenomination.

Unless "Credit Deterioration Requirement" is specified as not applicable in the applicable Final Terms with respect to the relevant Reference Entity, then, notwithstanding the foregoing, it shall not constitute a Failure to Pay if such failure does not directly or indirectly either result from, or result in, a deterioration in the creditworthiness or financial condition of the Reference Entity, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. In making such determination, the Calculation Agent may take into account the guidance note set out in paragraph 3 (Interpretive Guidance) of the ISDA 2019 Narrowly Tailored Credit Event Supplement to the 2014 ISDA Credit Derivatives Definitions (published on July 15, 2019).".

**ANNEX A TO THE ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED SECURITIES****DESCRIPTION OF AUCTION SETTLEMENT TERMS**

*The following description is applicable to certain Credit Linked Securities to which "Annex 10 Additional Terms and Conditions for Credit Linked Securities" are applicable.*

If an Event Determination Date occurs with respect to the Credit Linked Securities and Auction Settlement applies, the Auction Settlement Amount with respect to the Credit Linked Securities will be calculated based on the Auction Final Price for the Reference Entity (if any). This Annex contains a summary of certain provisions of the Form of Credit Derivatives Auction Settlement Terms set forth at Annex B to the 2009 ISDA Credit Derivatives Determinations Committees and Auction Settlement Supplement to the 2003 ISDA Credit Derivatives Definitions, published by the International Swaps and Derivatives Association, Inc. ("**ISDA**") on 12 March 2009 (the "**Form of Auction Settlement Terms**") and is qualified by reference to the detailed provisions thereof and is subject to amendment from time to time in accordance with the Rules, including any amendment following the 2009 ISDA Credit Derivatives Determinations Committees, Auction Settlement and Restructuring Supplement dated 14 July 2009, as published by ISDA (the "**July 2009 Supplement**"). The July 2009 Supplement extended the auction hardwiring process to Restructuring credit events. Following certain Restructuring credit events, more than one auction may be held and there may be more than one Auction Final Price and credit default swaps are grouped into buckets by maturity and depending on which party triggers the credit default swap. Deliverable obligations will be identified for each bucket (any deliverable obligations included in a shorter bucket will also be deliverable for all longer buckets). If the Credit Derivatives Determinations Committee determines to hold an auction for a particular bucket, then that auction will be held according to the existing auction methodology that has previously been used for Bankruptcy and Failure to Pay credit events as described in the summary below, except that the deliverable obligations will be limited to those falling within the relevant maturity bucket.

The following does not purport to be a complete summary and prospective investors must refer to the Form of Auction Settlement Terms for detailed information regarding the auction methodology set forth therein (the "**Auction Methodology**"). The Auction and the Auction Methodology apply to credit default swaps on the Reference Entity and do not apply specifically to the Credit Linked Securities. A copy of the Form of Auction Settlement Terms may be inspected at the offices of the Issuer and is also currently available at [www.isda.org](http://www.isda.org) (or any successor website thereto).

Holders of Securities should also be aware that this summary of the form of the Auction Settlement Terms is accurate only as of the date hereof and the Form of Auction Settlement Terms may be amended from time to time without consultation with Holders of Securities. At any time after the date of this Annex, the latest Form of Auction Settlement Terms will be available on the ISDA website at [www.isda.org](http://www.isda.org) (or any successor website thereto). Further, notwithstanding the fact that the form of Auction Settlement Terms (as may be amended from time to time) appears on the ISDA website, Holders of Securities should note that the Credit Derivatives Determinations Committees have the power to amend the form of Credit Derivatives Auction Settlement Terms for a particular auction and that this summary may therefore not be accurate in all cases.

Capitalised terms used but not defined in this summary have the meaning specified in the Rules and the Form of Auction Settlement Terms. All times of day in this summary refer to such times in London.

**Publication of Credit Derivatives Auction Settlement Terms**

Pursuant to the Credit Derivatives Determinations Committees Rules set forth in Annex A to the 2009 ISDA Credit Derivatives Determinations Committees and Auction Settlement Supplement to the 2003 ISDA Credit Derivatives Definitions (published on 12 March 2009) (the "**Rules**"), a Credit Derivatives Determinations Committee may determine that a Credit Event has occurred in respect of a Reference Entity (such entity, an "**Affected Reference Entity**") and that one or more auctions will be held in order to settle affected transactions referencing such Affected Reference Entity based upon an Auction Final Price determined in accordance with an auction procedure as set forth in the Form of Auction Settlement Terms (each, an "**Auction**"). If an Auction is to be held, the Credit Derivatives Determinations Committee will publish Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity, based upon the

Form of Auction Settlement Terms. In doing so, the Credit Derivatives Determinations Committee will make several related determinations, including the date on which the Auction will be held (the "**Auction Date**"), the institutions that will act as participating bidders in the Auction (the "**Participating Bidders**") and the supplemental terms that are detailed in Schedule 1 to the Form of Auction Settlement Terms. The Credit Derivatives Determinations Committee may also amend the Form of Auction Settlement Terms for a particular auction and may determine that a public comment period is necessary in order to effect such an amendment if such amendment is not contemplated by the Rules.

### **Auction Methodology**

#### *Determining the Auction Currency Rate*

On the Auction Currency Fixing Date, the Administrators will determine the rate of conversion (each, an "**Auction Currency Rate**") as between the Relevant Currency and the currency of denomination of each Deliverable Obligation (each, a "**Relevant Pairing**") by reference to a Currency Rate Source or, if such Currency Rate Source is unavailable, by seeking mid-market rates of conversion from Participating Bidders (determined by each such Participating Bidder in a commercially reasonable manner) for each such Relevant Pairing. If rates of conversion are sought from Participating Bidders and more than three such rates are obtained by the Administrators, the Auction Currency Rate will be the arithmetic mean of such rates, without regard to the rates having the highest and lowest values. If exactly three rates are obtained, the Auction Currency Rate will be the rate remaining after disregarding the rates having the highest and lowest values. For this purpose, if more than one rate has the same highest or lowest value, then one of such rates shall be disregarded. If fewer than three rates are obtained, it will be deemed that the Auction Currency Rate cannot be determined for such Relevant Pairing.

#### *Initial Bidding Period*

During the Initial Bidding Period, Participating Bidders will submit to the Administrators: (a) Initial Market Bids; (b) Initial Market Offers; (c) Dealer Physical Settlement Requests; and (d) Customer Physical Settlement Requests (to the extent received from customers).

Initial Market Bids and Initial Market Offers are firm quotations, expressed as percentages, to enter into credit derivative transactions in respect of the Affected Reference Entity on terms equivalent to the Representative Auction-Settled Transaction.

The Initial Market Bid and Initial Market Offer submitted by each Participating Bidder must differ by no more than the designated Maximum Initial Market Bid-Offer Spread and must be an integral multiple of the Relevant Pricing Increment (each as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity). The Initial Market Bid must be less than the Initial Market Offer.

Dealer Physical Settlement Requests and Customer Physical Settlement Requests are firm commitments, submitted by a Participating Bidder, on its own behalf or on behalf of a customer, as applicable, to enter into a Representative Auction-Settled Transaction, in each case, as seller (in which case, such commitment will be a "**Physical Settlement Buy Request**") or as buyer (in which case, such commitment will be a "**Physical Settlement Sell Request**"). Each Dealer Physical Settlement Request must be, to the best of such Participating Bidder's knowledge and belief, in the same direction as, and not in excess of, its Market Position. Each Customer Physical Settlement Request must be, to the best of the relevant customer's knowledge and belief (aggregated with all Customer Physical Settlement Requests submitted by such customer), in the same direction as, and not in excess of, its Market Position.

If the Administrators do not receive valid Initial Market Bids and Initial Market Offers from at least a minimum number of Participating Bidders (as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity), the timeline will be adjusted and the Initial Bidding Period extended, with the Auction recommencing at such time(s) specified by the Administrators, otherwise it will proceed as follows.

*Determination of Open Interest, Initial Market Midpoint and Adjustment Amounts*

The Administrators will calculate the Open Interest, the Initial Market Midpoint and any Adjustment Amounts in respect of the Auction.

The Open Interest is the difference between all Physical Settlement Sell Requests and all Physical Settlement Buy Requests.

To determine the Initial Market Midpoint, the Administrators will: (a) sort the Initial Market Bids in descending order and the Initial Market Offers in ascending order, identifying non-tradeable markets for which bids are lower than offers; (b) sort non-tradeable markets in terms of tightness of spread between Initial Market Bid and Initial Market Offer; and (c) identify that half of the non-tradeable markets with the tightest spreads. The Initial Market Midpoint is determined as the arithmetic mean of the Initial Market Bids and Initial Market Offers contained in the half of non-tradeable markets with the tightest spreads.

Any Participating Bidder whose Initial Market Bid or Initial Market Offer forms part of a tradable market will be required to make a payment to ISDA on the third Business Day after the Auction Final Price Determination Date (an "**Adjustment Amount**"), calculated in accordance with the Auction Methodology. Any payments of Adjustment Amounts shall be used by ISDA to defray any costs related to any auction that ISDA has coordinated, or that ISDA will in the future coordinate, for purposes of settlement of credit derivative transactions.

If for any reason no single Initial Market Midpoint can be determined, the procedure set out above may be repeated.

At or prior to the Initial Bidding Information Publication Time on any day on which the Initial Bidding Period has successfully concluded, the Administrators publish the Open Interest, the Initial Market Midpoint and the details of any Adjustment Amounts in respect of the Auction.

If the Open Interest is zero, the Auction Final Price will be the Initial Market Midpoint.

*Submission of Limit Order Submissions*

In the event that the Open Interest does not equal zero, a subsequent bidding period will be commenced during the Initial Bidding Period which: (a) if the Open Interest is an offer to sell Deliverable Obligations, Participating Bidders submit Limit Bids; or (b) if the Open Interest is a bid to purchase Deliverable Obligations, Limit Offers, in each case, on behalf of customers and for their own account.

*Matching bids and offers*

If the Open Interest is a bid to purchase Deliverable Obligations, the Administrators will match the Open Interest against all Initial Market Offers and Limit Offers, as further described in the Auction Methodology. If the Open Interest is an offer to sell Deliverable Obligations, the Administrators will match the Open Interest against all Initial Market Bids and Limit Bids, as further described in the Auction Methodology.

**Auction Final Price when the Open Interest is Filled**

The Auction Final Price will be the price associated with the matched Initial Market Bids and Limit Bids or Initial Market Offers and Limit Offers, as applicable, that is the highest offer or the lowest bid, as applicable, provided that: (a) if the Open Interest is an offer to sell and the price associated with the lowest matched bid exceeds the Initial Market Midpoint by more than the "**Cap Amount**" (being the percentage that is equal to one half of the Maximum Initial Market Bid-Offer Spread (rounded to the nearest Relevant Pricing Increment)), then the Auction Final Price will be the Initial Market Midpoint plus the Cap Amount; and (b) if the Open Interest is a bid to purchase and the Initial Market Midpoint exceeds the price associated with the highest offer by more than the Cap Amount, then the Auction Final Price will be the Initial Market Midpoint minus the Cap Amount.

**Auction Final Price when the Open Interest is Not Filled**

If, once all the Initial Market Bids and Limit Bids or Initial Market Offers and Limit Offers, as applicable, have been matched to the Open Interest, part of the Open Interest remains, the Auction Final Price will be:

(a) if the Open Interest is a bid to purchase Deliverable Obligations, the greater of (i) zero, and (ii) the highest Limit Offer or Initial Market Offer received; or (b) if the Open Interest is an offer to sell Deliverable Obligations, zero.

*100 per cent. Cap to Auction Final Price*

In all cases, if the Auction Final Price determined pursuant to the Auction Methodology is greater than 100 per cent., then the Auction Final Price will be deemed to be 100 per cent.

*Publication of Auction Final Price*

At or prior to the Subsequent Bidding Information Publication Time on any day on which the subsequent bidding period has successfully concluded, the Administrators will publish on their websites: (a) the Auction Final Price; (b) the names of the Participating Bidders who submitted bids, offers, valid Dealer Physical Settlement Requests and valid Customer Physical Settlement Requests, together with the details of all such bids and offers submitted by each; and (c) the details and size of all matched trades.

**Execution of Trades Formed in the Auction**

Each Participating Bidder whose Limit Bid or Initial Market Bid (or Limit Offer or Initial Market Offer if applicable) is matched against the Open Interest, and each Participating Bidder that submitted a Customer Physical Settlement Request or Dealer Physical Settlement Request, is deemed to have entered into a Representative Auction-Settled Transaction, and each customer that submitted such a Limit Bid, Limit Offer, or Physical Settlement Request is deemed to have entered into a Representative Auction-Settled Transaction with the dealer through whom the customer submitted such bid or offer. Accordingly, each such Participating Bidder or customer that is a seller of Deliverable Obligations pursuant to a trade formed in the auction must deliver to the buyer to whom such Participating Bidder or customer has been matched a Notice of Physical Settlement indicating the Deliverable Obligations that it will deliver, and such Deliverable Obligations will be sold to the buyer in exchange for payment of the Auction Final Price.

**Timing of Auction Settlement Provisions**

If an Auction is held in respect of an Affected Reference Entity, it is expected that the relevant Auction Date will occur on the third Business Day immediately prior to the 30th calendar day after which the relevant Credit Derivatives Determinations Committee received the request from an eligible market participant (endorsed by a member of the relevant Credit Derivatives Determinations Committee) to resolve whether a Credit Event has occurred with respect to such Reference Entity.

In respect of an Affected Reference Entity for which an Auction is held, the Auction Settlement Date will occur on a Business Day following the Auction Final Price Determination Date, as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity. By way of example, in recent ISDA CDS Auction Protocols (prior to the publication of the 2009 ISDA Credit Derivatives Determinations Committees and Auction Settlement Supplement to the 2003 ISDA Credit Derivatives Definitions) this has been approximately five Business Days following the relevant Auction Final Price Determination Date. The settlement date of the Securities will occur on the third Business Day following the Auction Settlement Date.

**ANNEX B TO THE ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED SECURITIES****CREDIT DERIVATIVES DETERMINATIONS COMMITTEES**

*The following description is applicable to certain Credit Linked Securities to which "Annex 10 Additional Terms and Conditions for Credit Linked Securities" are applicable.*

In making certain determinations with respect to the Credit Linked Securities, the Calculation Agent may but is not bound to follow or act in accordance with any determination of the relevant Credit Derivatives Determinations Committees. This Annex sets forth a summary of the Credit Derivatives Determinations Committees Rules, as published by ISDA and made available on the website of the Credit Derivatives Determinations Committees at <https://www.cdsdeterminationscommittees.org> (or any successor website thereto) as of 28 September 2018 (the "**Rules**") and is subject to the rules as published by DC Administration Services, Inc. on behalf of ISDA from time to time and as amended from time to time. This summary is not intended to be exhaustive and prospective investors should also read the Rules and reach their own views prior to making any investment decisions. A copy of the Rules published by DC Administration Services, Inc. on behalf of ISDA is available at: <https://www.cdsdeterminationscommittees.org> (or any successor website thereto).

Capitalised terms used but not defined in this summary have the meaning specified in the applicable Final Terms or the Rules, as applicable.

**Establishment of the Credit Derivatives Determinations Committees**

In accordance with the Rules, a Credit Derivatives Determinations Committee has been formed for each of the regions of (a) the Americas, (b) Asia Ex-Japan, (c) Australia-New Zealand, (d) Europe, Middle East and Africa and (e) Japan. As of the date hereof, the Calculation Agent (or one of its Affiliates) is a voting member on each of the Credit Derivatives Determinations Committees. See "*Risk Factors – Risks Associated With Credit Derivatives Determinations Committees*" for additional information regarding conflicts of interest. The Credit Derivatives Determinations Committees will act in accordance with the Rules and will make determinations that are relevant for Credit Derivative Transactions that incorporate, or are deemed to incorporate, the 2014 ISDA Credit Derivatives Definitions, as amended from time to time (the "**2014 Definitions**") or the 2003 ISDA Credit Derivatives Definitions, as supplemented by the March 2009 Supplement or the 2003 ISDA Credit Derivatives Definitions, as supplemented by the July 2009 Supplement (the "**Updated 2003 Definitions**"). ISDA will serve as the secretary of each Credit Derivatives Determinations Committee and will perform administrative duties and make certain determinations as provided for under the Rules.

**Decision-making Process of the Credit Derivatives Determinations Committees**

Each DC Resolution by a Credit Derivatives Determinations Committee will apply to Credit Derivative Transactions that incorporate, or are deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions (depending on the applicable "Coverage Election" and subsequent determinations of the Credit Derivatives Determinations Committee) and for which the relevant provisions are not materially inconsistent with the provisions with respect to which the Credit Derivatives Determinations Committee bases its determination. As a result, determinations by the Credit Derivatives Determinations Committees are not applicable to the Holders of Securities, unless specified otherwise in the terms of the Credit Linked Securities. The Credit Derivatives Determinations Committees shall have no ability to amend the terms of the Credit Linked Securities. Furthermore, the institutions on the Credit Derivatives Determinations Committees owe no duty to the Holders of Securities. See "*Risk Factors - Risks Associated with Credit Derivatives Determinations Committees*" for further information. The terms of the Credit Linked Securities provide that the Holders of Securities will be subject to certain determinations by the Credit Derivatives Determinations Committees. The Credit Derivatives Determinations Committees will be able to make determinations without action or knowledge by the Holders of Securities.

A Credit Derivatives Determinations Committee will be convened upon referral of (i) a question to ISDA by an identified eligible market participant and the agreement of at least one of the voting members of the relevant Credit Derivatives Determinations Committee to deliberate the question, or (ii) a question to ISDA by an unidentified eligible market participant and the agreement of at least two of the voting members of the relevant Credit Derivatives Determinations Committee to deliberate the question, or (iii) a question to ISDA by an eligible market participant which is an Eligible CCP (being an eligible clearing entity) and such question is not designated as a "General Interest Question" and relates to an eligible cleared Reference Entity with respect to such Eligible CCP and to certain specified matters such as a Credit Event, Potential Repudiation/Moratorium and/or Successor. ISDA will convene the Credit Derivatives Determinations Committee for the region to which the referred question relates, as determined in accordance with the Rules. Any party to a transaction that incorporates, or is deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions may refer a question to ISDA for a Credit Derivatives Determinations Committee to consider. Therefore, a binding determination may be made with respect to the Credit Linked Securities without any action by the Holders of Securities. Holders of Securities (in their capacity as holders of the Credit Linked Securities) will not be able to refer questions to the Credit Derivatives Determinations Committees.

Once a question is referred to a Credit Derivatives Determinations Committee, a DC Resolution may result quickly, as a binding vote usually must occur within two business days of the first meeting held with respect to such question unless the timeframe is extended by agreement of at least 80 per cent. of the voting members participating in a vote held in accordance with the Rules. In addition, voting members of the Credit Derivatives Determinations Committees are required to participate in each binding vote, subject only to limited abstention rights. Notices of questions referred to the Credit Derivatives Determinations Committees, meetings held to deliberate such questions, meeting statements and the results of binding votes will be published on the ISDA website and neither the Issuer, the Calculation Agent nor any of their respective Affiliates shall be obliged to inform the Holders of Securities of such information (other than as expressly provided in the Final Terms). Holders of Securities shall therefore be responsible for obtaining such information. See *"Risk Factors – Risks Associated with Credit Derivatives Determinations Committees"*.

The Credit Derivatives Determinations Committees have the ability to make determinations that may materially affect the Holders of Securities. The Credit Derivatives Determinations Committees will be able to make a broad range of determinations in accordance with the Rules that may be relevant to the Credit Linked Securities and materially affect the Holders of Securities. For each of the general types of questions discussed below, the Credit Derivatives Determinations Committees may determine component questions that arise under the 2014 Definitions or the Updated 2003 Definitions, or the Rules and that are related to the initial question referred. Since the terms governing the credit-linked elements of the Credit Linked Securities are substantially similar to the 2014 Definitions or, as the case may be, the Updated 2003 Definitions, such determinations may affect the Holders of Securities, as further described below.

### **Credit Events**

The Credit Derivatives Determinations Committees will be able to determine whether a Credit Event has occurred and, if applicable, the date of such Credit Event. Related questions that are also within the scope of the Credit Derivatives Determinations Committees are whether a Potential Failure to Pay or a Potential Repudiation/Moratorium has occurred. In addition, the Credit Derivatives Determinations Committees will also determine, where necessary, whether the required Publicly Available Information has been provided. Each of these determinations, other than whether the required Publicly Available Information has been provided, requires the agreement of at least 80 per cent. of the voting members participating in a binding vote held in accordance with the Rules in order to avoid the referral of the question to the external review process, as described further below. The determination of whether the required Publicly Available Information has been provided requires the agreement of at least a majority of the voting members participating in a binding vote held in accordance with the Rules and is not eligible for external review. Each of these determinations may affect whether an Event Determination Date will occur under the Credit Linked Securities. If the Credit Derivatives Determinations Committee Resolves that a Credit Event has occurred with respect to one of the Reference Entity(ies) on or after the Credit Event Backstop Date, then an Event Determination Date is deemed to have occurred in respect of the Credit Linked Securities.

### Successors

The Credit Derivatives Determinations Committees will be able to determine whether there are any Successor or Successors to a Reference Entity and the relevant Succession Date. In addition, the Credit Derivatives Determinations Committees will also determine the identity of the Successor(s) in accordance with the Rules. For a Reference Entity that is not a Sovereign, the Credit Derivatives Determinations Committees will determine the Relevant Obligation(s) of the Reference Entity (including any adjustments required to be made if there is a Steps Plan), the proportion of the Relevant Obligation(s) to which each purported Successor succeeds and the Succession Date. For a Reference Entity that is a Sovereign, the Credit Derivatives Determinations Committees will determine the Relevant Obligation(s) of the Reference Entity (including any adjustments to be made if there is a Steps Plan), whether a Sovereign Succession Event has occurred, if so the proportion of the Relevant Obligation(s) to which each purported Successor succeeds, and the Succession Date. Each of these determinations requires the agreement of at least 80 per cent. of the voting members participating in a binding vote held in accordance with the Rules in order to avoid the referral of the question to the external review process, as described further below, except for the actual identification of the Successor(s) for a Reference Entity (which only requires a majority and is not eligible for external review). The Calculation Agent may use the relevant DC Resolutions of the Credit Derivatives Determinations Committees in order to determine Successor(s) to the Reference Entity(ies).

### Other Questions

The Credit Derivatives Determinations Committees will be able to determine whether circumstances have occurred that require a Substitute Reference Obligation to be identified and, if so, the appropriate Substitute Reference Obligation. In addition, the Credit Derivatives Determinations Committees will be able to determine whether an entity that acts as seller of protection under one or more transactions (such entity, the "**Relevant Seller**") or a Reference Entity has consolidated or amalgamated with, or merged into, or transferred all or substantially all its assets to, the Reference Entity or the Relevant Seller, as applicable, or that the Relevant Seller and the Affected Reference Entity have become Affiliates. Each of these determinations requires the agreement of at least 80 per cent. of the voting members participating in a binding vote held in accordance with the Rules in order to avoid the referral of the question to the external review process, as described further below. The Calculation Agent may follow such DC Resolutions in making the equivalent determinations with respect to the Credit Linked Securities.

The Credit Derivatives Determinations Committees will be able to determine other referred questions that are relevant to the credit derivatives market as a whole and are not merely a matter of bilateral dispute. Such questions require the agreement of at least 80 per cent. of the voting members participating in a binding vote held in accordance with the Rules for each Credit Derivatives Determinations Committee implicated by the relevant question, as determined in accordance with the Rules, in order to avoid the possible referral of the question to the external review process, as described further below. Furthermore, the question relating to such DC Resolution may also be referred to the external review process if at least a majority of the voting members participating in a binding vote held in accordance with the Rules agree. Any guidance given by the Credit Derivatives Determinations Committees with respect to questions of interpretation of the 2014 Definitions or, as the case may be, the Updated 2003 Definitions are likely to influence the Calculation Agent in interpreting equivalent provisions under the Credit Linked Securities.

Any such question can be submitted to the Credit Derivatives Determinations Committees by an unidentified eligible market participant for deliberation. The relevant Credit Derivatives Determinations Committee(s) will deliberate such question upon the agreement of at least two of the voting members of the relevant Credit Derivatives Determinations Committee to deliberate the question. Once the deliberations on such question have commenced, the relevant Credit Derivatives Determinations Committee will proceed in accordance with the procedures described above with respect to the relevant question category, except that the identity of the eligible market participant who submitted the question will not be revealed to the members of the Credit Derivatives Determinations Committees or the general public.

### External Review

As described immediately above, certain questions deliberated by the Credit Derivatives Determinations Committees are subject to an external review process if the required threshold is not met during the binding vote held with respect to such question. For such questions, if at least 80% of the voting members

participating in a binding vote held in accordance with the Rules fail to agree, the question will be automatically referred to the external review process. Questions that are not eligible for external review often require only a simple majority of participating voting members to agree in order to reach a DC Resolution.

Questions referred to external review will be considered by a panel of three independent individuals who will be selected by either the relevant Credit Derivatives Determinations Committee or by ISDA at random. The default duration of the external review process (which can be modified by the relevant Credit Derivatives Determinations Committee in accordance with the Rules) is twelve business days from the referral of the question and contemplates the receipt of both written submissions and oral argument. Any member of ISDA may provide written submissions to the external reviewers, which will be made available to the public on the ISDA website, and the conclusion reached in accordance with the external review process will be binding on the Holders of Securities. In instances where the vote of the relevant Credit Derivatives Determinations Committee was less than or equal to 60 per cent., the decision of a majority of the external reviewers will be determinative. However, in instances where the vote of the relevant Credit Derivatives Determinations Committee was between 60 per cent. and 80 per cent., all three external reviewers must agree in order to overturn the vote of the Credit Derivatives Determinations Committee.

Holders of Securities should be aware that the external reviewers may not consider new information that was not available to the relevant Credit Derivatives Determinations Committee at or prior to the time of the binding vote and questions may be returned to the Credit Derivatives Determinations Committee for another vote if new information becomes available. In addition, if the external reviewers fail to arrive at a decision for any reason, the entire process will be repeated. As a result, the external review process may be elongated in certain situations, leaving questions that may materially affect the Holders of Securities unresolved for a period of time.

