Section D – Risks

Element	Title	
D.2	Key risks regarding the Issuer and the Guarantor	<p>There are certain factors that may affect the Issuer's ability to fulfil its obligations under the Securities issued under the Prospectus and the Guarantor's obligations under the Guarantee.</p> <p>Twelve main categories of risk are inherent in BNPP's activities:</p> <ul style="list-style-type: none"> • Credit Risk; • Counterparty Risk; • Securitisation; • Market Risk; • Operational Risk; • Compliance and Reputation Risk; • Concentration Risk; • Asset-liability management Risk; • Breakeven Risk; • Strategy Risk; • Liquidity and refinancing Risk; • Insurance subscription Risk. <p>Difficult market and economic conditions could have a material adverse effect on the operating environment for financial institutions and hence on BNPP's financial condition, results of operations and cost of risk.</p> <p>Legislative action and regulatory measures taken in response to the global financial crisis may materially impact BNPP and the financial and economic environment in which it operates.</p> <p>BNPP's access to and cost of funding could be adversely affected by a resurgence of the Euro-zone sovereign debt crisis, worsening economic conditions, further rating downgrades or other factors.</p> <p>A substantial increase in new provisions or a shortfall in the level of previously recorded provisions could adversely affect BNPP's results of operations and financial condition.</p> <p>BNPP may incur significant losses on its trading and investment activities due to market fluctuations and volatility.</p> <p>BNPP may generate lower revenues from brokerage and other commission and fee-based businesses during market downturns.</p> <p>Protracted market declines can reduce liquidity in the markets, making it harder to sell assets and possibly leading to material losses.</p>

Element	Title	
		<p>Significant interest rate changes could adversely affect BNPP's revenues or profitability.</p> <p>The soundness and conduct of other financial institutions and market participants could adversely affect BNPP.</p> <p>BNPP's competitive position could be harmed if its reputation is damaged.</p> <p>An interruption in or a breach of BNPP's information systems may result in lost business and other losses.</p> <p>Unforeseen external events can interrupt BNPP's operations and cause substantial losses and additional costs.</p> <p>BNPP is subject to extensive and evolving regulatory regimes in the countries and regions in which it operates.</p> <p>Notwithstanding BNPP's risk management policies, procedures and methods, it could still be exposed to unidentified or unanticipated risks, which could lead to material losses.</p> <p>BNPP's hedging strategies may not prevent losses.</p> <p>BNPP may experience difficulties integrating acquired companies and may be unable to realise the benefits expected from its acquisitions.</p> <p>Intense competition, especially in France where it has the largest single concentration of its businesses, could adversely affect BNPP's revenues and profitability.</p> <p>The following risk factors relate to BNPP B.V.: BNPP B.V. is an operating company. BNPP B.V.'s sole business is the raising and borrowing of money by issuing securities such as Notes, Warrants or Certificates or other obligations. BNPP B.V. has, and will have, no assets other than hedging agreements (OTC contracts mentioned in the Annual Reports), cash and fees payable to it, or other assets acquired by it, in each case in connection with the issue of securities or entry into other obligations related thereto from time to time. The net proceeds from each issue of Securities issued by the Issuer will become part of the general funds of BNPP B.V. BNPP B.V. uses such proceeds to maintain positions in options or futures contracts or other hedging instruments ("Hedging Agreements"). The ability of BNPP B.V. to meet its obligations under Securities issued by it will depend on the receipt by it of payments under the relevant Hedging Agreements. Consequently, Holders of BNPP B.V. Securities will, subject to the provisions of the Guarantee, be exposed to the ability of counterparties in respect of such Hedging Agreements to perform their obligations under such Hedging Agreements. Securities sold in the United States or to U.S. Persons may be subject to transfer restrictions.</p>
D.3	Key risks regarding the Securities	<p>In addition to the risks relating to the Issuer (including the default risk) that may affect the Issuer's ability to fulfil its obligations under the Securities, there are certain factors which are material for the purposes of assessing the market risks associated with Securities issued under the Prospectus, including that Securities are unsecured obligations; the trading price of the Securities is affected by a number of factors including, but not limited to, the price of the Underlying Reference; time to redemption and volatility and such factors mean that the trading price of the Securities may be below the Cash Settlement Amount; exposure to the Underlying Reference in many cases will be achieved by the Issuer entering into hedging</p>

