The forecast is similar for emerging markets (i.e., moderate growth but with areas of weakness). Short term risks to macroeconomic growth highlighted by the IMF include heightened geopolitical tensions and increased financial market volatility; medium-term risks highlighted include weak economic growth or stagnation in developed countries. Section D – Risks

Element	Title	
D.2	Key risks regarding the Issuer and the Guarantor	<p>There are certain factors that may affect the Issuer's ability to fulfil its obligations under the Securities issued under the Prospectus and the Guarantor's obligations under the Guarantee.</p> <p>Eleven main categories of risk are inherent in BNPP's activities:</p> <ul style="list-style-type: none"> (a) Credit Risk; (b) Counterparty Credit Risk; (c) Securitisation; (d) Market Risk; (e) Operational Risk; (f) Compliance and Reputation Risk; (g) Concentration Risk; (h) Banking Book Interest Rate Risk; (i) Strategic and Business Risks; (j) Liquidity Risk; (k) Insurance subscription Risk. <p>Difficult market and economic conditions have had and may continue to have a material adverse effect on the operating environment for financial institutions and hence on BNPP's financial condition, results of operations and cost of risk.</p> <p>BNPP's access to and cost of funding could be adversely affected by a resurgence of the euro zone sovereign debt crisis, worsening economic conditions, rating downgrades, increases in credit spreads or other factors.</p> <p>Significant interest rate changes could adversely affect BNPP's revenues or profitability.</p> <p>The soundness and conduct of other financial institutions and market participants could adversely affect BNPP.</p> <p>BNPP may incur significant losses on its trading and investment activities due to market fluctuations and volatility.</p> <p>BNPP may generate lower revenues from brokerage and other commission and fee-based businesses during market downturns.</p> <p>Protracted market declines can reduce liquidity in the markets, making it harder to sell assets and possibly leading to material losses.</p>

Element	Title	
		<p>Laws and regulations adopted in response to the global financial crisis may materially impact BNPP and the financial and economic environment in which it operates.</p> <p>BNPP is subject to extensive and evolving regulatory regimes in the jurisdictions in which it operates.</p> <p>BNPP may incur substantial fines and other administrative and criminal penalties for non-compliance with applicable laws and regulations.</p> <p>There are risks related to the implementation of BNPP's strategic plan.</p> <p>BNPP may experience difficulties integrating acquired companies and may be unable to realise the benefits expected from its acquisitions.</p> <p>Intense competition by banking and non-banking operators could adversely affect BNPP's revenues and profitability.</p> <p>A substantial increase in new provisions or a shortfall in the level of previously recorded provisions could adversely affect BNPP's results of operations and financial condition.</p> <p>Notwithstanding BNPP's risk management policies, procedures and methods, it could still be exposed to unidentified or unanticipated risks, which could lead to material losses.</p> <p>BNPP's hedging strategies may not prevent losses.</p> <p>BNPP's competitive position could be harmed if its reputation is damaged.</p> <p>An interruption in or a breach of BNPP's information systems may result in material losses of client or customer information, damage to BNPP's reputation and lead to financial losses.</p> <p>Unforeseen external events may disrupt BNPP's operations and cause substantial losses and additional costs.</p> <p>The following risk factors relate to BNPP B.V.: BNPP B.V. is an operating company. BNPP B.V.'s sole business is the raising and borrowing of money by issuing securities such as notes, warrants or certificates or other obligations. BNPP B.V. has, and will have, no assets other than hedging agreements (OTC contracts mentioned in its annual reports), cash and fees payable to it, or other assets acquired by it, in each case in connection with the issue of securities or entry into other obligations related thereto from time to time. BNPP B.V. has a small equity and limited profit base. The net proceeds from each issue of securities issued by BNPP B.V. will become part of the general funds of BNPP B.V. BNPP B.V. uses such proceeds to hedge its market risk by acquiring hedging instruments from BNP Paribas and BNP Paribas entities and/or, in the case of secured securities, to acquire collateral assets. The ability of BNPP B.V. to meet its obligations under securities issued by it will depend on the receipt by it of payments under the relevant hedging agreements. Consequently, holders of BNPP B.V. securities will, subject to the provisions of the relevant guarantee issued by BNP Paribas, be exposed to the ability of BNP Paribas and BNP Paribas entities to perform their obligations under such hedging agreements.</p>