### **The Composition of the Credit Derivatives Determinations Committees**

Each Credit Derivatives Determinations Committee is composed of fifteen voting members and three non-voting consultative members. Ten of the voting members are dealer institutions, with eight serving across all regions and two potentially varying by region. The other five voting members are non-dealer institutions that serve across all regions. The three non-voting consultative members consist of one dealer institution and one non-dealer institution that serve across all regions and one dealer institution that could potentially vary by region. For the first composition of the Credit Derivatives Determinations Committees only, an additional non-voting dealer institution has been selected to serve across all regions.

Holders of Securities will have no role in the composition of the Credit Derivatives Determinations Committees. Separate criteria applies with respect to the selection of dealer and non-dealer institutions to serve on the Credit Derivatives Determinations Committees and the Holders of Securities will have no role in establishing such criteria. In addition, the composition of the Credit Derivatives Determinations Committees will change from time to time in accordance with the Rules, as the term of an institution may expire or an institution may be required to be replaced. The Holders of Securities will have no control over the process for selecting institutions to participate on the Credit Derivatives Determinations Committees and, to the extent provided for in the Credit Linked Securities, will be subject to the determinations made by such selected institutions in accordance with the Rules.

### **Ability of the Calculation Agent or its Affiliates to influence the Credit Derivatives Determinations Committees**

As of the date hereof, the Calculation Agent (or one of its Affiliates) is a voting member on each of the Credit Derivatives Determinations Committees. In such capacity, it may take certain actions that may influence the process and outcome of decisions of the Credit Derivatives Determinations Committees, including (without limitation): (a) agreeing to deliberate a question referred to the DC Secretary, (b) voting on the resolution of any question being deliberated by a Credit Derivatives Determinations Committee and (c) advocating a certain position during the external review process. In addition, as a party to transactions which incorporate, or are deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions, the Calculation Agent may refer a question to the DC Secretary for a Credit Derivatives Determinations Committee to deliberate. In deciding whether to take any such action, the Calculation Agent (or its Affiliate) shall be under no obligation to consider the interests of any Holder. See "*Potential conflicts of interest of the Calculation Agent*" below for additional information.

**Potential Conflicts of interest of the Calculation Agent**

Since, as of the date hereof, the Calculation Agent (or one of its Affiliates) is a voting member on each of the Credit Derivatives Determinations Committees and is a party to transactions which incorporate, or are deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions, it may take certain actions which may influence the process and outcome of decisions of the Credit Derivatives Determinations Committees. See "Ability of the Calculation Agent or its Affiliates to influence the Credit Derivatives Determinations Committees" above for additional information. Such action may be adverse to the interests of the Holders of Securities and may result in an economic benefit accruing to the Calculation Agent. In taking any action relating to the Credit Derivatives Determinations Committees or performing any duty under the Rules, the Calculation Agent shall have no obligation to consider the interests of the Holders of Securities and may ignore any conflict of interest arising due to its responsibilities under the Credit Linked Securities.

Holders of Securities will have no recourse against either the institutions serving on the Credit Derivatives Determinations Committees or the external reviewers. Institutions serving on the Credit Derivatives Determinations Committees and the external reviewers, among others, disclaim any duty of care or liability arising in connection with the performance of duties or the provision of advice under the Rules, except in the case of gross negligence, fraud or wilful misconduct. Furthermore, the institutions on the Credit Derivatives Determinations Committees do not owe any duty to the Holders of Securities and the Holders of Securities will be prevented from pursuing claims with respect to actions taken by such institutions under the Rules.

Holders of Securities should also be aware that institutions serving on the Credit Derivatives Determinations Committees have no duty to research or verify the veracity of information on which a specific determination is based. In addition, the Credit Derivatives Determinations Committees are not obligated to follow previous determinations and, therefore, could reach a conflicting determination for a similar set of facts.

Holders of Securities shall be responsible for obtaining information relating to deliberations of the Credit Derivatives Determinations Committees. Notices of questions referred to the Credit Derivatives Determinations Committees, meetings held to deliberate such questions and the results of binding votes will be published on the ISDA website and neither the Issuer, the Calculation Agent nor any of their respective Affiliates shall be obliged to inform the Holders of Securities of such information (other than as expressly provided in the applicable Final Terms). Failure by the Holders of Securities to be aware of information relating to deliberations of a Credit Derivatives Determinations Committee will have no effect under the applicable Final Terms and Holders of Securities are solely responsible for obtaining any such information.

**Amendments to the Rules**

The Rules may be amended from time to time without the consent or input of the Holders of Securities and the powers of the Credit Derivatives Determinations Committees may be expanded or modified as a result.

In the event of any inconsistency between the Conditions and the ETI Linked Conditions and/or the Additional Terms and Conditions, the ETI Linked Conditions and/or the Additional ETI Linked Conditions (as applicable) shall prevail. In the event of any inconsistency between (i) the Conditions and/or the ETI Linked Conditions and/or the Additional Terms and Conditions and (ii) the Final Terms, the Final Terms shall prevail.*

1. **Definitions**

"**Affiliate**" means in relation to any entity (the "**First Entity**"), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or indirectly, the First Entity or any entity directly or indirectly under common control with the First Entity. For these purposes "control" means ownership of a majority of the voting power of an entity.

"**Averaging Date**" means:

- (a) each date specified as an Averaging Date in the applicable Final Terms or, if any such date is not a Scheduled Trading Day, the immediately following Scheduled Trading Day unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day. If any such day is a Disrupted Day, then:
  - (i) if "Omission" is specified as applying in the applicable Final Terms, then such date will be deemed not to be an Averaging Date for the purposes of determining the relevant Settlement Price provided that, if through the operation of this provision no Averaging Date would occur, then the provisions of the definition of "Valuation Date" will apply for purposes of determining the relevant level, price, value or amount on the final Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day; or
  - (ii) if "Postponement" is specified as applying in the applicable Final Terms, then the provisions of the definition of "Valuation Date" will apply for the purposes of determining the relevant level, price, value or amount on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or
  - (iii) if "Modified Postponement" is specified as applying in the applicable Final Terms then:
    - (1) where the Securities are ETI Linked Securities relating to a single ETI Interest, the Averaging Date shall be the first succeeding Valid Date (as defined below). If the first succeeding Valid Date has not occurred for a number of consecutive Scheduled Trading Days equal to the Specified

Maximum Days of Disruption immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date, then (A) that last such consecutive Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether such Scheduled Trading Day is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant level or price for that Averaging Date in accordance with sub-paragraph (a)(ii) of the definition of "Valuation Date" below;

- (2) where the Securities are ETI Linked Securities relating to an ETI Basket, the Averaging Date for each ETI Interest not affected by the occurrence of a Disrupted Day shall be the originally designated Averaging Date (the "**Scheduled Averaging Date**") and the Averaging Date for each ETI Interest affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date in relation to such ETI Interest. If the first succeeding Valid Date in relation to such ETI Interest has not occurred for a number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date, then (A) that such Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that last such consecutive Scheduled Trading Day is already an Averaging Date) in respect of such ETI Interest, and (B) the Calculation Agent shall determine the relevant level, price, value or amount for that Averaging Date in accordance with sub-paragraph (b)(ii) of the definition of "Valuation Date" below; and
  - (3) for the purposes of these ETI Linked Conditions, "**Valid Date**" means a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date does not occur; and
- (b) in the case of Open End Notes or Open End Certificates (other than Put/Call Open End Notes or Put/Call Open End Certificates), the date designated as such by the Issuer, provided that such date is determined by the Issuer and notified to Noteholders in accordance with Condition 18 of the Notes or to the Certificateholders in accordance with Condition 19 of the Certificates, as the case may be, at the latest on the tenth (10th) Business Day preceding the contemplated Averaging Date.

The Hedge Provider will hold or be deemed to hold such number of ETI Interests, or enter or be deemed to enter into any agreement to purchase or deliver, or pay an amount linked to the performance of, such number of ETI Interests as it (or in the case of a Hypothetical Investor, the Calculation Agent) considers would be held by a prudent issuer as a hedge for its exposure under the relevant Securities.

Neither the Issuer nor the Calculation Agent shall be responsible for any loss, underperformance or opportunity cost suffered or incurred by any Holder of Securities or any other person in connection with the Securities as a result of any delay in notifying Holders of Securities of the occurrence on Extraordinary ETI Event, howsoever arising. If the Calculation Agent gives an Extraordinary ETI Event Notice, the Issuer shall have no obligation to make any payment or delivery in respect of the Securities until the Calculation Agent has determined the action that the Issuer is to take pursuant to ETI Linked Condition 6.2 below.

- 6.2 Following the occurrence of an Extraordinary ETI Event, the Calculation Agent shall (i) to the extent that the an equivalent adjustment or substitution or determination to take no action, as the case may be, has been made in respect of the relevant Swap Agreement, take the action described in (a) or (b) below or (ii) in the event that the circumstances giving rise to such Extraordinary ETI Event result in an Additional Termination Event occurring in respect of the relevant Swap Agreement, take the action set out in (c) below:

## (a) Adjustment

If the Calculation Agent determines that the action to be taken in respect of the Extraordinary ETI Event is to be "Adjustment", then it may:

- (i) determine, acting in good faith and in a commercially reasonable manner, the appropriate adjustment, if any, to be made to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Securities are Physical Delivery Securities) and/or Exercise Price (in the case of Warrants) and/or the Weighting and/or any of the other terms of these ETI Linked Conditions and/or the applicable Final Terms to account for the relevant Extraordinary ETI Event and determine the effective date of that adjustment. The relevant adjustments may include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the ETI Interests or to the Securities and a change in the Weighting of any remaining ETI Interest(s) not affected by an Extraordinary ETI Event. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the relevant Extraordinary ETI Event made by any options exchange to options on the ETI Interests traded on that options exchange; or
- (ii) following such adjustment to the settlement terms of options on the ETI Interests traded on such exchange(s) or quotation system(s) as is selected in respect of the Swap Agreement, if any (the "**Options Exchange**"), make a corresponding adjustment to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Securities are Physical Delivery Securities) and/or Exercise Price (in the case of Warrants) and/or the Weighting and/or any of the other terms of these ETI Linked Conditions and/or the applicable Final Terms, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Options Exchange. If options on the ETI Interests are not traded on the Options Exchange, the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Securities are Physical Delivery Securities) and/or Exercise Price (in the case of Warrants) and/or the Weighting and/or any of the other terms of these ETI Linked Conditions and/or the applicable Final Terms as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate, with reference to the rules and precedents (if any) set by the Options Exchange to account for the relevant Extraordinary ETI Event, that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Exchange if such options were so traded.

## (b) Substitution

If the Calculation Agent, in good faith and in a commercially reasonable manner, determines that the action to be taken in respect of the Extraordinary ETI Event is to be "Substitution", the Calculation Agent shall on or after the relevant Extraordinary ETI Event Effective Date, substitute each ETI Interest (each, an "**Affected ETI Interest**") of each ETI (each, an "**Affected ETI**") which is affected by such Extraordinary ETI Event with an ETI Interest selected by it in accordance with the criteria for ETI Interest selection set out below (each, a "**Substitute ETI Interest**") and the Substitute ETI Interest will be deemed to be an "ETI Interest" and the relevant issuer of such Substitute ETI Interest, an "ETI" for the purposes of the Securities, and the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Securities are Physical Delivery Securities) and/or Exercise Price (in the case of Warrants) and/or the Weighting and/or any of the other terms of these ETI Linked Conditions and/or the applicable Final Terms as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate, provided that in the event that any amount

payable under the Securities was to be determined by reference to the Initial Price of the Affected ETI Interest, the Initial Price of each Substitute ETI Interest will be determined by the Calculation Agent in accordance with the following formula:

$$\text{Initial Price} = A \times (B/C)$$

### 3.1 Early Redemption Events

Where any Early Redemption Events are applicable to a series of Securities, then each Security shall be redeemed early by the Issuer in accordance with this Collateral Linked Condition 3 following the delivery of an Early Redemption Notice by the Calculation Agent at its Early Redemption Amount on the Early Redemption Date or, where Collateral Physical Settlement is applicable in respect of the relevant Early Redemption Event, redeemed early by the Issuer in accordance with this Collateral Linked Condition 3 following the delivery of an Early Redemption Notice by, or on behalf of, the

Issuer by delivery of the Early Redemption Delivery Share applicable to such Security and payment of a pro rata share of any Early Residual Proceeds Amount provided that where Asset Redemption Event is an applicable Early Redemption Event in respect of a series of Securities and RCA Call Event and/or RCA Makewhole Event are applicable Early Redemption Events, where the Reference Securities are redeemed early in circumstances which would constitute both an Asset Redemption Event and a RCA Call Event and/or a RCA Makewhole Event, as applicable, such redemption shall be treated as a RCA Call Event or RCA Makewhole Event, as the case may be, rather than an Asset Redemption Event.

### 3.2 Sale or delivery of Collateral Assets

Following the occurrence of an Early Redemption Event and delivery of an Early Redemption Notice, save where Collateral Physical Settlement is applicable in respect of the relevant Early Redemption Event, the Issuer shall as soon as reasonably practicable arrange for the sale of the Reference Securities or, if the Calculation Agent determines that it is not possible to arrange for a sale of the relevant Reference Securities, the Issuer shall use commercially reasonable efforts to realise the economic value of the Issuer's rights in respect of the Reference Securities (and in connection therewith may appoint an agent to assist it in arranging such sale, a "**Collateral Disposal Agent**") in accordance with Collateral Linked Condition 3.3 provided that, where the relevant Early Redemption Event which has occurred is a RCA Early Call Event, an Adjusted Asset Redemption Event or an Asset Redemption Event unless Collateral Sale is specified as applicable in respect of such Early Redemption Event in the applicable Final Terms, the Issuer or any Collateral Disposal Agent (on its behalf) will not attempt to sell the relevant Reference Securities in respect of which the relevant Early Redemption Event has occurred in accordance with Collateral Linked Condition 3.3 and instead will use an amount equal to the product of (a) the redemption proceeds received from the early redemption of the Reference Securities and (b) the Collateralised Percentage and any amounts received under any applicable Related Agreement to redeem the Securities and pay other amounts due in connection with the early redemption of the Securities provided further that where a sale of Credit Support Assets would be undertaken in accordance with the last paragraph of Collateral Linked Condition 3.3, such sale shall still take place in the circumstances set out in the last paragraph of Collateral Linked Condition 3.3 where a RCA Early Call Event, an Adjusted Asset Redemption Event or an Asset Redemption Event is the relevant Early Redemption Event which is the subject of the relevant Early Redemption Notice notwithstanding that Collateral Linked Condition 3.3 would not otherwise apply and the Issuer may appoint a Collateral Disposal Agent in respect of any such sale.

### 3.3 Sale of Collateral Assets

Where this Collateral Linked Condition 3.3 is applicable, the Issuer or the Collateral Disposal Agent shall on the Initial Collateral Valuation Date (which must fall within the Initial Collateral Valuation Period) seek firm bid quotations for the sale of the relevant Collateral Assets in respect of the relevant series of Securities from at least three dealers in assets such as the relevant Reference Securities (and, for such purpose, it may seek quotations in respect of such Collateral Assets in their entirety or in respect of designated tranches thereof, as it considers appropriate) provided that:

- (a) at least one of the dealers from whom quotations are sought shall be BNP Paribas (who, for the avoidance of doubt, shall be under no obligation to provide a quotation);
- (b) the Collateral Disposal Agent may itself provide a bid in respect of the relevant Collateral Assets relating to the relevant series of Securities or any tranche thereof; and

- (c) the Issuer shall and shall be authorised to accept in respect of each relevant tranche or, as applicable, the entirety of the relevant Collateral Assets the highest such quotation so obtained (which may be a quotation from the Collateral Disposal Agent) provided that where the highest quotation is not received from BNP Paribas, BNP Paribas shall be given the opportunity to submit a revised quotation which is at least equal to the highest quotation (a "**Matching Quotation**") and if BNP Paribas does submit such a Matching Quotation, the Issuer will sell the relevant Collateral Assets to BNP Paribas.

Subject as may otherwise be provided for in these Collateral Linked Conditions or the Final Terms, in effecting the sales, the Issuer may sell the relevant Collateral Assets relating to the relevant series of Securities in one single tranche or in smaller tranches as it considers appropriate in order to attempt reasonably to maximise the proceeds from such sale. If the Issuer and/or the Collateral Disposal Agent does not receive at least two quotations for all the Collateral Assets on the Initial Collateral Valuation Date (including a quotation from BNP Paribas), it shall attempt to sell the Collateral Assets on at least two other Business Days during the Collateral Valuation Period in the manner set out above provided that, if on any subsequent Collateral Valuation Date other than the Initial Collateral Valuation Date during the Collateral Valuation Period, the Issuer and/or the Collateral Disposal Agent only receive one firm bid quotation for the relevant Collateral Assets, the Issuer may sell the Collateral Assets to the relevant dealer which has provided such firm bid quotation and, if BNP Paribas is the only dealer that is willing to provide a firm bid quotation for the Collateral Assets, the Issuer may sell the Collateral Assets to BNP Paribas. If, after the third such attempted sale (including the Initial Collateral Valuation Date), the Issuer and the Collateral Disposal Agent (if any) have still received no firm bid quotations for the relevant Collateral Assets, the relevant Collateral Assets shall be deemed to have a value of zero and the Issuer shall have no further obligation to attempt to sell the Collateral Assets.

The Issuer will not sell Collateral Assets which are Credit Support Assets (other than those received by the Issuer under a Repurchase Agreement) and references to Collateral Assets in this Collateral Linked Condition 3.3 shall be construed accordingly unless (i) the relevant Early Redemption Event is a Related Agreement Termination Event where the Swap Counterparty is the Defaulting Party (as defined in the Swap Agreement) under the relevant Swap Agreement or, where applicable, the Collateral Exchange Counterparty is the defaulting party under the Collateral Exchange Agreement or (ii) a Swap Agreement Termination Payment is due from the Swap Counterparty to the Issuer, or as the case may be, a Collateral Exchange Agreement Termination Payment is due from the Collateral Exchange Counterparty to the Issuer and such payment is not made when due under the relevant Related Agreement, in which case the Collateral Assets which are to be sold in accordance with this Collateral Linked Condition 3.3 shall include any Credit Support Assets and Replacement Collateral Assets held by the Issuer.

#### 3.4 Collateral Physical Settlement

Following the occurrence of an Early Redemption Event and delivery of an Early Redemption Notice, where Collateral Physical Settlement has been specified as applicable in respect of the relevant Early Redemption Event in the applicable Final Terms, the Issuer shall as soon as reasonably practicable deliver the Available Reference Securities to the Holders. Where delivery of the Available Reference Securities is due to be made in respect of Securities, Condition 6(b)(i) shall apply and, for such purposes, the Securities shall be deemed to be Physical Delivery Securities, notwithstanding the terms of Condition 6(b)(i), the Delivery Date shall be the Early Redemption Date (unless specified otherwise in the applicable Final Terms) and the Entitlement (unless specified otherwise in the applicable Final Terms) shall be deemed to be the delivery of the Early Redemption Delivery Share applicable to such Security and the Issuer shall pay a pro rata share of the sum of any

Early Residual Proceeds Amount, Credit Support Sale Proceeds and/or Early Redemption Additional Proceeds Amount (after the use of such sums to pay any Early Redemption Costs) in respect of each Security on the applicable Delivery Date. Where the Issuer has entered into a Collateral Exchange Agreement with the Collateral Exchange Counterparty if, upon the termination of the Collateral Exchange Agreement following the occurrence of an Early Redemption Event where no Related Agreement Counterparty Default has occurred, the Collateral Exchange Counterparty is unable (after using commercially reasonable efforts) to transfer Equivalent Securities in respect of all or part of the Received Collateral to the Issuer in accordance with the provisions of the Collateral Exchange Agreement (such securities which are not transferred being "**Undelivered Equivalent Securities**"), the Collateral Exchange Counterparty will pay an amount equal to the fair market value (as determined by the Collateral Exchange Counterparty) of the relevant Undelivered Equivalent Securities to the Issuer in lieu of such delivery by way of a termination payment and, for the avoidance of doubt, such amount shall form part of the Early Redemption Additional Proceeds Amount.

Prior to determining the Early Redemption Delivery Share in respect of each Security, the Issuer shall determine the cash amount which is equal to the sum of the Credit Support Sale Proceeds and the Early Redemption Additional Proceeds Amount and whether such cash sum is sufficient to satisfy any applicable Early Redemption Costs in full. If such sum is not sufficient to satisfy the applicable Early Redemption Costs in full, the Calculation Agent shall then calculate the amount of Reference Securities which are required to be sold in order to pay any Early Redemption Costs after the application of such Credit Support Sale Proceeds and Early Redemption Additional Proceeds Amount to pay such Early Redemption Costs and the Issuer shall arrange for the sale of the relevant amount of Reference Securities to meet any unsatisfied Early Redemption Costs and any proceeds from such sale remaining after payment of such Early Redemption Costs shall be the "**Early Residual Proceeds Amount**" and shall be paid in accordance with this Collateral Linked Condition 3.4.

In connection with any such delivery in respect of the Securities, such delivery shall be made in accordance with Condition 6(b)(i) and the Entitlement and Entitlement Amount shall be deemed to be a Security's Early Redemption Delivery Share. The Issuer shall be entitled to appoint one or more agents to assist it with the delivery of the Entitlement and sale required of Collateral Assets required to be made in accordance with this Collateral Linked Condition 3.4.

In connection with such delivery, (i) for the purposes of Condition 6(b)(i)(C), Expenses shall be deemed to include any expenses and costs which are incurred in delivery of the Collateral Assets in accordance with this Collateral Linked Condition 3.4, (ii) the Issuer shall be entitled to deduct from the assets deliverable to Holders of Securities all Expenses not previously deducted from amounts paid or assets delivered to Holders of Securities, as the Issuer shall in its sole and absolute discretion determine are attributable to the relevant Securities and (iii) any reference in the Conditions to "Relevant Assets" shall be deemed, in connection with a delivery of Collateral Assets in accordance with this Collateral Linked Condition 3.4, to be a reference to "Reference Securities".

The final sentence of the first paragraph of Condition 6(b)(i)(D) shall not apply and the Collateral Assets which it is not possible to deliver to a Holder of Securities due to such rounding shall, if and to the extent practicable, be sold by the Issuer (or by such agent as may be appointed by the Issuer for such purpose) and a pro rata share of the resulting amount (the "**Rounding Amount**") shall be paid to each Holder of Securities whose Entitlement is subject to such rounding.

Any reference in the Conditions to Relevant Assets shall be deemed to be, in connection with an Early Redemption Event, a reference to the Reference Securities which are comprised in the

Entitlement for such Security. Where Collateral Physical Settlement is applicable and the relevant Reference Securities have redeemed prior to the date on which the Reference Securities are delivered, in lieu of such delivery, the Holder of Securities shall be entitled to payment of a pro rata share of such redemption proceeds after payment of any Early Redemption Costs. Where Collateral Physical Settlement is applicable and (i) the Issuer is holding Credit Support Assets relating to the relevant series of Securities, (ii) such Credit Support Assets are Margin Securities and/or where (A) the relevant Early Redemption Event is a Related Agreement Termination Event where the Swap Counterparty is the Defaulting Party (as defined in the Swap Agreement) under the relevant Swap Agreement or, where applicable, the Collateral Exchange Counterparty is the defaulting party under the Collateral Exchange Agreement or (B) a Swap Agreement Termination Payment is due from the Swap Counterparty to the Issuer, or, as the case may be, a Collateral Exchange Agreement Termination Payment is due from the Collateral Exchange Counterparty to the Issuer, and where either (A) or (B) applies, such payment is not made when due under the relevant Related Agreement, the relevant Credit Support Assets shall be sold in the manner set out in Collateral Linked Condition 3.3. In addition, where the Collateral Exchange Counterparty is the defaulting party under the Collateral Exchange Agreement and the Issuer is holding Replacement Collateral Assets, such Replacement Collateral Assets shall be sold in the manner set out in Collateral Linked Condition 3.3. The sale proceeds in respect thereof shall be first used to pay any Early Redemption Costs before the Issuer or the Collateral Disposal Agent sells any Reference Securities and any proceeds of such sale shall be treated as Credit Support Sale Proceeds for the purposes of the first two paragraphs of this Collateral Linked Condition 3.4.

The Issuer will not deliver Collateral Assets which are Credit Support Assets or Replacement Collateral Assets to the Holders and references in this Collateral Linked Condition 3.4 to Collateral Assets shall be construed accordingly.

Where Collateral Physical Settlement has been specified as applicable in the applicable Final Terms and a Reference Collateral Settlement Disruption Event (as defined below) occurs, Collateral Linked Condition 3.13 shall apply.

### 3.5 Credit Notional Value Repack Securities

Where Annex 10 (*Additional Terms and Conditions for Credit Linked Securities*) applies to the Securities and save where Credit Linked Interest Only is specified as applicable in the applicable Final Terms, where an Event Determination Date occurs in respect of a Credit Event (as defined in Annex 10 (*Additional Terms and Conditions for Credit Linked Securities*)) which is a Restructuring and the Exercise Amount is for an amount less than the aggregate Nominal Value outstanding of the Securities, the Securities shall be partially redeemed ("**Credit Partial Redemption**") pro rata in an amount equal to the Exercise Amount (the "**Credit Partial Redemption Amount**"). The Securities, in an amount equal to the aggregate Nominal Value outstanding prior to any Credit Partial Redemption less the relevant Credit Partial Redemption Amount, shall remain outstanding and the words "Nominal Amount of the Notes" or "Notional Amount of the Certificate" should be construed accordingly where relevant. Interest (if applicable) shall continue to accrue on the Nominal Value outstanding of the Securities following the reduction in such Nominal Value outstanding upon a Credit Partial Redemption in accordance with Condition 5 (in the case of Notes) or Condition 4 (in the case of Certificates).