Element	Title	
		<p>arrangements and potential investors are exposed to the performance of these hedging arrangements and events that may affect the hedging arrangements and consequently the occurrence of any of these events may affect the value of the Securities, the occurrence of an additional disruption event or optional additional disruption event may lead to an adjustment to the Securities, early redemption or may result in the amount payable on scheduled redemption being different from the amount expected to be paid at scheduled redemption and consequently the occurrence of an additional disruption event and/or optional additional disruption event may have an adverse effect on the value or liquidity of the Securities; expenses and taxation may be payable in respect of the Securities; the Securities may be redeemed in the case of illegality or impracticability and such redemption may result in an investor not realising a return on an investment in the Securities; the meetings of Holders provisions permit defined majorities to bind all Holders; any judicial decision or change to an administrative practice or change to English law after the date of the Prospectus could materially adversely impact the value of any Securities affected by it; a reduction in the rating, if any, accorded to outstanding debt securities of the Guarantor by a credit rating agency could result in a reduction in the trading value of the Securities, the only means through which a Holder can realise value from the Security prior to its Redemption Date is to sell it at its then market price in an available secondary market and that there may be no secondary market for the Securities (which could mean that an investor has to wait until redemption of the Securities to realise a greater value than its trading value); an active secondary market may never be established or may be illiquid and this may adversely affect the value at which an investor may sell its Securities (investors may suffer a partial or total loss of the amount of their investment).</p> <p>In addition, there are specific risks in relation to Securities which are linked to an Underlying Reference and an investment in such Securities will entail significant risks not associated with an investment in a conventional debt security. Risk factors in relation to Underlying Reference linked Securities include: exposure to one or more share adjustment events and market disruption or failure to open of an exchange which may have an adverse effect on the value and liquidity of the Securities and that the Issuer will not provide post-issuance information in relation to the Underlying Reference.</p> <p>In certain circumstances Holders may lose the entire value of their investment.</p>
D.6	Risk warning	<p>See Element D.3 above.</p> <p>In the event of the insolvency of the Issuer or if it is otherwise unable or unwilling to repay the Securities when repayment falls due, an investor may lose all or part of his investment in the Securities.</p> <p>If the Guarantor is unable or unwilling to meet its obligations under the Guarantee when due, an investor may lose all or part of his investment in the Securities.</p> <p>In addition, investors may lose the whole or part of their investment in the Securities as a result of the terms and conditions of the Securities.</p>

E.3	Terms and conditions of the offer	This issue of the Securities is being offered in a Non-Exempt Offer in France. The issue price per Security is USD1,000.
E.4	Interest of natural and legal persons involved in the issue/offer	Other than as mentioned above, and save for any potential conflicts of interest that may arise as a consequence of the Issuer and/or the Guarantor and their affiliates (i) engaging in trading activities (including hedging activities) relating to the Underlying Reference or other instruments or derivative products based on or relating to the Underlying Reference, (ii) issuing other derivative instruments in respect of the Underlying Reference and (iii) acting in a number of different capacities in relation to the Underlying Reference, including but not limited to issuers of the constituent Shares of the Underlying Reference, so far as the Issuer is aware, no person involved in the issue of the Securities has an interest material to the offer, including conflicts of interests.