Element	Title	
		Securities sold in the United States or to U.S. Persons may be subject to transfer restrictions.
D.3	Key risks regarding the Securities	<p>There are certain factors which are material for the purposes of assessing the market risks associated with Securities issued under the Prospectus, including that the trading price of the Securities is affected by a number of factors including, but not limited to, the price of the Underlying Reference, time to redemption and volatility and such factors mean that the trading price of the Securities may be below the Cash Settlement Amount, exposure to the Underlying Reference in many cases will be achieved by the Issuer entering into hedging arrangements and potential investors are exposed to the performance of these hedging arrangements and events that may affect the hedging arrangements and consequently the occurrence of any of these events may affect the value of the Securities, the collateral associated with the Securities may be insufficient to remove a Holder's credit risk on the Issuer, the occurrence of an additional disruption event or optional additional disruption event may lead to an adjustment to the Securities, early redemption or may result in the amount payable on scheduled redemption being different from the amount expected to be paid at scheduled redemption and consequently the occurrence of an additional disruption event and/or optional additional disruption event may have an adverse effect on the value or liquidity of the Securities, expenses and taxation may be payable in respect of the Securities, the Securities may be redeemed in the case of illegality or impracticability and such redemption may result in an investor not realising a return on an investment in the Securities, the meetings of Holders provisions permit defined majorities to bind all Holders, any judicial decision or change to an administrative practice or change to French law after the date of the Prospectus could materially adversely impact the value of any Securities affected by it, a reduction in the rating, if any, accorded to outstanding debt securities of the Issuer or Guarantor by a credit rating agency could result in a reduction in the trading value of the Securities, the only means through which a Holder can realise value from the Security prior to its Redemption Date is to sell it at its then market price in an available secondary market and that there may be no secondary market for the Securities (which could mean that an investor has to wait until redemption of the Securities to realise a greater value than its trading value), an active secondary market may never be established or may be illiquid and this may adversely affect the value at which an investor may sell its Securities (investors may suffer a partial or total loss of the amount of their investment).</p> <p>In addition, there are specific risks in relation to Securities which are linked to an Underlying Reference and an investment in such Securities will entail significant risks not associated with an investment in a conventional debt security. Risk factors in relation to Underlying Reference linked Securities include: exposure to one or more commodity and/or commodity index, similar market risks to a direct commodity investment, market disruption and adjustment events which may have an adverse effect on the value or liquidity of the Securities, delays to the determination of the final level of a commodity index resulting in delays to the payment of the Cash Settlement Amount and that the Issuer will not provide post-issuance information in relation to the Underlying Reference.</p> <p>In certain circumstances Holders may lose the entire value of their investment.</p>

Element	Title	
D.6	Risk warning	<p>See Element D.3 above.</p> <p>In the event of the insolvency of the Issuer or if it is otherwise unable or unwilling to repay the Securities when repayment falls due, an investor may lose all or part of his investment in the Securities.</p> <p>If the Guarantor is unable or unwilling to meet its obligations under the Guarantee when due, an investor may lose all or part of his investment in the Securities.</p> <p>In addition, investors may lose all or part of their investment in the Securities as a result of the terms and conditions of the Securities.</p>

RISKS RELATING TO BNPP AND ITS INDUSTRY

See the Chapter 5 ("Risks and Capital Adequacy") of the BNPP 2014 Registration Document (as defined below), each of which is incorporated by reference in this Prospectus and which discloses all material risks relating to BNPP's ability to fulfil its obligations under the Securities to investors.

RISK FACTORS RELATING TO BNPP B.V.

BNPP B.V. is an operating company. BNPP B.V.'s sole business is the raising and borrowing of money by issuing securities such as notes, warrants or certificates or other obligations. BNPP B.V. has, and will have, no assets other than hedging agreements (OTC contracts mentioned in its annual reports), cash and fees payable to it, or other assets acquired by it, in each case in connection with the issue of securities or entry into other obligations related thereto from time to time. BNPP B.V. has a small equity and limited profit base. The net proceeds from each issue of securities issued by BNPP B.V. will become part of the general funds of BNPP B.V. BNPP B.V. uses such proceeds to hedge its market risk by acquiring hedging instruments from BNP Paribas and BNP Paribas entities and/or, in the case of secured securities, to acquire collateral assets. The ability of BNPP B.V. to meet its obligations under securities issued by it will depend on the receipt by it of payments under the relevant hedging agreements. Consequently, holders of BNPP B.V. securities will, subject to the provisions of the relevant guarantee issued by BNP Paribas, be exposed to the ability of BNP Paribas and BNP Paribas entities to perform their obligations under such hedging agreements

RISK FACTORS RELATING TO SECURITIES

See "*Risk Factors relating to Securities*" which are incorporated by reference on page 30 (*Documents incorporated by reference*).