### 3.6 Scheduled Repayment of Collateral Assets

Where either (a) more than one issue or type of Reference Securities is specified in respect of a series of Securities in the applicable Final Terms and one of the Reference Securities is scheduled to mature

prior to the Maturity Date or (b) the relevant Reference Securities are scheduled to redeem in part from time to time, unless (i) Amortisation Trigger is specified as applicable in respect of the relevant Reference Securities, (ii) the applicable Final Terms specify that the Securities are RCA Instalment Notes or RCA Instalment Certificates, as the case may be, or (iii) or RCA Makewhole Event is an applicable Early Redemption Event and a RCA Makewhole Event occurs (in which latter case Collateral Linked Condition 3.7 shall apply), in the event that some only of the Reference Securities are redeemed (the "**Repayable Assets**") or part of the principal amount of a Reference Security is redeemed in accordance with its terms (a "**Partial Redemption**"), each Security will be partially redeemed on a pro rata basis, in a nominal amount equal to the proportion of the then outstanding aggregate Nominal Value of the Securities that the principal amount of the Repayable Assets or the principal amount of the Partial Redemption (together, a "**Nominal Reduction Amount**") bears to the aggregate principal amount of all of the Reference Securities and no Early Redemption Event shall be deemed to have occurred. Any such redemption shall occur not later than 10 Business Days following the date on which the Issuer receives the relevant redemption proceeds in respect of the relevant Reference Securities. Interest (if applicable) shall continue to accrue on the Nominal Value outstanding of the Securities following the reduction in such Nominal Value by the relevant Nominal Reduction Amount in accordance with Condition 5 (in the case of Notes) or Condition 4 (in the case of Certificates).

### 3.7 Early Redemption Amount following a RCA Early Call Event

Where a RCA Early Call Event occurs and:

- (a) Standard Early Redemption is specified to be applicable in respect of the relevant RCA Early Call Event in the applicable Final Terms, the Early Redemption Amount will be as set out in the definition of such term in Collateral Linked Condition 1.1 and interest shall cease to accrue in accordance with the relevant provision of Condition 5 (in the case of Notes) or Condition 4 (in the case of Certificates) specified in the applicable Final Terms;
- (b) Par Early Redemption is specified to be applicable in respect of the relevant RCA Early Call Event in the applicable Final Terms, the Early Redemption Amount in respect of each Security will be equal to the Nominal Amount of such Note or the Notional Amount of such Certificate, as the case may be, and interest on such Security shall cease to accrue with effect from and including; the Interest Payment Date immediately preceding the date of such Early Redemption Event (or, in the case of the first Interest Period, the Interest Commencement Date);
- (c) Accrual Par Early Redemption is specified to be applicable in respect of the relevant RCA Early Call Event in the applicable Final Terms, the Early Redemption Amount in respect of each Security will be equal to the Nominal Amount of the Note or the Notional Amount of such Certificate, as the case may be, plus accrued interest on the Note (where it bears interest) calculated in accordance with Condition 5 (in the case of Notes) or Condition 4 (in the case of Certificates) to, but excluding, the relevant Early Redemption Date; or
- (d) Makewhole Early Redemption is specified to be applicable in respect of the relevant RCA Early Call Event in the applicable Final Terms, the Early Redemption Amount in respect of each Note will be equal to a *pro rata* share per Security of an amount equal to the amount scheduled to be received by the Issuer in respect of the Reference Securities which are the subject of the relevant RCA Early Call Event plus accrued interest on the Security (where it bears interest) calculated in accordance with Condition 5 (in the case of Notes) or

Condition 4 (in the case of Certificates) to, but excluding, the relevant Early Redemption Date.

Where (i) a RCA Early Call Event occurs with respect to part only of the principal amount of the Reference Securities, (ii) one of Par Early Redemption, Accrual Par Early Redemption or Makewhole Early Redemption is specified as applicable in the applicable Final Terms and (iii) RCA Early Call Event – Partial Redemption is specified as applicable in the applicable Final Terms, each Note will be partially redeemed on a pro rata basis, in a nominal amount (an "**Early Call Nominal Reduction Amount**") equal to the proportion of the then outstanding Aggregate Nominal Amount of the Notes or the then outstanding Aggregate Notional Amount of the Certificates, as the case may be that the principal amount of the Reference Securities which is the subject of the RCA Early Call Event bears to the aggregate principal amount of all of the Reference Securities for such Series and an Early Redemption Amount will be calculated in respect of a Nominal Amount of each Note equal to the Early Call Nominal Reduction Amount only. Interest (if applicable) shall continue to accrue on the Nominal Value outstanding of each Security following the reduction in such Nominal Value by the relevant Early Call Nominal Reduction Amount in accordance with Condition 5 (in the case of Notes) or Condition 4 (in the case of Certificates). For the avoidance of doubt, where a RCA Early Call Event occurs and RCA Early Call Event – Partial Redemption is applicable, the relevant proportion of the Reference Securities, redemption proceeds therefrom and/or proceeds of realisation thereof, as applicable, shall be automatically released from the Security created under the Security Agreements to allow the redemption in part of the Notes.

### 3.8 Interest Accrual relating to RCA Makewhole Events

Where RCA Makewhole Event is an applicable Early Redemption Event, such Early Redemption Event occurs and the terms of relevant Reference Securities contain a RCA Residual Maturity Call Option, if the RCA Issuer does not exercise its option to redeem the Reference Securities at their principal amount together with a makewhole amount (howsoever described) on the RCA Residual Maturity Call Option Date, on the first day of the Interest Period immediately following the RCA Residual Maturity Call Option Date, where an Alternative Rate of Interest is specified in the applicable Final Terms, the Rate of Interest applicable to the Notes will be adjusted to the Alternative Rate of Interest specified in the applicable Final Terms and such interest shall continue to accrue at the Alternative Rate of Interest to, but excluding, the Maturity Date (in the case of Notes) or Redemption Date (in the case of Certificates) in accordance with Condition 5 (in the case of Notes) or Condition 4 (in the case of Certificates), subject to the occurrence of an Early Redemption Event. For the avoidance of doubt, where RCA Makewhole Event is an applicable Early Redemption Event and where no Alternative Rate of Interest is specified in the applicable Final Terms, there shall be no adjustment to the rate of interest following the RCA Residual Maturity Call Option Date where the RCA Issuer does not exercise its option to redeem the Reference Securities at their principal amount together with a makewhole amount (howsoever described) on the RCA Residual Maturity Call Option Date.

### 3.9 Redemption following a RCA Merger Event

If this Collateral Linked Condition 3.9 is specified as applicable in the Final Terms and in the case that:

- (a) "**RCA Reference Entity/Holder Merger**" is specified as applicable, in the event that, in the determination of the Calculation Agent, a RCA Reference Entity/Holder Merger has occurred, the Calculation Agent may determine that the Securities should be redeemed;

- (b) **"RCA Reference Entity/Issuer/Guarantor Merger"** is specified as applicable, in the event that, in the determination of the Calculation Agent, a RCA Reference Entity/Issuer/Guarantor Merger has occurred, the Calculation Agent may either:
  - (i) determine that the Securities should be redeemed; or
  - (ii) request that the Issuer replace the relevant affected RCA Reference Entity/ies (the **"Affected RCA Reference Entity/ies"**) respectively, with Similar RCA Reference Entity/ies and replace the Reference Securities (the **"Affected Merger Reference Securities"**) with Similar Reference Securities.

The Calculation Agent shall notify the Issuer, which shall in its turn notify the Holders of Securities pursuant to the provisions of Condition 18 (in the case of Notes) or Condition 19 (in the case of Certificates) of the decision taken by the Calculation Agent and any adjustments made to the terms of the Securities. Where Collateral Linked Condition 3.9(b)(ii) is applicable, the Issuer shall sell the Affected Merger Reference Securities and pay the proceeds of any sale of Affected Merger Reference Securities to the Swap Counterparty and the Issuer will receive from the Swap Counterparty an amount equal to the amount required to purchase the relevant Similar Reference Securities. If there is a difference in value between the Affected Merger Reference Securities and the relevant Similar Reference Securities, the Calculation Agent may make an adjustment to the interest payable on the Securities and, if it is not possible to reflect such difference in value fully by adjusting the interest payable on the Securities, the Calculation Agent may also adjust the Final Redemption Amount payable in respect of each Security. Details of any adjustment or decision made in relation to the above may be obtained by the Holders of Securities upon request at the Calculation Agent's specified address.

### 3.10 Purchase of Securities

Where the Issuer purchases Securities in accordance with Condition 7(i) (in the case of Notes or Condition 8(i) (in the case of Certificates (the **"Purchased Securities"**)), the Issuer shall dispose of a proportion of the Reference Securities for the relevant series of Securities equal to the proportion that the aggregate Nominal Value of Purchased Securities represent of the aggregate Nominal Value of the Securities (a **"Collateral Disposal"**) save where, due to the denominations of the Reference Securities, such Collateral Disposal would result in the disposal of Reference Securities with a nominal amount greater than the Calculated Disposal Reference Nominal Amount due to the nominal amount of the Reference Securities which would be the subject of the relevant Collateral Disposal not being divisible by the denomination of the Reference Securities then held by the Issuer (a **"Denomination Matching Failure Event"**). In such circumstances, the Issuer may dispose of the next largest nominal amount of Reference Securities which is divisible by the denomination of the Reference Securities then held by the Issuer and which is lower than the Calculated Disposal Reference Nominal Amount (the nominal amount of the Reference Securities which is actually disposed of, being the **"Actual Disposal Reference Nominal Amount"**). In connection with such Denomination Matching Failure Event, the amount by which the Calculated Disposal Reference Nominal Amount exceeds the Actual Disposal Reference Nominal Amount shall be the **"Excess Collateral Amount"**.

### 3.11 Subsequent Denomination Matching Failure Events

Following the occurrence of a Denomination Matching Failure Event, if a subsequent purchase by the Issuer of Securities in accordance with 7(i) (in the case of Notes or Condition 8(i) (in the case of Certificates) would otherwise lead to a further Denomination Matching Failure Event (each a **"Subsequent Denomination Matching Failure Event"**) and the Excess Collateral Balance which

would result from such purchase of Secured Securities (without regard to this Collateral Linked Condition 3.11 but, for the avoidance of doubt, taking into account, the Excess Collateral Balance immediately prior to the purchase of the Securities) (the "**Deemed Excess Collateral Balance**") would be equal to or greater than the denomination of a Reference Security, then (i) the purchase price for such subsequent purchase of Securities payable by the Issuer shall be deemed to be increased by the Excess Collateral Balance immediately prior to the purchase of the Securities and (ii) the Issuer shall dispose of additional Reference Securities ("**Additional ECB Specified Reference Securities**") in a nominal amount equal to or lower than the Deemed Excess Collateral Balance (to the extent that such nominal amount is divisible by the denomination of the Reference Securities then held by the Issuer) and the amount by which such Deemed Excess Collateral Balance exceeds the nominal amount of the Additional ECB Specified Reference Securities shall be deemed to be the new Excess Collateral Balance.

3.12 Payment of Excess Collateral Balance

If there is a positive Excess Collateral Balance following the occurrence of an Early Redemption Event and the delivery of an Early Redemption Notice in connection therewith which leads to the redemption in full of the relevant Secured Securities or where the Compartment Security is enforced following a Note Acceleration or Certificate Acceleration, an amount equal to the Excess Collateral Balance Value shall be payable by the Issuer to the Swap Counterparty under the Swap Agreement and, in the case of an Early Redemption Event, shall be deemed to be an Early Redemption Cost for the purposes of these Collateral Linked Conditions.

3.13 Early Redemption at Maturity

Where "Early Redemption at Maturity" is specified to be applicable in the applicable Final Terms and the Issuer delivers an Early Redemption Notice in respect of a RCA Linked Early Redemption Event, the Issuer will redeem each Security at its Early Redemption Amount on the later of the Maturity Date (in the case of Notes) or the Redemption Date (in the case of Certificates) and the Early Redemption Date provided that, where the Issuer delivers an Early Redemption Notice in respect of an Intervening Early Redemption Event on or after the Early Redemption Determination Date, the Issuer will redeem each Security at its Early Redemption Amount on the Intervening Early Redemption Date (and notwithstanding any other provision of the Conditions or these Collateral Linked Conditions, in each case, no interest shall accrue on any payment of any amount which is so deferred). To the extent the Issuer delivers an Early Redemption Notice which relates to an Early Redemption Event which is an Annex Early Redemption Event or a Swap Agreement Termination Event prior to the Early Redemption Determination Date where it has served a prior Early Redemption Notice relating to any other Early Redemption Event, the Issuer will redeem each Security at its Early Redemption Amount on the Early Redemption Determination Date.

3.14 Partial Early Redemption

Where RCA Instalment Certificates is specified as applicable in the applicable Final Terms, subject to Collateral Linked Condition 3.14(f), the following shall apply:

- (a) where a Partial Early Redemption Event occurs, following the service of an Early Redemption Notice, the Securities will be redeemed in part only by redemption of the Affected Security Amount (and a *pro rata* proportion of the Nominal Amount of each Note or the Notional Amount of each Certificate, as the case may be, will be redeemed) in accordance with the terms set out in this Collateral Linked Condition 3 at their Partial Early Redemption Amount on the applicable Partial Early Redemption Date, but subject to Collateral Linked Condition 3.14(c), the Reference Securities which will be sold in

accordance with Collateral Linked Condition 3.2 and Collateral Linked Condition 3.3 will be the Affected Reference Securities only (and the net proceeds from the sale of such Affected Reference Securities shall constitute the Collateral Sale Proceeds for the purposes of calculating the applicable Partial Early Redemption Amount). Where an Early Redemption Notice is delivered relating to a Partial Early Redemption Event, Collateral Linked Condition 5.1 shall not apply provided that if a Partial Early Redemption Event occurs with respect to Reference Securities and there are no other Reference Securities in respect of which a Partial Early Redemption Event has not occurred, such event shall be treated as an Early Redemption Event. Where the same Partial Early Redemption Event affects more than one issue of Reference Securities, this Collateral Linked Condition 3.14 shall be applied separately in respect of each such Affected Reference Securities and the terms of this Collateral Linked Condition 3.14 shall be construed accordingly;

- (b) in connection with a Partial Early Redemption Event, an additional termination event shall be deemed to occur with respect to a portion of the notional amount of the Swap Agreement, as determined by the calculation agent under the Swap Agreement (the "**Terminated Portion**"). The Swap Agreement will continue in full force and effect and, subject to Collateral Linked Condition 3.14(c) (to the extent applicable to the Securities), shall not be affected by the Partial Early Redemption Event other than the termination of the Terminated Portion and no Related Agreement Termination Event will occur as a result of the designation of an early termination date in respect of the Terminated Portion. Where Additional RCA Disposal is not specified to be applicable in the applicable Final Terms, if the Swap Agreement Termination Payment payable by the Issuer to the Swap Counterparty in respect of a Terminated Portion relating to the relevant Partial Early Redemption Event is greater than the Adjusted Collateral Sale Proceeds, the Issuer's obligation to pay the Swap Agreement Termination Payment will be limited to the payment of an amount equal to the Adjusted Collateral Sale Proceeds;
- (c) where Additional RCA Disposal is specified to be applicable in the applicable Final Terms:
  - (i) if the Partial Early Redemption Amount determined is a negative figure (the amount below zero being the "**Partial Early Redemption Shortfall**"), the Calculation Agent (on behalf of the Issuer) will notify the Holders via the Clearing Systems of the occurrence of the relevant Partial Early Redemption Shortfall (a "**Partial Early Redemption Shortfall Notice**") and the Calculation Agent shall select which of the remaining Reference Securities are to be liquidated in accordance with Collateral Linked Condition 3.3 to fund the relevant Partial Early Redemption Shortfall; and
  - (ii) the Issuer or the Collateral Disposal Agent shall estimate the principal amount of selected Reference Securities to be realised (rounded up to the nearest integral multiple of the minimum denomination of the relevant Reference Securities) held by or on behalf of the Issuer at such time (the "**Additional Disposal Reference Securities**") such that the Partial Early Redemption Amount when recalculated to take account of the realisation of such Additional Disposal Reference Securities and termination of a further part of the Swap Agreement would be expected to be positive and then the Issuer or the Collateral Disposal Agent will subsequently effect such realisation of the Additional Disposal Reference Securities in accordance with Collateral Linked Condition 3.3, together with a further partial termination of the Swap Agreement. Upon such realisation and termination, the portion of each Security equal to the relevant Affected Security Amount will be

- 1305 -

redeemed by payment of the Partial Early Redemption Amount on the Partial Early Redemption Date;

- (d) for the purposes of determining the Nominal Outstanding of a Security, such amount shall be reduced by an amount equal to the relevant Affected Security Amount with effect from the Partial Early Redemption Date relating to the relevant Partial Early Redemption Event provided that, for the purposes of determining amounts of interest due and payable on the Securities, the Nominal Outstanding of each Security shall be deemed to have been reduced by the relevant Affected Security Amount with effect from, and including, the Interest Period End Date immediately preceding the date on which relevant Partial Early Redemption Event occurs with the result that no interest shall accrue in respect of the Affected Security Amount from, and including such immediately preceding Interest Period End Date;
- (e) the following amendments shall apply with respect to the Collateral Linked Conditions:
  - (i) The definition of Early Redemption Notice in Collateral Linked Condition 1.1 shall be deleted and replaced with the following:

""**Early Redemption Notice**" means a notice delivered by the Issuer to in accordance with Condition 18 (*Notices*) or the Certificateholders accordance with Condition 19 (*Notices*), as applicable, stating that an Early Redemption Event or Partial Early Redemption Event has occurred on or after the Event Trigger Date applicable to a series of Secured Securities;"
  - (ii) The definition of Swap Agreement Termination Payment in Collateral Linked Condition 1.1 shall be deleted and replaced with the following:

""**Swap Agreement Termination Payment**" means the termination payment due between the Issuer and the Swap Counterparty upon early termination of the Swap Agreement calculated in accordance with the terms of the Swap Agreement (or where a Partial Early Redemption Event has occurred, the early termination of the relevant Terminated Portion which relates to the Affected Reference Securities or, where Additional Reference Securities Disposal is specified to be applicable in the applicable Final Terms, any Additional Disposal Reference Securities, as the case may be, calculated in accordance with the terms of the Swap Agreement);"; and
  - (iii) Collateral Linked Condition 3.2 shall be amended by adding the words "or a Partial Early Redemption Event" after the words "Early Redemption Event" in the first line thereof and, when construing the terms of Collateral Linked Condition 3.2 and Collateral Linked Condition 5.3 where a Partial Early Redemption Event has occurred any reference therein to "Early Redemption Event" or "Reference Securities" shall be read as references to a Partial Early Redemption Event or the relevant Affected Reference Securities, respectively;

- (f) where Full Early Redemption is specified as applicable in the applicable Final Terms, Collateral Linked Conditions 3.14(a) to (e) shall not apply; and
- (g) Collateral Linked Conditions 3.10, 3.11 and 3.12 shall not apply to the Securities.

### 3.15 Instalment Notes

If the applicable Final Terms specify that the Notes are Instalment Notes, this Collateral Linked Condition 3.15 shall apply.

- (a) Each Note which is redeemable in instalments will be redeemed in the Instalment Amounts and on the Instalment Dates specified in the applicable Final Terms.
- (b) If the applicable Final Terms specify that the Notes are redeemable in instalments and that Instalment Adjustment is applicable, each Note will be redeemed (i) in part by payment of the relevant Instalment Amount on each Instalment Date and (ii) with final redemption being made pursuant to Condition 7(a). The Instalment Amount in respect of an Instalment Date will be an amount calculated by the Calculation Agent equal to the product of the Nominal Amount immediately prior to such Instalment Date and the relevant Instalment Percentage specified in the applicable Final Terms in respect of such Instalment Date. Following each Instalment Date, the Nominal Amount shall be reduced by the Instalment Amount and all calculations and determinations in respect of the Notes shall be made on the basis of the Nominal Amount as so reduced (or in the case of calculations and determinations made in respect of all of the Notes, the aggregate of the Nominal Amount as so reduced).
- (c) If the applicable Final Terms specify that the Notes are redeemable in instalments and that OCA Instalment Adjustment is applicable, each Note will be redeemed (i) in part by payment of the relevant Instalment Amount on each Instalment Date and (ii) with final redemption being made pursuant to Condition 7(a). The Instalment Amount in respect of an Instalment Date will be an amount calculated by the Calculation Agent equal to the product of the original Nominal Amount as of the Issue Date and the relevant Instalment Percentage specified in the applicable Final Terms in respect of such Instalment Date. Following each Instalment Date, the Nominal Amount shall be reduced by the relevant Instalment Amount and, save for the calculation of the Instalment Amount, all calculations and determinations in respect of the Nominal Amount shall be made on the basis of the Nominal Amount as so reduced.

### 3.17 Reference Collateral Settlement Disruption Events

If, in the opinion of the Calculation Agent, delivery of the Entitlement in such commercially reasonable manner as the Calculation Agent has determined is not practicable by reason of a Reference Collateral Settlement Disruption Event (as defined below) having occurred and continuing on the Delivery Date, then the Delivery Date shall be postponed to the first following Settlement Business Day in respect of which there is no such Reference Collateral Settlement Disruption Event, provided that, the Issuer may elect to satisfy its obligations in respect of the relevant Note or Certificate, as the case may be, by delivering the Entitlement using such other commercially reasonable manner as it may select and in such event the Delivery Date shall be such day as the Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Reference Collateral Settlement Disruption Event affects some but not all of the Reference Securities comprising the Entitlement, the Delivery Date for the Reference Securities not affected by the Reference Collateral Settlement Disruption Event will be the originally designated Delivery Date.

For so long as delivery of the Entitlement is not practicable by reason of a Reference Collateral Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof the Issuer may elect to satisfy its obligations in respect of the relevant Note or Certificate, as the case may be, by payment to the relevant Noteholder or Certificateholder of the Disruption Cash Redemption Amount (as defined below) to be apportioned pro rata amongst the relevant Holders of Securities on the tenth Business Day following the Issuer's receipt of the proceeds received from the sale of any Undelivered Reference Securities and the Issuer shall also give notice of such election to the Noteholders in accordance with Condition 18 (*Notices*) or the Certificateholders accordance with Condition 19 (*Notices*), as the case may be. Payment of the Disruption Cash Redemption Amount will be made in such manner as shall be notified to the Noteholders in accordance with Condition 18 (*Notices*) or the Certificateholders accordance with Condition 19 (*Notices*), as the case may be. The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 18 (*Notices*) or the Certificateholders accordance with Condition 19 (*Notices*), as the case may be that a Reference Collateral Settlement Disruption Event has occurred. No Noteholder or Certificateholder shall be entitled to any payment in respect of the relevant Note or Certificate, as applicable, in the event of any delay in the delivery

of the Entitlement due to the occurrence of a Reference Collateral Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer or any Guarantor (if applicable).

For the purposes hereof:

  - (iii) where the RCA Reference Entity is a Sovereign, such entity succeeded to the Relevant Obligations by way of a Sovereign Succession Event.
- (c) In the case of an exchange offer, the determination required pursuant to the definition of "Successor" shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.
- (d) If two or more entities (each, a "**Joint Potential Successor**") jointly succeed to a Relevant Obligation (the "**Joint Relevant Obligation**") either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the RCA Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

Unless "Credit Deterioration Requirement" is specified as not applicable in the applicable Final Terms with respect to the relevant RCA Reference Entity, then, notwithstanding the foregoing, it shall not constitute a RCA Issuer/Parent Payment Default Event if such failure does not directly or indirectly either result from, or result in, a deterioration in the creditworthiness or financial condition of the Reference Entity, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. In making such determination, the Calculation Agent may take into account the guidance note set out in paragraph 3 (Interpretive Guidance) of the ISDA 2019 Narrowly Tailored Credit Event Supplement to the 2014 ISDA Credit Derivatives Definitions (published on July 15, 2019)."

The Guarantor has agreed to guarantee the obligations of the Issuer under the Securities (the "**Guaranteed Securities**") on the terms of this Guarantee.

Terms defined in the Terms and Conditions of *[insert name of the Securities]* (the "**Securities**"), as completed by the applicable Final Terms (the "**Conditions**"), and not otherwise defined in this Guarantee, shall have the same meanings when used in this Guarantee.

Any reference in this Guarantee to any obligation or sums or amounts payable under or in respect of the Securities by the Issuer shall be construed to refer to (if applicable) in the event of a bail-in of the Guarantor, such obligations, sums and/or amounts as reduced by reference to, and in the same proportion as, any such reduction or modification applied to liabilities of the Guarantor following the application of a bail-in of the Guarantor by any relevant authority (including in a situation where the Guarantee itself is not the subject of such bail-in).

**NOW THIS DEED WITNESSES** as follows:

1. **GUARANTEE**

Subject as provided below, the Guarantor irrevocably guarantees to the Trustee for itself and for the benefit of the holders for the time being of the Guaranteed Securities (each a "**Holder**") that, if for any reason the Issuer does not pay any sum payable by it or perform any other obligation in respect of any Guaranteed Security on the date specified for such payment or performance (the "**Guaranteed Obligations**"), the Guarantor will, in accordance with the applicable Terms and Conditions of the Guaranteed Securities (the "**Conditions**"), pay that sum in the currency in which such payment is due in immediately available funds or, as the case may be, perform or procure the performance of the relevant obligation. In case of the failure of the Issuer to satisfy such obligations as and when the same become due, the Guarantor hereby undertakes to make or cause to be made such payment or satisfy or cause to be satisfied such obligations as though the Guarantor were the principal obligor in respect of such obligation after a demand has been made on the Guarantor pursuant to clause 10 hereof and provided that the Guarantor shall not be obliged to make any payment under this Guarantee until the Charged Assets have been realised or liquidated in full in

the manner set out in Condition 12 of the Guaranteed Notes, Condition 13 of the Guaranteed Warrants or Condition 14 of the Guaranteed Certificates, as the case may be.