Elément	Description de l'Elément	
		<p>substantielles dans le cadre de ses activités de marché et d'investissement.</p> <p>Les revenus tirés par BNPP des activités de courtage et des activités générant des commissions sont potentiellement vulnérables à une baisse des marchés.</p> <p>Une baisse prolongée des marchés peut réduire la liquidité et rendre plus difficile la cession d'actifs. Une telle situation pourrait engendrer des pertes significatives.</p> <p>Toute variation significative des taux d'intérêt est susceptible de peser sur les revenus ou la rentabilité de BNPP.</p> <p>La solidité financière et le comportement des autres institutions financières et acteurs du marché pourraient avoir un effet défavorable sur BNPP.</p> <p>Tout préjudice porté à la réputation de BNPP pourrait nuire à sa compétitivité.</p> <p>Toute interruption ou défaillance des systèmes informatiques de BNPP peut entraîner un manque à gagner et engendrer des pertes.</p> <p>Des événements externes imprévus peuvent provoquer une interruption des activités de BNPP et entraîner des pertes substantielles ainsi que des coûts supplémentaires.</p> <p>BNPP est soumise à une réglementation importante et fluctuante dans les pays et régions où elle exerce ses activités.</p> <p>Malgré les politiques, procédures et méthodes de gestion du risque mises en œuvre, BNPP peut être exposé à des risques non identifiés ou imprévus, susceptibles d'occasionner des pertes significatives.</p> <p>Les stratégies de couverture mises en place par BNPP n'écartent pas tout risque de perte.</p> <p>BNPP pourrait connaître des difficultés relatives à l'intégration des sociétés acquises et pourrait ne pas réaliser les bénéfices attendus de ses acquisitions.</p> <p>Une intensification de la concurrence, en particulier en France, premier marché de BNPP, pourrait peser sur les revenus et la rentabilité.</p> <p>Les facteurs de risque suivants sont relatifs à BNPP B.V. : BNPP B.V. est une société opérationnelle. La seule activité de BNPP B.V. consiste à lever des capitaux et à emprunter des fonds via l'émission de titres, tels que des Obligations, Warrants, Certificats ou autres obligations. BNPP B.V. n'a pas, et n'aura pas, d'autres actifs que les contrats de couverture (contrats OTC mentionnés dans les Rapports Annuels), les espèces et les commissions qui lui sont payées, ou tout autre actif qu'elle aurait acquis, en toute hypothèse en</p>

Les produits nets résultant de chaque émission de Titres émis par l'Emetteur feront partie intégrante des fonds généraux de BNPP B.V. BNPP B.V. utilise ces produits en vue de maintenir ses positions dans le cadre de contrats d'options ou à terme ou d'autres instruments de couverture ("Contrats de Couverture"). La capacité de BNPP B.V. à remplir ses obligations relatives aux Titres émis par elle dépendra des paiements qu'elle aura perçus au titre des Contrats de Couverture. D.3	Principaux risques propres aux Titres	<p>En sus des risques liés à l'Emetteur (y compris le risque de défaut) qui pourraient affecter la capacité de l'Emetteur à remplir ses obligations sur les Titres, certains facteurs importants permettent d'évaluer les risques de marché liés aux Titres émis dans le cadre du Prospectus, y compris le fait que les Titres sont les obligations non assorties de sûretés; le cours de négociation des Titres est affecté par plusieurs facteurs, y compris, mais sans caractère limitatif, le cours du Sous-Jacent de Référence, la durée restant à courir jusqu'au remboursement et la volatilité, et ces facteurs signifient que le cours de négociation des Titres peut être inférieur au Montant de Règlement en Espèces ; dans de nombreux cas, l'exposition au Sous-Jacent de Référence sera réalisée par la conclusion par l'Emetteur des accords de couverture et les investisseurs potentiels sont exposés à la performance de ces accords de couverture et aux événements pouvant affecter ces accords, et, par conséquent, la survenance de l'un ou l'autre de ces événements peut affecter la valeur des Titres, la survenance d'un cas de perturbation additionnel ou d'un cas de perturbation additionnel optionnel peut conduire à un ajustement des Titres, à un remboursement anticipé ou peut avoir pour conséquence que le montant payable à la date de remboursement prévue soit différent de celui qui devrait être payé à ladite date de remboursement prévue, de telle sorte que la survenance d'un cas de perturbation additionnel et/ou d'un cas de perturbation additionnel optionnel peut avoir un effet défavorable sur la valeur ou la liquidité des Titres ; des frais et impôts peuvent être payables sur les Titres, les Titres peuvent être remboursés en cas d'illégalité ou autre impossibilité pratique, et ce remboursement peut avoir pour conséquence qu'un investisseur ne réalise aucun retour sur son investissement dans les Titres ; les clauses relatives aux assemblées générales des Titulaires permettent à des majorités définies de lier tous les Titulaires ; toute décision judiciaire, tout changement de la pratique administrative ou tout changement de la loi anglaise, intervenant après la date du Prospectus, pourrait avoir un impact défavorable significatif sur la valeur des Titres ainsi affectés ; une réduction de la notation (éventuelle) accordée aux titres d'emprunt en circulation du Garant par une agence de notation de crédit pourrait entraîner une réduction de la valeur de négociation des Titres, le seul moyen permettant à un Porteur de réaliser la valeur d'un Titre avant sa Date de Remboursement consiste à le vendre à son cours de marché au moment considéré sur un marché secondaire disponible, et il</p>