Investors in Certificates should also appreciate that the Issuer and its affiliates may (i) engage in trading activities (including hedging activities) related to the Underlying Reference and its components (for the purpose of this paragraph only, the "**Underlying**") and other products based on or related to such Underlying for their own account or for other accounts under their management, (ii) issue other derivative products in respect of Underlying, (iii) act as underwriter in connection with future offerings of shares or other securities related to the Certificates or may act as a financial adviser or in a banking capacity to companies whose shares/securities are part of the Underlying. Such activities could present certain conflicts of interest, could influence the prices of such shares/securities in the Underlying and could adversely affect the value of such Certificates.

Lastly, unlike ordinary debt securities, the Certificates do not pay interest. The Certificates have been designed for investors who are willing to forgo market interest payments on the Certificates in exchange for the Cash Settlement Amount.

5. Legal and Arbitration Proceedings

Save as disclosed below and on pages 167 to 168 and 219 to 220 of the BNPP 2014 Registration Document, there have been no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which BNPP is aware), during the period covering at least the twelve (12) months prior to the date of this Prospectus which may have, or have had in the recent past, significant effects on BNPP and/or the Group's financial position or profitability.

CONTINGENT LIABILITIES: LEGAL PROCEEDINGS AND ARBITRATION: Legal action has been taken against several Algerian and international banks, including BNP Paribas El Djazair, a BNP Paribas SA subsidiary, for administrative errors in processing international trade financing applications. BNP Paribas El Djazair has been accused of non-compliance with foreign exchange regulations in seven cases before Algerian courts. BNP Paribas El Djazair was ordered by a lower court to pay fines of approximately EUR 200 million. Three of these cases were subsequently overturned on appeal, including the case involving the most significant amount (EUR 150 million). Two other appeals rulings have upheld fines totalling EUR 52 million. All of these rulings have been appealed before the Cassation Court, and execution has been suspended pending the outcome of these appeals pursuant to Algerian law. BNP Paribas El Djazair will continue to vigorously defend itself before the Algerian courts with a view to obtaining recognition of its good faith towards the authorities, which suffered no actual damage.

On 27 June 2008, the Republic of Iraq filed a lawsuit in New York against approximately 90 international companies that participated in the oil-for-food ("OFF") programme and against BNP Paribas as holder of the OFF account on behalf of the United Nations. The complaint alleged, notably, that the defendants conspired to defraud the OFF programme, thereby depriving the Iraqi people of more than USD 10 billion in food, medicine and other humanitarian goods. The complaint also contended that BNP Paribas breached purported fiduciary duties and contractual obligations created by the banking services agreement binding BNP Paribas and the United Nations. The complaint was pleaded under the US Racketeer Influenced and Corrupt Organisations Act ("RICO") which allows treble damages if damages are awarded. The defendants, including BNP Paribas, moved to dismiss the action in its entirety on a number of different legal grounds. On 6 February 2013, the complaint was dismissed by the United States District Court Southern District of New York (which means that the plaintiff does not have the opportunity to re-file an amended complaint). On 15 February 2013, the Republic of Iraq filed a notice of appeal before the United States Court of Appeals for the Second Circuit. In two decisions dated 19 September 2014, and 9 December 2014, respectively, the Court of Appeals affirmed the dismissal of the complaint filed by the Republic of Iraq.

BNPP and certain of its subsidiaries are defendants in several actions pending before the United States Bankruptcy Court Southern District of New York brought by the Trustee appointed for the liquidation of Bernard L. Madoff Investment Securities LLC ("BLMIS"). These actions, known generally as "clawback claims", are similar to those brought by the BLMIS Trustee against numerous institutions, and seek recovery of amounts allegedly received by the BNP Paribas entities from BLMIS or indirectly through BLMIS-related "feeder funds" in which BNP Paribas entities held interests. The BLMIS Trustee claims in these actions that the amounts which BNP Paribas entities received are avoidable and recoverable under the U.S. Bankruptcy Code and New York state law. In the aggregate, the amounts

sought to be recovered in these actions approximates USD 1.3 billion. BNP Paribas has substantial and credible defenses to these actions and is defending against them vigorously.