The Guaranteed Obligations are, for the avoidance of doubt, limited to the same extent as such sum or obligation due by the Issuer is itself limited (i) by the provisions of the Securitisation Act 2004 and (ii) the applicable Conditions, including, without limitation, (1) those Conditions relating to the applicable redemption amount or termination amount (which amount may be limited to the liquidation proceeds of the Charged Assets of the Compartment relating to such Security) and (2) those Conditions relating to Compartments, limited recourse, non-petition, subordination and priority of payments in respect of the relevant Guaranteed Security.

**2. SUBROGATION OF THE GUARANTOR**

The Guarantor will be fully and automatically subrogated to all rights of the holders of the Guaranteed Securities and the Trustee to payments of the Guaranteed Obligations, and to any rights appurtenant thereto, to the fullest extent permitted by applicable law to the extent of such payment in respect of amounts due in respect of the Securities which have been paid by the Guarantor under this Guarantee; provided that the Guarantor shall not without the consent of the Trustee be entitled to enforce or to receive any payments arising out of or based upon or prove in any insolvency or winding up of the Issuer in respect of such right of subrogation until such time as all Guaranteed Obligations due under this Guarantee have been paid in full.

**3. THE GUARANTOR AS PRINCIPAL OBLIGOR**

As between the Guarantor and the Trustee but without affecting the Issuer's obligations, the Guarantor will be liable under this Guarantee as if it were the sole principal obligor and not merely a surety provided that (i) the Issuer has failed to satisfy its obligations as and when they become due, (ii) the Charged Assets have been realised or liquidated in full in the manner set out in Condition 12 of the Guaranteed Notes, Condition 13 of the Guaranteed Warrants, or Condition 14 of the Guaranteed Certificates, as the case may be, and (iii) a demand has been made on the Guarantor pursuant to clause 9 hereof. Accordingly, it will not be discharged, nor will its liability be affected, by anything which would not discharge it or affect its liability if it were the sole principal obligor (including (1) any time, indulgence, waiver or consent at any time given to the Issuer or any other person, (2) any amendment to any of the Conditions or to any security or other guarantee or indemnity, (3) the release of any such security, guarantee or indemnity or (4) the dissolution, amalgamation, reconstruction or reorganisation of the Issuer or any other person).

**4. THE GUARANTOR'S OBLIGATIONS CONTINUING**

The Guarantor's obligations under this Guarantee are and will remain in full force and effect by way of continuing security until no sum remains payable and no other obligation remains to be performed under any Guaranteed Security (including if the relevant Security is a Warrant, where such Warrant remains subject to exercise). Furthermore, those obligations of the Guarantor are additional to, and not instead of, any security or other guarantee or indemnity at any time existing in favour of any person, whether from the Guarantor or otherwise.

**5. STATUS**

This Guarantee is a senior preferred obligation (within the meaning of Article L.613-30-3-I-3° of the French Code *monétaire et financier*) and an unsecured obligation of BNP Paribas SA and will rank *pari passu* with all its other present and future senior preferred and unsecured obligations subject to such exceptions as may from time to time be mandatory under French law.

**6. DISCHARGE BY THE ISSUER**

If any payment received by, or other obligation discharged to or to the order of, the holder of any Guaranteed Security is, on the subsequent bankruptcy or insolvency of the Issuer, avoided under any laws relating to bankruptcy or insolvency, such payment or obligation will not be considered as having discharged or diminished the liability of the Guarantor and this Guarantee will continue to apply as if such payment or obligation had at all times remained owing due by the Issuer.

## 7. INDEMNITY

As a separate and alternative stipulation, the Guarantor unconditionally and irrevocably agrees that any sum or obligation which, although expressed to be payable or deliverable under the Guaranteed Securities, is for any reason (whether or not now existing and whether or not now known or becoming known to the Issuer, the Guarantor or the Trustee) not recoverable from the Guarantor on the basis of a guarantee will nevertheless be recoverable from the Guarantor as if it were the sole principal obligor and will be paid or performed by it in favour of the Trustee (for itself and as trustee for the Holders) on demand by the Trustee provided that (i) the Issuer has failed to satisfy its obligations as and when they become due, (ii) the Charged Assets have been realised or liquidated in full in the manner set out in Condition 12 of the Guaranteed Notes, Condition 13 of the Guaranteed Warrants or Condition 14 of the Guaranteed Certificates, as the case may be, and (iii) a demand has been made on the Guarantor pursuant to clause 9 hereof and that in no circumstances shall the Guarantor be obliged to pay an amount under this Guarantee which is greater than the amount payable by the Issuer in respect of the Guaranteed Obligations, such Guaranteed Obligations being, for the avoidance of doubt, limited to the same extent as such sum or obligation due by the Issuer is itself limited by (1) the provisions of the Securitisation Act 2004 and (2) the applicable Conditions, including, without limitation, (a) those Conditions relating to the applicable redemption amount or termination amount (which amount may be limited to the liquidation proceeds of the Charged Assets of the Compartment relating to such Security) and (b) those Conditions relating to Compartments, limited recourse, non-petition, subordination and priority of payments in respect of the relevant Guaranteed Security. Accordingly, the Guarantor will not be discharged, nor will its liability be affected, by anything which would not discharge it or affect its liability if it were the sole principal obligor (including (1) any time, indulgence, waiver or consent at any time given to the Issuer or any other person, (2) any amendment to any of the Conditions or to any security or other guarantee or indemnity, (3) the release of any such security, guarantee or indemnity or (4) the dissolution, amalgamation, reconstruction or reorganisation of the Issuer or any other person).

## 8. RESOLUTION PROCEEDINGS AGAINST THE GUARANTOR

By its acquisition of the Securities, each Holder (which, for the purposes of this clause 8, includes any current or future holder of a beneficial interest in the Securities) acknowledges, accepts, consents and agrees:

- (a) to be bound by the effect of the exercise of the Bail-in or Loss Absorption Power (as defined below) by the Relevant Resolution Authority (as defined below) if the latter was to consider that the Amounts Due fall within the scope of the Bail-in or Loss Absorption Power. This Bail-in or Loss Absorption Power may include and result in any of the following, or some combination thereof:
  - (i) the reduction of all, or a portion, of the Amounts Due;
  - (ii) the conversion of all, or a portion, of the Amounts Due into shares, other securities or other obligations of the Guarantor or another person (and the issue to the Holder of such shares, securities or obligations), including by means of an amendment, modification or variation of the terms of this Guarantee, in which case the Holder agrees to accept in lieu of its rights under this Guarantee any such shares, other securities or other obligations of the Guarantor or another person;
  - (iii) the cancellation of this Guarantee; and/or
  - (iv) the amendment or alteration of the term of this Guarantee, including by suspending payment for a temporary period;
- (b) if applicable, that the terms of this Guarantee are subject to, and may be varied, if necessary, to give effect to, the exercise of the Bail-in or Loss Absorption Power by the Relevant Resolution Authority.

For these purposes, the "**Amounts Due**" are the amounts payable under this Guarantee.

The "**Bail-in or Loss Absorption Power**" is any power existing from time to time under any laws,

regulations, rules or requirements in effect in France, relating to the transposition of Directive 2014/59/EU of the European Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms (as amended from time to time), including without limitation pursuant to French decree-law No. 2015-1024 dated 20 August 2015 (*Ordonnance portant diverses dispositions d'adaptation de la législation au droit de l'Union européenne en matière financière*) (as amended from time to time) ratified by the Law n°2016-1691 of 9 December 2016 relating to transparency, the fight against corruption and the modernisation of economic life (*Loi no. 2016-1691 du 9 décembre 2016 relative à la transparence, à la lutte contre la corruption et à la modernisation de la vie économique*) (as amended from time to time, this ordinance was ratified by the Law n°2016-1691), Regulation (EU) No 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund and amending Regulation (EU) No 1093/2010 (as amended from time to time, including by Regulation (EU) 2019/877 dated 20 May 2019, the "**Single Resolution Mechanism Regulation**"), or otherwise arising under French law, and in each case the instructions, rules and standards created thereunder, pursuant to which the obligations of a Regulated Entity (or an affiliate of such Regulated Entity) can be reduced (in part or in whole), cancelled, suspended, transferred, varied or otherwise modified in any way, or securities of a Regulated Entity (or an affiliate of such Regulated Entity) can be converted into shares, other securities, or other obligations of such Regulated Entity or any other person, whether in connection with the implementation of a bail-in tool following placement in resolution.

A reference to a "**Regulated Entity**" is any entity referred to in Section 1 of Article L.613-34 of the French Code monétaire et financier, which includes certain credit institutions, investment firms, and certain of their parent or holding companies established in France.

A reference to the "**Relevant Resolution Authority**" is to the *Autorité de contrôle prudentiel et de résolution*, the Single Resolution Board established pursuant to the Single Resolution Mechanism Regulation, and/or any other authority entitled to exercise or participate in the exercise of any Bail-in or Loss Absorption Power against the Guarantor from time to time (including the Council of the European Union and the European Commission when acting pursuant to Article 18 of the Single Resolution Mechanism Regulation).

The matters set forth in this clause 8 shall be exhaustive on the foregoing matters to the exclusion of any other agreements, arrangements or understandings between the Guarantor and any Holder.

#### 9. **INCORPORATION OF TERMS**

The Guarantor agrees that it shall comply with and be bound by those provisions contained in the Conditions which relate to it.

#### 10. **DEMAND ON THE GUARANTOR**

Any demand hereunder shall be given in writing addressed to the Guarantor served at its office at Legal CIB, 3 rue Taitbout, 75009 Paris, France. A demand so made shall be deemed to have been duly made two Paris Business Days (as used herein, "**Paris Business Day**" means a day (other than a Saturday or Sunday) on which banks are open for business in Paris) after the day it was served or if it was served on a day that was not a Paris Business Day or after 5.30 p.m. (Paris time) on any day, the demand shall be deemed to be duly made two Paris Business Days after the Paris Business Day immediately following such day.

#### 11. **DEPOSIT OF GUARANTEE**

This Guarantee shall be deposited with and held by the Trustee for the benefit of itself and the Holders.

#### 12. **GOVERNING LAW**

This Guarantee and any non-contractual obligations arising out of or in connection herewith shall be governed by and construed in accordance with English law.

**13. JURISDICTION**

The courts of England shall have exclusive jurisdiction to settle any disputes which may, directly or indirectly, arise out of or in connection with this Guarantee including a dispute relating to any non-contractual obligations arising out of or in connection herewith and accordingly the Guarantor submits to the exclusive jurisdiction of the English courts to hear all suits, actions or proceedings relating to any such dispute. The Guarantor waives any objection to the courts of England on the grounds that they are an inconvenient or inappropriate forum.

**14. SERVICE OF PROCESS**

The Guarantor agrees that service of process in England may be made on it at its London branch. Nothing in this Guarantee shall affect the right to serve process in any other manner permitted by law.

**15. CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999**

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Guarantee, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

IN WITNESS whereof this Guarantee has been executed and delivered by BNP Paribas S.A. as a deed on the date first above-mentioned.

If the form of Guarantee specified as applicable in the applicable Final Terms is "Shortfall Guarantee" then the form of Guarantee will be as follows where BNPP is the Guarantor (the "**Shortfall Guarantee**"):

"**THIS GUARANTEE** is made by way of deed on *[insert date]* by BNP Paribas S.A. (the "**Guarantor**") in favour of the Trustee for itself and for the benefit for the time being of the holders of the Securities (as defined below) (each a "**Holder**").

**WHEREAS:**

The Guarantor has agreed to guarantee the obligations of the Issuer under the Securities (the "**Guaranteed Securities**") on the terms of this Guarantee.

Terms defined in the Terms and Conditions of *[insert name of the Securities]* (the "**Securities**"), as completed by the applicable Final Terms (the "**Conditions**"), and not otherwise defined in this Guarantee, shall have the same meanings when used in this Guarantee.

Any reference in this Guarantee to any obligation or sums or amounts payable under or in respect of the Securities by the Issuer shall be construed to refer to (if applicable) in the event of a bail-in of the Guarantor, such obligations, sums and/or amounts as reduced by reference to, and in the same proportion as, any such reduction or modification applied to liabilities of the Guarantor following the application of a bail-in of the Guarantor by any relevant authority (including in a situation where the Guarantee itself is not the subject of such bail-in).

**NOW THIS DEED WITNESSES** as follows:

1. **GUARANTEE**

Subject as provided below, the Guarantor conditionally and irrevocably guarantees to the Trustee for itself and for the benefit of the Holders that, if for any reason the Issuer does not:

- (i) on the Maturity Date (in the case of Guaranteed Notes), the Settlement Date (in the case of Guaranteed Warrants) or the Redemption Date (in the case of Guaranteed Certificates), as the case may be, pay the Final Redemption Amount (in the case of Guaranteed Notes or Guaranteed Certificates) or the Cash Settlement Amount (in the case of Guaranteed Warrants) in full;
- (ii) on the Automatic Early Redemption Date (if specified as applicable in the applicable Final Terms) pay the Automatic Early Redemption Amount;
- (iii) on the Automatic Early Expiration Date (if specified as applicable in the applicable Final Terms) pay the Automatic Early Expiration Payment Amount; or
- (iv) if (1) an Event of Default (other than an Event of Default resulting from a failure to pay the Final Redemption Amount (in the case of Guaranteed Notes and Guaranteed Certificates) or the Final Settlement Amount (in the case of Guaranteed Warrants)), (2) an Early Redemption Event (in the case of Guaranteed Notes or Guaranteed Certificates) or (3) an Early Termination Event (in the case of Guaranteed Warrants) has occurred, on the Early Redemption Date (in the case of Guaranteed Notes or Guaranteed Certificates) or Early Termination Date (in the case of Guaranteed Warrants), pay an amount equal to the applicable Final Redemption Amount, Final Settlement Amount, Early Redemption Amount or Early Termination Amount, as the case may be, in full,

it will pay the Shortfall Amount (as defined below) in respect of each Guaranteed Security (the "**Guaranteed Obligations**") and the Guarantor will pay that sum in the currency in which such payment is due in immediately available funds.

In case of the failure of the Issuer to satisfy such obligations as and when the same become due, the Guarantor hereby undertakes to make or cause to be made such payment as though the Guarantor were the principal obligor in respect of such obligations after a demand has been made on the Guarantor pursuant to clause 8 hereof and provided that the Guarantor shall not be obliged to make any payment under this Guarantee until the Charged Assets

have been realised or liquidated in full in the manner set out in Condition 12 of the Guaranteed Notes, Condition 13 of the Guaranteed Warrants or Condition 14 of the Guaranteed Certificates, as the case may be, and only if the holder of a Guaranteed Security has not received the full Final Redemption Amount (in the case of Guaranteed Notes or Guaranteed Certificates), Automatic Early Expiration Payout Amount or Cash Settlement Amount (in the case of Guaranteed Warrants) or Automatic Early Redemption Amount which would otherwise have been due on the Maturity Date (in the case of Guaranteed Notes), the Settlement Date (in the case of Guaranteed Warrants), Redemption Date (in the case of Guaranteed Certificates) or Automatic Early Redemption Date or Automatic Early Expiration Date, as the case may be, (the "**Expected Settlement Amount**") or, where an Event of Default (other than an Event of Default resulting from a failure to pay the Final Redemption Amount (in the case of Guaranteed Notes and Guaranteed Certificates), the Final Settlement Amount (in the case of Guaranteed Warrants), Automatic Early Redemption Amount or Automatic Early Expiration Payout Amount), an Early Redemption Event or an Early Termination Event has occurred and either (1) the Trustee has given a notice of Note Acceleration in accordance with Condition 11 of the Guaranteed Notes, of Warrant Acceleration in accordance with Condition 11 of the Guaranteed Warrants or of Certificate Acceleration in accordance with Condition 12 of the Guaranteed Certificates in respect of the Guaranteed Securities or (2) the Issuer has given notice that it will redeem or cancel, as the case may be, the Securities, prior to their specified Maturity Date (in the case of Guaranteed Notes), the Settlement Date (in the case of Guaranteed Warrants) or Redemption Date (in the case of Guaranteed Certificates), as the case may be, (the date on which such notice expires, the "**Early Redemption Date**" (in the case of Guaranteed Notes or Guaranteed Certificates) or the "**Early Termination Date**" (in the case of Guaranteed Warrants)), the Expected Early Termination Amount.

For the purposes of this Guarantee:

- (a) "**Shortfall Amount**" means a *pro rata* share per Security of the amount, following the liquidation of the Charged Assets in the manner set out in Condition 12 of the Guaranteed Notes, Condition 13 of the Guaranteed Warrants or Condition 14 of the Guaranteed Certificates, as the case may be, by which the aggregate amount paid to the Holders of the Securities of the relevant Series by, or on behalf of, the Issuer is less than the aggregate Expected Settlement Amount or, if an Event of Default (other than an Event of Default resulting from a failure to pay the Final Redemption Amount (in the case of Guaranteed Notes and Guaranteed Certificates), the Final Settlement Amount (in the case of Guaranteed Warrants), Automatic Early Redemption Amount or Automatic Early Expiration Payout Amount), an Early Redemption Event or an Early Termination Event has occurred, the aggregate Expected Early Termination Amount (as defined below) otherwise payable in respect of such Security plus, in each case, any amounts which are payable in accordance with the Order of Priority in priority to payments to the Holders which have not been satisfied by the Available Enforcement Proceeds provided that the Trustee shall apply all amounts received by it under this Guarantee in accordance with the Order of Priority specified in the applicable Final Terms after first having applied the Available Enforcement Proceeds in accordance with the Order of Priority.

For the purposes of determining the Shortfall Amount, the Expected Settlement Amount shall be the Final Redemption Amount (in the case of Guaranteed Notes or Guaranteed Certificates), the Cash Settlement Amount (in the case of Guaranteed Warrants) or Automatic Early Redemption Amount prior to any application of the limitation of the Issuer's obligations set out in Condition 8(i) of the Guaranteed Notes, Condition 9(i) of the Guaranteed Warrants or Condition 9(i) of the Guaranteed Certificates, as the case may be.

- (b) "**Expected Early Termination Amount**" means either (i) the Early Redemption Amount in respect of an Early Redemption Event (in the case of Guaranteed Notes or Guaranteed Certificates) or the Early Termination Amount in respect of an Early Termination Event (in the case of Guaranteed Warrants) or (ii) the fair market value

of the relevant Security in respect of an Event of Default (other than an Event of Default resulting from a failure to pay the Final Redemption Amount (in the case of Guaranteed Notes and Guaranteed Certificates), the Final Settlement Amount (in the case of Guaranteed Warrants), the Automatic Early Redemption Amount (in the case of Guaranteed Notes and Guaranteed Certificates) or the Automatic Early Expiration Payout Amount or Early Termination Amount (in the case of Guaranteed Warrants)), as the case may be, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner on the Early Redemption Date or the Early Termination Date, as the case may be, prior to any application of the limitation of the Issuer's obligations set out in Condition 8(i) of the Guaranteed Notes Condition 9(i) of the Guaranteed Warrants or Condition 9(i) of the Guaranteed Certificates, as the case may be.

- (c) The Guaranteed Obligations shall not be deemed limited to the same extent as such sum or obligation due by the Issuer is itself limited by (i) the provisions of the Securitisation Act 2004 and (ii) the applicable Conditions, including, without limitation, (a) those Conditions relating to the applicable redemption amount or termination amount (which amount may be limited to the liquidation proceeds of the Charged Assets of the Compartment relating to such Security) and (b) those Conditions relating to Compartments, limited recourse, non-petition, subordination and priority of payments in respect of the relevant Guaranteed Security.

## 2. **SUBROGATION OF THE GUARANTOR**

The Guarantor will be fully and automatically subrogated to all rights of the holders of the Guaranteed Securities and the Trustee to payments of the Guaranteed Obligations, and to any rights appurtenant thereto, to the fullest extent permitted by applicable law to the extent of such payment in respect of amounts due in respect of the Securities which have been paid by the Guarantor under this Guarantee; provided that the Guarantor shall not without the consent of the Trustee be entitled to enforce or to receive any payments arising out of or based upon or prove in any insolvency or winding up of the Issuer in respect of such right of subrogation until such time as all Guaranteed Obligations due under this Guarantee have been paid in full.

## 3. **THE GUARANTOR AS PRINCIPAL OBLIGOR**

As between the Guarantor and the Trustee but without affecting the Issuer's obligations, the Guarantor will be liable under this Guarantee as if it were the sole principal obligor and not merely a surety provided that (i) the Issuer has failed to satisfy its obligations as and when they become due without regard to the limitations on the Issuer's obligations as set out in clause 1(c) (above), (ii) the Charged Assets have been realised or liquidated in full in the manner set out in Condition 12 of the Guaranteed Notes, Condition 13 of the Guaranteed Warrants, or Condition 14 of the Guaranteed Certificates, as the case may be, and (iii) a demand has been made on the Guarantor pursuant to clause 9 hereof. Accordingly, it will not be discharged, nor will its liability be affected, by anything which would not discharge it or affect its liability if it were the sole principal obligor (including (1) any time, indulgence, waiver or consent at any time given to the Issuer or any other person, (2) any amendment to any of the Conditions or to any security or other guarantee or indemnity, (3) the release of any such security, guarantee or indemnity or (4) the dissolution, amalgamation, reconstruction or reorganisation of the Issuer or any other person).

## 4. **THE GUARANTOR'S OBLIGATIONS CONTINUING**

The Guarantor's obligations under this Guarantee are and will remain in full force and effect by way of continuing security until no Shortfall Amount remains payable in respect of any Guaranteed Security. Furthermore, those obligations of the Guarantor are additional to, and not instead of, any security or other guarantee or indemnity at any time existing in favour of any person, whether from the Guarantor or otherwise.

## 5. **STATUS**

This Guarantee is a senior preferred obligation (within the meaning of Article L.613-30-3-I-3° of the French Code monétaire et financier) and an unsecured obligation of BNP Paribas SA and will

rank pari passu with all its other present and future senior preferred and unsecured obligations subject to such exceptions as may from time to time be mandatory under French law.

#### 6. **DISCHARGE BY THE ISSUER**

If any payment received by, or to the order of, the holder of any Guaranteed Security is, on the subsequent bankruptcy or insolvency of the Issuer, avoided under any laws relating to bankruptcy or insolvency, such payment or obligation will not be considered as having discharged or diminished the liability of the Guarantor and this Guarantee will continue to apply in respect of any relevant Shortfall Amount as if such payment had at all times remained owing due by the Issuer.

#### 7. **RESOLUTION PROCEEDINGS AGAINST THE GUARANTOR**

By its acquisition of the Securities, each Holder (which, for the purposes of this clause 7, includes any current or future holder of a beneficial interest in the Securities) acknowledges, accepts, consents and agrees:

- (a) to be bound by the effect of the exercise of the Bail-in or Loss Absorption Power (as defined below) by the Relevant Resolution Authority (as defined below) if the latter was to consider that the Amounts Due fall within the scope of the Bail-in or Loss Absorption Power. This Bail-in or Loss Absorption Power may include and result in any of the following, or some combination thereof:
  - (i) the reduction of all, or a portion, of the Amounts Due;
  - (ii) the conversion of all, or a portion, of the Amounts Due into shares, other securities or other obligations of the Guarantor or another person (and the issue to the Holder of such shares, securities or obligations), including by means of an amendment, modification or variation of the terms of this Guarantee, in which case the Holder agrees to accept in lieu of its rights under this Guarantee any such shares, other securities or other obligations of the Guarantor or another person;
  - (iii) the cancellation of this Guarantee; and/or
  - (iv) the amendment or alteration of the term of this Guarantee, including by suspending payment for a temporary period;
- (b) if applicable, that the terms of this Guarantee are subject to, and may be varied, if necessary, to give effect to, the exercise of the Bail-in or Loss Absorption Power by the Relevant Resolution Authority.

For these purposes, the "**Amounts Due**" are the amounts payable under this Guarantee.

The "**Bail-in or Loss Absorption Power**" is any power existing from time to time under any laws, regulations, rules or requirements in effect in France, relating to the transposition of Directive 2014/59/EU of the European Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms (as amended from time to time), including without limitation pursuant to French decree-law No. 2015-1024 dated 20 August 2015 (*Ordonnance portant diverses dispositions d'adaptation de la législation au droit de l'Union européenne en matière financière*) (as amended from time to time) ratified by the Law n°2016-1691 of 9 December 2016 relating to transparency, the fight against corruption and the modernisation of economic life (*Loi no. 2016-1691 du 9 décembre 2016 relative à la transparence, à la lutte contre la corruption et à la modernisation de la vie économique*) (as amended from time to time, this ordinance was ratified by the Law n°2016-1691), Regulation (EU) No 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund and amending Regulation (EU) No 1093/2010 (as amended from time to time, including by Regulation (EU) 2019/877 dated 20 May 2019, the "**Single Resolution Mechanism Regulation**"), or otherwise arising under French law, and in each case the instructions, rules and standards created thereunder, pursuant to which the obligations of a Regulated Entity (or an affiliate of such Regulated Entity) can be reduced (in part

or in whole), cancelled, suspended, transferred, varied or otherwise modified in any way, or securities of a Regulated Entity (or an affiliate of such Regulated Entity) can be converted into shares, other securities, or other obligations of such Regulated Entity or any other person, whether in connection with the implementation of a bail-in tool following placement in resolution.

A reference to a "**Regulated Entity**" is any entity referred to in Section 1 of Article L.613-34 of the French Code monétaire et financier, which includes certain credit institutions, investment firms, and certain of their parent or holding companies established in France.

A reference to the "**Relevant Resolution Authority**" is to the *Autorité de contrôle prudentiel et de résolution*, the Single Resolution Board established pursuant to the Single Resolution Mechanism Regulation, and/or any other authority entitled to exercise or participate in the exercise of any Bail-in or Loss Absorption Power against the Guarantor from time to time (including the Council of the European Union and the European Commission when acting pursuant to Article 18 of the Single Resolution Mechanism Regulation).

The matters set forth in this clause 7 shall be exhaustive on the foregoing matters to the exclusion of any other agreements, arrangements or understandings between the Guarantor and any Holder.

8. **INCORPORATION OF TERMS**

The Guarantor agrees that it shall comply with and be bound by those provisions contained in the Conditions which relate to it.