Elément	Description de l'Elément	
		<p>peut n'y avoir aucun marché secondaire pour les Titres (ce qui pourrait signifier qu'un investisseur doit attendre jusqu'à l'exercice ou jusqu'au remboursement des Titres pour réaliser une valeur supérieure à sa valeur de négociation) ; un marché secondaire actif ne peut jamais être établi ou peut être non liquide, ce qui peut nuire à la valeur à laquelle un investisseur pourrait vendre ses Titres (les investisseurs pourraient subir une perte partielle ou totale du montant de leur investissement).</p> <p>En outre, il existe des risques spécifiques liés aux Titres qui sont indexés sur un Sous-Jacent de Référence et un investissement dans ces Titres entraînera des risques significatifs que ne comporte pas un investissement dans un titre de créance conventionnel. Les facteurs de risque liés aux Titres indexés sur un Sous-Jacent de Référence incluent : l'exposition à une ou plusieurs actions, un cas d'ajustement et de perturbation du marché ou le défaut d'ouverture d'une bourse, qui peuvent avoir un effet défavorable sur la valeur de la liquidité des Titres et que l'Emetteur ne fournira pas d'informations post-émission sur le Sous-Jacent de Référence.</p> <p>Dans certaines circonstances, les Porteurs peuvent perdre la valeur intégrale de leur investissement.</p>
D.6	Avertissement sur le risque	<p>Voir Elément D.3 ci-dessus.</p> <p>En cas d'insolvabilité de l'Emetteur ou si ce dernier est autrement incapable de rembourser les Titres ou n'est pas disposé à les rembourser à leur échéance, un investisseur peut perdre tout ou partie de son investissement dans les Titres.</p> <p>Si le Garant est dans l'incapacité de remplir ses obligations en vertu de la Garantie à leur échéance, ou n'est pas disposé à les remplir, un investisseur peut perdre tout ou partie de son investissement dans les Titres.</p> <p>En outre, les investisseurs peuvent perdre tout ou partie de leur investissement dans les Titres en conséquence de l'application des modalités des Titres.</p>

RISK FACTORS

Prospective purchasers of the Securities offered hereby should consider carefully, among other things and in light of their financial circumstances and investment objectives, all of the information in this Prospectus and, in particular, the risk factors set forth below (which the Issuer, in its reasonable opinion, believes represents or may represent the risk factors known to it which may affect the Issuer's ability to fulfil its obligations under the Securities) in making an investment decision. Investors may lose the value of their entire investment in certain circumstances.

RISKS RELATING TO BNPP AND ITS INDUSTRY

See the section entitled “*Risk Factors*” contained on pages 4 to 9 of the Information Statement (as defined below) which is incorporated by reference in this Prospectus and which discloses all material risks relating to BNPP's ability to fulfil its obligations under the Securities to investors.

RISK FACTORS RELATING TO BNPP B.V.

See the section entitled “*Risk Factors*” contained on page 5 of the BNPP B.V. Registration Document (as defined below) which is incorporated by reference in this Prospectus and which discloses all material risks relating to BNPP B.V.'s ability to fulfil its obligations under the Securities to investors.

RISK FACTORS RELATING TO SECURITIES

See “*Risk Factors relating to Securities*” which are incorporated by reference on page 45 (*Documents incorporated by reference*).

In addition to the Risk Factors incorporated by reference, investors should note that:

- the Certificates are not capital protected. There is a risk of partial or, in certain circumstances, total capital loss, and consequently an investment in the Certificates involves significant risk, and should therefore only be considered by investors who can afford a total loss in their investment; and
- the Settlement Currency (in which the Cash Settlement Amount will be paid) is US Dollars (“**USD**”). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the “**Investor's Currency**”) other than USD. These include the risk that exchange rates may significantly change (including changes due to devaluation of USD or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to USD would decrease (1) the Investor's Currency-equivalent yield on the Certificates, (2) the Investor's Currency-equivalent value of the principal or cash settlement amount payable (as applicable) in respect of the Certificates and (3) the Investor's Currency-equivalent market value of the Certificates. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive a lower Cash Settlement Amount (when converted into the Investor's Currency) than expected, or no Cash Settlement Amount at all.