Various litigations and investigations are ongoing relating to the restructuring of the Fortis group, now Ageas, of which BNP Paribas Fortis is no longer part, and to events having occurred before BNP Paribas Fortis became part of the BNP Paribas Group. Among these are litigations brought by shareholder groups in The Netherlands and Belgium against Ageas and, among others, against BNP Paribas Fortis, in relation to its role as global coordinator of Fortis (now Ageas)'s capital increase in October 2007 to partly finance its acquisition of ABN Amro Bank N.V. Those groups of shareholders mainly allege that there has been a breach in the financial communication, as, inter alia, the disclosure regarding the exposure to subprime mortgages.

BNPP is vigorously defending itself in these proceedings. The Court of Appeal of Amsterdam upheld on 29 July 2014 the ruling of the Dutch Court of first instance that Ageas was liable for mismanagement in relation to its financial communication during the period in question. BNP Paribas Fortis is not a party to this case.

If these litigations and investigations were to be successful, they could eventually result in monetary consequences for BNP Paribas Fortis. Such impact is unquantifiable at this stage.

Regulatory and law enforcement authorities in multiple jurisdictions are conducting investigations or making inquiries of a number of financial institutions regarding trading on the foreign exchange markets, including, among other things, possible collusion among financial institutions to manipulate certain benchmark currency exchange rates. BNPP has to date received requests for information in this respect from regulatory and law enforcement authorities in the United Kingdom, the United States and several countries in the Asia-Pacific region as well as from the European Competition Commission. BNPP is cooperating with the investigations and inquiries and responding to the information requests. In November 2014 the Financial Conduct Authority in the United Kingdom and in December 2014 the Hong Kong Monetary Authority informed BNPP that they had discontinued their investigation as to BNP Paribas. Moreover BNPP is conducting its own internal review of foreign exchange trading. While this review is ongoing, BNPP is not in a position to foresee the outcome of these investigations and proceedings nor their potential impact.

BNPP, along with eleven other financial institutions, was named as a defendant in a consolidated civil action filed in March 2014 in the U.S. District Court for the Southern District of New York on behalf of a purported class of plaintiffs alleging manipulation of foreign exchange markets. The plaintiffs allege in particular that the defendants colluded to manipulate the WM/Reuters rate (WMR), thereby causing the putative classes to suffer losses in connection with WMR-based financial instruments. The plaintiffs assert U.S. federal and state antitrust claims and claims for unjust enrichment, and seek compensatory damages, treble damages where authorized by statute, restitution, and declaratory and injunctive relief. BNPP and its co-defendants have filed a motion to dismiss the consolidated complaint, which was denied on 28 January 2015 in respect of the class of U.S. plaintiffs but was granted in respect of the class of non-U.S. plaintiffs. BNPP is vigorously contesting the allegations in the lawsuit.

There have been no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which BNPP B.V. is aware) during a period covering 12 months prior to the date of this Prospectus which may have, or have had in the recent past significant effects on BNPP B.V.'s financial position or profitability.

Subject to the following paragraph, BNPP is not dependent upon other members of the BNPP Group.

In April 2004, BNP Paribas SA began outsourcing IT Infrastructure Management Services to the BNP Paribas Partners for Innovation (BP²I) joint venture set up with IBM France at the end of 2003. BP²I provides IT Infrastructure Management Services for BNP Paribas SA and several BNP Paribas subsidiaries in France (including BNP Paribas Personal Finance, BP2S, and BNP Paribas Cardif), Switzerland, and Italy. In mid- December 2011 BNP Paribas renewed its agreement with IBM France for a period lasting until end-2017. At the end of 2012, the parties entered into an agreement to gradually extend this arrangement to BNP Paribas Fortis as from 2013.

BP²I is under the operational control of IBM France. BNP Paribas has a strong influence over this entity, which is 50/50 owned with IBM France. The BNP Paribas staff made available to BP²I make up half of that entity's permanent staff, its buildings and processing centres are the property of the Group, and the governance in place provides BNP Paribas with the contractual right to monitor the entity and bring it back into the Group if necessary. ISFS, a fully-owned IBM subsidiary, handles IT Infrastructure Management for BNP Paribas Luxembourg. BancWest's data processing operations are outsourced to Fidelity Information Services. Cofinoga France's data processing is outsourced to SDDC, a fully-owned IBM subsidiary.