9. **DEMAND ON THE GUARANTOR**

Any demand hereunder shall be given in writing addressed to the Guarantor served at its office at Legal CIB, 3 rue Taitbout, 75009 Paris, France. 10. **DEPOSIT OF GUARANTEE**

This Guarantee shall be deposited with and held by the Trustee for the benefit of itself and the Holders.

11. **GOVERNING LAW**

This Guarantee and any non-contractual obligations arising out of or in connection herewith shall be governed by and construed in accordance with English law.

12. **JURISDICTION**

The courts of England shall have exclusive jurisdiction to settle any disputes which may, directly or indirectly, arise out of or in connection with this Guarantee including a dispute relating to any non-contractual obligations arising out of or in connection herewith and accordingly the Guarantor submits to the exclusive jurisdiction of the English courts to hear all suits, actions or proceedings relating to any such dispute. The Guarantor waives any objection to the courts of England on the grounds that they are an inconvenient or inappropriate forum.

13. **SERVICE OF PROCESS**

The Guarantor agrees that service of process in England may be made on it at its London branch, at 10 Harewood Avenue, London NW1 6AA (Attn: CIB Legal). Nothing in this Guarantee shall affect the right to serve process in any other manner permitted by law.

The Issuer may issue securities of any nature and in any currency and, to the fullest extent permitted by the Securitisation Act 2004, pledge, mortgage or charge or otherwise create security interests in and over its assets, property and rights to secure its obligations. The Issuer may enter into any agreement and perform any action necessary or useful for the purpose of carrying out transactions permitted under the Securitisation Act 2004, including, without limitation, disposing of its assets in accordance with the relevant agreements. The Issuer may only carry out the above activities if and to the extent that they are compatible with the Securitisation Act 2004.

**Compartments**

The Board of the Issuer may, in accordance with the terms of the Securitisation Act 2004, create individual Compartments. Each Compartment will correspond to a distinct and separate part of the assets and liabilities in respect of the Issuer. The resolution of the Board creating one or more Compartments, as well as any subsequent amendments thereto, will be binding as of the date of such resolution against any third party.

Each series of Securities will be issued through a separate Compartment and each such Compartment will be treated as a separate entity. Rights of Holders of Securities and any other creditor of the Issuer that (i) have been designated as relating to a Compartment on the creation of a Compartment or (ii) have arisen in connection with the creation, the operation or the liquidation of a Compartment, are strictly limited to the assets of that Compartment which shall be exclusively available to satisfy such Holders of Securities or creditors, unless otherwise provided for in the resolution of the Board which created the relevant Compartment. Without prejudice to the preceding paragraph, each Compartment may be separately liquidated without such liquidation resulting in the liquidation of another Compartment of the Issuer or of the Issuer itself.

The liabilities and obligations of the Issuer incurred or arising in connection with a Compartment and all matters connected therewith will only be satisfied or discharged from the Charged Assets. The Charged Assets will be exclusively available to satisfy the rights of the Holders of Securities and the other creditors of the Issuer in respect of the Securities and all matters connected therewith, as provided therein, and (subject to mandatory law) no other creditors of the Issuer will have any recourse against the Charged Assets of the Issuer.

**1. THE EU FINANCIAL TRANSACTIONS TAX**

On 14 February 2013, the European Commission issued proposals, including a draft Directive (the Commission's proposal), for a financial transaction tax ("FTT") to be adopted in certain participating EU member states (including Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia). However, Estonia has since stated that it will not participate. If the Commission's proposal was adopted, the FTT would be a tax primarily on "financial institutions" (which could include the Issuer) in relation to "financial transactions" (which would include the conclusion or modification of derivative contracts and the purchase and sale of financial instruments).

Under the Commission's proposal, the FTT could apply in certain circumstances to persons both within and outside of the participating member states. Generally, it would apply where at least one party is a financial institution, and at least one party is established in a participating member state. A financial institution may be, or be deemed to be, "established" in a participating member state in a broad range of circumstances, including (a) by transacting with a person established in a participating member state or (b) where the financial instrument which is subject to the financial transaction is issued in a participating member state.

The FTT may give rise to tax liabilities for the Issuer with respect to certain transactions if it is adopted based on the Commission's proposal. Examples of such transactions are the conclusion of a derivative contract in the context of the Issuer's hedging arrangements or the purchase or sale of securities (such as charged assets) or the exercise/settlement of a warrant. The Issuer is, in certain circumstances, able to pass on any such tax liabilities to holders of the Securities and therefore this may result in investors receiving less than expected in respect of the Securities. It should also be noted that the FTT could be payable in relation to relevant transactions by investors in respect of the Securities (including secondary market transactions) if conditions for a charge to arise are satisfied and the FTT is adopted based on the Commission's proposal. Primary market transactions referred to in Article 5(c) of Regulation EC No 1287/2006 are expected to be exempt. There is however some uncertainty in relation to the intended scope of this exemption for certain money market instruments and structured issues.

However, the FTT proposal remains subject to negotiation between participating member states. Additional EU member states may decide to participate and/or participating member states may decide to withdraw. It

may therefore be altered prior to the implementation, the timing of which remains unclear. Prospective holders of the Securities are advised to seek their own professional advice in relation to the FTT.

## **2. LUXEMBOURG TAXATION**

### **Withholding Tax**

#### **(a) Non-resident Holders of Securities**

Under Luxembourg general tax law currently in force there is no withholding tax on arm's length payments of principal, premium or non-profit participating interest made to non-resident Holders of Securities, nor on accrued but unpaid interest in respect of the Securities, nor is any Luxembourg withholding tax payable upon redemption, repurchase or exchange of the Securities held by non-resident Holders of Securities.

#### **(b) Resident Holders of Securities**

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005 mentioned below (as amended), there is no withholding tax on arm's length payments of principal, premium or non-profit participating interest made to Luxembourg resident Holders of Securities, nor on accrued but unpaid interest in respect of Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Securities held by Luxembourg resident Holders of Securities.

Under the law of 23 December 2005, as amended, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the benefit of an individual beneficial owner who is resident of Luxembourg will be subject to a withholding tax of 20 per cent. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Securities coming within the scope of the law of 23 December 2005, as amended would be subject to withholding tax of 20 per cent. Individuals beneficial owners resident in Luxembourg may opt for a final withholding of 20 per cent. on eligible interest income received from a paying agent established in an EU Member State or an EEA State (Iceland, Liechtenstein and Norway).

### **Taxes on Income and Capital Gains**

A holder of the Securities who derives income from such Securities or who realises a gain on the disposal or redemption thereof will not be subject to Luxembourg taxation on such income or capital gains unless:

- (a) such holder is, or is deemed to be, resident in Luxembourg for the purposes of the relevant provisions; or
- (b) such income or gain is attributable to an enterprise or part thereof which is carried on through a permanent establishment, a permanent representative or a fixed base of business in Luxembourg.

### **Net Wealth Tax**

Luxembourg net wealth tax will not be levied on the Securities unless:

- (a) the holder of Securities is a company resident in Luxembourg for the purpose of the relevant legal provisions, except under certain circumstances, if the holder of the Securities is governed by (i) the law of 17 December 2010 on undertakings for collective investment, as further amended, or (ii) the law of 22 March 2004 on securitisation or (iii) the law of 15 June 2004 on the investment company in risk capital or (iv) the law of 11 May 2007 on the *Société de Gestion de Patrimoine Familial* or

(v) Law of 13 February 2007 relating to specialised investment funds, as further amended, or (vi) the law of 23 July 2016 on reserved alternative investment funds; or

- (b) such Securities are attributable to an enterprise or part thereof which is carried on through a permanent establishment, a permanent representative or a fixed base of business in Luxembourg.

To note that companies governed by (i) the law of 22 March 2004 on securitisation vehicles, or (ii) the law of 15 June 2004 on the investment company in risk capital or (iii) the law of 23 July 2016 on reserved alternative investment fund which are established under the form of an investment company in risk capital, are subject to a minimum net wealth tax, the amount of which depends on the size and composition of the balance sheet (i.e. a fixed amount of EUR 4,815 for companies having a balance sheet total of at least EUR 350,000 and composed of at least 90% financial fixed assets or a progressive minimum net wealth tax ranging from EUR 535 to EUR 32,100, depending on the size of their balance sheet).

On 10 November 2023, the Luxembourg Constitutional Court ruled the minimum net wealth tax regime partly unconstitutional. The Luxembourg Constitutional Court ruled that pending legislative reform, taxpayers whose total balance sheet is comprised between EUR 350,000 and EUR 2,000,000 and who have aggregated fixed financial assets, transferable securities, inter-company receivables, and cash in excess of 90% of their total balance sheet be subject to the minimum net wealth tax of EUR 1,605 instead of EUR 4,815.

Individual holder of Securities, whether he/she is resident of Luxembourg or not, is not subject to Luxembourg net wealth tax on such Securities.

### **Inheritance and Gift Tax**

Where the Securities are transferred for no consideration, note in particular that:

- (a) no Luxembourg inheritance tax is levied on the transfer of the Securities upon death of a holder of the Securities in cases where the deceased holder was not a resident of Luxembourg for inheritance tax purposes; and
- (b) Luxembourg gift tax will be levied on the transfer of the Securities by way of a gift by the holder of the Securities, as applicable, if this gift is registered in Luxembourg.

### **Value Added Tax**

There is no Luxembourg value-added tax payable in respect of payments in consideration of the issue of the Securities or in respect of payments of interest or principal under the Securities or the transfer of the Securities, provided that Luxembourg value added tax may, however, be payable in respect of fees charged for certain services rendered to the Issuer, if such services are rendered, or are deemed to be rendered, in Luxembourg and an exemption from value added tax does not apply with respect to such services.

### **Other Taxes and Duties**

There is no Luxembourg registration tax, capital tax, stamp duty or any other similar tax or duty payable in Luxembourg in respect of or in connection with the issue of the Securities or in respect of the payment of principal or interest under the Securities or the transfer of the Securities. If any documents in respect of the Securities are registered in Luxembourg, they could be subject to registration duty.

### **Residence**

A holder of the Securities will not become resident, or deemed to be resident, in Luxembourg by reason only of the holding of such Securities or the execution, performance, delivery and/or enforcement of that or any other Securities.

## **3. FRENCH TAXATION**

**French tax implications for the French resident Noteholders or holders of Certificates constituting debt instruments for French tax purposes**

Once a French income tax resident has purchased Notes or applicable Certificates qualifying as debt instruments for French tax purposes, the French income tax consequences of the holding, conversion, and disposal of such Notes or Certificates, as the case may be, by such French tax resident Noteholder or Certificateholder would be as follows:

(i) **Tax consequences of the holding of Notes or applicable Certificates by a French tax resident Noteholder or Certificateholder**

(i) With respect to French individual tax residents

Interest and assimilated income paid by the Issuer of Notes or Certificates to a French individual tax resident Noteholder or Certificateholder:

- (1) would normally be subject to a flat tax at a global rate of 30 per cent., including French individual income tax at a flat rate of 12.8 per cent. and social contributions at an aggregate rate of 17.2 per cent. (excluding any exceptional contribution to income tax at a rate of up to 4% that may be assessed in respect of individuals with taxable income over €250,000); or
- (2) may be subject, upon election of the French individual tax resident Noteholder or Certificateholder, as the case may be, to the progressive rates of French individual income tax (with a maximum tax rate amounting to 45 per cent. excluding any exceptional contribution to income tax at a rate of up to 4% that may be assessed in respect of individuals with taxable income over €250,000). In addition, such interest and assimilated income would also be subject to social contributions amounting to 17.2 per cent.

Where the paying agent (*établissement payeur*) is established in France, pursuant to Article 125 A, I of the French *Code général des impôts*, and subject to certain exceptions, interest and other income received by individuals who are tax residents (*domiciliés fiscalement*) in France are subject to a 12.8 per cent. levy withheld at source, which is deductible from their personal income tax liability in respect of the year in which the payment has been made. Social contributions (CSG, CRDS and other related contributions) are also levied by way of withholding at an aggregate rate of 17.2 per cent. on such interest and other income received by individuals who are tax residents (*domiciliés fiscalement*) in France.

(ii) With respect to French corporate tax residents

Interest and assimilated income accruing on Notes or Certificates to a Noteholder or Certificateholder subject to French corporate income tax would be subject to (i) French corporate income tax at the ordinary rate of 25 per cent., and (ii) the 3.3 per cent. additional social contribution on French corporate income tax, if applicable.

(ii) **Tax consequences of the conversion of Notes or applicable Certificates by a French tax resident Noteholder or Certificateholder**

The conversion of Notes or applicable Certificates into newly issued instruments by a French individual or corporate tax resident Noteholder or Certificateholder would not have any French individual or corporate income tax consequences.

(iii) **Tax consequences of the disposal of Notes or applicable Certificates by a French tax resident Noteholder or Certificateholder**

(i) With respect to French individual tax residents

Any capital gain realised upon disposal of Notes or Certificates (or of shares resulting from the conversion of such Notes or Certificates) by a French individual tax resident Noteholder or Certificateholder, as the case may be (assuming that such capital gain would not be

attributable to an enterprise carried on by the French income tax resident subject to French individual income tax):

- (1) would be subject to a flat tax at a global rate of 30 per cent., including French individual income tax at a flat rate of 12.8 per cent. and social contributions at an aggregate flat rate of 17.2 per cent. (excluding any exceptional contribution to income tax at a rate of up to 4% that may be assessed in respect of individuals with taxable income over €250,000); or
  - (2) may be subject, upon election of the French individual tax resident Noteholder or Certificateholder, as the case may be, to the progressive rates of French individual income tax (with a maximum tax rate amounting to 45 per cent. excluding any exceptional contribution to income tax at a rate of up to 4% that may be assessed in respect of individuals with taxable income over €250,000). In addition, such capital gain would also be subject to social contributions amounting to 17.2 per cent.
- (ii) With respect to French corporate tax residents

Any capital gain realised upon disposal of Notes or Certificates (or of shares resulting from the conversion of such Notes or Certificates) by a Noteholder or Certificateholder subject to French corporate income tax, as the case may be, would normally be subject to:

- (1) French corporate income tax at the ordinary rate of 25 per cent; and
- (2) the 3.3 per cent. additional social contribution on French corporate income tax, if applicable.

Furthermore, any capital gain realised upon disposal of shares resulting from the conversion of such Notes or Certificates by a French corporate tax resident Noteholder or Certificateholder, as the case may be, could be exempt for 88 per cent. from French corporate income tax provided that the capital gain qualifies as a "long term capital gain realised upon disposal of participation shares", that is to say a capital gain realised upon disposal of shares (i) qualifying as "participation shares" and (ii) held for at least two years by the French corporate tax resident.

#### **Payments made by a French Guarantor (if applicable)**

There is no direct authority under French law on the withholding tax status of payments by a French Guarantor (if applicable) under the Guarantee. Hence, the statements below are based on the interpretation of general French tax principles and may be affected, potentially with retroactive effect, by future legislative, judicial or administrative developments.

In accordance with one interpretation of French tax law, payments made by a French Guarantor to a Noteholder or Certificateholder in respect of amounts due by the Issuer in respect of such Notes or Certificates may be treated as a payment *in lieu* of payments to be made by the Issuer in respect of the Notes or Certificates. Accordingly, under this interpretation payments made by a French Guarantor, of any amounts due by the Issuer under the Notes or Certificates, would not be subject to the interest withholding tax set out under Article 125 A, III of the French *Code général des impôts*, to the extent that interest payments made or to be made by the Issuer would not be subject to such withholding tax by reason of the Issuer not being resident of, or otherwise established in, France.

In accordance with another interpretation of French tax law, payments made by a French Guarantor to a Noteholder or Certificateholder may be treated as *sui generis* payments independent from the payments to be made by the Issuer under the Notes or Certificates. In the absence of any specific provision in Article 125 A, III of the French *Code général des impôts*, such payments would not be subject to such withholding tax.

Other interpretations, which may lead to a different treatment under French tax law, cannot be ruled out.

**French tax implications for the French resident Warrantholders or holders of Certificates not constituting debt instruments for French tax purposes**

(i) With respect to French individual tax residents

(1) Net profit realised in respect of Warrants or applicable Certificates on an occasional basis:

Net profit realised in respect of Warrants or Certificates (which do not constitute *obligations* under French law or *titres de créances négociables* for French tax purposes, or other debt instruments issued under French or foreign law and fiscally similar thereto) by a French individual tax resident Warrantholder or Certificateholder, as the case may be, (assuming that such payments would not be attributable to an enterprise carried on by the French income tax resident subject to French individual income tax) would be deemed as a capital gain and:

- (A) would be subject to a flat tax at a global rate of 30 per cent., including French individual income tax at a flat rate of 12.8 per cent. and social contributions at an aggregate rate of 17.2 per cent. (excluding any exceptional contribution to income tax at a rate of up to 4% that may be assessed in respect of individuals with taxable income over €250,000); or
- (B) may be subject, upon election of the French individual tax resident Noteholder or Certificateholder, as the case may be, to the progressive rates of French individual income tax (with a maximum tax rate amounting to 45 per cent. excluding any exceptional contribution to income tax at a rate of up to 4% that may be assessed in respect of individuals with taxable income over €250,000).

In addition, such net profit would also be subject to social contributions amounting to 17.2 per cent.

(2) Net profit realised in respect of Warrants or applicable Certificates on a regular basis:

Net profit realised in respect of Warrants or Certificates (which do not constitute *obligations* under French law or *titres de créances négociables* for French tax purposes, or other debt instruments issued under French or foreign law and fiscally similar thereto) by a French individual tax resident Warrantholder or Certificateholder, as the case may be, (assuming that such payments would not be attributable to an enterprise carried on by the French income tax resident subject to French individual income tax), would be subject to the progressive rates of French individual income tax (with a maximum tax rate amounting to 45 per cent. excluding any exceptional contribution to income tax at a rate of up to 4% that may be assessed in respect of individuals with taxable income over €250,000) if the French individual tax resident Warrantholder or Certificateholder, as applicable, invests on a regular basis.

In addition, such net profit would also be subject to social contributions amounting to 17.2 per cent.

(ii) With respect to French corporate tax residents

Net profit realised in respect of Warrants or Certificates (which do not constitute *obligations* under French law or *titres de créances négociables* for French tax purposes, or other debt instruments issued under French or foreign law and fiscally assimilated thereto) by a Warrantholder or Certificateholder subject to French corporate income tax would be subject to (i) French corporate income tax at the ordinary rate of 25 per cent and (ii) the 3.3 per cent. additional social contribution on French corporate income tax, if applicable.

#### **4. ITALIAN TAXATION**

The following is a general discussion of certain Italian tax consequences of the acquisition, holding and disposing of Securities. However, each series of Securities may be subject to a different tax treatment due to

the specific terms of such Series as set out in the respective Final Terms. The following summary, therefore, does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and does not consider any specific facts or circumstances that may apply to a particular investor.

This summary regarding taxation is based on the laws of Italy currently in force and as applied on the date of this Base Prospectus, which are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. Prospective Holders of Securities are advised to consult their own tax advisers concerning the overall tax consequences of their interest in the Securities.

In any case, Italian legal or tax concepts may not be identical to the concepts described by the same English term as they exist under the terms used in different jurisdictions and any legal or tax concept expressed by using the relevant Italian term shall prevail over the corresponding concept expressed in English terms.

### Pending Tax reform

Law No. 111 of 9 August 2023 published in the Italian Official Gazette No. 189 of 14 August 2023 ("**Law 111**"), delegates power to the Italian Government to enact, within twenty-four months from its publication, one or more legislative decrees implementing the reform of the Italian tax system ("**Tax Reform**"). According to Law 111, the Tax Reform may significantly change the taxation of financial incomes and capital gains and introduce various amendments in the Italian tax system at different levels, including in respect of inheritance and gift taxes. The precise nature, extent, and impact of these amendments cannot be quantified or foreseen with certainty at this stage. The information provided herein may not reflect the future tax landscape accurately.

### TAXATION OF NOTES

- (1) Payments of interest and other proceeds on the Notes are subject to different tax treatments based on whether the Notes, based on their specific characteristics as set out in the Final Terms, qualify as:
  - (a) bonds or securities similar to bonds; or
  - (b) atypical securities.

#### A.1 Notes qualifying as bonds or securities similar to bonds

Legislative Decree No. 239 of 1 April 1996, as amended (the "**Decree 239**"), regulates the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price, hereinafter collectively referred to as "**Interest**") from notes issued, inter alia, by non-Italian resident entities, falling within the category of bonds (*obbligazioni*) or securities similar to bonds (*titoli simili alle obbligazioni*).

For this purpose, securities similar to bonds are securities that incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value and that do not allow any direct or indirect participation to the management of the issuer.

#### *Resident Noteholders*

Where an Italian resident Noteholder who is the beneficial owner of the Notes is (i) an individual not engaged in a business activity to which the Notes are effectively connected, (ii) a partnership (other than a *società in nome collettivo* or *società in accomandita semplice* or similar partnership) or a de facto partnership not carrying out commercial activities or professional associations, (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate income taxation, Interest payments relating to the Notes are subject to a tax, referred to as *imposta sostitutiva* (either when the interest is paid by the Issuer, or when payment thereof is obtained by the Noteholder on a sale of the relevant Notes). The *imposta sostitutiva* may not be recovered by the Noteholder as a deduction from the income tax due.

The mentioned *imposta sostitutiva* is currently levied at a rate of 26 per cent.

In case the Notes are held by a Noteholder engaged in a business activity and are effectively connected with same business activity, the interest will be subject to the *imposta sostitutiva* and will be included in the relevant income tax return. As a consequence, the interest will be subject to the ordinary income tax and the *imposta sostitutiva* may be recovered as a deduction from the income tax due.

Subject to certain conditions (including minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity to which the Notes are connected or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including from substitute tax (*imposta sostitutiva*), on Interest on the Notes, if the Notes are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine - PIR*) that meets the requirements applicable from time to time as set forth by Italian law.

Pursuant to Decree 239, *imposta sostitutiva* is applied by banks, *società di intermediazione mobiliare* ("**SIMs**"), fiduciary companies, *società di gestione del risparmio* ("**SGRs**") stock exchange agents and other entities identified by the relevant Decrees of the Ministry of Finance (the "**Intermediaries**").

An Intermediary must (i) be resident in Italy or be a permanent establishment in Italy of a non-Italian resident financial intermediary and (ii) intervene, in any way, in the collection of Interest or in the transfer of the Notes. For the purpose of the application of the *imposta sostitutiva*, a transfer of Notes includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Notes or in a change of the Intermediary with which the Notes are deposited.

Where the Notes are deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying Interest to a Noteholder.

The *imposta sostitutiva* does not apply, inter alia, to the following subjects, to the extent that the Notes and the relevant Coupons are deposited in a timely manner, directly or indirectly, with an Intermediary:

- (a) Corporate Noteholders – Where an Italian resident Noteholder is a corporation or a similar commercial entity (including a permanent establishment in Italy of a foreign entity to which the Notes are effectively connected), interest accrued on the Notes must be included in: (i) the relevant Noteholder's yearly taxable income for corporate income tax purposes ("**IRES**"), applying at a rate equal to 24 per cent.; and (ii) in certain circumstances, depending on the "status" of the Noteholder, also in its net value of production for the purposes of regional tax on productive activities ("**IRAP**"). Such interest is therefore subject to general Italian corporate taxation according to the ordinary rules;
- (b) Investment funds – Italian investment funds (which includes *Fondo Comune d'Investimento*, SICAV or SICAF, the "**Investment Funds**") are not subject to income tax. A withholding tax, currently in the amount of 26 per cent., is levied in certain circumstances on distributions made by the Investment Fund in favour of certain categories of investors in the Investment Funds and it is applicable both on the proceeds distributed during the life of the fund, and on the amount due in case of closure or redemption of the funds (including in both cases the Interest on the Notes);
- (c) Pension funds – Pension funds (subject to the tax regime set forth by article 17 of the Legislative Decree No. 252 of 5 December 2005, the "**Pension Funds**") are subject to substitutive tax, currently levied at 20 per cent., on their annual net accrued result. Interest on the Notes is included in the calculation of said annual net accrued result. However, subject to certain conditions, Interest arising in respect of the Notes may be excluded from the taxable base of such substitutive tax if the Notes are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine - PIR*) that meets the requirements applicable from time to time as set forth by Italian law; and

- (d) Real estate investment funds or real estate SICAFs (a "**REIT**") – Italian REITs are not subject to any *imposta sostitutiva* at the fund level and any Interest accrued on Notes held by a REIT is not taxable in the hands of the same REIT. However a 26 per cent. withholding tax may be applied on distributions made by the REIT, directly on the investors depending on the nature of the relevant investor.

#### *Non-Resident Noteholders*

Interest payments relating to Notes received by non-resident beneficial owners (not having a permanent establishment in Italy to which the Notes are effectively connected) are generally not subject to tax in Italy.

#### **B. Notes qualifying as atypical securities**

Interest payments relating to Notes that are not deemed to fall within the category of bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) are subject to a withholding tax currently levied at the rate of 26 per cent. For this purpose, debentures similar to bonds are securities that incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value. The mentioned withholding tax applies to an Italian resident Noteholder which is: (i) an individual not engaged in a business activity to which the Notes are effectively connected; (ii) a non-commercial partnership; (iii) a non-commercial private or public institution; (iv) an investor exempt from Italian corporate income tax; (v) a Pension Fund; and (vi) a Fund.

Interest payments on Notes made to *Italian resident Noteholders* which are (i) companies or similar commercial entities (including a permanent establishment in Italy of a foreign entity to which the Notes are effectively connected), and (ii) commercial partnerships, are not subject to the aforementioned withholding tax, but the Interest shall also be included in their aggregate income subject to IRES. The withholding tax may be recovered as a deduction from the income tax due. In certain cases, such Interest may also be included in the taxable net value of production for IRAP purpose.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the withholding tax on interest, premium and other income relating to the Notes not falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*), if such Notes are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine - PIR*) that meets the requirements applicable from time to time as set forth by Italian law.

Interest payments relating to Notes received by *non-Italian resident Noteholders* (not having a permanent establishment in Italy to which the Notes are effectively connected) are generally not subject to withholding tax.

- (2) Capital gains arising from the sale or transfer of the Notes are subject to different tax regimes based on the residence status of their Holders.

#### *Resident Noteholders*

Pursuant to Legislative Decree No. 461 of 21 November 1997, as amended, a capital gains tax (the "**CGT**") is applicable to capital gains realised on any sale or transfer of the Notes for consideration or on redemption thereof by Italian resident individuals (not engaged in a business activity to which the Notes are effectively connected), regardless of whether the Notes are held outside of Italy. Said CGT currently applies at a rate of 26 per cent.

For the purposes of determining the taxable capital gain, any interest on the Notes accrued and unpaid up to the time of the purchase and the sale of the Notes must be deducted from the purchase price and the sale price, respectively.

Should the Notes qualify as atypical securities, the relevant capital gain realised upon sale or transfer of the same should in principle be subject to CGT, however, based on a very restrictive interpretation, the aforesaid capital gains could be subject to the above mentioned final CGT.

Taxpayers can opt for certain alternative regimes in order to pay the CGT.

Subject to certain limitations and requirements (including a minimum holding period), capital gains realized in respect of the Notes by Italian resident individuals holding them not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from taxation, if the Notes are included in a long-term applicable from time to time as set forth by Italian law.

In addition, please note the following:

- (a) Corporate investors (including banks and insurance companies): capital gains realised on the Notes by Italian resident corporate entities (including a permanent establishment in Italy of a foreign entity to which the Notes are effectively connected) form part of their aggregate income subject to IRES. In certain cases, capital gains may also be included in the taxable net value of production of such entities for IRAP purposes. The capital gains are calculated as the difference between the sale price and the relevant tax basis of the Notes. Upon fulfilment of certain conditions, the gains may be taxed in equal instalments over up to five fiscal years for IRES purposes.
- (b) Investment Funds – Capital gains realised by the Investment Funds on the Notes are currently subject to a 26 per cent. withholding tax levied by the managing company. Such withholding shall be levied on a distribution basis and no longer on an accrual basis and it is applicable both on the proceeds distributed during the life of the fund, and on the amount due in case of closure or redemption of the funds (including in both cases, any capital gains on the Notes).
- (c) Pension Funds – Capital gains realised by Pension Funds on the Notes contribute to determining the annual net accrued result of the same Pension Funds, which is subject to a 20 per cent. substitutive tax. However, subject to certain conditions, Interest arising in respect of the Notes may be excluded from the taxable base of such substitutive tax if the Notes are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine - PIR*) that meets the requirements applicable from time to time as set forth by Italian law.
- (d) REITs – Capital gains realised by Italian REITs on the Notes are generally not taxable at the level of the REIT. However, a 26 per cent. withholding tax may be applied on distributions made by the REIT, directly on the investors, depending on the nature of the relevant investor.

#### *Non-Resident Noteholders*

Capital gains realised by non-resident Noteholders (not having permanent establishment in Italy to which the Notes are effectively connected) on the Notes are generally not subject to tax in Italy.

## **TAXATION OF WARRANTS AND CERTIFICATES**

### **A. Securitised derivatives**

Warrants, Certificates and other securitised derivatives are subject to Article 67 of Presidential Decree No. 917 of 22 December 1986 and Legislative Decree No. 461 of 21 November 1997, as subsequently amended, where the Italian resident Warrantholder or Certificateholder is (i) an individual not engaged in an entrepreneurial activity to which the Securities are connected, (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate income taxation, capital gains realised upon sale or exercise of the Securities are subject to CGT currently levied at 26 per cent. The recipient may opt for three different taxation criteria:

- (a) Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for Italian resident individuals not engaged in an entrepreneurial activity to which the Securities are connected, the CGT will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Italian resident individual holding the Securities not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Securities carried out during any given tax year. Italian resident individuals holding the Securities not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay CGT on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.
- (b) As an alternative to the tax declaration regime, Italian resident individuals holding the Securities not in connection with an entrepreneurial activity may elect to pay the CGT separately on capital gains realised on each sale or redemption of the Securities (the "*risparmio amministrato*" regime). Such separate taxation of capital gains is allowed subject to: (i) the Securities being deposited with Italian banks, SIMs or certain authorised financial intermediaries; and (ii) an express election for the *risparmio amministrato* regime being timely made in writing by the relevant Warrantholder or Certificateholder. The depository is responsible for accounting for CGT in respect of capital gains realised on each sale or redemption of the Securities (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Warrantholder or Certificateholder or using funds provided by the Warrantholder or Certificateholder for this purpose. Under the *risparmio amministrato* regime, where a sale or redemption of the Securities results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the Warrantholder or Certificateholder is not required to declare the capital gains in the annual tax return.
- (c) Any capital gains realised by Italian resident individuals holding the Securities not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Securities, to an authorised intermediary and have opted for the so-called "*risparmio gestito*" regime will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a substitute tax, to be paid by the managing authorised intermediary. Said substitute tax is currently levied at 26 per cent. Under this *risparmio gestito* regime, any decrease in value of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the *risparmio gestito* regime, the Warrantholder or Certificateholder is not required to declare the capital gains realised in the annual tax return.

Where an Italian resident Warrantholder or Certificateholder is a company or similar commercial entity, or the Italian permanent establishment of a foreign commercial entity to which the Securities are effectively connected, income arising from the Warrants or Certificates will not be subject to CGT, but must be included in the relevant Warrantholder's or Certificateholder's income tax return and are therefore subject to Italian corporate tax.

Income realised by non-Italian resident Warrantholders or Certificateholders is not subject to Italian taxation, provided that the Warrants or Certificates are held outside of Italy.

Subject to certain limitations and requirements (including a minimum holding period), capital gains realized in respect of the Warrants or Certificates by Italian resident individuals holding them not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from taxation, including the 26 per cent. *imposta sostitutiva*, if the Warrants or Certificates are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine - PIR*) that meets the requirements applicable from time to time as set forth by Italian law.

## **B. Atypical securities**

Securities that cannot be qualified as securitised derivatives under Article 67 of Testo Unico Imposte sui Redditi (Presidential Decree No. 917 of 22 December 1986) and, under a different interpretation of current tax law, Securities could be considered as 'atypical' securities pursuant to Article 8 of Law Decree No. 512 of 30 September 1983 as implemented by Law No. 649 of 25 November 1983. In this event, payments relating to Securities may be subject to an Italian withholding tax currently levied at 26 per cent.

The mentioned withholding tax applies to Italian resident holders of the Securities which are: (i) an individual not engaged in a business activity to which the Securities are effectively connected; (ii) a non-commercial partnership; (iii) a non-commercial private or public institution; (iv) an investor exempt from Italian corporate income tax; (v) a Pension Fund; and (vi) an Investment Fund.

The withholding tax mentioned above does not apply to payments made to a non-Italian resident holder of the Securities and to an Italian resident holder of the Securities which is (i) a company or similar commercial entity (including the Italian permanent establishment of foreign entities), (ii) a commercial partnership, or (iii) a commercial private or public institution.

The withholding is levied by the Italian intermediary appointed by the Issuer, intervening in the collection of the relevant income or in the negotiation or repurchasing of the Securities.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the withholding tax at hand, if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine - PIR*) that meets the requirements applicable from time to time as set forth by Italian law.

## **PAYMENTS MADE BY A NON RESIDENT GUARANTOR (IF APPLICABLE)**

With respect to payments made to Italian resident holders of Securities by a non-Italian resident Guarantor (if applicable), in accordance with one interpretation of Italian tax law, any such payment made by the non-Italian resident Guarantor could be treated, in certain circumstances, as a payment made by the Issuer and would thus be subject to the tax regime described in the previous paragraphs.

## **STAMP DUTY**

Pursuant to Article 19(1) of Decree No. 201 of 6 December 2011 ("**Decree 201**"), a proportional stamp duty applies on an annual basis to the periodic reporting communications sent by Italian financial intermediaries to their clients for the Securities deposited therewith. The stamp duty currently applies at a rate of 0.20 per cent; this stamp duty is determined on the basis of the market value or – if no market value figure is available – the nominal value or redemption amount of the securities held. The stamp duty cannot currently exceed EUR 14,000 for non-individual holders of securities only.

Based on the interpretation of the law and the related implementing provisions, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 20 June 2012) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory.

## **WEALTH TAX ON SECURITIES DEPOSITED ABROAD**

Pursuant to Article 19(18) of Decree 201, Italian resident individuals, Italian non-commercial private or public institutions or Italian non-commercial partnerships holding the Securities outside Italian territory are required to pay a wealth tax at the current rate of 0.20 per cent. (or, starting from January 1, 2024, of 0.40% if the Securities are held in a country listed in the Italian Ministerial Decree dated 4 May 1999, pursuant to the provisions of Law No. 213/2023). For taxpayers other than individuals, this wealth tax cannot exceed Euro 14,000 per year.

This tax is calculated on the market value of the Securities at the end of the relevant year (or at the end of the relevant holding period) or, if no market value figure is available, on the nominal value or the redemption value of such financial assets held outside the Italian territory. Taxpayers are entitled to an Italian tax credit

equivalent to the amount of wealth taxes paid in the state where the financial assets are held (up to an amount equal to the Italian wealth tax due).

## TAX MONITORING

Pursuant to Law Decree No. 167 of 28 June 1990, converted by Law No. 227 of 4 August 1990, individuals resident in Italy, Italian non-commercial private or public institutions or Italian non-commercial partnerships who are the effective beneficial owners of foreign (i.e. non-Italian) investments or financial activities must, in certain circumstances, disclose the aforesaid and related transactions to the Italian tax authorities in their income tax return (or, in case the income tax return is not due, in a proper form that must be filed within the same time as prescribed for the income tax return).

## TRANSFER TAXES

Transfer of securities are subject to the registration tax as follows: (i) public deeds and notarised (atti pubblici e scritture private autenticate) deeds are subject to fixed registration tax at rate of EUR 200; (ii) private deeds (scritture private non autenticate) are subject to registration tax only if a case of use occurs or in case of voluntary registration.

## FINANCIAL TRANSACTION TAX

Pursuant to Article 1, para. 491 and followings of Law No. 228 of 24 December 2012, the Italian Parliament introduced a financial transaction tax ("**FTT**") which applies to (a) the transfer of ownership of shares and other participating securities issued by Italian resident companies or of financial instruments representing the just mentioned shares and/or participating securities (irrespective of whether issued by Italian resident issuers or not) (the "**Relevant Securities**"), (b) transactions on financial derivatives (i) the main underlying assets of which are the Relevant Securities, or (ii) whose value depends mainly on one or more Relevant Securities, as well as to (c) any transactions on the securities (as set forth by article 1, paragraph 1-bis, letters c) and d), of the Legislative Decree No. 58 of 24 February 1998) (iii) which allow to mainly purchase or sell one or more Relevant Securities or (iv) implying a cash payment determined with main reference to one or more Relevant Securities.

Warrants and certificates are expressly included in the scope of application of the FTT if they meet the requirements set out above.

With specific reference to the transactions on securitised derivatives on the Relevant Securities (such as the warrants) the FTT is due, as of 1 July 2013, regardless of the tax residence of the parties and/or where the transaction is executed.

The FTT is levied at a fixed amount that varies depending on the nature of the relevant instrument and the notional value of the transaction, and ranges between EUR 0.01875 and EUR 200 per transaction. The amount of FTT payable is reduced to 1/5 of the standard rate in case the transaction is performed on regulated markets or multilateral trading facilities of an EU Member States and of the SEE, included in the so-called white list currently set out in Italian Ministerial Decree 4 September 1996, as subsequently amended and supplemented from time to time pursuant to Article 11 of Decree 239.

In the case of physical settlement, the FTT is also due upon transfer of ownership rights of the underlying Relevant Securities.

The FTT on derivatives is due by each of the parties to the transactions. The FTT is not applied where one of the parties to the transaction is the European Union, the BCE, central banks of the EU Member States, foreign Central Banks or entities which manage the official reserves of a foreign State, or international bodies or entities set up in accordance with international agreements which have entered into force in Italy. Further specific exemptions exist, inter alia, for (i) subjects who carry on market making activities; (ii) mandatory social security entities and pension funds set up according to Legislative Decree No. 252 of 5 December 2005; and (iii) intragroup transfers of the Relevant Securities.

The FTT shall be levied, and subsequently paid, to the Italian Revenue by the subject (generally a financial intermediary) that is involved, in any way, in the performance of the transaction. If more than one subject is involved in the execution of the transaction, the FTT is payable by the subject who receives the order of

execution by the ultimate purchaser or counterparty. Intermediaries that are not resident in Italy but are liable to collect the FTT from the taxpayers and to pay it to the Italian Revenue can appoint an Italian tax representative for the purposes of the FTT. If no intermediary is involved in the performance of the transaction, the FTT must be paid directly by the taxpayers.

Prospective Holders of Warrants and Certificates are advised to consult their own tax advisers.

## INHERITANCE AND GIFT TAXES

Pursuant to Law Decree No. 262 of 3 October 2006, ("**Decree No. 262**"), converted into Law No. 286 of 24 November, 2006, the transfers of any valuable asset (including shares, bonds or other securities) as a result of death or donation are taxed as follows:

- (a) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent. on the value of the inheritance or the gift exceeding EUR1,000,000;
- (b) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree, are subject to an inheritance and gift tax applied at a rate of 6 per cent. on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent. inheritance and gift tax on the value of the inheritance or the gift exceeding EUR100,000; and
- (c) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or the gift.

If the transfer is made in favour of persons with severe disabilities, the tax applies on the value of the entire inheritance or gift exceeding EUR1,500,000.00 for each beneficiary.

Inheritance and gift tax do not apply in case the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine - PIR*) that meets all the requirements applicable from time to time as set forth by Italian laws in force.

## 5. BELGIAN TAXATION

*Prospective Holders of securities are advised to consult their own advisors as to the tax consequences of the purchase, ownership and disposal of securities, including the effect of any taxes under Belgian law. The present overview is only general information, which is not intended to deal with specific aspects of an investment in Notes, Certificates and/or Warrants. Potential investors are recommended to consult their tax advisor on the basis of their own particular situation.*

### *Belgian income taxes*

#### *A. Notes*

The following summary describes the principal Belgian tax considerations with respect to the holding of Notes obtained by an investor in Belgium.

This information is of a general nature and does not purport to be a comprehensive description of all Belgian tax considerations that may be relevant to a decision to acquire, to hold and to dispose of the Notes. In some cases, different rules can be applicable. Furthermore, the tax rules can be amended in the future, possibly implemented with retroactive effect, and the interpretation of the tax rules may change.

#### *Belgian resident individual private investors*

The following tax treatment applies to individual Belgian residents, subject to Belgian personal income tax (*Personenbelasting/Impôt des personnes physiques*). Other rules can however apply in special situations: when Notes are linked to the private investor's professional activity or when the taxpayer's transactions with respect to the Notes fall outside the scope of the normal management of their private estate.

Generally speaking, any amount paid by the Issuer in excess of the issuance price of the Notes at the maturity date or at early redemption, is taxable as interest.

Payments of interest on the Notes made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium. However, if the interest is paid outside Belgium without the intervention of a Belgian paying agent, the interest received (after deduction of any foreign withholding tax) has to be declared in the personal income tax return and will be taxed at the rate of 30 per cent.

In the viewpoint of the Belgian tax administration, structured notes always qualify as "fixed income securities" (Circular letter of 25 January 2013, AAFisc 3/2013). However, please be aware that depending on the characteristics, arguments are available to challenge this viewpoint of the Belgian tax administration; e.g. where the noteholder does not have any guarantee that the principal will be recovered and is not entitled to a guaranteed return either (this may e.g. be the case with unit, fund etc. linked notes if both the amount of principal and interest payable are dependent on the price or changes in the price of units or shares in a fund), it is arguable that such notes do not qualify as fixed income securities. A similar viewpoint has been adopted by the Belgium ruling committee in a particular case (decision 2015.632 of 3 May 2016).

If the Notes qualify as fixed income securities in the meaning of article 2, § 1, 8° Belgian Income Tax Code, the interest income of the notes is taxable in the hands of each successive noteholder based upon the duration that they have been holding the notes. This implies that the noteholders cannot avoid taxation by selling the note before maturity or before redemption by the issuer. According to the tax administration, the taxable event arises at the moment of sale if the noteholder transfers the note to someone other than the issuer. At this moment in time, no withholding tax is due, but the investor will have the duty to report his portion in the accrued interest in his personal income tax return (Circular letter of 25 January 2013, n° 12, 14). However, the viewpoint of the tax administration is criticized by the majority of the commentators and it has already been overruled in a decision of the Court of Antwerp (decision of 12 March 2002). According to the majority of the authors and the Court of Antwerp, the taxable event can only occur when the note is reimbursed to the final noteholder by the issuer. Before that moment in time, there is no certainty whether there actually is a taxable movable income.

Capital gains realised on the sale of the Notes, except for the *pro rata* of accrued interest in the case of fixed income securities, are in principle tax exempt. The capital gains will however incur taxation at 33 per cent. (to be increased with communal surcharges) if they are realised in a way which exceeds "the normal management of one's private estate". This may e.g. be the case if the investment in the Notes was made with borrowed funds.

If the Notes are repurchased (whether or not on the maturity date) by the Issuer, the capital gain is taxable as interest at the rate of 30 per cent. This taxation also applies if the Notes do not qualify as "fixed income securities".

Taxation at progressive tax rates of income and capital gains will occur if the Notes are held by the investor as assets of its professional activity, or if the trading of financial instruments is to be considered as a professional activity itself.

#### Tax treatment in the hands of Belgian corporations

Corporate Noteholders who are subject to Belgian Corporate Income Tax (*Vennootschapsbelasting/Impôt des sociétés*) and who do not qualify for a special corporate tax regime (which e.g. applies to Sicavs, pension funds etc.) are subject to the following tax treatment with respect to the Notes.

Interest or other income derived/recorded by Belgian corporate investors on the Notes and capital gains on the Notes will be subject to Belgian corporate income tax of 25 per cent. (with a reduced rate of 20 per cent, applying to the first tranche of EUR 100,000 of taxable income of qualifying small companies). Realised capital losses are in principle deductible. Moreover, the tax deductibility of unrealised capital losses can be argued provided that the noteholder (i) does not have any guarantee that the invested amount will be recovered, and (ii) does not have any guaranteed return either (this situation may e.g. occur with unit, fund etc. linked notes if both the amount of principal and interest payable are dependent on the price or changes in the price of units or shares in a fund). If the income has been subject to a foreign withholding tax, a foreign tax credit might be applicable on the Belgian tax due (under strict conditions and limitations).

Interest payments to a Belgian company made through a paying agent in Belgium may qualify for exemption from withholding tax provided the note qualifies as similar to a bond loan and provided a certificate is delivered (articles 108 and 117, § 12 R.D./I.T.C.). For zero or capitalisation bonds, an exemption will only apply if the Belgian company and the Issuer are associated companies within the meaning of article 105, 6° of the Royal Decree of 27 August 1993 implementing the Belgian Income Tax Code of 1992. If Belgian withholding tax would nonetheless be levied, such withholding tax can generally speaking be credited against the corporate income tax due and the excess is reimbursable provided the legal requirements are met.

#### Other legal entities

Legal entities who are Belgian residents for tax purposes and who are subject to Belgian tax on legal entities (*Rechtspersonenbelasting/impôt des personnes morales*) are subject to the following tax treatment with respect to the Notes.

Any amount paid by the Issuer in excess of the issuance price of the Notes at the maturity day or subsequent to early redemption is taxable as interest.

Payments of interest on the Notes made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium and no further tax on legal entities will be due on the interest. If the interest is paid outside Belgium without the intervention of a Belgian paying agent and without the application of Belgian withholding tax, the legal entity itself is responsible for the payment of 30 per cent. withholding tax.

If the Notes qualify as fixed income securities in the meaning of article 2, § 1, 8° I.T.C., Belgian legal entities are taxable on the *pro rata* of accrued interest corresponding to the detention period in case of a realisation of the Notes between two interest payment dates or before maturity / reimbursement by the issuer.

Capital gains realised on the sale of the Notes are in principle tax exempt, unless the Notes are repurchased by the Issuer (in which case the capital gain is taxable as interest) and except for the *pro rata* of accrued interest in the case of fixed income securities, which is subject to Belgian withholding tax (30 per cent.), whereby the latter is due by the legal entity itself on the basis of article 262, 4° I.T.C.

#### Special tax regimes

Under Belgian tax law, a number of entities such as qualifying pension funds and qualifying investment companies enjoy a special tax regime, whereby income out of investments (such as interest income and capital gains) is not taken into account for determining the taxable basis.

#### Non-resident investors

The interest income on the Notes paid through a Belgian intermediary will in principle be subject to a 30 per cent. withholding tax subject to such relief as may be available under applicable domestic and tax treaty provisions. However, an exemption is available under Belgian domestic provisions in case of payment of interest on the Notes through a (financial) intermediary established in Belgium, provided that such (financial) intermediary qualifies as a recognized credit institution, exchange company or clearing or settlement institution and pays the interest to non-resident beneficial owners directly, on the condition that such non-resident beneficial owner certifies that he or she (i) is a non-resident for Belgian income tax purposes, (ii) has not held the Notes as part of a taxable business activity in Belgium, and (iii) is the legal owner, or holds the usufruct of the Notes (art 230, 2°, b) ITC/92).

Moreover, the following exemptions apply in particular circumstances:

- i) An exemption is available under Belgian domestic provisions in case of payment of interest on the Notes through a (financial) intermediary established in Belgium, provided that such (financial) intermediary qualifies as a recognized credit institution, stock exchange company or clearing or settlement institution and pays the interest to certain qualifying credit institutions, financial intermediaries, clearing and settlement institutions or portfolio management companies established outside of Belgium, referred to in Article 261, par. 4 ITC/92).

- ii) A second exemption is available under Belgian domestic provisions in case of payment of interest on the Notes through a (financial) intermediary established in Belgium, provided that such (financial) intermediary qualifies as a recognized credit institution, stock exchange company or clearing or settlement institution and pays the interest to non-qualifying intermediaries, on the condition that such non-qualifying intermediary certifies that the beneficial owners (i) are non-residents for Belgian income tax purposes, (ii) have not held the Notes as part of a taxable business activity in Belgium, and (iii) are the legal owners, or hold the usufruct of the Notes (art 264bis ITC/92).
- iii) Depending on facts and circumstances, specific exemptions may apply on the basis of the Royal Decree implementing the Income Tax Code.

The non-residents companies or professionals who use the debt instruments to exercise a professional activity in Belgium through a permanent establishment are subject to the same tax rules as the Belgian resident companies or Belgian professionals.

### ***B. Warrants***

The following summary describes the principal Belgian withholding tax considerations with respect to the holding of Warrants obtained by an investor following this offer in Belgium.

This information is of a general nature and does not purport to be a comprehensive description of all Belgian tax considerations that may be relevant to a decision to acquire, to hold and to dispose of the Warrants. In some cases, different rules can be applicable. Furthermore, the tax rules can be amended in the future, possibly implemented with retroactive effect, and the interpretation of the tax rules may change.

#### *Belgian resident individual investor*

The following tax treatment applies to individual Belgian residents, subject to Belgian personal income tax (*Personenbelasting/Impôt des personnes physiques*). Other rules can however apply in special situations, e.g. when Warrants are linked to the private investor's professional activity (professional estate).

There are no income taxes due on the surplus values obtained by the Warrantholder through the sale of Warrants or the Exercise of Warrants, provided (i) the Warrants or assets qualify as portfolio values, and (ii) the surplus values were made within the normal management of the investor's estate (as set forth in article 90, 1° Belgian Income Tax Code).

If one or both of the conditions mentioned in i) and ii) are not met, the situation is the following i) surplus values on a sale of warrants are taxable at the rate of 33 per cent. (to be increased with communal surcharges) and ii) surplus values on the exercise of a warrant may be taxable (e.g. in the case of a put warrant) at the rate of 33 per cent. (to be increased with communal surcharges).

The tax aspects regarding the holding or sale of assets acquired through the exercise of Warrants depend on the nature of those assets.

#### *Tax treatment in the hands of Belgian corporations*

The surplus values (and all other income) obtained by the Warrantholders through the sale of the Warrants are subject to corporate income tax at a 25 per cent tax rate (with a reduced rate of 20 per cent, applying to the first tranche of EUR 100,000 of taxable income of qualifying small companies). The losses on the warrants are in principle tax deductible. If the income has been subject to a foreign withholding tax, a foreign tax credit might be applicable on the Belgian tax due (subject to strict conditions and limitations).

The premium paid by the Call Warrant-holder is recorded on the balance sheet of the corporate investor. If the investor acquires shares subsequent to the exercise of a Warrant, the Warrant premium is added to the strike price for determining the value of the acquired shares.

The tax implications of i) surplus values obtained by the Warrantholders subsequent to the sale of assets which were acquired through the exercise of a call Warrant and ii) surplus values subsequent to the exercise of a put warrant, depend on the nature of the asset.

#### Other legal entities

Legal entities who are Belgian residents for tax purposes and who are subject to Belgian tax on legal entities (*Rechtspersonenbelasting/impôt des personnes morales*) are not taxed on the surplus values obtained through the sale of the Warrants or the exercise of the Warrants.

The tax aspects regarding the holding or sale of assets acquired through the exercise of Warrants depend on the nature of those assets.

#### Important note

Depending on facts and circumstances (e.g. in situations where a Warrant is cash settled), a Warrant may trigger taxable interest should the Warrant itself be (re-)characterized as some kind of a receivable. In such case, the Warrantholder may be taxed on any income derived from the Warrant according to the rules applicable to Notes.

Such (re-)characterization has in particular important fiscal consequences in the hands of a Belgian resident individual shareholder and in the hands of "other legal entities", as it may imply that any income derived from the Warrant is taxable as interest at the rate of 30 per cent.

### **C. Certificates**

The following summary describes the principal Belgian tax considerations with respect to the holding of Certificates obtained by an investor following this offer in Belgium.

This information is of a general nature and does not purport to be a comprehensive description of all Belgian tax considerations that may be relevant to a decision to acquire, to hold and to dispose of the Certificates. Moreover, the Belgian tax regime described below only applies if the Certificates can be regarded to qualify as claim rights for Belgian tax purposes. Depending on the specific characteristics of the certificate, different rules may apply. Furthermore, the tax rules can be amended in the future, possibly implemented with retroactive effect, and the interpretation of the tax rules may change.

This summary does not describe the tax consequences for a holder of Certificates that are redeemable in exchange for, or convertible into shares, of the exercise, settlement or redemption of such Certificates and/or any tax consequences after the moment of exercise, settlement or redemption. Each prospective holder of Certificates should consult a professional adviser with respect to the tax consequences of an investment in the Certificates, taking into account the influence of any applicable rules.

#### Belgian resident individual investor

Individuals who are Certificate holders and who are Belgian residents for tax purposes, i.e. who are subject to Belgian personal income tax ("*personenbelasting*"; "*impôt des personnes physiques*"), are subject to the following tax treatment with respect to the Certificates in Belgium.

Other rules may be applicable in special situations, in particular when individuals resident in Belgium acquire the Certificates for professional purposes or when their transactions with respect to the Certificates fall outside the scope of the normal management of their own private estate, or should the Certificates not qualify as "portfolio values".

Payments of interest on the Certificates made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium (calculated on the interest received after deduction of any non-Belgian withholding taxes). For Belgian tax purposes, interest includes any amount paid by the Issuer in excess of the issuance price of the Certificates (e.g. at the redemption date or at early redemption). When withholding tax was applied, the Belgian resident investor no longer has the duty to report the interest in his personal income tax return. If the Certificates qualify as fixed income securities in the meaning of article 2,

§ 1, 8° Belgian Income Tax Code (see above Section on "Notes"), the interest income of the Certificates is taxable in the hands of each successive noteholder based upon the duration that they have been holding the notes.

Capital gains realised on the sale of the Certificates to a Party other than the Issuer, except in respect of that part of the sale price attributable to the pro rata interest component, are in principle tax exempt, provided that i) the Certificates qualify as "portfolio values", and ii) the capital gain results from a normal management of one's private estate. Capital losses on the Certificates are generally not tax deductible.

#### Tax treatment in the hands of Belgian corporations

Corporations or legal entities subject to Belgian corporate tax and who qualify as Belgian residents for tax purposes are subject to the following tax treatment with respect to the Certificates in Belgium.

Interest (and all other income) received by Belgian corporate investors on the Certificates and capital gains realised on the Certificates will be subject to Belgian corporate income tax of 25 per cent. (with a reduced rate of 20 per cent, applying to the first tranche of EUR 100,000 of taxable income of qualifying small companies). Realised capital losses are in principle deductible. Interest payments on the Certificates made through a paying agent in Belgium may under certain circumstances qualify for exemption from withholding tax. The withholding tax that has been levied is creditable in accordance with the legal provisions. If the income has been subject to a foreign withholding tax, a foreign tax credit might be applicable on the Belgian tax due (subject to strict conditions and limitations).

#### Other legal entities

Non-corporate legal entities who are Belgian residents for tax purposes and who are subject to Belgian tax on legal entities ("Rechtspersonenbelasting/impôt des personnes morales") are subject to the following tax treatment with respect to the Certificates in Belgium.

Payments of interest on the Certificates made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium and no further tax on legal entities will be due on the interest.

However, if the interest is paid outside Belgium without the intervention of a Belgian paying agent and without the deduction of Belgian withholding tax, the legal entity itself is responsible for the deduction and payment of the 30 per cent. withholding tax.

Capital gains realised on the sale of the Certificates to a party other than the Issuer, except in respect of that part of the sale price attributable to the pro rata interest component, are in principle tax exempt.

Capital losses on the Certificates are generally not tax deductible.

#### ***Tax on Stock Exchange Transactions***

The sale and purchase of Notes on the secondary market through a professional Belgian intermediary are subject to 0.12 per cent. tax on stock exchange transactions. This tax applies to both the acquisition and the sale of the Notes. It is capped at € 1,300 per transaction and per party.

However, with respect to notes for which it is questionable that they can be regarded as "bonds" for the application of Belgian tax law, e.g. if the Noteholder does not have any guarantee that the principal will be recovered (this may e.g. be the case with fund etc. linked notes), such notes may not qualify for the 0.12 per cent. rate and may fall under the scope of the 0.35 per cent. rate (capped at €1,600 per transaction and per party).

The sale and purchase on the secondary market of Warrants through a professional intermediary is subject to a 0.35 per cent. tax on stock exchange transactions on the price, capped at € 1,600 per transaction and per party.

The sale and purchase on the secondary market of Certificates through a professional Belgian intermediary will be either subject to tax on stock exchange transactions at the rate of 0.35 per cent. (capped at € 1,600) or 0.12 per cent. (capped at € 1,300) depending on the characteristics of the certificate.

Since 1 January 2017, transactions concluded by Belgian resident individuals and Belgian resident companies or legal entities also trigger Belgian stock exchange tax if no Belgian intermediary intervened in the transaction (e.g. transactions on foreign securities account(s)). If the Belgian stock exchange tax is not reported and paid to the Belgian tax authorities by or on behalf of the foreign intermediary, the Belgian investor has the duty to report and pay the tax himself.

The acquisition of Notes or Warrants pursuant to their issuance is not subject to the tax.

Transactions carried out by a number of investors for their own account are exempt:

- intermediaries as mentioned in article 2, 9° and 10° of the Law of 2 August, 2002 on the supervision of the financial sector and financial services;
- insurance companies as mentioned in article 2, §1 of the Law of 9 July 1975 on the supervision of insurance companies;
- pension funds (*instellingen voor bedrijfspensioenvoorziening / institutions de retraite professionnelle*) as mentioned in article 2, 1° of the Act of 27 October 2006 on the supervision of pension funds;
- UCITS; and
- non-residents (subject to an affidavit of non-residency).

#### ***Tax on securities accounts***

On 17 February 2021, the Belgian legislator introduced (a renewed version of) an annual tax on securities accounts ("**TSA**").

Securities accounts, held through a financial intermediary (national banks, credit institutions, but also central securities depositories like Euroclear, etc.), will a priori be subject to the new TSA if they are held by (i) Belgian resident individuals, Belgian companies, Belgian branches of non-resident taxpayers and other Belgium-based legal entities, irrespective of where the intermediary is established and (ii) non-resident individuals, non-resident companies and other non-resident legal entities if they hold a securities account with a Belgium-based intermediary. As far as non-residents are concerned, levying of the tax could be avoided depending on the terms of the applicable double tax convention concluded between their residence State and Belgium. As far as Belgium based individuals and Belgium based legal entities (other than companies) are concerned, the tax also applies to securities accounts held through "legal constructions" falling under the scope of the Cayman Tax (see below).

The tax base of the new TSA will be equal to the average value of qualifying financial instruments (a notion which is defined in a very large way, and which might also include the Notes, Warrants and Certificates) held on the securities account, provided, however, that said average value exceeds EUR 1,000,000. The tax rate of the TSA is equal to 0.15% and, where applicable, the amount of the tax shall be limited to 10% of the difference between the tax base and EUR 1,000,000.

Securities accounts held by the following financial entities will, amongst others, not be subject to the tax provided they are held for their own account (i.e. without a third party having a direct or indirect claim over the value of the account) by: (i) credit institutions, (ii) investment firms, (iii) AIF managers, (iv) UCITS managers, (v) insurance companies, (vi) reinsurance companies, (vii) pensions funds, (viii) alternative investment funds (AIF) with the exception of certain private compartments, (ix) undertakings for collective investment in securities (UCITS) with the exception of certain private compartments, (xi) central counterparties (xii) central securities depositories, (xiii) national banks and the ECB and (xiv) stock broking firms.

On October 27, 2022, the Belgian Constitutional Court delivered a judgment on the constitutionality of the annual tax on securities accounts introduced by the Act of February 17, 2021. Several objections had been

raised concerning certain constitutional principles, for example regarding the principle of equal treatment (non-discrimination), the fiscal legality principle, the prohibition of double taxation (ne bis in idem principle) and some aspects of European law. A total of 7 separate annulment appeals had been filed. The Court only decided to annul the specific anti-abuse provisions regarding the splitting of a securities account into several securities accounts held with the same financial intermediary and regarding the conversion of financial instruments held in a securities account into registered financial instruments.

In addition, the Court also ruled that the retroactive effect of the general anti-abuse provision regarding the period prior to the entry into force of the law, i.e., from 30 October 2020 to 26 February 2021, was not permissible and should therefore be annulled.

Given the Court's decision, all other provisions of the annual tax on securities accounts remain legally valid.

Prospective Holders of Securities are advised to seek their own professional advice in relation to the Tax on Securities Accounts.

### ***Tax on the physical delivery of bearer securities***

Since Belgian legislation provides a ban on the physical delivery of bearer securities since January 1<sup>st</sup> 2008 (article 4 of the Act of 14 December 2005), the tax of 0.6 per cent. on the physical delivery of bearer securities in Belgium will not be applicable.

### ***Gift tax and inheritance tax***

Belgian tax legislation provides both gift tax and inheritance tax.

The rates vary depending on the Region in which the donator or the deceased has/had his residence (Brussels Region, Flemish Region, Walloon Region).

### ***Cayman Tax***

In August 2015, the Belgian government has enacted new legislation regarding the taxation of foreign private wealth structures. This legislation, commonly referred to as the "Cayman Tax", aims to introduce a tax transparent treatment of income generated through these structures as of 1 January 2015.

The following information with respect to this "Cayman tax" is of a general nature and does not purport to be a comprehensive description of all Belgian Cayman tax considerations that may be relevant to a decision to acquire, to hold and to dispose of the Notes, Warrants and Certificates. Furthermore, the tax rules can be amended in the future, possibly implemented with retroactive effect, and the interpretation of the tax rules may change.

Moreover, both the original Act regarding the Cayman Tax of 10 August 2015 and the original Royal Decrees of 18 December 2015, as well as all consecutive amendments, are complex and many interpretational issues are still open.

The targeted foreign private wealth structures are referred to as "legal constructions". Three types of legal constructions exist:

- "legal relationships/arrangements" (type 1), which basically relates to Anglo-Saxon trusts, fiduciary contracts and similar structures on one hand, and;
- qualifying "legal entities" (type 2) on the other hand, which relates to low taxed companies, associations, foundations or other entities with legal personality; and
- certain qualifying (insurance) contracts (type 3).

If a certain arrangement would qualify as a "legal construction", the income received by the legal construction would *a priori* be deemed to be received by the "founder(s)" of the legal construction (or by so-called "third

party beneficiaries"), if these persons would be considered residents for Belgian income tax purposes ("tax transparency").

In addition, the Belgian resident "founders" (individuals and Belgian legal entities subject to the tax regime for non-profit legal entities) have the duty to report in their personal income tax return that they have entitlements towards a legal construction, irrespective of whether they have actually received any benefit. Penalties (up to 6,250 Euros) may be applied if the reporting duty has not been complied with.

With respect to certain relationships (e.g. trust-like or fiduciary relationships), it cannot be excluded that they would be considered to fall within the scope of the very broad definition of "legal construction type 1". A "legal construction type 1" is defined as a "legal relationship or arrangement created by an act of the founder or by a court order, by which assets are placed under the control of a trustee in order to be administered in the interest of one or more beneficiaries or to a certain purpose" (free translation).

The law further provides that, in order to be considered a "legal construction type 1", the legal relationship or arrangement has to dispose of the following characteristics (free translation):

- "the property title to the assets or to the entitlements from the "legal construction" has to be drafted in the name of the trustee or in the name of another person on behalf of the trustee;
- the assets of the "legal construction" have to form a separate estate and cannot be part of the estate of the trustee;
- the trustee has to have the authority and the duty, in respect of which he is accountable, to manage, administer or dispose of the goods in accordance with the provisions of the "legal construction".

Application of the Cayman tax would imply that the income relating to the instrument would be taxed directly in the hands of the person who constituted the legal construction or who has made contributions to the legal construction. The "founder" will have to report the legal construction in his tax return. Penalties (up to 6,250 Euros) may be applied if the reporting duty has not been complied with.

It should be emphasized that, given the many interpretational problems of the recent regime, prospective Holders of Securities are advised to consult their own advisors as to the Cayman tax (and the reporting duty) consequences with respect to their holding – given the involvement of the Trustee - of the Notes, Warrants and Certificates.

## **6. SPANISH TAXATION**

*The following discussion is of a general nature and is included herein solely for information purposes. It is based on the laws presently in force in Spain, though it is not intended to be, nor should it be construed to be, legal or tax advice. This section does not constitute a complete description of all the tax issues that may be relevant in making the decision to invest in the Securities or of all the tax consequences that may derive from the subscription, acquisition, holding, transfer, redemption or reimbursement of the Securities and does not purport to describe the tax consequences applicable to categories of investors subject to special tax rules. Prospective investors in the Securities should therefore consult their own professional advisers as to the effects of state, regional or local law in Spain, to which they may be subject.*

### **1. Spanish resident individuals**

#### **1.1 Notes and Certificates**

##### *Personal Income Tax*

Personal income tax is levied on an annual basis on the worldwide income obtained by Spanish resident individuals, whatever the source is and wherever the relevant payer is established. Therefore any income that Spanish holders of the Notes and Certificates may receive under the Notes and Certificates will be subject to Spanish taxation.

Both interest periodically received and income arising on the disposal, redemption or reimbursement of the Notes and Certificates obtained by individuals who are tax resident in Spain will be regarded as financial income for tax purposes (i.e. a return on investment derived from the assignment of own capital to third parties), regardless of whether is in kind or in cash, pursuant to Article 25 of Personal Income Tax Law 35/2006, of November 28.

Spanish holders of the Notes and Certificates shall compute the gross income obtained in the so called savings income tax base (*renta del ahorro*) of the tax period in which it is due, including amounts withheld, if any.

Income arising on the disposal, redemption or reimbursement of the Notes and Certificates will be calculated as the difference between: (a) their disposal, redemption or reimbursement value; and (b) their acquisition or subscription value. Costs and expenses effectively borne by the holder on the acquisition and transfer of the Notes and Certificates may be taken into account for calculating the relevant taxable income, provided that they can be duly justified. Likewise, expenses relating to the management and deposit of the Notes and Certificates, if any, will be tax-deductible, excluding those pertaining to discretionary or individual portfolio management.

The savings income tax base is subject to personal income tax at the following tax rates: 19% on the first €6,000, 21% on the amount exceeding €6,000 up to €50,000, 23% on the amount exceeding €50,000 up to €200,000, 27% on the amount exceeding €200,000 up to €300,000 and 28% on the amount exceeding €300,000.

Losses that may derive from the transfer of the Notes and Certificates cannot be offset if the investor acquires homogeneous securities within the two-month period prior or subsequent to the transfer of the Notes and Certificates, until the investor transfers such homogeneous securities.

Additionally, tax credits to prevent international double taxation may apply in respect of taxes paid outside Spain on income deriving from the Notes and Certificates, if any.

#### *Wealth Tax / Solidarity Tax*

Spanish Law 11/2020, of 30 December, approving the State Budget for 2021 has permanently re-established Spanish Wealth Tax with effect from tax period 2021<sup>151</sup>. Spanish tax resident individuals are subject to an annual Wealth Tax on the net worth of their individual's assets and rights, regardless of where they are located, to the extent that their net worth exceeds €700,000 (it being noted that a different tax exempt amount may be approved by the relevant Spanish Autonomous Region). Therefore, Spanish holders of the Notes and Certificates must take into account the value of the Notes and Certificates which they hold as at 31 December each year when calculating their Wealth Tax liabilities.

The marginal rates range between 0.2% and 3.5% and some reductions could apply. However, Spanish tax resident holders should take into account the specific tax regulations approved by their respective Spanish Autonomous Region, as some of them provide a partial or full relief for Wealth Tax.

In addition to the above, note that the so-called "Solidarity Tax" was approved in December 2022, which was initially a two-year direct wealth tax that, in general terms, applies, under certain conditions, to those residents in an autonomous region where the Wealth Tax is partial or fully exempt (as Madrid and Andalusia). The Solidarity Tax has been extended indefinitely, until the wealth taxation is revised within the framework of an eventual reform of the regional funding system. This Solidarity Tax is a State tax that is not collected or regulated by the Autonomous Regions, with the exceptions of the Basque Country and Navarra, who are excluded from the application of the State Solidarity Tax and apply this tax in virtue of the Economic Agreements held by these regions. In this regard, the Basque Country approved the application of the Solidarity Tax in its territory in December 2023, with effects in 2023, whereas in Navarra it has been introduced as an additional tax bracket within the Wealth Tax, imposing a 3.5% levy on net wealth exceeding €11.003.784,50.

The rates of the "Solidarity Tax" are (i) 1.7% on a net worth between €3,000,000.01 and €5,000,000, (ii) 2.1% on a net worth between €5,000,000.01 and €10,000,000, and (iii) 3.5% on a net worth of more than

<sup>151</sup>

Until fiscal year 2021, the effects of Wealth Tax have been extended, on a year by year basis, by different Royal-Decree-laws.

€10,000,000. Note that the regulation lays down a minimum exempt amount of €700,000 which means that its effective impact, in general, will occur when the non-exempt net wealth is greater than €3,700,000.

Prospective investors are advised to seek their own professional advice in this regard.

#### *Inheritance and Gift Tax*

Individuals resident in Spain for tax purposes who acquire ownership or other rights over the Notes and Certificates by inheritance, gift or legacy shall be subject to Spanish Inheritance and Gift Tax in accordance with applicable Spanish regional and State tax rules. The applicable tax rates range between 7.65% and 34% depending on the particular circumstances. This is nevertheless subject to the specific rules approved by the relevant Spanish Autonomous Regions with respect to this tax.

## **1.2 Warrants**

#### *Personal Income Tax*

The following taxation considerations are based on the understanding that the Warrants should be treated as an option for Spanish tax purposes, therefore deriving capital gains or losses, as opposed to a debt instrument deriving income from the assignment of capital to third parties. If the Warrants were treated as a debt instrument for Spanish tax purposes, the applicable tax treatment would be the same as described for the Notes and Certificates.

The premium or amount paid for the subscription or acquisition of the Warrants would not be considered as a deductible expense, but as the acquisition value, which would include the expenses and commissions, inherent to the acquisition, paid by the acquirer.

Income obtained by the holders of the Warrants covered by this Base Prospectus on their transfer before the expiration date, will be considered as capital gains or losses in accordance with the provisions of the Spanish Personal Income Tax Law. The gain or loss shall be calculated as a difference between the transfer value, once any expenses and commissions paid by the taxpayer have been deducted, and the acquisition value, as defined above.

Upon the exercise of the Warrants, income obtained would be considered as a capital gain or loss, which will be calculated as the difference between (i) the settlement price or amount, once any expenses and commissions paid by the taxpayer have been deducted, and (ii) the acquisition value, as defined above.

Capital gains derived from the transfer or exercise of the Warrants will be included in the savings income tax base (renta del ahorro), which is subject to Personal Income Tax at the following tax rates: 19% on the first €6,000, 21% on the amount exceeding €6,000 up to €50,000, 23% on the amount exceeding €50,000 up to €200,000, 27% on the amount exceeding €200,000 up to €300,000 and 28% on the amount exceeding €300,000.

Failure to exercise any Warrants on the expiration date would give rise to a capital loss on the acquisition value.

Losses that may derive from the transfer of the Warrants cannot be offset if the investor acquires homogeneous securities within the two-month period prior or subsequent to the transfer of the Warrants, until the investor transfers such homogeneous securities.

Capital losses may offset capital gains obtained during the tax period included in the savings income tax base. The excess, if any, may be offset against the positive balance of capital gains and losses derived from the transfer of assets or rights within the following four years. Since 1 January 2015 it is allowed to offset the excess of capital losses with the positive balance of the income from the assignment of capital to third parties, up to 25% of this positive balance. Any remaining excess can offset the positive balance of the income from the assignment of capital to third parties within the following four years, up to the same limit.

#### *Wealth Tax*

As indicated above, Law 11/2020, of 30 December, approving the State Budget for 2021 has permanently re-established Spanish Wealth Tax with effect from tax period 2021. Spanish tax resident individuals are subject to an annual Wealth Tax on the net worth of their individual's assets and rights, regardless of where they are located, to the extent that their net worth exceeds €700,000 (it being noted that a different tax exempt amount may be approved the relevant Spanish Autonomous Region). Therefore, Spanish holders of the Warrants must take into account the value of Warrants they hold as at 31 December each year when calculating their Wealth Tax liabilities.

The marginal rates range between 0.2% and 3.5% and some reductions could apply. However, Spanish tax resident holders should take into account the specific tax regulations approved by their respective Spanish Autonomous Region, as some of them provide a partial or full relief for Wealth Tax.

In addition to the above, note that the so-called "Solidarity Tax" was approved in December 2022, which was initially a two-year direct wealth tax that, in general terms, applies, under certain conditions, to those residents in an autonomous region where the Wealth Tax is partial or fully exempt (as Madrid and Andalusia). The Solidarity Tax has been extended indefinitely, until the wealth taxation is revised within the framework of an eventual reform of the regional funding system. This Solidarity Tax is a State tax that is not collected or regulated by the Autonomous Regions, with the exceptions of the Basque Country and Navarra, who are excluded from the application of the State Solidarity Tax and apply this tax in virtue of the Economic Agreements held by these regions. In this regard, the Basque Country approved the application of the Solidarity Tax in its territory in December 2023, with effects in 2023, whereas in Navarra it has been introduced as an additional tax bracket within the Wealth Tax, imposing a 3.5% levy on net wealth exceeding €11,003,784.50.

### *Inheritance and Gift Tax*

Individuals resident in Spain for tax purposes who acquire ownership or other rights over the Warrants by inheritance, gift or legacy shall be subject to Spanish Inheritance and Gift Tax in accordance with applicable Spanish regional and State tax rules. The applicable tax rates range between 7.65% and 34% depending on the particular circumstances. This is nevertheless subject to the specific rules approved by the relevant Spanish Autonomous Regions with respect to this tax.

## **2. Legal Entities with Tax Residence in Spain**

### **2.1 Notes and Certificates**

#### *Corporate Income Tax*

Both interest periodically received and income arising on the disposal, redemption or reimbursement of the Notes and Certificates obtained by entities which are resident for tax purposes in Spain shall be computed as taxable income of the tax period in which they accrue.

The general tax rate for Spanish Corporate Income Tax taxpayers is 25%. However, please note that newly incorporated entities that develop economic activities are taxed at a 15% tax rate in the first taxable year in which their taxable base is positive and in the next one. Also, special rates apply in respect of certain types of entities.

Tax credits to prevent international double taxation may apply in respect of taxes paid outside Spain on income deriving from the Notes and Certificates, if any.

## **2.2 Warrants**

### *Corporate Income Tax*

The premium or amount paid for the subscription or acquisition of the Warrants would not be considered as a deductible expense, but as the acquisition value, which would include the expenses and commissions, inherent to the acquisition, paid by the acquirer.

If the Warrants are transferred, the accounting result deriving from this transfer, calculated as the difference between the price received, once any expenses and commissions paid by the taxpayer have been deducted, and the acquisition value, as defined above, shall be treated as taxable income subject to Corporate Income Tax under the general provisions described for the Notes and Certificates.

Upon the exercise of the Warrants, the income obtained, calculated as the difference between (i) the settlement price or amount, once any expenses and commissions paid by the taxpayer have been deducted, and (ii) the acquisition value, as defined above, shall be treated as taxable income subject to Corporate Income Tax under the general provisions described for the Notes and Certificates. If the exercise of the Warrants results in the acquisition of shares or other securities, no taxable income should arise for the investor until these shares or securities are transferred.

If the Warrants are not exercised at maturity, the investor shall obtain a tax deductible negative income amounting to the acquisition value of the Warrants.

## **3. Non-resident investors with a permanent establishment in Spain**

### **3.1 Notes and Certificates**

A non-resident holder of the Notes and Certificates, who has a permanent establishment in Spain to which such Notes and Certificates are effectively connected with, is subject to Spanish Non-Residents' Income Tax on any income under the Notes and Certificates, including both interest periodically received and income arising on the disposal, redemption or reimbursement of the Notes and Certificates. In general terms, the tax rules applicable to individuals and entities non-resident in Spain acting through a permanent establishment in Spain are the same as those applicable to Corporate Income Tax taxpayers (explained above).

### **3.2 Warrants**

A non-resident holder of the Warrants, who has a permanent establishment in Spain to which such Warrants are effectively connected with, is subject to Spanish Non-Residents' Income Tax on any income or gain derived from the Warrants, in a similar way than applicable to Spanish tax resident Corporate Income Tax taxpayers (explained above).

## **4. Spanish withholding tax**

We note that, under Spanish tax law, the Issuer should not be obliged to deduct withholdings on account of Spanish income taxes since it is not a Spanish tax resident entity and does not have a permanent establishment in Spain to which the issue of the Securities is connected.

However, where a financial institution (either resident in Spain or acting through a permanent establishment in Spain) acts as depositary of the Notes or Certificates or intervenes as manager in the collection of any income under the Notes and Certificates, such financial institution will be responsible for making the relevant withholding on account of Spanish tax on any income deriving from the Notes and Certificates (income from Warrants will not be subject to withholding tax in Spain). To this effect income deriving from the Notes and Certificates includes not only interest payments but also income arising from the disposal, redemption or reimbursement of the Notes and Certificates, if any.

The withholding tax rate in Spain is 19 per cent. Amounts withheld in Spain, if any, can be credited against the final Spanish Personal Income Tax liability, in the case of Spanish tax resident individuals, or against final Spanish Corporate Income Tax liability, in the case of Spanish corporate, or against final Non-Residents' Income Tax, in the case of a Spanish permanent establishment of a non-resident holder of the Notes and Certificates.

Holders of the Notes and Certificates who are Corporate Income Tax taxpayers or Non-Residents' Income Tax taxpayers acting through a permanent establishment in Spain to which the Notes and Certificates are effectively connected with can benefit from a withholding tax exemption when the Notes and Certificates are (i) traded in an OECD official stock exchange, or (ii) represented in book-entry form and admitted to trading in a Spanish secondary stock exchange or in the Alternative Fixed Income Securities Market (MARF).

Additionally, Spanish tax resident individuals holders of the Notes and Certificates can benefit from a withholding tax exemption in respect of the income arising from the transfer or repayment of the Notes and Certificates if the Notes and Certificates are represented in book-entry form and admitted to trading in a Spanish secondary stock exchange. However, under certain circumstances, when a transfer of the Notes and Certificates has occurred within the 30-day period immediately preceding any relevant interest payment date, the withholding tax exemption may not be applicable.

Furthermore, such financial institution may become obliged to comply with the formalities set out in the Regulations on Spanish Personal Income Tax and Corporate Income Tax when intervening in the transfer or reimbursement of the Notes and Certificates.

## **5. Payments made by the Guarantor**

With respect to payments made by a non-Spanish Guarantor (if applicable) to Spanish resident holders of Securities or non-resident holders with a permanent establishment in Spain to which the Securities are effectively connected, our understanding of Spanish tax law is that such payments should be treated as a payment made by the Issuer, and thus should be subject to the Spanish tax regime described in the previous paragraphs.

## **6. Indirect taxation**

No Transfer Tax, Stamp Duty or Value Added Tax shall be payable in Spain in connection with the acquisition, transfer, redemption, reimbursement and exchange of the Securities.

## **7. Reporting obligations to the Spanish Tax Authorities**

Spanish resident holders of Securities or non-resident holders with a permanent establishment in Spain to which the Securities are effectively connected should seek advice from their tax advisor as to whether they should include the Securities in the annual reporting (Form 720) to the Spanish Tax Authorities declaring the assets and rights held outside Spain.

## **8. Spanish Financial Transaction Tax**

The Spanish Financial Transaction Tax ("**Spanish FTT**") was approved by Law 5/2020, of 15 October, on the Financial Transaction Tax (the "**Spanish FTT Law**"). Spanish FTT is an indirect tax, chargeable on acquisitions of shares (and other securities) that fulfil certain conditions. The tax is applicable irrespective of the tax residence of the parties that take part in the transaction and irrespective of the place where the shares are traded. Prospective holders of the Securities are advised to seek their own professional advice in relation to Spanish FTT.

## **7. U.S. DIVIDEND EQUIVALENT WITHHOLDING**

Section 871(m) of the U.S. Internal Revenue Code of 1986, as amended, (the "**Code**") treats a "dividend equivalent" payment as a dividend from sources within the United States that is generally subject to a 30 per cent. U.S. withholding tax which may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the U.S. Internal Revenue Service (the "**IRS**"). A "**dividend equivalent**" payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a "specified notional principal contract" that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) or (ii). U.S. Treasury regulations issued under Section 871(m) and applicable guidance (the "**Section**

**871(m) Regulations**") will, when effective, require withholding on certain non-U.S. holders of the Securities with respect to amounts treated as dividend equivalent payments. Under the Section 871(m) Regulations, only a Security that has an expected economic return sufficiently similar to that of the underlying U.S. security, based on tests set forth in the Section 871(m) Regulations, will be subject to the Section 871(m) withholding regime (making such Security a "**Specified Security**"). Certain exceptions to this withholding requirement apply, in particular for instruments linked to certain broad-based indices.

Withholding in respect of dividend equivalents will generally be required when cash payments are made on upon the date of maturity, lapse or other disposition of the Specified Security. If the underlying U.S. security or securities are expected to pay dividends during the term of the Specified Security, withholding generally will still be required even if the Specified Security does not provide for payments explicitly linked to dividends. Additionally, the Issuer may withhold the full 30 per cent. tax on any payment on the Securities in respect of any dividend equivalent arising with respect to such Securities regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law (including, for the avoidance of doubt, where a non-U.S. holder is eligible for a reduced tax rate under an applicable tax treaty with the United States). A non-U.S. holder may be able to claim a refund of any excess withholding provided the required information is timely furnished to the U.S. Internal Revenue Service. Refund claims are subject to U.S. tax law requirements and there can be no assurance that a particular refund claim will be timely paid or paid at all. If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

Pursuant to IRS guidance, a Security issued prior to 1 January 2027 that does not have a "delta" of one with respect to underlying securities that could pay U.S.-source dividends for U.S. federal income tax purposes generally will not be considered a Specified Security subject to the 871(m) Regulations. If the terms of a Security are subject to a "significant modification" (as defined for U.S. tax purposes) the Security generally would be treated as retired and reissued on the date of such modification for purposes of determining, based on economic conditions in effect at that time, whether such Security is a Specified Security. Similarly, if additional Securities of the same series are issued (or deemed issued for U.S. tax purposes, such as certain sales of Securities out of inventory) after the original issue date, the IRS could treat the issue date for determining whether the existing Securities are Specified Securities as the date of such subsequent sale or issuance. Consequently, a previously out of scope Security might become a Specified Security following such modification or further issuance.

The applicable Final Terms will indicate whether the Issuer has determined that Securities are Specified Securities and may specify contact details for obtaining additional information regarding the application of Section 871(m) to such Securities. The applicable Final Terms will also indicate if payments on a series of Specified Securities are calculated by reference to "Net Dividends" (i.e., the dividends paid by an issuer of a security net of 30 per cent. U.S. federal withholding tax) or "Net Total Returns" (i.e., the net total return of the U.S. source dividend paying components, as calculated by the relevant Index Sponsor, of an index that reinvests U.S. source dividends paid by an issuer of a security that is a component of the index net of 30 per cent. U.S. withholding tax on such U.S. source dividends). A non-U.S. holder of such Specified Securities should expect to be subject to withholding in respect of any underlying dividend-paying U.S. securities. The Issuer's determination is binding on non-U.S. holders of the Securities, but it is not binding on the IRS. The Section 871(m) Regulations require complex calculations to be made with respect to Securities linked to U.S. securities and their application to a specific issue of Securities may be uncertain. Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the Securities.

## 8. FOREIGN ACCOUNT TAX COMPLIANCE ACT

Pursuant to certain provisions of the Code, commonly known as FATCA, withholding may be required on, among other things, (i) certain payments made by "foreign financial institutions" ("foreign passthru payments") and (ii) dividend equivalent payments in respect of a Specified Security (as described above in "U.S. Dividend Equivalent Withholding"), in each case, to persons that fail to meet certain certification, reporting, or related requirements. The Issuer is a foreign financial institution for these purposes. A number of jurisdictions have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA

jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes.

Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Securities, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Securities, are uncertain and may be subject to change. If withholding would be required pursuant to FATCA or an IGA with respect to foreign passthru payments from the disposition of Securities that generate dividend equivalent payments, such withholding would not apply prior to the date that is two years after the publication in the Federal Register of final regulations defining this term and Securities characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or before the relevant grandfathering date would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the Issuer). The grandfathering date for (A) Securities that give rise solely to foreign passthru payments, is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register, and (B) Securities that give rise to a dividend equivalent pursuant to Section 871(m) of the Code and the U.S. Treasury regulations promulgated thereunder, is six months after the date on which obligations of its type are first treated as giving rise to dividend equivalents. If additional Securities (as described under "Terms and Conditions of the Notes—Further Issues" or "Terms and Conditions of the Certificates – Further Issues", as applicable) that are not distinguishable from such previously issued grandfathered Securities are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Securities, including the Securities offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Securities. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Securities, no person will be required to pay additional amounts as a result of the withholding.

On 28 March 2014, the United States and the Grand Duchy of Luxembourg concluded an intergovernmental agreement, Agreement between the Government of the United States of America and the Government of the Grand Duchy of Luxembourg to Improve International Tax Compliance and with respect to The United States information reporting provisions commonly known as the Foreign Account Tax Compliance Act (the "**Luxembourg IGA**"). Under the Luxembourg IGA, the United States and Luxembourg have agreed to implement FATCA through domestic reporting obligations for financial institutions, an automatic exchange of account information between the public authorities of the two countries and on the basis of existing bilateral tax treaties. The Luxembourg IGA as well as the related exchange of notes signed on 31 March 2015 and on 1 April 2015 have been approved in Luxembourg by the law of 24 July 2015 (the "**Law**").

## 9. COMMON REPORTING STANDARD

Capitalised terms used in this section should have the meaning as set forth in the CRS Law (as defined below), unless provided otherwise herein.

The Issuer may be subject to the Common Reporting Standard (the "**CRS**") as set out in the Luxembourg law dated 18 December 2015 (the "**CRS Law**") implementing Directive 2014/107/EU which provides for an automatic exchange of financial account information between Member States of the European Union as well as the OECD's multilateral competent authority agreement on automatic exchange of financial account information signed on 29 October 2014 in Berlin, with effect as of 1 January 2016.

Under the terms of the CRS Law, the Issuer is likely to be treated as a Luxembourg Reporting Financial Institution.

As such, as of 30 June 2017 and without prejudice to other applicable data protection provisions, the Issuer will be required to annually report to the Luxembourg tax authorities personal and financial information related, inter alia, to the identification of, holdings by and payments made to (i) certain Holders of Securities qualifying as Reportable Persons as per the CRS Law and (ii) Controlling Persons of certain non-financial entities ("**NFEs**") which are themselves Reportable Persons. This information, as exhaustively set out in Annex I of the CRS Law (the "**Information**"), will include personal data related to the Reportable Persons.

The Issuer's ability to satisfy its reporting obligations under the CRS Law will depend on each Holder of Securities providing the Issuer with the Information, along with the required supporting documentary evidence. In this context, the Holder of Securities are hereby informed that, as data controller, the Issuer will process the Information for the purposes as set out in the CRS Law.

Holders of Securities qualifying as passive NFEs undertake to inform their Controlling Persons, if applicable, of the processing of their Information by the Issuer.

Additionally, the Issuer is responsible for the processing of personal data and each Holder of Securities has a right to access the data communicated to the Luxembourg tax authorities and to correct such data (if necessary). Any data obtained by the Issuer are to be processed in accordance with the amended Luxembourg law dated 1 August 2018 on the protection of persons with regard to the processing of personal data.

The Holders of Securities are further informed that the Information related to Reportable Persons within the meaning of the CRS Law will be disclosed to the Luxembourg tax authorities annually for the purposes set out in the CRS Law. The Luxembourg tax authorities will, under their own responsibility, eventually exchange the reported information to the competent authority of the Reportable Jurisdiction. In particular, Reportable Persons are informed that certain operations performed by them will be reported to them through the issuance of statements, and that part of this information will serve as a basis for the annual disclosure to the Luxembourg tax authorities.

Similarly, the Holders of Securities undertake to inform the Issuer within thirty (30) days of receipt of these statements should any included personal data be not accurate. The Holders of Securities further undertake to immediately inform the Issuer of, and provide the Issuer with all supporting documentary evidence of any changes related to the Information after occurrence of such changes.

Any Holder of Securities that fails to comply with the Issuer's Information or documentation requests may be held liable for penalties imposed on the Issuer as a result of such Holder of Securities failure to provide the Information or subject to disclosure of the Information by the Issuer to the Luxembourg tax authorities and the Issuer may, in its sole discretion, redeem the Securities of such Holder of Securities.

**SUBSCRIPTION, SALE AND TRANSFER RESTRICTIONS**

The Dealers have, in a dealer agreement (the "**Dealer Agreement**", which expression includes the same as it may be updated or supplemented from time to time) dated 6 February 2009 as most recently amended and restated on 20 September 2024, agreed with the Issuer a basis upon which they (or any one of them) may from time to time agree to purchase Securities. Any such agreement will extend to those matters stated under "Form of the Notes", in the Terms and Conditions of the Notes, in the Terms and Conditions of the Warrants and in the Terms and Conditions of the Certificates above. In the Dealer Agreement, the Issuer has agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Securities under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith.

*The following selling restrictions may be modified by the Issuer and the relevant Dealer(s) following a change in the relevant law, regulation or directive and in certain other circumstances as may be agreed between the Issuer and the relevant Dealer(s). Any such modification will be set out in a Supplement to this Base Prospectus and (if applicable) the syndication agreement in respect of the Series (and/or Tranche, as the case may be) to which it is related.*

**Selling Restrictions: Jurisdictions outside the European Economic Area*****United States******Selling Restrictions***

Neither the Securities, the Guarantee nor any Entitlement to be delivered upon the exercise or redemption of Physical Delivery Securities have been or will be registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the U.S., and may not be offered, sold, delivered or exercised within the United States or to, or for the account or benefit of, U.S. persons. Trading in the Securities has not been approved by the U.S. Commodity Futures Trading Commission under the United States Commodity Exchange Act, as amended.

The Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986, as amended and regulations thereunder.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will offer, sell or deliver such Securities only in accordance with Rule 903 of Regulation S under the Securities Act and all applicable U.S. state securities laws. Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Securities during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Securities within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Notes that constitute "registration required obligations" under the United States Tax Equity and Fiscal Responsibility Act of 1982, the U.S. Tax Code, or U.S. Treasury regulations and are not considered to be in "registered form" for U.S. federal income tax purposes ("**TEFRA Notes**") are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to or for the account or benefit of a United States person except in compliance with (U.S. Treas. Reg. §1.163-5(c)(2)(i)(D) or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Tax Code (the "**TEFRA D Rules**").

In this regard, with respect to TEFRA Notes issued in compliance with the TEFRA D Rules, the Issuer and each Dealer and each other Dealer or purchaser (as the case may be) has represented and agreed, and each additional Dealer appointed under the Programme will be deemed to represent and agree, that in addition to the relevant U.S. securities selling restrictions set forth herein:

## SUBSCRIPTION, SALE AND TRANSFER RESTRICTIONS

- 1382 -

- (a) except to the extent permitted under the TEFRA D Rules, (x) it has not offered or sold, and during the restricted period it will not offer or sell, TEFRA Notes in bearer form to a person who is within the United States or its possessions or to a United States person and (y) it has not delivered and agrees that it will not deliver within the United States or its possessions definitive TEFRA Notes that will be sold during the restricted period;
- (b) it has and agrees that throughout the restricted period it will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling TEFRA Notes are aware that TEFRA Notes may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person (except to the extent permitted under the TEFRA D Rules);
- (c) if it is a United States person, it is acquiring the TEFRA Notes for purposes of resale in connection with their original issuance, and if it retains TEFRA Notes for its own account, it will do so in accordance with the requirements of the TEFRA D Rules;
- (d) with respect to each affiliate or distributor that acquires TEFRA Notes from the Issuer or any Dealer for the purpose of offering or selling such TEFRA Notes during the restricted period, the Issuer or Dealer either repeats and confirms the representations and agreements contained in subclauses (a), (b), and (c) above on such affiliate's or distributor's behalf or agrees that it will obtain from such affiliate or distributor for the benefit of Issuer or Dealer the representations and agreements contained in such subclauses; and
- (e) it has not and agrees that it will not enter into any written contract (other than confirmation or other notice of the transaction) pursuant to which any other party to the contract (other than one of its affiliates or another Dealer) has offered or sold, or during the restricted period will offer or sell, any TEFRA Notes except where pursuant to the contract the Dealer has obtained or will obtain from that party, for the benefit of Issuer and the Dealer, the representations contained in, and that party's agreement to comply with, the provisions of subclauses (a), (b), (c) and (d).

Terms used in this section shall have the meanings given to them by the Internal Revenue Code and the regulations thereunder, including the TEFRA D Rules.

On March 18, 2010, the Hiring Incentives to Restore Employment Act (the "**HIRE Act**") was signed into law by President Barack Obama, which, among things, repeals the TEFRA D Rules for TEFRA Notes originally issued after March 18, 2012. However, in Notice 2012-20, the U.S. Department of Treasury and the U.S. Internal Revenue Service indicated that they intend to provide in regulations that rules identical to the TEFRA D Rules will apply to non-US issuers of TEFRA Notes for purposes of establishing an exemption from the excise tax imposed by Section 4701 of the U.S. Tax Code. (The amount of the excise tax is one per cent. of the principal amount of the obligation, multiplied by the number of calendar years until the obligation reaches maturity.) The U.S. Department of Treasury and the U.S. Internal Revenue Service has proposed regulations generally consistent with such Notice. Consequently, TEFRA Notes issued in accordance with the TEFRA D Rules should continue to be treated as "foreign targeted obligations" that are exempt from the excise tax.

Until 40 days after the commencement of the offering of any Series of Securities, an offer or sale of such Securities within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

Each issuance of Securities, whether linked to an Underlying Reference, Physical Delivery Notes, Physical Delivery Certificates or Physical Delivery Warrants or otherwise, as the case may be, shall be subject to such additional U.S. selling restrictions as the Issuer and the relevant Dealer may agree as a term of the issuance and purchase of such Securities, which additional selling restrictions shall be set out in the applicable Final Terms.

The issuance of the Securities was not designed to comply with the U.S. Risk Retention Rules other than the "foreign safe harbor" exemption under the U.S. Risk Retention Rules, and no other steps have been taken by the Issuer, BNPP, any Dealer or any of their affiliates or any other party to accomplish such compliance.

The Securities are being issued and offered in reliance on an exemption from the U.S. Risk Retention Rules for non-U.S. transactions. To qualify for the "foreign transaction safe harbor" exemption, non-U.S. transactions must meet certain requirements, including that (1) the transaction is not required to be and is not registered under the Securities Act; (2) no more than 10 per cent. of the securities issued in the securitization transaction are sold or transferred to, or for the account or benefit of, U.S. persons (as defined in the U.S. Risk Retention Rules and referred to in this prospectus as "Risk Retention U.S. Persons"); (3) neither the sponsor nor the issuer of the securitization transaction is organized under U.S. law or is a branch located in the United States of a non-U.S. entity; and (4) no more than 25 per cent. of the underlying collateral was acquired from a majority-owned affiliate or branch of the sponsor or issuer organized or located in the United States.

As part of the initial distribution of the Securities of each Series, such Securities may not be purchased by any person except for persons that are not "U.S. persons" as defined in the U.S. Risk Retention Rules, or "Risk Retention U.S. Persons". **"U.S. Risk Retention Rules"** means Regulation RR (17 C.F.R Part 246) implementing the risk retention requirements of Section 15G of the U.S. Securities Exchange Act of 1934, as amended. Prospective investors should note that, although the definition of "U.S. person" in the U.S. Risk Retention Rules is very similar to the definition of "U.S. person" in Regulation S, there are substantial differences between the two definitions and that persons who are not "U.S. persons" under Regulation S may be "U.S. persons" under the U.S. Risk Retention Rules.

Each purchaser of Securities, including beneficial interests in such Securities, shall be deemed to have made the following representations: that it (1) is not a Risk Retention U.S. Person, (2) is acquiring such Securities or a beneficial interest in such Securities for its own account and not with a view to distribute such Securities, or, in the case of a distributor, will only distribute such Securities to a person which is not a Risk Retention U.S. Person, and (3) is not acquiring such Securities or a beneficial interest in such Securities as part of a scheme to evade the requirements of the U.S. Risk Retention Rules.

Notwithstanding the foregoing, the Issuer may sell a limited portion of such Notes to, or for the account or benefit of, Risk Retention U.S. Persons under an exemption from the U.S. Risk Retention Rules.

### ***Transfer Restrictions***

Each purchaser of Notes, Warrants and Certificates will be deemed to acknowledge, represent and agree as follows (terms used in this paragraph that are defined in Regulation S are used herein as defined therein):

- (a) that it is outside the United States and is not a U.S. person nor is it purchasing Notes, Warrants or Certificates on behalf of a U.S. person;
- (b) in the case of Warrants and Exercisable Certificates, that the Warrants may not be exercised in the United States or by or on behalf of a U.S. person. In addition, a person exercising a Warrant, may be required by the Issuer to deliver additional documents for compliance with Regulation S and the securities laws of the United States, which documents may include, the delivery by such person of either (i) a certificate to the effect that the person exercising the Warrant is not a U.S. person and the Warrant is not being exercised on behalf of a U.S. person and/or (ii) a written opinion of counsel to the effect that the Warrant and the securities delivered upon exercise thereof have been registered under the Securities Act or are exempt from registration thereunder;
- (c) that the Securities are being offered and sold in a transaction not involving a public offering in the United States within the meaning of the Securities Act, and that the Securities have not been and will not be registered under the Securities Act or any other applicable U.S. state securities laws and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons;
- (d) that Securities are being offered outside the United States in reliance on Regulation S and will be represented by one or more, in the case of Notes, Registered Global Notes or, in the case of Warrants, Registered Global Warrants or, in the case of Certificates, Registered Global Certificates;
- (e) that the Issuer has not registered, and does not intend to register, as an investment company under the U.S. Investment Company Act of 1940 and that any transfer of the Securities which would cause

the Issuer, any Compartment or the Guarantor, as the case may be, to become required to register under the U.S. Investment Company Act of 1940 will be void;

- (f) that if it should resell or otherwise transfer the Securities, it will do so only outside the United States to or for the account of non-U.S. persons in compliance with Rule 903 or 904 of Regulation S under the Securities Act and in accordance with all applicable U.S. state securities laws and it acknowledges that the global Notes, Global Warrants and Global Certificates will bear a legend to the following effect unless otherwise agreed to by the Issuer:

"THE [NOTES REPRESENTED BY THIS SECURITY]/[WARRANTS REPRESENTED BY THIS SECURITY AND SECURITIES TO BE ISSUED UPON ITS EXERCISE]/[CERTIFICATES REPRESENTED BY THIS SECURITY] HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE "**SECURITIES ACT**"), OR ANY OTHER APPLICABLE U.S. STATE SECURITIES LAWS AND, ACCORDINGLY, MAY NOT BE [OFFERED, TRANSFERRED, DELIVERED OR SOLD WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS]/ [OFFERED, SOLD, TRANSFERRED, DELIVERED OR EXERCISED WITHIN THE UNITED STATES OR TO, BY, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS]. THE ISSUER HAS NOT REGISTERED, AND DOES NOT INTEND TO REGISTER, AS AN INVESTMENT COMPANY UNDER THE U.S. INVESTMENT COMPANY ACT OF 1940. THE FOREGOING TRANSFER RESTRICTIONS ARE INTENDED TO ENSURE THAT THE ISSUER IS NOT REQUIRED TO REGISTER AS AN INVESTMENT COMPANY AND ANY TRANSFER IN VIOLATION OF THE FOREGOING TRANSFER RESTRICTIONS WILL BE VOID."; and

- (g) that the Issuer and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements and agrees that if any of such acknowledgements, representations or agreements made by it are no longer accurate, it shall promptly notify the Issuer; and if it is acquiring any Securities as a fiduciary or agent for one or more accounts it represents that it has sole investment discretion with respect to each such account and that it has full power to make the foregoing acknowledgements, representations and agreements on behalf of each such account. Each purchaser and each subsequent holder is required to notify any transferee of the restructuring or transfer set forth above.

Such activity is referred in the Italian Financial Services Act as "door-to-door selling" (*offerta fuori sede*). of withdrawal from any contract entered into pursuant to door-to-door selling, exercisable within a period of seven days from the date of subscription by the investor. Within such period, contracts entered into pursuant to door-to-door selling shall not be enforceable, and investors may exercise their withdrawal right without payment of any charge or commission by contacting the offeror or appointed person with whom the subscription for Securities was placed. Failure to indicate such right of withdrawal in the relevant forms given to investors shall result in the nullity of the related contracts, which may be enforced only by the relevant customer. If so specified in the applicable Final Terms, a non-exempt offer of Securities in the Republic of Italy may be made using door-to-door selling in accordance with Article 30 of the Italian Financial Services Act during the period specified in such Final Terms. Further, if so specified in the applicable Final Terms, Securities may be offered in the Republic of Italy to investors through recorded telephone orders pursuant to applicable Italian law.

### Credit Ratings of the Guarantor

BNPP's long-term credit ratings are A+ with a stable outlook (S&P Global Ratings Europe Limited ("**Standard & Poor's**")), Aa3 with a stable outlook (Moody's Deutschland GmbH ("**Moody's**")), AA- with a stable outlook (Fitch Ratings Ireland Limited ("**Fitch**")) (which is the long-term rating assigned to BNPP's senior preferred debt by Fitch) and AA (low) with a stable outlook (DBRS Rating GmbH ("**DBRS Morningstar**")) and BNPP's short-term credit ratings are A-1 (Standard & Poor's), P-1 (Moody's), F1+ (Fitch) and R-1 (middle) (DBRS Morningstar). Each of Standard & Poor's, Fitch and DBRS Morningstar is established in the European Union and is registered under the Regulation (EC) No. 1060/2009 (as amended) (the "**CRA Regulation**"). As such each of Standard & Poor's, Moody's, Fitch, DBRS Morningstar and Moody's France is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website (at <https://www.esma.europa.eu/credit-rating-agencies/cra-authorisation>) in accordance with the CRA Regulation. None of Standard & Poor's, Moody's, Fitch or DBRS Morningstar are established in the United Kingdom and have not applied for registration under Regulation (EC) No. 1060/2009 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "**UK CRA Regulation**"). To the extent that the ratings issued by Standard & Poor's, Moody's, Fitch and DBRS Morningstar have been endorsed by a credit rating agency that is established in the United Kingdom and registered under the UK CRA Regulation the ratings issued by Standard & Poor's, Moody's, Fitch and DBRS Morningstar may be used for regulatory purposes in the United Kingdom in accordance with the UK CRA Regulation.

According to Standard & Poor's definitions, an obligation rated "A" is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitments on the obligation is still strong. The addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories. According to Moody's' definitions, obligations rated "Aa" by Moody's are judged to be of high quality and are subject to very low credit risk. The modifier 3 indicates a ranking in the lower end of that generic rating category. According to Fitch's definitions, "AA" ratings denote expectations of very low default risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events. The modifier "-" is appended to indicate relative differences of probability of default or recovery for issues. According to the DBRS Morningstar's definitions, an AA rating indicates superior credit quality. The capacity for the payment of financial obligations is considered high and credit quality differs from AAA only to a small degree. The Guarantor is unlikely to be significantly vulnerable to future events. All rating categories other than AAA and D also contain subcategories "(high)" and "(low)". Securities issued under the Programme may be rated or unrated. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.
